The young couple will reside on a farm two miles south of here. They have our best wishes for a bright and happy future.

Catarth of the Stomach.
When the stomach is overloaded when food is taken into it that fails to digest, it decays and inflames the mucous membrane, exposing the nerves and causes the glands to secrete mucus instead of the natural juices of digestion. This is called catarth of the stomach. For years I suffered with Catarth of the Stomach, caused by indigestion. Doctors and medicines failed to benefit me until I used Kodol Dyspepsia Cure—J. R. Rhea, Coppell, Tex. Sold by all druggists.

Dark Hair

"I have used Ayer's Hair Vigor for a great many years, and although I am past eighty years of age, yet I have not a gray hair in my head."
Geo. Yellott, Townson, Md.
We mean all that rich, dark color your hair used to have. If it's gray now, no matter; for Ayer's Hair Vigor always restores color to gray hair. Sometimes it makes the hair grow very heavy and long; and it stops falling of the hair, it stops.

Weekly Crop Bulletin.
(For the week ending Monday, June 29.)
The increased warmth and sunshine during the past few days has caused a decided improvement in the condition of crops generally.

Corn has improved, but the crop as a whole is at the present time in a decidedly unpromising condition, except in a few localities which escaped the frost and have been favored with opportunity showers. The fields are clear of weeds and on up-land the plants generally present a healthy appearance. With sufficient warmth and moisture during July and August there is yet time to make a fair crop.

The effect of the frost, especially in the Wisconsin Valley, has proven to be very disastrous to rye. Nearly all reports from that section indicate that more or less damage occurred and in a few localities the crop is practically a total loss. Elsewhere the crop is good and heading out well. Winter wheat has ripened rapidly during the past few days and will be ready to cut next week. The crop is satisfactory.

Generally spring grains are in a satisfactory condition, and while rain is needed to bring them to maturity, no damage from drought is reported, except in a few localities in the northern counties.

The warm weather during the latter part of the week improved the condition of potatoes materially, but rain is needed for rapid growth. Potatoes were injured by the frosts have generally come forward and are now in healthy condition. Potato bugs are numerous in some sections and doing considerable damage.

A large acreage of clover was cut during the week and much secured in excellent condition. This crop is very heavy. Timothy is a very heavy crop and cutting will begin next week.

Pastures are still good, although the growth of grass is being checked by dry weather.
Peas are in full bloom and promise a good crop. Sugar beets are reported in satisfactory condition. Gardens suffered severely on account of the frost and have not yet fully recovered.

The strawberry crop is good, except where injured by frost. Cherries and plums promise a fair crop. Apples promise to be a good crop in most sections. Cranberries where not injured by frost are doing well.

Must Keep a Bulletin.
The recent legislature passed an act which requires railroad companies to place in a conspicuous place in each passenger depot, located at any station in the state at which there is a telegraph office, a blackboard of suitable size upon which such company or person shall cause to be written, at least twenty minutes before the schedule time for the arrival of each passenger train stopping upon such route at such station, the fact whether such train is on schedule time or not, and if late, how much. Provided also that any passenger trains not more than five minutes late shall be deemed to be on time as to the operation of this act.

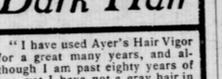

For each willful violation of the provisions of this act in failing to report or in making a false report, such corporation, company or person, so neglecting or refusing to comply with the provisions of this act, shall forfeit and pay the sum of twenty-five dollars, together with all taxable cost, to be recovered in a civil action to be prosecuted by the prosecuting attorney of the county in which the neglect or refusal occurs, in the name of the state of Wisconsin, which shall be paid over to the county in which such proceedings are had, and shall be a part of the common-school fund.—Pilot.

A Surgical Operation
is always dangerous—do not submit to the surgeon's knife until you have tried DeWitt's Witch Hazel Salve. It will cure when everything else fails—it has done this in thousands of cases. Here is one of them: I suffered from bleeding and protruding piles for twenty years. Was treated by different specialists and used many remedies, but obtained no relief until I used DeWitt's Witch Hazel Salve. Two boxes of this salve cured me eighteen months ago and I have not had a touch of the piles since.—H. A. Tisdale, Summertown, S. C. For Blind, Bleeding, Itching and Protruding Piles no remedy equals DeWitt's Witch Hazel Salve. Sold by all druggists.

A Weak Stomach
Indigestion is often caused by over-eating. An eminent authority says the harm done thus exceeds that from the excessive use of alcohol. Eat all the good food you want but don't overload the stomach. A weak stomach may refuse to digest what you eat. Then you need a good digestant like Kodol which digests your food without the stomach's aid. This rest and the wholesome tonics Kodol contains soon restore health. Dieting unnecessary. Kodol quickly relieves the feeling of fullness and bloating from which some people suffer after meals. Absolutely cures indigestion.
Kodol Nature's Tonic.

Try for Health
222 South Peoria St., CHICAGO, ILL., Oct. 7, 1902.
Eight months ago I was so ill that I was compelled to lie on my back nearly all the time. My stomach was so weak and upset that I could keep nothing on it and I vomited frequently. I could not urinate without great pain and I coughed so much that my throat and lungs were raw and sore. The doctors pronounced it Bright's disease and others said it was consumption. It mattered little to me what they called it and I had no desire to live. A sister visited me from St. Louis and asked me if I had ever tried Wine of Cardui. I told her I had not and she bought a bottle. I believe that it saved my life. I believe many women could save much suffering if they but knew of its value.
