Sleep Soldier Sleep

Sleep, soldier, sleep, beneath the flag
Your valor has maintained;
Yours is an honor little guessed
Upon that bygone day
When with a lightly beating heart
Allegiance you proclaimed
To every star and every bar,
And proudly marched away.

The thousands wait in foreign lands,
A white cross at each flower,
And add blooms are the only flowers
These fallen ones may know;
But destiny has brought you home
To represent each bed
Wherein a silent sleeper rests—
There where the poppies grow.

Man has but one sweet life to live,
But one brave death to die,
And millions pass the portals through
Whose lives have been no gain;
But you are like a privileged son,
Accorded honors high.
Your nation bows in homage true,
And chants your lordly fame.

Sleep, soldier, sleep! Your splendid death
Holds portent for the years,
And men meet men beside your bier
With visions in their eyes;
What value has life's fleeting breath,
Beside a nation's fears?
Yours is the victory of the great—
Inspiring sacrifice?

Sleep, soldier, in your narrow bed,
Your nation's flag unfurled above;
While praise of you is ever sped
The world around, in love.
—Portland Oregonian.

Day Recognized as Belonging to All Who Served Nation

Memorial day is generally observed throughout the world this year, due in large part to the efforts of the American Legion, according to the following announcement made at Legion headquarters at Indianapolis:

"Originally designated by the Union veterans of the Civil war as a particular day for their fallen comrades, May 30 gradually has become a day set apart in memory of all Americans who died for their country. Although it has long been the custom of many southern states to observe a memorial holiday of their own on April 26, the tendency to a uniform observance has been apparent since the World war. The Legion, composed of both the North and the South, officially adopted May 30 as its Memorial day and posts of the World war men on both sides of the Mason-Dixon line have, for the last three years, simultaneously honored the dead of the Civil, Spanish-American and World wars.

May 30 International Holiday.

"When the Inter-Allied Veterans' federation, made up of World war veterans of France, England and Canada, Italy and the others of the allied nations and of which the Legion is a member, adopted the Legion's day for the observance of rites for the dead, May 30 became an international holiday, comparable only in universal observance to Christmas. In the years to come it will be observed by Legion posts and allied veterans' organizations in the following countries: Canada, Belgium, France, Poland, Turkey, Mexico, Argentina, Brazil, British Isles, Chile, China, Cuba, Guatemala, Japan, Peru, Porto Rico, Portuguese West Africa, Santo Domingo, Spanish Honduras, India, Venezuela and the Canal Zone, Hawaii, Philippine islands and the territory of Alaska.

"As it did last year and the year before, the Legion will decorate and hold appropriate exercises over the grave of every American who sleeps in a foreign soil, as well for those honoring the graves of American and allied veterans who are buried in the United States. Legion posts in France, Belgium, Poland and Turkey will visit old battlefields and adjacent cemeteries.

Huge Task Completed.

"The United States graves registration service has completed its huge task of returning to this country the bodies of 42,023 of the A. E. F. who died overseas, but 30,000 Americans still remain permanently buried in cemeteries of the allied nations.

To finance the Memorial day decoration of graves overseas, each of the Legion's 11,000 posts was asked to subscribe an amount equal to five cents for each of its members. A central committee of the Legion in France will receive the funds from this country and have charge of decorating the individual graves.

who went forth to fight and did not come back.

All Veterans to Be Honored.

"Gold star parents, desiring that especial attention be paid to the graves of their departed, requesting a certain type of floral decoration or religious ceremony, were asked to communicate their wishes to the organization's national headquarters, from which they were relayed to the legion post nearest the place of burial.

The Legion will not confine its exercises and decorations to the memory of World war heroes alone. The graves of all veterans of all American wars will be visited and decorated and fittingly honored. Last year the organization requested its posts and units of the Legion auxiliary to seek out, in each community, graves of all American soldiers and sailor dead and to prepare charts showing where such graves were located and how they could be reached.

Bodies Abroad Cared For.

"A similar plan of keeping a close and honored watch on graves of Americans buried overseas has been evolved. There will be in France four principal cemeteries wherein men of the A. E. F. will sleep forever. At present a special fine arts commission is working on the project which will entail, for the collection of bodies and the beautification of cemeteries, an expenditure of more than \$1,000,000. These fields of honor will be located at Belleau Wood, near Chateau-Thierry; Bony, near St. Quentin; Suresnes, near Paris; and Homagne, in the Argonne, near Montfaucon. More than 500 Americans will remain buried in England. A gift of land by the British government allows for the future decoration and care of these graves. Under plans already advanced a little cemetery for those Americans who died in England, Ireland, Scotland and Wales will be located at Brookwood, Surrey, England.

"This year still fewer of the proud, white-haired old heroes of '61-'65 will bear their colors and their flowers to the sacred ground where their comrades are in eternal bivouac. Last year the thinning ranks were filled with sturdy, tanned youngsters in their army drabs and navy blues who were honored to march at the side of the veteran patriots on their holy mission. The present Memorial day finds the hosts of Grant and Lee all but dissipated and as the youths of the World war strive for the honored files of the vanished procession, the day takes on a new significance."

Memorial day, on which the people of the United States do homage to the men who have died for their country, was celebrated this year—as every year since the great war—by a general turning out of Americans and French in Paris as well as at every point in France where the soldiers of the great American republic, fallen on the field of honor, are sleeping their last sleep.

