E. ASSMANN FOR SCHOOL SUPERINTENDENT.

One of the candidates for County Superintendent of Schools at the coming spring election is Edward Assmann of West Bend. Mr. Assmann hardly needs any introduction through the newspapers to the people of this county—it has been his home since early childhood, with the exception of a few years. For the benefit, however, of those who may not be personally acquainted with him, we give this short sketch of his career in educational work.

Edward Assmann was raised in the village of Kewaskum, and received his early education in the schools of that place. After graduating he attended the West Bend High School, and received a certificate to teach. He taught three years successfully in the town of Kewaskum, and was for two years principal of the village school at Richfield. During these five years he employed all his spare time pushing onward in his educational career, attending summer schools at West Bend and at Valparaiso, Ind.

He graduated in 1901 from the Milwaukee Normal school, after which he taught one year in the Plymouth High School, and was principal of the Richfield school for two years. Concerning his work in this school, we give the following clipping from the Campbellport News:

COMPLIMENTS SCHOOL. "Assemblyman John Loeb, who is a member of the school board of the Campbellport school district, received this letter from the State Superintendent which is self-explanatory:

MADISON, Wis., Nov. 13, 1903. Mr. J. Loeb, Campbellport, Wis.

Dear Sir:—I am just in receipt of the report of Inspector Drewry who spent Nov. 6 visiting your school. In most instances the report is very satisfactory. You have a good school building, the furniture is good, and the equipment as complete as could be wished. If you would provide a walk to the out-buildings it would make your school strong in all material particulars. The work of the teachers is very satisfactory. The inspector states that he paid special attention to the work of the Principal to see if the supervision is what it should be, and is of the opinion that the school is in good hands. Assuring you of my pleasure in being able to put such an excellent report on file in this office, I am,

Yours truly, C. P. CARY, State Superintendent.

The report reflects credit upon the principal, Mr. Assmann, as well as the teachers of the intermediate and primary departments."

Mr. Assmann has taught eight years very successfully, which fact alone should enable him to fill the position of County Superintendent. Having a thorough educational foundation, and the successful practical work will give him a thorough understanding of the difficulties encountered in the important work of teaching in our country schools. We need competent teachers in our country schools and we need a competent man to aid and assist them in their work. We believe Mr. Assmann will meet every just demand in that position.

A Stubborn Case. Mr. Wm. Heessler of Muscoda, Wis., writes: "While taking the first box of Gloria Tonic for my rheumatic trouble could not stand on my feet, while taking the second box I could walk across the room by pushing a chair ahead of me, and after taking the third box I could lusk corn and feed sixty head of hogs."

BECHWOOD BEAMLETS. Henry Reysen was a Waldo visitor Tuesday.

G. W. Koch transacted business in Adell Tuesday.

Miss Susan Mertes is sewing for Mrs. Charles Koch.

Oscar Koch was a business caller in Kewaskum Monday.

Mrs. Charles Peterman called on Margaret O'Connell Tuesday.

Dr. Peake spent a few days with his mother in Oshkosh last week.

Dr. Morgenroth of Boltonville was a professional caller here Wednesday.

Miss Celia Reven has gone to Waldo where she is employed as a domestic.

### ALL SICK WOMEN SHOULD READ MRS. FOX'S LETTER

In All Parts of the United States Lydia E. Pinkham's Vegetable Compound Has Effectuated Similar Cures.

Many wonderful cures of female ills are continually coming to light which have been brought about by Lydia E. Pinkham's Vegetable Compound, and

through the advice of Mrs. Pinkham, of Lynn, Mass., which is given to sick women absolutely free of charge.

Mrs. Fannie D. Fox, of 7 Chestnut Street, Bradford, Pa., writes: Dear Mrs. Pinkham—

I suffered for a long time with womb trouble, and finally was told by my physician that I had a tumor on the womb. I did not want to submit to an operation, so wrote you for advice. I received your letter and did as you told me, and today I am completely cured. My doctor says the tumor has disappeared, and I am once more a well woman.

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. She asks nothing in return for her advice. It is absolutely free, and to thousands of women has proved to be more precious than gold.

### EAT BUTTER AND BACON.

Thus You May Escape Death from the Great White Plague.

Dr. A. N. Bell of Brooklyn, N. Y., in The Popular Science Monthly, prints a paper which he read at the international congress on tuberculosis at St. Louis last October, in which he says:

"Consumption is most prevalent among those who are stunted or who stint themselves of bacon and butter." He then goes on to say that, in the whole course of his professional observation, now covering a period of more than sixty years, he has never known a family or an individual that was brought up on a liberal supply of bacon and butter who became tuberculous. Whether Dr. Bell's remark is true or not, there can be no doubt of the fact that those who know most of tuberculosis recognize the importance of diet and sanitary conditions in dealing with the great "white plague."
