MOLLY, DEAR!

Looking over Big Muskeg's seemingly impassable... Molly, dear!

CHAPTER III—Continued.

His eyes were suffused with red and his face twisted with passion. It was evident that he had seen the rescue from his window above and had known what Molly was doing.

CHAPTER III

Bowyer Comes—and Goes. Wilton would not remain in bed longer than two days. His hands had suffered much, but his feet were badly inflamed and swollen.

WON FAME AS A SEA FIGHTER

Scandinavian Hero Also the Center of Many Legends That Have Endured Him to Posterity.

One of the great Scandinavian heroes of modern times was Torsten... won fame as a sea fighter.

"You've had a long drive for nothing, then," said Wilton curtly. "Mr. Bostock isn't here."

"I'll say good-morning to the factor, anyway." "No, you won't," answered Wilton.

"I want the Missatibi, Carruthers," he began, entering, and turning round and facing Wilton. "I guess I made a mistake in letting that bill through the legislature."

"It hurts my reputation to have this dinky concern of Joe's hanging on to mine. But I guessed Joe couldn't raise the money, and that I'd get it cheap some day."

"Well, I was right. You can't cross Big Muskeg, and you haven't the money to loop it. Tell Joe I'm open to terms. And say I'm going to have them. Tell him he won't live forever—means of men forget that—and ask him who in thunder will go ahead on the Missatibi when Joe Bostock's gone!"

"You're d—d!" he shouted, unleashing his suppressed anger. "That's my message to you, and that's Joe Bostock's!"

"The shareholders are frightened, and Phayre, of the Bank of New North Manitoba, who is an influential one, and represents Bowyer, has had the tip from him to make trouble. Bowyer didn't want the line till the transcontinental route was shifted northward."

"The man was as sly as a fox, for all his effrontery, and that was his strength. He gave the impression of being one kind of rogue, whereas he was quite another, as many had discovered to their cost. There were few more resourceful and cold-blooded men, even in the Prairie city."

"I heard you and Joe had come up," continued Bowyer. "So I dropped in to have a chat with him, though it's taken me fifteen miles off my road. Planned to ask him to sell out his valuable holdings, maybe."

"You coward!" she cried. "Are you going to strike Mr. Carruthers in that condition? You coward, Tom Bowyer!"

"American Architects. The Romans found among the Greeks superior workmen and he imported them, hired them, and permitted them to decorate his monuments, according to their own taste, but recognizing the artist only as a workman. We find many of our artists among naturalized foreigners, or men of foreign birth or descent."

"The Kitchen Cabinet. Copyright, 1922, Western Newspaper Union. The business man, lawyer, physician, priest or poet who earnestly tries to advise his neighbors will earn both money and real happiness. But the man who works for money alone gets that for which he works—nothing else."

"The Wholesome Apple. An apple a day keeps the doctor away," says the old saw. The following recipes are all worth keeping for future use: Apple Sauce Cake.—Take one cupful of brown sugar, one-half cupful of butter or lard, one cupful of unweetened apple sauce prepared from sour cooking apples and put through a sieve, one cupful of chopped raisins, two teaspoonfuls of cocoa, two cupfuls of flour sifted with two teaspoonfuls of baking powder. Bake one-half hour in a shallow dripping pan. Serve with hot sauce for dessert. Sauce—Boil two cupfuls of granulated sugar, one cupful of water until a sirup is formed, add a tablespoonful of butter and a grating of lemon rind for flavoring. Whole Wheat Pudding.—Take two cupfuls of whole wheat flour, half a cupful of molasses, one chopped apple, one-half of a teaspoonful of salt, and one-half teaspoonful of soda, steam two and one-half hours. Serve with a rich sauce made with one cupful of sugar, two tablespoonfuls of corn starch, a bit of salt, one cupful of boiling water; cook until smooth, add two tablespoonfuls of butter and lemon juice and rind to flavor.

