Bronchitis. I have kept Ayer's Cherry Pectoral in my house for a great many years. It is the best medicine in the world for coughs and colds. J. C. Williams, Attica, N. Y. Use it also for bronchitis, consumption, hard colds, and for coughs of all kinds.

Subscription Laws. Many readers have from time to time requested information concerning newspaper subscription laws. Seven have been compiled from decisions of the United States court, and embody points that both many newspaper publishers. The seven are: 1. Subscribers who do not give express notice to the contrary are considered as wishing to renew their subscriptions. 2. If subscribers order the discontinuance of their periodicals, the publishers may continue to send them until all arrearages are paid. 3. If subscribers neglect or refuse to take their periodicals from the post office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued. 4. If subscribers move to other places without informing the publisher, and the papers are sent to the former address, they are held responsible. 5. The courts have decided that refusing to take periodicals from the office of the publisher and leaving uncollected, is prima facie evidence of intentional fraud. 6. If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it, otherwise the publisher is authorized to send it and the subscriber is responsible until an express notice, with payment of all arrearages is sent to the publisher. 7. The latest postal laws are such that newspaper publishers can arrest anyone for fraud who takes a paper and refuses to pay for it. Under the law the man who lets his subscription run along for some time unpaid and then orders it discontinued or orders the publishers, leaves himself liable to arrest and fine, the same as for theft. It will be seen that many disputed points are disposed of by these decisions, which are certainly only just. If a subscriber doesn't want to renew his subscription, let him notify the publisher. The second decision given here will be a surprise to some publishers, who believe they must stop a delinquent subscriber's paper if ordered to. The delinquent must pay up if he wishes to discontinue his subscription. Otherwise he is held responsible for it as long as the paper is sent to him, whether he takes it from the postoffice or not—Newspaperman.
