WATERSON WON'T HAVE IT.
Declares He Will Not Be Candidate for Governor of Kentucky.

Louisville, Ky., Aug. 14.—Henry Waterston, who has been spoken of as a Democratic candidate for governor of Kentucky and for President of the United States, caused a sensation in the political circles of the state by addressing a letter to the Democrats of the state in which he said he would not be a candidate for the governorship. He declared that he has always stood for honesty in politics and that he would not be a candidate. He says he had never handled a United States dollar in his life and would not touch a cent of money, but he is a standard believer in a clear field for Gov. Peckham, Mr. Waterston having been regarded as his strongest opponent.

South Wing of Main Building of Iowa State College of Agriculture Burned.
Des Moines, Ia., Aug. 14.—The south wing of the main building of the Iowa State College of Agriculture and Mechanical Arts at Ames was destroyed by fire at 4 o'clock this morning. The north wing of this building was destroyed by a similar fire in December, 1900. The portion which was burned was condemned by the state fire marshal and was to have been torn down to make room for a new building provided for by the last general assembly.

Quebec Judge Finds Flaws in Indictments and Americans Charged with Swindling are Released.
Quebec, B. C., Aug. 14.—Judge Gagnon and Capt. B. D. Coe, John F. Gagnon and others, who were charged with swindling the government out of millions in harbor work at Savannah, Ga., have been set free as the result of habeas corpus proceedings. Judge Gagnon gave the decision in the superior court, holding that there were flaws in the original indictments and discrepancies between them and the application for the extradition of the two men.

THE Commissioner General of Immigration has instructed his officers to treat citizens of Porto Rico and the Philippines precisely as they would other foreigners when presenting themselves for entry into the country. They must pay head tax, and be examined to see if they should be excluded or admitted.

OCTOBER 1 is the date fixed for the formal opening and dedication of the Washington Public Library, better known as the Carnegie Library. This gift from Mr. Carnegie, as is well known, is for the benefit of every citizen of the United States, and the greatest of earthly gifts, who repudiates the title of philanthropist, will be present at the dedication.

THE Agricultural Department has received the gratifying information that the largest tree in the world stands upon Government property in the Sierra Nevada Mountains. It was measured six feet from the ground and found to be 154 feet 8 inches in circumference, and, consequently 51 feet in diameter. It was discovered by a party of hunters recently, and immediate steps will be taken to see that its life is spared.

THE building operations of the country during the last year involved an expenditure of \$8,000,000,000, a gain of one billion over those of the year previous. The value of clay products, mostly brick and tile, were \$110,211,587, a gain of \$13,999,242 over the year 1900. The gain and increase in the brick industry is unprecedented, there having been a billion more made in 1901 than in 1900, whilst the price advanced from \$5.41 to \$5.66 per thousand.

It is reported that desertions have occurred from the U. S. S. Mayflower, recently used as the President's yacht, on account of bad food, etc., but the Navy Department authorize the following statement: "No desertions have occurred from the Mayflower, but other ships are not so fortunate. Men have deserted, and the number has steadily grown, and the department has gone into the interior to get recruits. The department is doing everything in its power to make the service attractive; is providing additional ratings and increased pay, and a new and palatable ration has been supplied."

His Sight Threatened.
"While picnicking last month my 11-year-old boy was poisoned by some weed or plant," says W. H. Dibble, of Stony City, Ia. "He rubbed the poison off his hands into his eyes and for awhile we were afraid he would lose his sight. Finally a neighbor recommended DeWitt's Witch Hazel Salve. The first application helped him and in a few days he was as well as ever." For skin diseases, cuts, burns, scalds, wounds, insect bites, DeWitt's Witch Hazel Salve is sure cure. Relieves piles at once. Beware of counterfeits. All druggists.

Double Track Railway Across the Plains.
The Chicago & North-Western is distributing a special edition of an article which appears in the Review of Reviews for July, entitled "From Prairie Schooner to Overland Limited." The article referred to is well illustrated and deals with the wonderful development and growth of the Chicago & North-Western Railway System.