"The heart of man is a small world in which while the soul must dwell, and in this earthly habitat create a future heaven or hell. MORE EVERYDAY DISHES The following one-dish dinner will be found most satisfying: Prepare a rich biscuit dough; line a deep pie plate with the mixture, rolling it about one-half inch thick. Put in a layer of fresh steak cut in dice, season with salt and pepper, add a layer of onions and potatoes and put on the top crust, leaving a vent for the steam to escape. There will be no need for moisture as the vegetables contain plenty. Bake an hour in a moderate oven; longer will not injure it. When the food seems well cooked, remove from the heat, wrap in a cloth and steam in a cool place for ten minutes; this softens the crust and makes the dish more palatable. Serve hot in pie shaped pieces. With this dish a dish of dandelion greens washed and crisped in water and served with hot bacon fat and vinegar, makes a well balanced meal, sufficiently nourishing to sustain a working man. With this meal a dessert of apple sauce and dark whole wheat bread, and a cup of tea or coffee will be all that is needed for dessert. Liver or Casserole.—Take a pound or more of liver, cut in slices and slimmer for ten to fifteen minutes in salted water; drain and chop fine, mixing well with salt and pepper to season. Add one tablespoonful of onion well greased casserole place one-half cupful of washed rice, one carrot chopped and spread over the rice; over this spread the liver and the liquor, two cupfuls, in which the liver was cooked. Spread two tablespoonfuls of butter over this dish and bake in the oven for an hour. Add one-half cupful of rich milk or cream and remove the cover, then add a few minutes, sprinkle with parsley and serve. If cottage cheese needs to be increased in quantity add a stiffly beaten egg white with some cream. Apple Sandwich.—Spread whole wheat bread with butter, then add chopped apple mixed with chopped nuts. San Francisco Pralines.—Take two cupfuls of brown sugar, three-fourths of a cupful each of roasted almonds and pecans, one cupful of water. Boil the sugar and water to the soft ball stage, stir in the nuts and pour into patty tins, well greased, to mold.

"Evening, Mr. Carruthers," said the sergeant brusquely. "I'm Sergeant Peters and this is Constable Myers." (TO BE CONTINUED.)

PE-RU-NA FOR CATARRH OF THE HEAD AND NOSE. I began using PE-RU-NA Tablets three years ago for catarrh of the head and nose. Was unable to do anything. I saw a decided improvement after one box and after two boxes I was cured.

Her achievement. "My wife got after a blue racer with a hatchet out in the yard yesterday, a related Gap Johnson of Rumspus Ridge. After going twice around the track, as it were, she ketched her foot in a mess of baling wire and fell and sprained her arm, if she didn't break it outright. But, by cripes, she shore out off that there snake's head as she went down!"—Kansas City Star.

Important to Mothers. Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the Signature of J. C. Ayer & Co., Lowell, Mass. In Use for Over 30 Years. Children Cry for Fletcher's Castoria. The Joke Market. "You think culture is on the decline?" "Yes, we get very few jokes out of relativity." Labor worsets a harness on sorrow.—Montaigne.

YOU CAN WALK IN COMFORT. If you shake into your shoes some EMMY'S FOOT-EASE, the Antiseptic, Healing powder for aching feet, you will find that it takes the friction from the shoes and gives relief to corns and bunions, hot, itchy, sweating, swollen feet. Ladies can wear shoes one size smaller by shaking Allen's Foot-Ease in each shoe.—Advertisement.

Story of the World War. We are a united nation now. Here is a story told Memorial day: "Are the Yanks coming?" asked a little girl in France. "Yes, child," replied the colonel, "the Yanks are coming." It was a Tennessee regiment.—Louisville Courier-Journal.

carry themselves and their families to the country of their choice. Such settlers are bound to succeed. Some of them go two or three hundred miles inland, and select their homes in the park districts of Manitoba, Saskatchewan and Alberta. Others purchase improved and unimproved farms in the more thickly settled districts in the southern and central parts of these provinces. Wherever they may go, they are certain to secure land of certain possibilities. They will see grain crops of high value, wheat that will produce from 20 to 40 bushels per acre, oats giving high yields, barley a certain producer, and grass and fodder in quantity and quality that

will satisfy them that the cattle and stock raising possibilities are fully as good as they have been told. The reports from all parts of Western Canada at the present time fully bear out the most optimistic expectations and hopes of the early days of settling. Evidence of the splendid growth of this year is the fact that alfalfa was cut on the 15th of June and yielded nearly two tons to the acre. Corn planted on the 23rd of May, on the 5th of June was showing several inches about the ground, and making glad the heart of the farmer who had built his silo, which he hoped to fill in the latter days of August.—Advertisement.

BROTHERHOOD MEN JOIN RAIL STRIKE; OBJECT TO TROOPS

Enginemen, Firemen and Others Quit at Bloomington, Ill.

U. S. MAILS INTERFERED WITH

Walkout Follows Searching and Questioning of Workers Entering Shops — President Harding Plans to Act in Labor War.

Chicago, July 12.—Walkouts of enginemen, firemen and all other railway employees at Bloomington, Ill., in protest against the presence of state troops, reports of interference with United States mails through the curtailing of train schedules...

Resented Search.

The walkout at Bloomington followed orders for the searching and questioning of all workers entering the shops. Members of the railroad brotherhoods resented this.

Harding Plans to End Strike.

Washington, July 12.—The strike of railway shovemen, bringing with it interrupted transportation and interference with the mails, is regarded by President Harding and his cabinet as an acute situation which menaces the general well-being of the nation.

Must Agree to Arbitration.

