

STATE HIGHWAY COMMISSION TO TEST TRUCKS

Madison, Wis., Aug. 28—Equipped with an apparatus called a loadometer, which a truck driver carries on the road, employees of the State Highway Commission are testing a campaign to enforce the law which limits the loads on motor trucks. The loadometer is a device which is attached to the front of the truck and which measures the weight of the load which is carried on the truck. The loadometer is a device which is attached to the front of the truck and which measures the weight of the load which is carried on the truck.

The terms of the state law, which limits the loads on motor trucks, are classified as follows: Class A, trucks carrying a load of not more than 10,000 pounds; Class B, trucks carrying a load of not more than 15,000 pounds; Class C, trucks carrying a load of not more than 20,000 pounds. There is a penalty for exceeding the limit based on the class of the truck. Heretofore it has been the custom to determine whether the load was in excess of the limit, but the loadometer will give the exact weight.

The loadometer is an apparatus which is attached to the front of the truck and which measures the weight of the load which is carried on the truck. The loadometer is a device which is attached to the front of the truck and which measures the weight of the load which is carried on the truck.

DEATH CALLS BATAVIA PIONEER

On Friday, Aug. 27, 1925, death called to her final reward, at the home of her daughter, Mrs. Albert Eberhard, Mrs. Bertha Louisa Maria Schneider (nee Treshel), at Batavia, after an illness of three years with a complication of diseases brought about by the infirmities of old age. Deceased was born Sept. 19, 1851 in Germany. In 1866 she came to America with her parents and settled at West Bend, where they resided for a number of years, when they moved onto a farm in the town of Scott. On July 6, 1876 she was married to Ernst Schneider, who preceded her in death in 1922. Five children were born of this union, three of whom survive as follows: Mrs. Albert Eberhard, Mrs. Maria Goede and Mrs. Louis Habek. One son and one daughter died several years ago. Besides these she leaves, 15 grand children and 2 sisters and 1 brother. Mrs. Schneider had attained the age of 73 years, 11 months and 8 days. In 1912 Mr. and Mrs. Schneider retired from farm life and moved to the village of Batavia where she has since lived. She was a loving and kind mother and a good neighbor, giving a helping hand to all in need. That she was well liked and honored was demonstrated by the large attendance at the funeral. The funeral was held on Sunday, Aug. 30, with services in St. Stephen's church, Batavia. Rev. Gruell officiated. Burial was made in the congregation's cemetery.

VALLEY VIEW

Jos. Bertram is on the sick list. Lawrence Ketter was a recent caller on friends at Lorain. Frances Mc Namara motored to Fond du Lac Tuesday. Mrs. Geo. Yankow was a Sunday caller at the John Mellen home. Ernest Angehl of Missouri is spending the week at the N. J. Klutz home. Edw. St. Mary transacted business at Campbellsport Monday afternoon. N. J. Klutz was a business caller at the John Kullen home Monday evening.

PRETTY WEDDING AT ST. KILIAN

On Tuesday morning, Sept. 1, at 9:30 a. m., the St. Theresa's Catholic church at Theresa, was the scene of a very pretty wedding when Miss Rosina Ruplinger, daughter of Mr. and Mrs. John Ruplinger of Theresa, was united in holy bonds of matrimony to Leonard Flasch, son of Mr. and Mrs. John Flasch of St. Kilian. Rev. M. Jacobs of Waukesha, a cousin of the groom, read the services, assisted by the Rev. J. B. Reichel of St. Kilian and the Rev. M. J. Graff of Theresa. The couple were attended by Miss Helen Ruplinger, sister of the bride, as maid of honor and Miss Marie Flasch, sister of the groom, as bridesmaid. Arthur Mathwig was best man and Leo Strobel usher. The bride was dressed in a white satin, trimmed with Spanish lace. She wore a long tulle veil arranged with orange blossoms. And carried a shower bouquet of bridal roses and lilies of the valley. Her attendants were dressed in gowns of orchid and peach crepe and carried Columbia and Ophelia roses. Little Miss Viola Ruplinger, niece of the bride, acted as flower girl, and wore a frock of green crepe and carried a basket of pink and white asters. A reception was held at the home of the bride's parents where 60 guests were entertained at dinner and supper. The couple are well known and highly respected young people and have a host of friends who join in extending best wishes for a happy and prosperous married life. Mr. and Mrs. Flasch left on a trip to northern Wisconsin and Minnesota. They will be at home after Sept. 29 on the groom's farm at St. Kilian.