In 1848, the first shipment of wheat to Chicago was brought to that city over what is now a part of the North-Western Line; the road at that time was ten miles long; the west as we now know it, was practically unknown, and Chicago was little more than a village. It will pay anyone who is interested in American development to send stamp to W. B. Kniskern, G. P. & T. A., Chicago, Ill., for this remarkable pamphlet.

It Needs a Tonic.
There are times when your liver needs a tonic. Don't give purgatives that gripe and weaken. DeWitt's Little Early Risers expel all poison from the system and act as tonic to the liver. W. Scott, 531 Highland Ave., Milton, Pa., says: "I have carried DeWitt's Little Early Risers with me for several years and would not be without them." Small and easy to take. Purely vegetable. They never gripe or distress. All druggists.

My Hair
"I had a very severe sickness that took off all my hair. I purchased a bottle of Ayer's Hair Vigor and it brought all my hair back again."
W. D. Quinn, Marseilles, Ill.
One thing is certain,—Ayer's Hair Vigor makes the hair grow. This is because it is a hair food. It feeds the hair and the hair grows, that's all there is to it. It stops falling of the hair, too, and always restores color to gray hair.
\$1.00 a bottle. All druggists.
If your druggist cannot supply you, send us one dollar and we will express you a bottle. Be sure and give the name of your nearest express office. Address, J. C. AYER CO., Lowell, Mass.

Will be Voted on Next November.
Two proposed amendments to the constitution of Wisconsin will come before the voters for approval or rejection at the general election next November. One of them is the anti-pass amendment, prohibiting political officeholders and candidates for political offices from the receipt of free passes on railroads, and providing that the forfeiture of office shall be the penalty for infraction of the prohibition. The other proposed amendment upon which voters will be called to pass judgment will, if it receives a majority of votes, give the legislature the power to enact a general law for the creation of banks and the regulation of supervision of the banking business, provided that the votes of two-thirds of all the members elected to each house be in favor of such a law. Under the constitutional provision at present in force no banking law can become operative without having secured the approval of the voters at a state election.

A novel mode of collecting bad debts in England is to hire a chaise painted in flaming red letters "Collector's Chaise," in which the collector makes his daily rounds to the domiciles of slow-paying debtors. In very obstinate cases, and when the debtor lives in a fashionable house, this chaise, with its glaring label, is kept standing in front of the premises several hours a day.
Went to Visit His Sister.
A. J. Cottingham went to Washington County, Ark., to see his sister and while there was taken with flux (dysentery) and was very bad off. He decided to try Chamberlain's Colic, Cholera and Diarrhoea Remedy and was so much pleased with the prompt cure which it effected, that he wrote the manufacturer a letter in praise of their medicine. Mr. Cottingham resides at Lockland, Ark. This remedy is for sale by L. Rosenheimer.

In Santa Clara, Cal., there is a church constructed from the wood of a single oak tree. The building is 30 feet wide and 70 feet deep, yet when its construction was completed, 1,200 feet of lumber remained unused.
A Necessary Precaution
Don't neglect a cold. It is worse than unpleasant. It is dangerous. By using One Minute Cough Cure you can cure it at once. Allays inflammation, clears the head, soothes and strengthens the mucous membrane. Cures coughs, croup, throat and lung troubles. Absolutely safe. Acts immediately. Children like it. All druggists.
The smallest engine ever made has been completed. It is a horizontal engine, and can stand on a 10-cent piece. One has to look through a microscope to see plainly its various parts. It runs as accurately as the best engine ever built. It is made of gold, silver, copper and steel.
Henry L. Shattuck, of Shellsburg, Iowa, was cured of a stomach trouble which he had been afflicted for years, by four boxes of Chamberlain's Stomach and Liver Tablets. He had previously tried many other remedies and a number of physicians without relief. For sale by L. Rosenheimer.

A fair impression of existing conditions in Boston is to be gained from the fact that it has now 985 licensed drinking places and 1,970 licensed beereries, or two beereries to every drinkery. And yet Boston is objecting to the advanced price of meat.

