Advertisements copy should reach us not later than Wednesday in order to insure its insertion in the issue of the current week.

SAURDAY, AUG. 17, 1901.

THE National divorce case gives rise to the question, What doth it profit a woman to smash all the "joins" in the country and lose her own home?

THE gold bars recently stolen from a California smelter have been recovered, but the "gold brick" and "green goods" market continues unaffected thereby.

ADMIRAL ROBLEY EVANS evidently preferred to take his chances on being censured by the War department rather than have his copy for "A Sailor's Log" censured.

THE Centerville, O., preacher who figures heaven's temperature at 82° is apt to find himself minus a congregation, in that his parishioners may thus become indifferent as to the heat of the other place.

THE annual "kick" against church bells is again on in Milwaukee. But, as usual, the "kickers" appear to have only one remedy to resort to—that of drowning out the aforesaid bells by ringing others, in which case everyone would of course be in favor of stopping the noise.

WITH Gov. Yates appointing an ex-convict to a state position in Illinois and United States Senator Deboe posting a Republican's widow as postmistress, the rank and file of the party in those states are apt to perceptibly swell the number of stay-at-home voters in future elections.

JUDGING from the high tribute which Minister Wulately paid to the beauty of American women, his regret at the difference in the formation of his orb relates mostly to his difficulty in making goo-goo eyes. At any rate, it evidently is high time for Wu's wife to return from her visit to China.

THE Chicago doctor who advertised for 400 dead bodies at \$50 apiece, now says that he evidently will obtain the full number within the 6-month time limit which he fixed. While the experiment proves that grave robbing is unnecessary, it also shows that some people would sell their souls if they could.

WHILE on his European tour, H. C. Payne of Milwaukee expressed surprise upon seeing Hungarian women working in rolling mills and in the fields, whereupon an Austrian replied: "It is better that they should be thus employed than working in sweatshops, as I understand they do in your country." In the language of a noted writer, "Oh, that we could see ourselves as others see us."

It is reported that the only woman who owned and operated a railroad in America lately died at Pensboro, Penn., where she was president, board of directors and general manager of a 10-mile narrow gauge line, whereon she sometimes ran an engine. This reminds one of the country journalist who ran a paper as editor, manager, reporter, printer, pressman, engineer and office-boy combined.

BOURKE COCKRAN was lately introduced to an English army officer in London, only to hear the latter say that he last saw Mr. Cockran "welcoming Bob delegates to Washington." However, this rebuff likely did not strike the noted New Yorker so hard as some experienced in this country by said army officer, Col. Arthur Lee, considering that he was the British military attaché at Washington when those Boers were welcomed.

J. R. KILLIAN, a lawyer of Walsenburg, Col., has notified the governor that the laws of said state are being violated by a rich Mexican named Juan Dios Montez, in that the latter has a little kingdom of his own and a harem of 40 beautiful Mexican girls. That attorney evidently has not yet heard Bob Schilling and like political orators discourse upon the life that the Sultan of Sulu leads, with the American flag waving over his principal straw-stack.

THE loss of a strike by any branch of the Amalgamated Association of Iron and Steel workers undoubtedly injures the organization as a whole, and so long as the various lodges do not unite upon one and the same time for signing agreements with employers, the latter are apt to be broken in order to prevent one lodge from working to the defeat of another. But the breaking of an agreement by any body of organized workmen is in itself as injurious to the whole union movement as the loss of a strike. Hence, President Gompers of the American Federation of Labor has well said that "when a union enters into an agreement with an employer, its terms should be faithfully kept, regardless of temptations to break it."

PURITY AND HEALTHFULNESS prevail in Lithia beer. If you are weak or nervous it is due to lack of nourishment in your blood. Your body can not become strong if your blood is not healthy. Lithia beer gives the blood the proper nourishment. We, who know brewing, know the value of purity. You, who drink pure Lithia beer, get the value of its healthfulness. Ask your doctor, he knows it.

LOST ON NIAGARA.

Two Men Take The Frightful Plunge To Death Over The Falls.

Glorious day. Water smooth and inviting. Tempting boat. Two strong, fearless men. Below rapids and terrible cataracl. Causes in brief of a recent awful tragedy of the falls where so many have met a terrible doom. We say these men were foolhardy to so daily with danger. But it's a way men have. In the matter of health, they neglect what they consider little ailments, until they are in the grip of a fatal malady. Multitudes are being borne down to death on the swift, fatal current of disease who might catch a saving life line in Dr. King's New Discovery for Consumption. Thousands have grasped it and been saved. That little cough is the first ripple of the rapids. Cure it with this world-famous remedy and get out of the current. If being borne down with throat, chest or lung trouble try this marvelous medicine. Wm. H. Mullen, of Lockland, O., is one of many whose lives have been saved by it. For many months he suffered untold misery with a severe lung trouble; was finally given up by six doctors. Then a friend induced him to try Dr. King's New Discovery. One bottle gave him great relief and five bottles made him as well as ever. It's the world's greatest cure for Consumption, Coughs, Colds, Asthma, Bronchitis, Hay Fever, Pneumonia, Croup, Whooping Cough, and all bronchial troubles. Price 50c and \$1.00. Money back if not cured. A trial bottle free. At all druggists.