WAYNE CENTER

Mrs. Rudie Hoepner spent a few days with relatives at Theresa. Quite a large number from here attended the State Fair at Milwaukee this week. Miss Myrtle Hundertmark of Mayville spent over Sunday with Mr. and Mrs. Art. Schmidt. Mrs. Oscar Martin and family of Milwaukee spent a few days with the John Werner family. Mrs. Ralph Petri and family and Mrs. Rudie Kullman spent Monday at Jackson with relatives. Mr. and Mrs. Rudie Hoepner spent Sunday afternoon with Mr. and Mrs. Gene Klink at Ashford. Mrs. Joe Meinhardt and son Jacob spent Saturday with her sister, Mrs. Peter Schommer. Harold C. Johnson was a business caller at the Francis Mc Namara home Monday noon. Mr. John Uelmen of Green Bay, who spent the week with relatives here returned to her home Monday. Mrs. Bess Peters and Mike Kinney of Byron were Saturday and Sunday guests at the Edw. St. Mary home. Mrs. N. J. Klutz and daughter Monica were Tuesday visitors at the Wm. Campbell home at Campbellsport. Mr. and Mrs. Harold C. Johnson and family attended the Budahn family reunion at Lakeside Park, Fond du Lac, Sunday. Mr. and Mrs. Gust. Urban and family motored to Fond du Lac Sunday, where they spent the day with Mr. and Mrs. K. Moore. Mr. and Mrs. Henry Feuerhammer and son of Elmore were among the guests at the home of Mrs. Tena Butzke Saturday evening. Mr. and Mrs. H. C. Johnson and Miss Lucile Wrucke of Campbellsport were Friday evening callers at the Sam Grossen home at North Ashford. Mr. and Mrs. Otto Budahn and daughter Winagone of Waupun and Mr. and Mrs. Louis Budahn of Kent, Ohio were guests at the Harold C. Johnson home Tuesday. Mr. and Mrs. Le. Knickel and daughter, Mrs. Grace Tuttle, Clara Stafford and Mrs. Walter Henke and daughter Beverly of Fond du Lac and Mrs. Anton Brugger and daughter Evelyn and son Harold and Ida Seemelt of South Eden were Friday afternoon guests at the John Thomas home.

CAMPBELLSPORT DEFEATS OSKOSH

Campbellsport defeated Oshkosh in a thrilling game of base ball at Oshkosh last Sunday, the game was witnessed by the largest crowd of the season. Neel and Sammesfield were the Oshkosh battery, while Dargen and Schramm performed for Campbellsport. Chilton will play at Campbellsport next Sunday in a league contest. The game promises to be a hummer for if the Belles win they have a chance of getting out of the cellar. Dargen, crack spitball artist will again pitch for the Belles. The largest crowd of the season is expected. Hess will handle the game. Rumors are that big league scouts are keeping a close eye on certain members of the Eastern Wisconsin league players. Elliott, the crack pitcher for Plymouth is one being sought by the big leagues. Everybody in this community is pulling hard for him to make good. Here is wishing you good luck Bert.

TOWN OF ASHFORD MAN LOSES EYE

Edward Emmer, aged 35, who resides in the town of Ashford, met with an accident last Friday, while operating a stone crusher near Waupun, which resulted in the loss of his left eye. With Mr. Emmer was Clarence Berg, who lives in the same township. The accident occurred at 8:30 a. m. He was taken to the St. Agnes Hospital, Fond du Lac, where he received medical attention. Mr. Emmer is a married man and the father of five children.

ATTENTION LADIES

Forty-eight women are wanted to take part in the pageant of Washington county to be held at the night fair at the Washington County Fair, Sept. 14-16. A number of girls from this village have already volunteered, and are working on one of the scenes of the pageant. All those desiring to enter notify Mrs. E. L. Morgenroth not later than Tuesday noon, Sept. 8th. Remember the Washington County Fair is your fair, and in order to make this pageant a success, it is urgent that all who can, take part in the same.

EV. PEACE CHURCH

Sunday school will be held at 9 a. m. Services will be held in the afternoon at 2:30 o'clock. Rev. Kuenne of Silver Creek will preach.