Stapleton, of Granville, is now employed in his place. Mrs. Frances E. Frisby, aged 67 years, widow of the late Judge Leander F. Frisby, died last Sunday at the home of her daughter, Dr. Almah J. Frisby, 505 Cass street, Milwaukee. Deceased is well known in this county having lived at West Bend for many years. The Wisconsin State Fair is rapidly growing in the extent and importance of its exhibits. All departments will be larger and better than ever. More first-class race horses are already secured for the coming fall than ever before in its history. Trotting, pacing and running races daily, Sept. 9-12. Half rates on all railroads. The excursion from Milwaukee, held by the Woodmen of the World, last Sunday, was a success in spite of the rainy weather during the forenoon. The excursion train arrived at about 11 a. m., with four coaches well filled with Cream City passengers. The attendance at the North Side Park during the afternoon was not so large as usual on such occasions, but the ball in the evening was very largely attended. If it wasn't popular, if it wasn't loved by the people, why do dealers say? "We have something just as good as the Madison Medicine Co's. Rocky Mountain Tea." Think it over. 35 cents. Miller & Son.

WAYNE WAFFINS. R. McCullough Jr., spent the 10th at home. E. V. Clark is working for Conrad Haerbel. Mrs. P. J. Kenney is visiting friends in Aberdeen, S. D. Thos. Burns was on the sick list one day last week. Petri Bros., are receiving an immense lot of apples now days. Quite a number from here took in the excursion at Kewaskum Sunday. Phil. Eckel, son and daughter spent Monday with relatives at St. Anthony. Miss Mary Agnes and Mr. Eugene attended the excursion at Kewaskum last Sunday. Veterinary Surgeon Rudolph, of Kewaskum, made a professional call here Monday. Henry Schneider, of Kewaskum, passed through here Tuesday enroute to Kohlsville. Henry Petri and wife, of Milwaukee, called on relatives here for a few days this week. William Clark has returned to Milwaukee, after spending a couple of months at home. Mrs. Henry Schmidt and daughter, Mrs. F. Becker, called on friends at Knowles Monday. Annie Klockenbusch, of St. Kilian, was the guest of Phil. Eckel and family for a few days this week. Quite a number of sportsmen have already taken out their hunters license here for the season. The infant son of J. B. Murphy was christened last Sunday, August 10th, and received the name of William. Jacob Batzler and crew of men are busy at work threshing with his new outfit which he purchased this season. Rev. Lienkaemper and family and Miss Brandt enjoyed a fishing expedition to Schrauth's pond last Tuesday. Mrs. Fredrick and son Allie, returned to their home in Milwaukee, after spending a month with her mother, Mrs. Leonard, here. John and Sam Hawig received some repairs from the Remmel machine shop at Kewaskum Wednesday for their machine, which will be in operation shortly. WISCONSIN'S SPORTSMEN'S SHOW. A great Sportsman's Show will be held in the Exposition Building at Milwaukee, from September 6th to 27th, 1902, inclusive. This show will be held under the auspices of the Milwaukee Industrial Exposition Association, the directors of which decided this year to make a display that would appeal particularly to lovers of outdoor life, and which would at the same time serve to make better known the attractions of Wisconsin as a field for sport and recreation. Coming as it does at the opening of the season for field sports in Wisconsin, many sportsmen from other sections who visit the Northwest every autumn to hunt prairie chickens and partridge will doubtless lay their plans so that they can visit the Milwaukee Show. The date is, at the same time, far enough in advance of the deer hunting season to enable manufacturers to make a good impression on those who are planning to buy new outfits for the November shooting season in the north woods. All in all, the season is the best for a sportsman's show in this region, that could possibly have been selected. In addition to the Sportsman's Show the management has concluded to add another class of goods which enter into every hunting and camping outfit, viz: Pure Food Products—All of the tinned meats, vegetables, etc., cereals, chocolate and malt beverages that enter into the outfit of a hunting or camping party will be shown in great variety. Every man, woman and child will find more things to interest him in the great Exposition building than were ever shown there before. The art galleries will as usual contain a splendid collection of pictures. All railroad lines in Wisconsin grant excursion rates of a fare and a third to Milwaukee and return on three days of each week during the season of the show. Admission to the show 25 cents. Season ticket \$2.00. CATTLE DIE BY POISON. George Kock, of the town of West Bend, lost four head of cattle suddenly last Monday and two others were quite sick at the time the report was brought to West Bend. Just what killed the cows was at first a mystery to Mr. Kock, but after a thorough examination of the patch where the cattle had been accustomed to graze, a quantity of paris green was found to have been spread in dry form. Dr. E. Boesewetter, who also made an examination of the premises and who examined the cattle, is positive that it was paris green that did the work, on some of the stock the poison being visible on their mouths. Mr. Kock has not used paris green for a long time and especially none where the cattle got it, and he is fully convinced that some person spread it for the purpose which it accomplished. A stick with which the poison was spread was found yesterday and this proves Mr. Kock's theory beyond a doubt. The owner of the stock will use all means to ferret out the guilty party and his neighbors will do all in their power to assist him. No punishment can be too severe for a man who will so far forget himself as to vent his spleen on poor dumb animals.—Pilot. To My Friends. It is with joy I tell you what Kodol did for me. I was troubled with my stomach for several months. Upon being advised to use Kodol, I did so, and words cannot tell the good it has done me. A neighbor had dyspepsia so that he had tried most everything. I told him to use Kodol. Words of gratitude have come to me from him because I recommended it.—Geo. W. Fry, Viola, Ia. Health and strength, of mind and body, depend on the stomach, and normal activity of the digestive organs. Kodol, the great reconstructive tonic, cures all stomach and bowel troubles, indigestion, dyspepsia. Kodol digests any good food you eat. Take a dose after meals. All druggists.