American soldiers also chose this day of commemoration to honor the memory of their French comrades, and in the presence of their ambassador and Marshal Foch, they placed upon the tomb of the unknown soldier a wreath and the medal of the veterans of foreign wars of the United States.

The following inspiring words were spoken by Myron T. Herlek at the American cemetery at Suresnes, where speeches were also made by Marshal Joffre and Cesar Caire, president of the municipal council of Paris:

"There exists here a bond of sentiment which no force can break, and no apprehension as to the future can have the power to lessen the quality of this affection. Whenever the descendants of those who sleep here sing the words, 'Land where our fathers died,' their hearts will turn toward this fair land of France where their sires fell gloriously by the side of the grandsons of the valorous dead of 'Northtown.'

MEMORIAL days will come and with the passing years history will narrate their observance. But far above and beyond the pageantry of these glorious days are the scrolls of eternal truth; the history which men's ideals write, the spiritual architecture which makes a nation great. Therein lies the deeper meaning of the day. And the fadeless beauty of Old Glory can only be surpassed by the response to the echoes of the far-sounding prophecies which it awakens.

Scotsman Who Would Leave This "Land of the Free" Discovers Red Tape Intervenes.

"Immigrants who think it is hard to get into the United States should try to get out after once they are in, if they wish to encounter a real problem," said a native of Scotland, who has lived in Indianapolis several years and who has taken out his first naturalization papers.

The man wished to return to Scotland to live, and several months ago took up with the British representatives in the United States his proposal to quit this country for his old home.

"I have been in correspondence with several British representatives," said the Scot, "and there seems to be an endless amount of red tape in the procedure. The British representatives seem fearful lest I may become a charge on Great Britain. I have sworn to almost everything and hope soon to get my passports."—Indianapolis News.

A FEELING OF SECURITY

You naturally feel secure when you know that the medicine you are about to take is absolutely pure and contains no harmful or habit producing drugs.

Such a medicine is Dr. Kilmer's Swamp-Root, kidney, liver and bladder remedy. The same standard of purity, strength and excellence is maintained in every bottle of Swamp-Root.

It is scientifically compounded from vegetable herbs. It is not a stimulant and is taken in teaspoonful doses. It is not recommended for everything. It is nature's great helper in relieving an aching kidney, liver and bladder troubles.

A sworn statement of purity is with every bottle of Dr. Kilmer's Swamp-Root.

If you need a medicine, you should have the best. On sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to try this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Advertisement.

GENIUS OF THE SIGN BOARD

After All, What Is the Small Matter of an Apostrophe "Between Friends"?

Some years ago I watched a sign-painting genius while he put the final artistic touches on a masterpiece: "Ladie's and Gent's Restaurant."

"Fardon my inquisitiveness," said I, "but why do you put the apostrophe before the s?"

"The which before the 's'?" he questioned courteously.

"The little curly-tailed mark after that e and that t. Some call it an apostrophe."

"Posserpie, is it? Well, young feller, I seen and I make that dingus a hundred times, and I never knew that it had a name. Posserpie! That's a good one; I'll have to spring it on the gang. Some painters always paint it after the s, but I always put it before the s, because I think that it looks more artistic there. Otherwise, it don't make no difference where you put it."—De Laval Monthly.

Record Honey Crop.

The largest honey crop in the history of British Columbia was garnered in 1922, registering as it did a value of \$177,839, at wholesale prices. The year's output represents the remarkable average of 61 pounds a hive, that is 61 pounds a hive from 11,591 hives in 2,143 apiaries. In 1921 the average was 39 pounds a hive, from 10,329 hives in 2,072 apiaries. In 11 years the province's output has grown from 20 tons to 355 tons.

Considerable Division.

"Does your teacher teach you a lot?" I inquired of a small boy who had just started to school.

"Oh, I don't know," he answered, seriously. "We have to divide up what she tells us with an awful lot of children."—Chicago Tribune.

The Fishing Hog. I have my loves and my hates. No words can record my aversion for the person (is he man or devil?) who snares the little fish under size, whose abortive selfishness leads him to continue when the creel is full, and who catches the mother at spawning time. To me he is the human wolverine, the fish glutton; and for him I have loathing as well as hate.—From "Old Black Bass," by Albert Benjamin Cunningham.

Here It Is!—The New

International Manure Spreader

Run Your Eyes Over These Best-yet Features:

1. Roller Bearings. Roller bearings at seven points—the only spreader so equipped.
2. Double Ratchet Drive. Walking beam transmission from main axle eccentric and extra large roller wheel give easy, strong, steady lead. No slipping or jerking, due to extra-long movement of roller on ratchet wheel—only two power impulses on ratchet for every revolution of 40-inch roller wheel. Box tapered to eliminate friction on roller axle. Six foot speeds.
3. Distinguishing Front Axle. Auto-type, permitting quick turn. No pole whipping. No strain on frame.
4. Heavy Both Wheels. Power is transmitted from main axle to beater, wide-spread and manure conveyor—not through beaters or conveyor or vice versa.
5. Wheels Track. Rear wheels track with the front wheels, lightening draft.
6. Tight Bottom. There is no clogging, jamming again, because the spreader has a tight bottom. Spreads anything. Retains all liquid manure.
7. Two Beaters. Two all-steel beaters with chisel-pointed square teeth work from both top and bottom of the load. Allow extra-high load.
8. Wide-Spread. The spiral behind the beater gives the manure a third bearing, and spreads it singly and uniformly beyond the wheels.
9. All-Steel Main Frame. Does not check, rot or warp. Wood iron sides hold only the load. Frame holds operating mechanism independently of body, keeps alignment perfect.