EXCELLENT CAST WITH JOHNNY HINES

Sometime ago when Richard Barthelmess was awarded the Photoplay Medal for his feature "Tolable David" everybody felt that the award was a just one, not only because of its star's portrayal but also because of the splendid acting of his supporting cast, among whom was Warner Richmond, who enacted the part of Dick's elder brother. Admitting that Dick's share of the honors was a most deserved one, it is only fair to state that his supporting cast was of such excellent material as to give it more than passing mention for its efforts in this outstanding production. Warner Richmond's part was a difficult one but he played it with a depth of understanding that was highly meritorious. This same player has also been prominently cast in "The Speed Spook" with Johnny Hines in the feature role, which comes to the Opera House Sunday.

"The Speed Spook" is reported to be the best feature Johnny Hines has made in his successful career, and it comes heralded as a feature comedy replete with action, speed, pathos, pep and politics. Warner Richmond is cast in a sinister role, and so well does he portray his part that many critics have expressed the belief that in "The Speed Spook" he outdoes even his remarkably good performance in "Tolable David."

FORMER LOCAL OPERATOR FALLS HEIR TO \$50,000

R. M. (Dick) Stapleton, who some time ago was telegraph operator at the local station, but now located at Fond du Lac, where he is a dispatcher for the Chicago & Northwestern railroad company, fell heir to approximately \$50,000 as the result of bequests made in the will of his late uncle Wm. Stapleton, a newspaper man in Denver, Colo. The will which was filed in probate court at Denver divides an estate of \$450,000 between eight nephews and nieces. No bequests were made to charity. Those named in the will are William Stapleton of North Milwaukee Richard and John Stapleton of Fond du Lac, Mary O'Leary of Thiensville, Margaret and Florence, daughters of James A. Stapleton, a brother of the deceased who died in Milwaukee in 1923, and Mary and Margaret Stapleton, daughters of the late Richard Stapleton of Seattle, Wash.

ST. MICHAELS

Threshing has been completed and silo filling has begun. The parochial school at St. Michaels will open Tuesday, Sept. 8th. A number from this vicinity attended the fair at Milwaukee this week. Mr. and Mrs. Louis Moll and Miss Laura and Albert Able of Cascade called here Sunday evening. Albert remained for a more extended visit. Andrew Chouts left for his home at Westboro, Sunday, after visiting a few months with Mr. and Mrs. Rudie Kullman. He was accompanied by Mr. and Mrs. Kullman.

RUN DOWN BY AUTOMOBILE

Ferdinand Feuerhammer, aged 78 years, a highly respected and well known pioneer settler of the town of Auburn, residing about two miles northeast of Kewaskum, was seriously injured on Monday morning at 6 o'clock, when he was run over by an automobile driven by Elmer Uelmen, son of Mr. and Mrs. Edward Uelmen of New Fane. Mr. Feuerhammer was driving a herd of five heifers to the pasture, when young Uelmen, who was on his way home from the Herman Bauman farm home, where he had taken his father, where the latter assisted in threshing, drove, it is reported at such a high rate of speed, that when he approached Mr. Feuerhammer, could not stop his car in time to avoid the accident, and as a result ran over Mr. Feuerhammer, breaking his left leg, and splitting a bone from the ankle up, springing the ankle, and inflicting severe wounds on his right shoulder, hip, and hand and cutting a deep hole on the top of his head. After hitting the unfortunate man the car struck one of the cows, breaking its leg. The animal had to be killed. Mr. Feuerhammer, who was rendered unconscious for a short time, was carried into his house and Dr. Hausmann from this village was summoned and his injuries treated. Though Mr. Feuerhammer suffered considerably at first, he, however, is resting nicely at the present writing. Due to his advanced age, it is doubtful as to whether the fracture will ever knit together again. Mr. Feuerhammer, in spite of his advanced age, was always very active, and was able to do his daily routine of work upon the farm. He has been a resident upon the farm for 75 years, and the news of his ill luck came as a shock to his many friends, who join in hoping that he will have a complete recovery. The driver of the car escaped injuries.