Articles of incorporation were filed in the Secretary of State's office at Madison last Monday to incorporate the Dundee Water Power and Electric Light Company, with a capital stock of \$25,000, divided into 250 shares of \$100 each; the incorporators are Leo, C. Arimond, of Dundee, A. E. Richter, of Fond du Lac, and Mary Arimond, of this place. There was quite a little excitement here last Tuesday evening when a small shed in the rear of Hy. Spoerl's blacksmith shop, in which gasoline was kept, burned. Mr. Spoerl went into the shed with a lighted lantern at about 9 p. m., and drew out some oil from a tank, when the gasoline caught from the light and in a second all was ablaze. Spoerl's clothes caught fire but he saved himself from being seriously burned by jumping into a tank of water standing nearby. The shed burned to the ground and it looked for awhile as though the flames would spread to the adjoining buildings, but a bucket brigade kept the fire in check before any more damage was done. Mrs. Laura S. Webb, Vice-President Woman's Democratic Club of Northern Ohio. "I dreaded the change of life which was fast approaching. I noticed Wine of Cardui, and decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax." Female weakness, disordered menses, falling of the womb, and ovarian troubles do not wear off. They follow a woman to the change of life. Do not wait but take Wine of Cardui now and avoid the trouble. Wine of Cardui never fails to benefit a suffering woman of any age. Wine of Cardui relieved Mrs. Webb when she was in danger. When you come to the change of life Mrs. Webb's letter will mean more to you than it does now. But you may now avoid the suffering she endured. Druggists sell \$1 bottles of Wine of Cardui. A YOUNG LADY'S LIFE SAVED. At Panama, Colombia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy. Dr. Chas. Utter, a prominent physician of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by L. Rosenheimer. Mrs. Ecks Stevenson of Salt Lake City Tells How Operations For Ovarian Troubles May Be Avoided.

"DEAR MRS. PINKHAM—I suffered with inflammation of the ovaries and womb for over six years, enduring aches and pains which none can dream of but those who have had the same experience. I was told to go to the doctor and the druggist. I was simply a walking medicine chest and a physical wreck. My sister residing in Ohio wrote me that she had been cured of womb trouble by using Lydia E. Pinkham's Vegetable Compound, and advised me to try it. I then discontinued all other medicine and gave your Vegetable Compound a thorough trial. Within four weeks nearly all pain had left me; I rarely had headaches, and my nervous system was in a much better condition, and I was cured in three months, and this avoided a terrible surgical operation."—Mrs. Ecks Stevenson, 420 So. Touring on the Cheap. A tourist agent has just had me the following story, which, he says, acquires a peculiar interest by being true. A quiet-looking American entered a hotel last week and asked him to "fix up a nice cheap tour" through Europe—Paris, Lyons, Florence, Rome, Venice and Milan. He was wished to be included. It was found that at the lowest rates the journey would cost about \$100. "Stop right there," said the tourist, "we'll have to drop a place or two. I had calculated to do the show on \$100. Now you cannot do a very extensive tour through Europe on \$100, and the tourist was reduced at last to a trip to Lucerne.