POINTED PARAGRAPHS. When you talk louder than the other fellow it's a sign that you're wrong and he's right. One of life's peculiarities is that the world is seldom watching a man when he is doing good. The man who is in love is never totally depraved—unless all his love is bestowed upon liquor. If, in proportion to his size, a man had muscles like a flea, he could kick a book agent seven miles. Green and red go well together. Give a man plenty of greenbacks and he can paint the town a deep red.

After the convention Mr. Armg will visit relatives in different parts of Minnesota, and consequently expects to be gone about 10 days.

The school picnic held by the Ev. Peace congregation at the Southside park Sunday was a success. The festivities commenced at 11 a. m., when the children formed a procession with the Kewaskum brass band in the lead and marched to the park, where dinner was served. The attendance was large during the afternoon, when a band concert and park pastimes were highly enjoyed by all.

A late report from Madison says that the hunting season did not open on the 15th inst., as we erroneously stated last week, but that the season will open on Sept. 1, as usual. The report further states that no Mongolian, Chinese or English pheasants or quail of any variety can be legally taken until two years from the 1st of next month. Persons desiring copies of the new fish and game law may secure them by writing to Warden Overback, Madison, Wis.

Fond du Lac's Big Carnival Events will occupy forenoons, afternoons and evenings, Aug. 27, 28, 29 and 30. There will be a street fair, a carnival with its parades and other spectacular features, a Midway Plaisance, and horse racing galore. Reduced rates on all railroads will make this a most opportune time to visit Fond du Lac and see its splendid improvements, besides the carnival.

Hard and soft coal for sale at Nic. Marx's, Kewaskum.

Dr. E. J. Orvis of Oakfield, who practiced at Campbellsport up to about 4 years ago, recently left home very suddenly and no trace of him has since been found. On the 3d inst. he visited at Campbellsport, from whence he went to Milwaukee to see Gilbert L. Head, who has charge of a department of Gimbel's store, and in whose company he spent most of the time between the 3d and 5th. He also called on the law firm of Roemer & Aarons, in the Old Insurance building to have a power of attorney drawn to cover all of his property. The latter paper was to give Dr. J. W. Burns authority to dispose of all Orvis' personal property, accounts, etc. Mr. Head says: "After his return from the lawyer's office, he asked me to accompany him to the First National bank in order to cash a draft. To save time I told him we could accommodate him at the office, and the draft for \$400 was cashed. He had this amount with him when he left, as I supposed, to take the train for home. A few days later his wife called and she appeared to be much affected by his disappearance, but could give no reasons for it." The missing doctor has 2 children by his first wife and is guardian for his son by his first wife, as well as custodian of a fund of \$11,000 left by his mother at her death. His businessmen naturally are somewhat alarmed at his absence, but it is thought that domestic rather than financial affairs are at the bottom of the trouble.

The doctor always stood high in this community, both as a physician and a gentleman. Kewaskum Mutual Fire Ins. Co. The board of directors of our newly organized fire insurance company met at the L. Rosenheimer office Tuesday evening, for the purpose of electing officers, etc. The following officers were elected, viz: Adolph Rosenheimer, president; A. G. Koch, vice-president; Joseph Schmidt, secretary; Peter Klumb of West Bend, treasurer; H. Ogenforth of West Bend, general agent; John W. Gehl of Hartford special agent. Besides those whom we mentioned last week, the following have been chosen as directors, viz: Dr. H. Blank, Jackson; J. W. Gehl, Hartford; John Rosenheimer, Schlesinger; P. Klumb and H. Ogenforth, West Bend.

The secretary was ordered to receive bids for furnishing the stationery and books needed. The treasurer's bond was fixed at \$5,000, and the secretary's at \$500, while the latter is to receive \$50 for his services up to the annual meeting next January. Agents' commissions are to be 15 per cent., while the general and special agents receive \$2 per day extra for inspecting risks. A Peculiar Accident. Last Monday, while Bath Bros. were moving their threshing outfit from Neubauer's to Joseph Haug's place, one of the crew crawled into the blower to avoid the hot rays of the sun. The schemer, John Rodenkirch, had just congratulated himself upon his plan when the machine ascended a hill and sent him down the smooth blower to the fan. He holled for help, but the noise of the moving outfit drowned his cries. Fortunately, however, the crew decided to stop for water at Frank Foote's place, where the boy was heard faintly crying for deliverance. With great difficulty the men rescued him, and none too soon to save his life.

John Hauschild, who lives 1 1/2 mile northeast of here, was taken with a fit of insanity last Saturday, and concluded to drown himself in the river near his place. However, before reaching the water, he changed his mind and decided to starve himself to death in the woods. A threshing crew was notified of the man's actions and immediately instituted a search, which lasted from 7 a. m. till 3 p. m., when they found Mr. Hauschild's jacket hanging on a tree at the river bank. This led to the belief that he had drowned himself, but suddenly they found him in the thickest of the woods. He acted very strange and at first stubbornly refused to go home, but was finally persuaded to do so. Two men kept watch over him till Monday, when he seemed to be all right, and has continued so since. In cases of cough or croup give the little One Minute Cough Cure. Then rest easy and have no fear.