The New International—made in two sizes—is unquestionably the best spreader on the market today, and when you consider it in connection with its price, it is far ahead of all others that there is really no comparison.

We have a sample spreader set up for your inspection. Come in and look it over.

ALLIED ARMY MAY GO INTO CHINA

Powers Are Urged to Use Force in War Against Bandits.

BRIGANDS WELL ORGANIZED

Many of Them Served in France During the War and Learned Western Languages—Some From Good Families.

Peking, May 22.—The time has passed when parleys will accomplish anything toward release of the foreigners held captive by bandits in the mountains of Shantung. The powers must now decide whether to use force.

As a result of this opinion, held to a man by foreign representatives who have investigated the situation in the bandit area, diplomats are in close touch with their governments, discussing what action should be taken.

Foreign commercial organizations are pressing their respective legations to use extreme measures toward effecting release of the prisoners. The government having failed to reach any terms for settlement with the bandits, the matter is now squarely up to the legations.

Failing a settlement, the most favorable outlook for the prisoners, as the situation exists now, is indefinite captivity under the most trying conditions. A most serious possibility also rests in the threat of the bandits to kill their prisoners if troops harass their mountain stronghold.

The brigands' ultimatum, threatening to kill two foreigners if Chinese troops are not withdrawn has expired.

Finally, the bandits' secret agents are communicating with bandits throughout Shantung and adjoining provinces with a view to enlisting reinforcements—action which carries the possibility of the whole country-side being swept by bandit warfare.

By Anderson, the American-born negotiator, who recently made a trip to the bandit stronghold for the Chinese government, was closeted with United States Minister Schulerman at the American legation.

"The bandits are excellently organized," Mr. Anderson said. "Many of them served in France during the war and learned western languages. Forty per cent of them have been bandits since childhood. The rest are from good families, but turned criminals under years of heavy taxation and government oppression."

73 PERISH IN FIRE

Bury 59 Victims of School Holocaust in One Grave.

Overturning of Oil Lamp on Stage of Schoolhouse Near Camden, S. C., During Commencement Exercises Starts Panic.

Camden, S. C., May 19.—Bathed in the glory of a setting Palmetto sun, the bodies of 59 men, women and children, who less than 24 hours before had been fun-loving parents and relatives, were placed in one big grave in Beulah Methodist churchyard.

Three thousand South Carolinians, led by Gov. Thomas G. McLeod, gathered from all parts of the state to pay a last tribute to those who had perished in the burning of the Cleveland schoolhouse, and stood with bared heads throughout the brief, simple funeral service spoken above the 35-foot trench.

The bodies were those out of the at least seventy-three dead which could not be identified. They were buried within a few hundred yards of the spot where they had gathered for the commencement exercises of the community school, and where an oil lamp, dashed from its hanger on the ceiling over the little stage, had turned the two-story, three-room county school into a funeral pyre.

Collapsing of a narrow wooden stairway leading from the second floor caused many of the deaths, a number of persons being crushed in the debris. Others, cut off from escape in this way, were burned to death, while still others jumped from windows.

Prisoners Are Hostages.

China Bandits Warn

Shanghai, May 19.—The Suchow bandits have sent an ultimatum that unless the Chinese troops are withdrawn by next Tuesday the American and British captives will be shot.

Britain, France and Italy Back Turk Against Greek

Rome, May 21.—By the adoption of two resolutions introduced by French and German delegates, the International Women's Suffrage congress went on record as favoring a world court to insure peace and world-wide membership in the League of Nations.

Illness Forces Bonar Law to Resign; Move Not Unexpected

London, May 21.—Prime Minister Bonar Law, who is seriously ill, tendered his resignation to the king. His action was fully expected, although it was the assumption in political quarters that it might be deferred until later in the week.

Human Vision Made to Pierce Iron, Wood, Rock

Madrid, May 18.—Human vision can penetrate opaque objects, iron, wood or rock, if developed properly, according to Marquis de Sautuora, Spanish scientist, who demonstrated his theories before the king and queen.

Navy Yard to Lay Off 300

New York, May 22.—Officials of the Brooklyn navy yard, at which more than 650 men were laid off last week, announced that 300 more will be laid off before the end of the week because of lack of work.

Emerson Hough Leaves \$27,000

Waukegan, Ill., May 22.—Emerson Hough, noted author, left personal property not exceeding \$26,000 in value and real estate worth not more than \$7,000 according to his will, which was filed here by his widow.

Sorbonne Medal for Elsie Janis

Paris, May 21.—The Medaille Louis le Grand, previously awarded to only two other actresses—Madame Bernhardt and Madame Rejane—has been presented by the Sorbonne to Elsie Janis in recognition of her war work.

Malone Candidate for White House

New York, May 21.—Dudley Field Malone, who for a time was collector of the port of New York in Wilson's administration, has announced himself as a candidate for president, according to word received here.

With the Wisconsin Legislature

Madison, Wis.—Two big highway taxation measures drawn up by the legislature and a special highway committee were first voted by the senate on their first vote.

The only thing the wets have obtained in the present session is the Czerwinski resolution, which memorializes congress "so to amend the Volstead act as to allow the manufacture, sale and use of beer for consumption in homes and places of abode of as high an alcoholic content as may be possible within the meaning of the Eighteenth amendment to the constitution of the United States."