CEDAR LAWN

The farmers around here commenced harvesting corn and filling silos. Mr. and Mrs. A. D. Chesley of Fond du Lac visited at the Chesley home recently. Sisters from Campbellsport have been harvesting the apples from the Chesley farm. C. H. Odekirik with a crew of men harvested the hay on the Gudex homestead this week. HEAVY LOSS SUSTAINED BY FIRES

Fire thought to have started from sparks from a chimney, completely destroyed the William Duehring cheese factory, located about a mile east of New Fane, better known as the former John Aupperle factory, on Wednesday. The fire was first noticed at 9 a. m. by Henry Bolle, cheese maker, and in an hour's time the entire building was burned to ashes. The structure was a frame building and consisted of the factory and living quarters, owned by William Duehring of Oshkosh. Henry Bolle, a married man, who resided in the dwelling part, was employed as cheese maker. Upon noticing the fire an alarm was immediately sent to the neighbors, through whose good work most of the household furniture was saved, as was also the cheese, a garage and chicken coop. The loss is estimated at \$10,000, which is partly covered by insurance. Mr. Duehring is as yet undecided as to whether he will rebuild or not.

FIRE DESTROYS BARN

Fire of unknown origin, destroyed the large barn on the former Otto Plasm farm, located one mile east of Boltonville, on Tuesday morning. Though the Boltonville and Fillmore fire departments responded promptly the fire had gained such headway that efforts of saving the building were abandoned. The entire contents, grain, hay and all feed and straw stack were consumed by the flames. A machine shed close by was also burned to the ground. The farm was rented by Dr. W. M. Brach. This is the second fire within four months that Dr. Brach has suffered.

This is the second fire within four months that Dr. Brach has suffered.

FIRE DESTROYS BARN

Fire of unknown origin, destroyed the large barn on the former Otto Plasm farm, located one mile east of Boltonville, on Tuesday morning. Though the Boltonville and Fillmore fire departments responded promptly the fire had gained such headway that efforts of saving the building were abandoned. The entire contents, grain, hay and all feed and straw stack were consumed by the flames. A machine shed close by was also burned to the ground. The farm was rented by Dr. W. M. Brach. This is the second fire within four months that Dr. Brach has suffered.

BIG PAGEANT FOR COUNTY FAIR WELL UNDER WAY

Work on the pageant to be staged in the evenings of the Night Fair held this year in connection with the Washington County Fair, Sept. 14-16, has well progressed. Since the signing of the contract with the John B. Rogers Producing company of Forestia, Ohio, the largest pageant producers in the world, who will stage the production, preliminary arrangements have been under way. A pageant organization has been effected, and material on the history of Washington county, suitable to be re-enacted in the pageant, has been collected and skillfully arranged in beautiful scenes, with as much historical truth as could be gleaned from the pages of the county's history. These scenes will bring before the eyes of the spectators the deeds of those sturdy and heroic pioneers who laid the foundations on which the present structure of our county is built.

WISCONSIN HAPPENINGS

Important News of the Badger State Arranged in Condensed Form

Abbotsford—Seven persons are known to have been injured, at least a score of barns and houses and numerous smaller buildings and silos destroyed and wire service disrupted by a cyclone which swept across northern Clark county. The storm swept a narrow path about 10 miles long, razing almost every building in its path. Most of the damage was done on farms and in the outskirts of Abbotsford. Barns were leveled, cattle and horses killed, a threshing outfit on the Bright farm, near Owen, twisted and wrecked, the cheese factory of Elwin Fischer blown from its foundation and the steeple carried from St. Bernard's Catholic church, Abbotsford. Much of the region hit by the recent winter was in the path of the tornado of Sept. 22, 1924, which took 52 lives and swept across six counties in northern Wisconsin.

Madison—Nine candidates have filed for the United States senatorship left vacant by the death of Robert M. La Follette, as the secretary of state's office shows. The Republicans aspiring to the position are Roy P. Wilcox, choice of the Oshkosh convention; Robert M. La Follette Jr., the progressive's candidate; Francis E. McGovern, Edward Dittmar, Daniel Woodard and Gilbert Sillier. Others filing were William George Bruce, Milwaukee, the democratic nominee; John Work, Milwaukee socialist, and George Bauman, Milwaukee, running on the socialist-labor ticket.

Oconto—The Holt Lumber company mill, supporting practically one-third of Oconto's wage earners and business dependent on their buying power, is closed down to remain as indefinitely, perhaps permanently, according to a letter sent by President V. A. Holt to each of his employees. Giving as a primary reason the unprofitable location of the mill, Holt continues to state that, in as much as a prominent city official has made the statement that the city would be better off if the mills pulled out, his company stands ready to do so.

Maunton—Vice President Charles G. Dawes visited the early home of his forebears in Maunton and reverently placed a wreath above the grave of his grandfather, Henry Dawes, in Evergreen cemetery. Maunton honored the memory of the Dawes family, which settled there in 1880 and which gave to the nation Rufus Dawes, hero of the Iron brigade and father of the vice president.

