A weak stomach may refuse to digest what you eat. Then you need a good digestant like Kodol, which gives you food which goes out the stomach's aid. —Handling of paper money is dangerous, according to the warning which has been issued by the officers of the State Board of Health. The statement given out classes paper money in the same breath with old rags, both being nests of bacteria, especially menacing to the public health. It is highly improbable however, that the average man will refuse to take all that he can get of the government greenbacks.

—A certain man once fell in love and was married. On their return home his wife expressed a desire to see where his first wife was buried, so they went to the grave and this is the inscription they read on the tombstone: "When she died my light went out, but I've struck another match."—Ex.

A Forger Discovered.

Last Saturday a traveling man by the name of Albert Monsan requested Joseph Rosenheimer, of Seniesingerville, to cash two checks on Th. First State Bank of West Bend, one for \$347.70 and one for \$50.07, drawn payable to Monsan. Although the amount was large, the checks appeared to be genuine, as they had the signature of A. C. Benike, and his business letterhead was printed upon them. Accordingly Mr. Rosenheimer cashed the checks. However, when the checks were presented at the bank, Mr. Henry noticed that they were numbered 132 and 133. As Mr. Benike had just opened his account with the bank, Mr. Henry's suspicions were aroused and before honoring the checks he called up Mr. Benike, who said that he never had drawn the checks. On looking in his check book he discovered that someone had stolen two blank checks from the back of the book.

The signature was a clever imitation and is supposed to have been copied from an order given the traveling man by Mr. Benike. At present writing Mr. Monsan has not been found, and Mr. Rosenheimer is out just \$397.77.—Pilot.