AUSTRALIA'S DROUGHT.

No Copious Rain Since 1894, Sheep Dead, Settlers Ruined.

Apart from the general enagement of forces in the tariff struggle, a contest is now going on over the duties on cereals and fodder. In consequence of the terrible desolation caused by the continuance of the drought, powerful agitation has sprung up for the suspension of these duties. The government is on the horns of a dilemma. If it adds to the pastoralists' alienation, the farmers and graziers into the hands of speculators in grain and cattle food. If it refuses, and the drought does not break, a miniature revolution may occur in the interior. It will probably either make a money grant to the distressed districts or allow rebates to those in the line of starving cattle. The average Englishman can scarcely realize the horrors of the drought in this great country—quarters of whose surface is always barren and hateful to the human race.

The mind first take in a few grain facts, viz: (1) That the drought has since 1894 killed 30,000,000 sheep in Queensland and New South Wales; (2) that with brief spells of rain the drought has lasted in Central and North Australia for seven or eight months; (3) that 170 inch less rain has fallen in the last year, and that the number of settlers are absolutely ruined and the number of those who are starving before them. Then, let the imagination itself and try to conceive what a state of things would be less plains whitened with the skeletons of dead sheep. Let the Londoner see a walking dead man, a man with a haggard, dry-skinned, hollow-eyed settler, with a dirty wide-awake hat and dull, sunken eyes, and you will see the man who the drought means to his Australia. The drought means to his Australia the same thing that it means to the step soldier in the London Chronicle.

FISH-SCALE FLOWERS. An Old South American Industry Introduced Here. Domestic industries travel in a manner that often astonishes the careful student of the things of the world. Northern Brazil has from time immemorial been skillful makers of fish-scale flowers. The fish-scale flowers of the ocean in the tropics are notable for the color and brilliancy of their scales, which are singularly durable and permanent. The industry passed to the United States, where it was adopted by the capitalists and during the war of the rebellion in New York City.

What a Good Name Does. Chicago, Ill., Aug. 11th.—Mr. Vahlberg, of 222 South Peoria St., this city, had for years been an invalid with a chronic kidney disease, which was fast hastening him up and down the stairs. The doctors gave him up and his friends and neighbors all declared he could not live.

Where Are These Pennies? Somewhere in the world there are 119,000,000 copper pennies, but nobody appears to know where they are. Proceedings for high treason have been instituted by the German authorities against a number of Polish school girls in Gnesen, none of whom is over 16.

My sister residing in Ohio wrote me that she had been cured of womb trouble by using Lydia E. Pinkham's Vegetable Compound, and advised me to try it. I then discontinued all other medicine and gave your Vegetable Compound a thorough trial. Within four weeks nearly all pain had left me; I rarely had headaches, and my nervous system was in a much better condition, and I was cured in three months, and this avoided a terrible surgical operation."—Mrs. Ecks Stevenson, 420 So. CANDY CATARRH BEST FOR THE BOWELS. Beware of the dealer who tries to sell "something just as good."

Why Not a Rose Cure? "I wonder," remarked an invalid recently, "that the medicinal effects of perfumes have never been investigated. Doctors send their patients to breathe the balsam scented air of the pine trees. I have never seen a perfume of certain odoriferous shrubs is investigated and that some sickly vegetable perfume is used. I submit this idea to the profession and suggest that they experiment upon it."—New York Tribune.

Touring on the Cheap. A tourist agent has just had me the following story, which, he says, acquires a peculiar interest by being true. A quiet-looking American entered a hotel last week and asked him to "fix up a nice cheap tour" through Europe—Paris, Lyons, Florence, Rome, Venice and Milan. He was wished to be included. It was found that at the lowest rates the journey would cost about \$100. "Stop right there," said the tourist, "we'll have to drop a place or two. I had calculated to do the show on \$100. Now you cannot do a very extensive tour through Europe on \$100, and the tourist was reduced at last to a trip to Lucerne.

Seashore Sand Cure. The chief peculiarity of Berea, a watering place in the Somme department of France, is the value of its seashore sand for curative purposes of spinal and other diseases, principally in the case of children, the children being buried up to their necks in a mound of sand with a tricolor flag on the top—Travel.