The resolution states nothing as to percentage of alcoholic content of the proposed beer, and after the demand for light wines had been stricken out dry did not seriously oppose it. It was adopted, 44 to 31, in the assembly.

The lower house had passed the Sachtjen bill 58 to 33. It provides for the annulment of the present clause that officers can secure warrants to search houses "on information and belief." The bill also prescribed drastic penalties for perjury by officers in swearing out warrants.

The resolution was that the measure only made the state law conform to the provisions of the Volstead law where as the law now is more strict.

Ford Reveals Water Power Plans

Henry Ford plans to invest millions of dollars in the development of water power sites in northern Wisconsin and in the erection of branch plants that will give employment to thousands of men and women.

Revelations of the "auto king's" plans were given before a joint legislative finance committee by Russ A. Walter, Detroit, personal representative of Mr. Ford, who appeared in opposition to the Eber water power bill.

In opposing the Eber measure, which would hold up development of water power sites in Wisconsin by private parties for six years while the railroad commission completed a survey. Mr. Walter disclosed that Mr. Ford already holds options on several properties and is planning to absorb others.

At the same time it was intimated that purchases by Mr. Ford of the Green Bay & Western railroad, running from Green Bay to La Crosse, also was being considered. This line would be electrified through the development of water power properties, it was said.

Mr. Walters was asked whether Mr. Ford in the next six years planned to enter the water power development in Wisconsin on a large scale.

"I would say that is the plan," he replied. "Mr. Ford, I believe, had that in mind when he sent me here to oppose this bill."

Lotus Now Protected Flower

The American lotus became a protected flower in Wisconsin with the governor's signature to a committee on state affairs bill, making it an offense punishable by six months' imprisonment to destroy lotus plants.

The new law provides that "any person who shall wilfully cut, root up, sever, injure, destroy, remove or carry away from public property or public waters or from property of another, without permission, or shall wilfully sell or expose for sale any American lotus so obtained, shall be punished by imprisonment in jail or by fine."

The conservation commission is instructed to mark places where lotus are found, warning persons against destruction.

This plant, formerly abundant in the state, is said to be disappearing.

Two Bills dealing with equipment on locomotives, were signed by Gov. Blaine.

One by Assemblyman Allen, Superior, requires that railroad engines weighing over 100,000 pounds shall be equipped with independent or straight air brakes while the other by Price requires that locomotives operated in the winter be equipped with side curtains.

Asserting that the Sunday motion picture and sporting interests are tending to break down the American type of Sabbath and are destroying the fundamental institutions of civilization, members of the Protestant churches of Fond du Lac and the annual state convention of the Wisconsin Gileons unanimously adopted resolutions protesting the passage of the Grabu bill, now before the Wisconsin senate, which seeks to repeal blue laws now on the statute books.

An attempt of the state board of control and the civil service commission to take the director of the juvenile department and assistants out from under civil service was killed by the senate, 16 to 14, by nonconcurrency in the Dahl bill.

The Keiser joint resolution providing for the appointment of a joint interim legislative committee to make a survey of elective laws and make recommendations on revisions thereof to the 1925 legislature, was killed by the assembly without a record vote.

Governor Blaine has signed a deficiency appropriation bill which gives \$60,000 for indemnities for cattle infected with bovine tuberculosis condemned by the livestock sanitary board to be killed during the present year.

Assemblyman Polakowski's bill to prevent the building of new armories by the state and to turn over all present armories to municipal control, which was interpreted as a slap at the National Guard, was killed by the senate.

The Wisconsin senate voted to prohibit cities of the state from adopting daylight saving ordinances, when under suspension of the rules it passed the Czerwinski bill and sent the measure to the assembly for concurrence.

Senate Defeats Sachtjen Bill

With the defeat in the senate of the Sachtjen bill, repealing the search and seizure clause of the Severson act, and the adoption in the assembly of the Czerwinski beer resolution, the fight of the wets for recognition comes to an end, and the opportunity is offered for an inventory.

The Sachtjen bill was defeated after sharp debate, and after wets had vainly maneuvered to save some portion of the measure. The roll call was always the same, drys preserving a solid front. Including the pairs, the vote was 19 to 14.

The measure providing for a 2c a gallon gasoline tax was killed 23 to 8. This would have raised \$3,000,000 a year. The measure that made up the rest of the proposed program, a drastic license tax of some \$10 to \$50 a car to be based on weight was killed 26 to 5.

The weight tax would have raised \$8,300,000 a year and would have replaced the present flat \$10 license tax. Motions for reconsideration of both bills were offered and further action deferred for one week when an attempt will be made to revise them by amendments. A half dozen senators in voting against the committee disapproved the distribution scheme, while approving the weight and gasoline taxes.

Passage of the Polakowski bill which embodies both weight and gasoline taxes with a distribution system which is more favorable to the large cities will be made by the senators. The Polakowski bill is expected to come to a first vote in the senate within a fortnight.

Ask Funds for Bigger Markets

Great pressure is being brought to bear on the universities of the nation to conduct further and extensive research into the problems of marketing their products. E. A. Birge, president of the University of Wisconsin, told the joint finance committee of the legislature.

Birge appeared at a hearing on a bill by Assemblyman A. M. Miller to appropriate \$30,000 from the university's appropriation to the agricultural economics department of the university for research into the marketing problems.

This department now gets around \$20,000 a year from the university budget, so the bill in its present form would give no appreciable increase, Birge said.