Marquette—Severely burned by the explosion of a gasoline lamp, Leonard Bevin, 12, Middle Isle, Marquette county, died in the Montross hospital and a family of 12 children is homeless and practically destitute. The explosion took place in the basement of the home. No water was at hand and the house with all contents was destroyed.

Brownstown—Three cartloads of machinery for the new Merrill-Sale powdered milk plant being built at Brownstown have arrived and it is expected that manufacturing operations will begin on Nov. 1. A daily capacity of 150,000 pounds of milk is expected. The plant will employ about thirty people.

Coudersport—Chippewa Indians and others near Coudersport report the blueberry crop this year as one of the poorest in years. Indians as a rule make considerable profit from the sale of blueberries, but this year the crop was only about one-fourth of the usual yield and was not of high grade. Late frosts are blamed.

Madison—County ordinances on the regulation of dance halls do not apply to cities in the county which have adopted ordinances regulating dance halls, the attorney general's department has ruled.

Madison—Gov. John J. Blaine has announced that the first pardon hearings in several months would be held on Sept. 16. There were no hearings on applications for pardons during the months of July and August.

Stanley—Ira Myers, 70, Stanley, father of Ald. C. I. Myers, was killed by lightning while riding on a load of lumber. The lightning tore a small hole in the top of Mr. Myers' head and tore off part of his clothing.

Merrill—Frank Doering, Merrill, put in a bid for record production with his announcement that he had threshed an average of ninety-seven bushels of oats to the acre.

Beaver Dam—Harvesting of the 1925 hemp crop in Dodge county is now under way and indications are that the yield will be excellent. Farmers near Beaver Dam are raising over 500 acres of hemp this year, all of which has been contracted for by a local mill.

Hurley—Casar Battista, 20, and William Pachowitch, 25, were killed at the Montreal mine, three miles west of Hurley, when they were caught by a fall of dirt above the twenty-fifth level.

Madison—Mrs. Pearl R. Phillips, Madison, is the new superintendent of the Wisconsin Industrial Home for Women at Taycheedah. The state board of control announced her appointment to succeed Dr. Edna Dederer, whose resignation became effective Sept. 1.

Green Lake—Fire of an unknown origin destroyed the Pleasant Point hotel in Green Lake with a loss estimated to reach \$75,000. About 125 persons, who were in the dining room when the flames broke out, escaped.

Ephraim—Gilbert Van B. Wilkes, United States engineer, and J. A. B. Thompson, his associate, met shippers of the Ephraim district at a conference relative to the government's undertaking the dredging of Strawberry island and the Door county peninsula. No definite action was taken at the meeting, but indications were that the government would not undertake the work and the likelihood is that the Goodrich Transit Co. would discontinue its service to the ports of Ephraim, Washington Harbor, Egg Harbor and Sister Bay.

Ashland—Farmers in the Marongio valley south of Ashland are reported to be chopping down small poplar trees for the cattle, which feed on the leaves, in the absence of grass. The drought is making itself felt unusually hard in some portions of the state, and pasturage is exhausted in some places. The Marongio valley farmers, many of them coming from Finland, are trying out the leaves and twigs of young trees, having learned the practice in Finland. Cattle seem to thrive on the diet.

Fond du Lac—Huron was selected as the meeting place of the biennial convention of the Wisconsin District Educational League in 1927, at the closing session of the 1925 meeting at Fond du Lac. The Rev. Paul Prell, Shawano, was elected a member of the executive board of the Wisconsin district, together with one delegate from the Sheboygan and one from the Fond du Lac leagues. These delegates, who will become members of the executive board, will be named at a later date.

New London—A large hard maple tree was recently sold by Herman C. Hacker, of the town of Pella, Waukesha county, to J. W. Hewitt, Neenah, for \$75. The diameter of the tree was 45 inches at the stump. The butt log, 45 inches in diameter, was cut into logs 700 feet, and the three logs into 1,500 feet. The logs were hauled to Neenah by truck, where they are to be used as paper rollers.

La Crosse—Dr. H. C. Oberholser of the United States bureau of biological survey interviewed over 100 owners of overflowed land near La Crosse, preliminary to the purchase by the government of lands to make up a wild life refuge along the upper Mississippi. Dr. Oberholser said that an appropriation of \$400,000 is now available for the purchase of lands. The average price is \$5 per acre.