FOND DU LAC HAPPENINGS.

Dowie Missionaries at Work.

Fond du Lac, Wis., Aug. 11.—[Special.]—Dowie missionaries, Rev. James H. Dowie, Misses Elizabeth Rogge, Daisy K. Willcox and Ethel Berrier, disciples of Dowie, have come to this city to work in the interest of Dowieism. They came from Fond du Lac directly from Chicago. They have been told that they have not been fully received here, but they are determined to stay here until they can be received. They are now in the city, and are working in the interest of Dowieism. They are now in the city, and are working in the interest of Dowieism.

A Chinese Restaurant. Sam Wing, an enterprising and progressive Chinese laundry on Main street, states that he is thinking seriously of opening a Chinese restaurant. He has a brother in St. Paul who has operated a chop suey house for some time, and he is very much interested in the project. He is now in the city, and is working in the interest of Dowieism.

Picture of Wreck. Attorney J. A. Williams has received from Mr. James H. Dowie a large photograph of the wreck of the Christian Endeavor excursion steamer, which was wrecked on the Fox River. Mr. Williams had one arm very badly injured and it was with difficulty that he was able to hold the picture. It would not be necessary to amplify it.

Electric Light and Eyesight. Contrary to the general opinion, electric light plays a large part in the eyesight than any other form of artificial light. Such, at least, is the decision of the Free Press, which has been made in the fact that disease and blindness of the eye are proportioned to the amount of electric light used. It is found that the lids close in a minute with gaslight, 2.2 times with sunlight, and 1.8 times with electric light. Five Deaths in a Year. Two Rivers Family is Almost Wiped Out in Short Time. A remarkable fatality has been visited upon the Stout family within the past year. About a year ago Peter Stout, the son, died, which was followed a short time later by the demise of his sister, George Naethel. Then Mrs. John Stout passed away and shortly after the two twin babies of the late Peter Stout also succumbed. And now at last Peter Stout has died, making five deaths within almost a year.

DEATH OF R. L. SMITH.

Prominent Citizen of Appleton Passes Away.

Appleton, Wis., Aug. 12.—[Special.]—August Leard Smith, one of the oldest and most highly respected citizens of this city, died at his home at 6:30 o'clock this morning, death being the result of a severe attack of jaundice, superinduced by the infirmities of an advanced age, and the result of an exposure to cold received two weeks ago, while on a pleasure trip on Lake Winnebago.

Ill But Two Weeks. Mr. Smith was 63 years of age, having been born at Middletown, Conn., in the year 1828. He is survived by two sons, Frank Taylor Smith, a prominent attorney of Milwaukee, and August Leard Smith, Jr., president of the National Paper Company of Madison, Wis. The deceased had been afflicted with the business and industrial development of Wisconsin University and was also a Regent.

PELVIC CATARRH

Causes Palpitation of the Heart, Cold Hands and Feet, Sinking Feelings—Pe-ru-na Cures Catarrh Wherever Located.

One woman has dyspepsia, another bronchitis, another Bright's disease, another liver complaint, another neuralgia, another sciatica. These women would be very much surprised to hear that they are all suffering with chronic catarrh. But it is so, nevertheless. Each one of these troubles and a great many more are simply catarrh—that is, chronic inflammation of the mucous lining of whichever organ is affected. Any internal remedy that will cure catarrh in one location will cure it in any other. This is why Peruna has become so justly famous in the cure of female diseases. It cures catarrh wherever located. Its cure remains. Peruna does not palliate—it cures.

Mrs. X. Schneider. After taking several remedies without result I began in January, 1901, to take your valuable remedy, Peruna. I was a complete wreck, palpitation of the heart, cold hands and feet, female weakness, no appetite, trembling, sinking feeling nearly all the time. You said I was suffering with systemic catarrh, and believe that I received your help in the nick of time. I followed your directions carefully and can say today that I am well again. I cannot thank you enough for my cure. I will always be your debtor. I have already recommended Peruna to my friends and neighbors, and am sure that they wish that all suffering women would try it. I testify this according to the truth.—Mrs. X. Schneider.