L. M. Wright, of the state farm bureau federation, appeared for the proposal, and asked that the bill be amended to make the \$30,000 appropriation direct from the state treasury, so it would be an addition to the \$29,000 already received by the department for its work every year.

New York state is spending about \$50,000 a year on this item, and Ohio about \$70,000, but the other farm states are at about the same figure as Wisconsin at present, Birge said.

Officers' Removal Bill Signed

Appointive state officers in Wisconsin hereafter face interpellation and removal by the legislature should a majority of both houses determine that there is cause for their eviction from state service.

This new legislative power went into effect with Gov. Blaine's signature to the Huber bill, which passed both houses of the legislature after a fight. Several previous legislatures have defeated the same proposal.

Opposition to this measure, now a law, was based upon the same ground that the recall of elective officers was based. It was contended that appointive officers would be forced to become subservient to a dominant faction in the legislature or face removal for political reasons. Those favoring the measure held it would make appointive officers more responsive to popular will.

Rival Measures on Floor

Both the Dahl and Severson general income tax bills were sent to the floor of the legislature by the joint committee on finance without recommendation, but with the committee opinion that each would raise the amount of money which it was desired to raise.

If these measures follow their regular course, they will be on the calendar with Gov. Blaine's tax bill, which is in the senate recommended for indefinite postponement by the finance committee.

Action of the committee in withholding recommendation from the Dahl and Severson tax bills is regarded as significant, since the committee voted 7 to 6 to kill the Blaine tax bill.

By a vote of 21 to 9, the senate engrossed a bill to appropriate \$150,000 to purchase a site and erect a university extension branch in Milwaukee. The bill was introduced in the present session following an exhaustive investigation by a special legislative committee of the needs of the Milwaukee extension division, which until now has occupied leased quarters.

Senator Titus' bill protecting consumers against water contents in coke was killed. The bill would have allowed a 10 per cent maximum, but provided that dealers could not charge for the weight of water over that amount.

The assembly engrossed Speaker Dahl's bill for courts of arbitration and conciliation, and the Holly measure empowering towns, villages, cities and counties to maintain and operate elevators, warehouses and cold storage plants.

SESSION SIDELIGHTS

The assembly amended and then killed the Titus senate bill placing the employment of children in the theatrical profession under the supervision of the industrial commission. As it came from the senate, the bill would have prohibited the appearance of all children under 14 in shows and public entertainments. The assembly adopted its labor committee's amendment eliminating the age feature and then, after some debate, killed the bill, 59 to 23.

WISCONSIN NEWS

Important Events of the Week Around the Badger State.

Oshkosh—Details are being completed by committees for the fifth annual encampment of the Wisconsin department of the G. A. R. to be held at Oshkosh June 11 to 13. It is expected many homes will be asked to give lodging to visitors. The Eau Claire delegation, including a band, will be more than 100. For many of the aged heroes this may be the last reunion they will attend.

There is some sentiment for not holding further state encampments because so many are getting too feeble to stand the trips, consequently the gathering here is expected to be one of the largest in years. Antigo will send a five and drum corps. The Oshkosh American Legion post will provide a five and drum corps and the One Hundred Thirty-seventh regiment band of Oshkosh will play. Souvenir programs and badges are to be issued.

Madison—The trees went back on farmers in the maple sugar section of Wisconsin this spring. It took five trees to make a gallon of maple syrup this year, while last year it took only four. Paul H. Hyhus of the federal and state livestock and crop reporting service said. The maple sugar crop this year amounted to 81 per cent of last year's production. The continued cold weather and the lack of alternate periods of freezing and thawing is given as the reason for the decreased yield. In spite of this fact 119,000 gallons of syrup were produced this spring as compared to 100,000 gallons in 1921 and 148,000 gallons in 1922. Six per cent more trees were tapped this year than ever before.

Chippewa Falls—Northern Wisconsin Colony and Training school is the new name of the Wisconsin State Home for Feeble-Minded, Chippewa Falls. The change has been officially approved by the state board of control and the big state institution located at Chippewa Falls hereafter will be given the new designation. A bill legalizing the name change was passed by the legislature April 19. At the same time the name of the home at Chippewa Falls was changed, the new institution of similar nature at Union Grove, Racine county, was designated as the Southern Wisconsin Colony and Training school.

Wisconsin Rapids—That nearly 2,000 acres of land in Wood county will be cleared of stumps and made ready for agricultural use this season is the statement of County Agent R. A. Peterson in connection with his announcement of the unloading of the fifth carload of government picric acid which has come into the county this spring. Other cars of the explosive have been unloaded at Arpin, Pittsville and Vesper. The total amount of picric acid from the government supply of surplus war explosives, which has been distributed in this county this spring is 100,000 pounds.

Wausau—Perry M. Wilson, assistant secretary of the Marathon Paper mills at Rothschild, gave a talk on the manufacture of paper before the Wausau Kiwanis club. At the Marathon paper mills, he said, 240 cords of wood are consumed in each 24 hours, making 110 tons of sulphite and 15 tons of ground wood. One hundred tons of sulphite are bleached and 125 tons of finished paper are produced daily on four machines. The company employs 575 men on the average.

Wisconsin Rapids—The post office from third to second-class rating when the cities of Grand Rapids and Centuria were consolidated, under the postmastership of Albert L. Fontaine, will enter the first class July 1 with Mr. Fontaine again at the head of the office. The amount of business done through the local post office since Mr. Fontaine took office March 1, 1922, has been far greater than during any previous period of the same duration. It is still increasing, with a considerable margin over the \$40,000 annually required to put it in the first class.