It is known that President Harding has under consideration a plan to summon a conference of railway workers and railway executives in exactly the same way that he summoned the discordant elements in the mining industry to Washington.

Troops Enforce Peace.

General Unconcern, both among striking shovemen and railroad employees, marked the eleventh day of the rail strike reported but the general situation is held on a peace basis by troops and federal marshals.

Only One Shot Fired.

Except for their attorneys, who have been coming into court in various parts of the country asking injunctions against picketing and other interference with the operations of the roads, the employers seem to manifest little interest in the strike.

Handbags of Tweed.

One of the houses which manufacture handbags for women is now offering to the retail trade novelties in the form of genuine leather tweed bags.

WILL HELP GERMANY

ALLIES' CHIEFS TO DISCUSS FINANCIAL SITUATION.

Poincare to Confer With Lloyd George — Italy to Be America's Preferred Creditor.

London, July 12.—An international conference that will virtually amount to a meeting of the supreme council will be held in London next week to discuss the German financial and indemnity situation...

It was learned in Downing street circles that Premier Poincare of France is expected in London. It is probable that Belgian and Italian representatives also will be present.

Premier Lloyd George is understood to believe concessions are necessary to save Germany and prevent a crash which might have a disastrous effect on the rest of Europe.

It is reported the guarantees commission in Berlin, which has been investigating Germany's financial position and her ability to pay reparations, has reported Germany is really unable to meet her obligations.

The British premier hopes to change the French viewpoint concerning the advisability of assisting Germany, the French having refused up to date to countenance any concessions.

July 12.—It was reported here that Roland Ricel, Italian ambassador to the United States, has advised Premier Facta that the United States has agreed to make Italy one of America's preferred debtors.

MRS E. F. HOTCHKISS DROWNS

Wife of Machine Magnate Loses Life While Bathing—Police Investigate Death.

Bridgeport, Conn., July 12.—Hunt for a strange man who is said to have accompanied Mrs. Edward F. Hotchkiss and had a mysterious conversation with her prior to the recovery of her dead body from the water at Fairfield beach, where she had gone in bathing, was instituted by the Fairfield authorities and state police, who are investigating her death.

Chicago, July 12.—Armed with the strike referendum indicating that 99.9 per cent of the street car men favor a walkout, officials of their union will call on Henry A. Blair, president of the Chicago Surface Lines, and demand a year's renewal of the present wage scale.

CHICAGO CAR STRIKE NEAR

Delicious Hot-Day Lunch

BEST lunch is two packages of Little Sun-Maid Raisins and a glass of milk.

Tastes good when you're hungry. Nourishes yet keeps you cool.

Raisin's 75 per cent fruit sugar is in practically predigested form, furnishing 1560 calories of energizing nutriment per pound.

Doesn't tax digestion so doesn't heat the blood, yet energizes almost immediately.

Big men eat little lunches to conserve their thinking power. Don't overeat and lag behind the leaders. Get two packages of Little Sun-Maids now.

WAS UNDER NO OBLIGATION NEGRO'S MEMORY A PUZZLE

Transaction of Youthful Newspaper Proprietor Had Been on a Strictly Business Basis.

George developed a journalistic instinct at the early age of fifteen. With the consent of his father and some assistance from the same source he bought an "amateur printing outfit" and started the Kinkerville Monthly Journal, subscription price 50 cents a year, payable in advance.

"I suppose you call yourself the editor and proprietor of this office," remarked an envious young associate who dropped in at his "sanctum" in the basement of the paternal dwelling one day.

"Of course I do," responded the youthful journalist. "I don't owe a cent on it."

"Proprietor! Umph. Everybody knows you got \$25 from your father and start it with."

"Yes, sir," stonily rejoined George. "And his subscription for the Journal is marked paid fifty years ahead on my books!"—Pittsburgh Dispatch.

What Is It Worth to Change a Tire?

On the road changing a tire is not an especially pleasant task. The dust or mud, the grease and grime, the tedious delay—all are things we like to avoid.

But the time to think about these things is when you buy the tire—not after the blow-out occurs. For some tires blow out much more easily than others.

Outward appearance counts for little. It is the material in the tire and the construction of it that determines its strength.

Goodyear recognizes these facts and all Goodyear Tires are made of long staple cotton. Take the 30 x 3 1/2 Cross Rib Clincher Tire here illustrated, for example.

It is made of Arizona cotton, the fibres of which average 1 1/4 inches long. Many 30 x 3 1/2 clincher tires are made of short staple cotton from 1/2 inch to 1 1/8 inches long.

This means less strength and greater danger of blow-outs—more tire troubles. Yet this high grade guaranteed Goodyear Tire costs only \$10.95.

You can buy some tires for even less than this but none with the fine materials and construction of this one. Can you afford to take a chance on more frequent tire troubles for the sake of the slightly lower price of cheaper tires?