Black River Falls—The creamery boards of the various co-operative creameries of Jackson county met at the courthouse in Black River Falls and organized an association. L. B. Grinde, Melrose, was elected president and A. P. Jones, Black River Falls, was elected secretary. John S. Klinck, Balsam Lake, one of the men responsible for Wisconsin butter district No. 1, gave a talk. The eight co-operative creameries of Jackson made 2,500,000 pounds of butter in 1922.

Madison—Wisconsin's acreage of rye dropped twenty per cent below the mark of 1922, the crop reporting service has announced. This figure is about the same as the 1920 and 1921 averages. The condition of rye on May 1 was 91 per cent normal. This is three per cent lower than a year ago, and lower than the five-year average of 92 per cent. The national rye acreage this year is 5,234,000 acres, 16 per cent below last year.

La Crosse—The annual West Wisconsin conference of the Methodist church will be held in La Crosse Aug. 29 to Sept. 1, inclusive, according to announcement from Bishop Mitchell, who will preside. The conference will be attended by 175 pastors and 100 lay delegates. At this conference delegates will be elected to the national conference.

Oconto—The last month has seen all previous milk production records broken in the Oconto County Cow Testing association. Of the 345 cows tested, 80 averaged more than 40 pounds of butterfat each. A grade Holstein owned by the Arison Eldred Co., Stiles, led with a record of 1,462 pounds of milk and 61.4 pounds of butterfat.

Sparta—The March report of the Sparta Cow Testing association has been made public, and shows 41 cows have made better than 40 pounds of butterfat during that time. The best herds were those of L. W. Graf, with an average of 43.8 pounds, and Howard & Stahl, average 39.4.

Appleton—"Do you make your own moonshine?" asked Municipal Judge A. M. Spencer of Albert Balke of New London, after he had fined the man \$100 and costs for fishing for sturgeon in violation of the game laws. "Yes," answered Balke, unaware. Now he is serving six months' sentence in jail.

Platteville—There are over two hundred students this year in the senior class of the Platteville state Normal, all of whom graduate and will receive diplomas June 8. A fact worthy of mention is that every one of the graduating class has received teaching assignments in this state, Illinois and Iowa, which reflects still greater prestige on the school which this year had an enrollment of five hundred and fifty students. The summer short course begins June 11 and already over four hundred members have been enrolled.

Amherst—The infant child of Ted Kubieler of Amherst swallowed a tack, the point becoming lodged in the baby's throat in such a manner that it was impossible to remove it through the mouth. It was loosened and allowed to enter the stomach. The child recovered without ill effects.

La Crosse—Just one week from the hour it was mailed, Dr. W. A. Anderson, La Crosse, former mayor, received a letter from his son, John W. Anderson in Honolulu.

Merrill—Edwin Seger, 17 year old boy, slayer of John Schilke, night watchman of a mill at Merrill, was sentenced to twenty years in the state penitentiary at Waupun after he had been found sane by Dr. Adin Sherman of the Northern hospital for the insane of Oshkosh, and Dr. E. K. Morris of Merrill. Seger entered a plea of guilty to murder in the second degree, quietly acquiescing to the charge as read by Max Van Hecke, district attorney. Judge Reid admonished him to conduct himself as a model prisoner, promising if he did so, every effort would be made to shorten his sentence and give him an opportunity to start life anew. Before saying Schilke, which he did with a club to rob the watchman of a watch, Seger had deserted the United States army.

Madison—The big hay crop of last year has resulted in Wisconsin farmers having a supply of hay on hand at the present time that is larger than usual, the state crop reports service has announced. "Even with cold weather in March and April requiring heavy feeding, the amount on farms this year is more than twice as large as it was last year and twenty-five per cent above the supplies on hand two years ago," the announcement said. Pasture and hay crops for this year however, are backward throughout the state, due to unseasonable cold and dry weather. Heavy losses of pigs in the southern part of the state are reported as a consequence of the severe weather of March and April.

Superior—The fact that young couples are more inclined to buy automobiles than homes is blamed by Superior Court Judge William E. Haily for the fact that there have been 38 divorces in Douglas county since Jan. 1 and only 32 marriages. Judge Haily declared the divorce laws are not too lenient, but that it is too easy to be married. He advocates the creation of commissions in each county to pass on the qualifications of couples desiring to obtain marriage licenses. "Selfishness and the desire for pleasure lead to innumerable divorces," he says. "Poverty and unemployment are also important causes."

Wisconsin Rapids—The post office from third to second-class rating when the cities of Grand Rapids and Centuria were consolidated, under the postmastership of Albert L. Fontaine, will enter the first class July 1 with Mr. Fontaine again at the head of the office. The amount of business done through the local post office since Mr. Fontaine took office March 1, 1922, has been far greater than during any previous period of the same duration. CHAPTER VIII.—Continued.
"Did you disturb the body?" was the next question.

"Why Did You Think He Killed Himself?"

that goes, I know of no reason why he should have wanted to take his own life.
The next questions were along the line she had suggested by her answers.

GAVE FINE EXAMPLE OF RED TAPE

French Official Surely the Limit in His Demands on Senders of Message to Pope.
A diocesan congress at Marseilles recently resolved to send a message of greeting and homage to the head of the church.

The next witness was a Doctor Webster. I knew that a general physician had been called in on the morning of the crime, but had not met him. Doctor King's position was a peculiar one, as he was not only the physician who had first seen the body, but also the coroner.

In response to questions, he told how Doctor King had requested him to go to the house and examine the body, because, as coroner, King himself could not testify at the inquest. In terms more scientific than plain, he described how Slyke met his death, a death which, he said, must have been instantaneous, as the bullet had lodged in the brain.

CLAIMS AGAINST GERMANY FILED

Charges Against Berlin Government Nearly a Billion and Half Dollars.

UNCLE SAM LARGEST CLAIMANT

He Asks for \$366,113,000—Smallest Claim is for \$1—Amount Involved is Revealed in Report to State Department.

Washington, May 21.—America's bill of war claims against Germany amounts to \$1,479,064,318 as it has been presented to the mixed claims commission for settlement.

The United States government itself is the largest claimant, asking for \$366,113,000, while the smallest of the 12,416 claims filed with the commission is for \$1.

Heading the list of claims by individuals are those growing out of the sinking of the Lusitania by a German submarine. They total \$22,306,000, and may be disposed of first by the commission, Germany having admitted liability, but not in definite amount.

The stupendous total involved in the proceedings is revealed for the first time in a report made to the State department by Robert C. Morris, agent for the United States before the commission. Work on determining the amounts Germany must pay has been begun by the commission, which consists of Edwin B. Parker of Texas, American commissioner, and Dr. Wilhelm Klosselbach, German commissioner, with former Justice Day of the supreme court as umpire.

The American claims are to be disposed of without regard to the allied reparations claims. The report of Mr. Morris disclosing that the commission has entered a formal order that "the machinery provided by the Versailles treaty and the rules and methods of procedure thereunder governing the disposition of claims, including reparations claims, specified neutrality claims, claims growing out of occupation war measures to be dealt with by mixed arbitral tribunals, shall have no application to and are not binding on this commission."

The spirit of adventure, so nearly universal in youth, commonly is thwarted at every turn. Yet this is one of its finest gifts; when it has gone, life's greatest promise is past—Arthur F. Morgan.

FRUIT WAYS

In the selection of fruit do not let appearance weigh against weight and flavor. An apple of attractive skin may be flat and tasteless. In judging oranges and grapefruit, the weight, if heavy, will denote a fruit full of juice.

Thick-skinned, pulpy fruit will be light when tested in the hand. A pineapple should be heavy and its center leaves easily removed, to prove its ripeness.

Bananas may be purchased and ripened at home by keeping them in a paper bag. Bananas are not good food when firm and crisp. The skin may be black, but if the fruit is still mellow, not soft or mushy, they are in fine condition for eating. Fruit kept in the home will keep much better if separated; it is the fact of contact and often the weight pressing into the fruit which cause decay.

Wash all fruit that has been handled, such as apples, oranges or grapefruit, as well as the smaller fruits. Bananas are protected by their covering. Grapes should be dipped, a bunch at a time, into a large dish of cold water.

An abundance of fruits in season will be found to be a good investment, for the family who serves it plentifully will be less liable to disease.

An attractive way of serving bananas is to peel them at the end and, using a potato cutter, cut the fruit into balls; drop into a dish with a little lemon juice and mix well, but lightly, then sprinkle with sugar; add a little pineapple juice or a few cubes of pineapple, some marshmallow cordial and a cherry or two to garnish the top of the sherbet cup after arranging the banana balls. One thing important to remember is to remove the fibers or strings from the sides of the bananas when peeling them; this substance is astringent and causes trouble in some stomachs.

Baked Apples.—Wash and core good, flavored apples; core carefully, not to go through the apple. Fill the cavity with raisins, butter and a little brown sugar. Bake in a baking dish with a little water, basting occasionally. Serve with cream and sugar.

Fruit Salad.—Dice three or four apples, squeeze over them a little lemon juice; add one cupful of quartered marshmallows, one diced banana and two slices of pineapple, cut into dice. To a cupful of thick cream, whipped, add two tablespoonsful of mayonnaise dressing. Pour this over the salad and chill before serving.

Yes! they are here again, the long, long days. After the days of winter, pinched and white.

Soon with a thousand minstrels comes the light, the sweet robin-haunted dusk delays.

—William Dean Howells.

GOOD THINGS FOR OCCASIONS

A very attractive salad which is neither expensive nor difficult to prepare is:

Cheese Salad.—Take two tablespoonfuls of gelatin, cover with one tablespoonful of cold water, let stand to soften, then add a tablespoonful of boiling water. When cool fold the gelatin into one cupful of cream, whipped, add four tablespoonfuls of good American cheese, grated. Pour into molds and allow to stand until firm. Serve on lettuce with mayonnaise dressing.

Caramel Nut Sauce.—Take two cupfuls of dark brown sugar, one tablespoonful of butter and two tablespoonfuls of flour. Cook until smooth, add one-half teaspoonful of vanilla and any kind of chopped nuts. Serve over ice cream.

Nut Salad.—Chop equal parts of almonds, walnuts and pecans. Moistened with salad dressing and arrange on rounds of pineapple in a nest of lettuce. Serve with wafers.

Kentucky Salad.—Take one-half of a can of pineapple, cut into large pieces, dissolve one package of gelatin in one cupful of hot water, add one cupful of pineapple juice, one pineapple, sliced whole almonds, three small sweet pickles cut into very thin slices. Mold and serve with mayonnaise and whipped cream on crisp lettuce leaves.

Banana Croquettes.—Peel the fruit, scraping the banana to remove all fibers, cut off each end and dip the fruit into lemon juice, then into egg and crumbs and fry in deep fat. Serve as a garnish to the roast, surrounding it on the platter.

Molded Fish.—Butter an oval mold or a fish mold, lay in it a strip of boned fish, then a layer of buttered bread crumbs, season with melted butter, onion juice, pepper, salt and curry; add more fish until the mold is full. Moisten with half a cupful of fish stock or milk, an egg to bind the mixture. Bake one-half hour, unmold and serve with a hot tomato sauce.

Marital Reaction. Flubb—Marriage seems to exercise a sobering influence on some men. Subb—Yes; it's a sort of aftermath to love's intoxication.—From Life.

Floral. "So many girls at the dance. What a garden of flowers." "And what a lot of wallflowers," echoed Nitzwit.

Literature. "What has become of the dialect story?" "Nowadays they tell it in slang."

Evidence of Favoritism. S. P. G. of Washington reports this dialogue: "Mother," said Bobby, "does God love papa more than you?" "Why, no dear; whatever would you think that?" "Well, he gave papa gold teeth."

One Touch of Nature. Passer-by—Well, wot is it? The Bird Lover (pointing into the shrubbery)—Shh! Chickadee-dee-dee. "Aw! Peck-a-hoo-hoo—fer th' love-a-Mike, talk English!"—Life.

A Wisconsin Case. Oie G. Wick, carpenter, Highway No. 14, Box 234, Ladysmith, Wis., says: "When I awoke this morning I had a terrible catch of pain across my back. My back was weak and aching. My kidneys were weak and the excruciating pains passed too freely and contained sediment. I read of Doan's Kidney Pills and used two boxes and they rid me of the trouble."

Skin Eruptions Are Usually Due to Constipation

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus causes regular bowel movements by Nature's own method—lubrication.

Nujol is a lubricant—not a medicine or laxative—so cannot gripe. Try it today.

Now is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these hateful spots.

Simply get an ounce of Othine from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is a beautiful, clear complexion that is gained, a complexion that is sure to attract the attention of every man you meet.

Be sure to ask for the double-strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.

Making a Lawn. "My place is new," remarked a man who bought a home on Alter road, "and the soil doesn't seem to be able to produce a stand of grass. It has been told to plant out with my grass seed. When the oats come up they are to be cut off and allowed to wilt and die. But their roots help to form a sod. This was a new one on me, and I don't know."—Detroit News.

Marital Reaction. Flubb—Marriage seems to exercise a sobering influence on some men. Subb—Yes; it's a sort of aftermath to love's intoxication.—From Life.

Floral. "So many girls at the dance. What a garden of flowers." "And what a lot of wallflowers," echoed Nitzwit.

Literature. "What has become of the dialect story?" "Nowadays they tell it in slang."

WASHINGTON CO. PIG CLUB PROVES POPULAR

Forty-nine of Washington County's wide-awake, energetic boys and girls have entered the pig club week for the year 1923. These boys and girls are sold a pure bred Poland China, Chester White, Duroc Jersey or Berkshire gilt for the sum of \$15.00. This gilt, at distribution day, being about eight to ten weeks of age. These gilts are raised and records kept of the cost of producing these pigs, and they are prizes are offered. A year from now, a gilt will be purchased from each pig club member having one for sale. In this manner the boys and girls have an opportunity to sell one of the gilts in a list of boys and girls in the pig club and the breed of pig they are raising:

Chester White—Giles Wierman, Alice Luelloff, Henry Passbender, Esther Stauske, Rudolph Mayer, North Bablitz, lex Bablitz, Herbert Lee, Louis Guth, Julius Passbender, Lawrence and Milton Justman, Hilda Steffen, Arthur Wittenberger, Dorothy Thill and Edward Borlen.

ON A PERIODICAL

The above heading embodies an expression that used to be heard once in connection with the follies of some of our less careful citizens.

This article, however, will constitute a very sober appreciation of weekly journals in general and two weekly journals in particular.

There is published in New York a weekly news review called TIME. It is a new publication but in its policy, style and make-up, in the thoroughness with which it collects and presents the news of the day, in its brevity and cleverness of news treatment it is altogether the most brilliantly conceived and executed publication in America.

TIME more than any other periodical resembles a newspaper like THE KEWASKUM STATESMAN although it is gotten out in magazine form. Its immediate popularity proves the fact that people are devoted to publications that really serve.

Someone has said that in large cities the future belongs to motion picture dailies similar to the news films you now see. It is said the daily newspaper as we know it will vanish. This may be true of large cities but not of the smaller communities. The weekly newspaper is particularly a chronicle of personal comings and goings and doings with the important news of the world briefly and interestingly presented.

As long as the world rolls on folks will be interested in what their neighbors are doing and because the weekly newspaper is the mirror of neighborhood life it will persist.

NEW FANE

In a game which was played at Boltonville last Sunday, the New Fane team quit before the full nine innings were played. The umpiring of the visitors was absolutely rotten. In the fifth inning a Boltonville batter was hit by a batted ball and according to rules was out as called by New Fane umpire. In the next inning Garber batting, was hit by a batted ball but which happened to be a foul, the umpire allowed a fifty-fifty proposition on his decision. The same thing happened in the fifth inning, which resulted in the game breaking up in a row. Next Sunday New Fane will play the strong Waubesa nine. Be on hand and see a clean game. This game will be full of thrills.