Baraboo—According to officials of the North Western road a number of changes are to take place in the Baraboo operating department of the road. Notice has already been given that the storeroom will be moved to Madison Oct. 1. The report that the shop supplies will be moved to New Butler is being circulated but up to the present time no official notice of the change has been made public.

Janesville—Chester Manthel, 15, for the third straight time won the ton tire championship of Rock county. His 11 Duracs checked over the scales on the opening day of the Janesville fair at 2,655 pounds. They were farrowed Mar. 8 and were from the same dam that produced the two previous county championship litters.

Hammont—Thieves stole a bag of first class mail from the Hammond station, ripped it open and left the sack near the station. The sack was overlooked when other bags were gathered up and was stolen before it was called for. There is no estimate of the value of the contents, but no registered mail was included.

Merrill—The Central Wisconsin Cheesemakers, Buttermakers and Dairywomen's Advancement association will hold its annual convention in Merrill, Oct. 27, 28 and 29. Plans are underway for many entertainment features.

Jefferson—Reed Steppenbach was fined \$50 and ordered not to operate a motor vehicle for one year when he appeared before Justice Charles Huss, at Jefferson, and pleaded guilty to a charge of operating an automobile while intoxicated.

Rhineland—While playing soldier, Marvin Kuecht, 6, member of a tourist party at one of the Onondia county lakes, accidentally shot his 7-year-old brother in the shoulder. The boys had found a revolver belonging to a guide.

Eau Claire—Eau Claire's school population has increased 152 over that of 1924, according to the school census just completed. The figures show 6,488 children of school age.

Surgeon Bay—Harvesting of Door county's bumper apple crop has begun. An unusually large yield is expected this year, owners declare, and the quality is excellent.

Tomahawk—A federal project in rebuilding Highway No. 10 from Gilbert to Tomahawk, a distance of five miles, will be completed next summer, according to H. H. Kuehling, Lincoln county highway commissioner. The work will cost \$60,000.

New London—A fire caused \$25,000 damage on Albert Jepsen's farm, five miles north of New London. The fire started in a straw stack and was blamed to a threshing crew which was working on the farm.

Rhineland—Burglars removed the safe from the office of the Onondia Retail yards, Rhineland, and conveyed it in an automobile to a secluded spot north of the city, where they opened it. A small amount in cash was obtained.

Wauzeka—R. W. Lathrop, Crawford county supervising teacher, who has been active in Junior club work in the county, has purchased a small farm near Wauzeka and has resigned his school position.

FRANCE TO SEND LEADERS TO U. S.

Caillaux Expects to Fund War Debts to U. S. Within Nine Days.

Paris.—M. Caillaux, the finance minister, expects an agreement with the United States debt funding commission within nine days after his arrival at Washington, Sept. 23.

He believes in any event the negotiations can be so nearly completed that unfinished minor points can be settled by some of his colleagues, whom he would leave in Washington. He is determined to depart from New York by the steamer France October 3, so as to be in Paris when parliament reassembles.

Unhappily having in mind the fate of the Versailles treaty, he is taking with him influential senators and deputies. His choice has been influenced by three considerations, to have first of all members powerful in both houses of parliament, next, those having special knowledge of American, and, finally, technical advisers.

The French government is convinced it is essential for parliament and the country to understand by authoritative voices what takes place at Washington when the French debt settlement comes up for discussion there. It was at first announced that M. Caillaux would proceed to the United States accompanied by only one expert and that the other members of the mission would follow at an early date. It now has been decided that he and the others will go together aboard the steamer Paris Sept. 26.

Babe Ruth, Fined \$5,000 by Huggins, Sees Landis

Chicago.—If Miller Huggins manages the New York Yankees next season I will not play with that club, I would rather retire from the game," George Herman ("Babe") Ruth was the speaker. He had just arrived in Chicago from St. Louis, where Manager Huggins of the Yankees suspended him indefinitely and fined him \$5,000 for alleged misconduct on and off the ball field.

The great slugger who knocked 59 home runs during the 1922 season came to Chicago to appeal to Baseball Commissioner K. M. Landis.

Ruth denied misconduct on or off the ball field. Sportsman's park, St. Louis, Mo.—Manager Miller Huggins of the Yanks just before the game on Saturday announced that Babe Ruth had been suspended indefinitely for "conduct unbecoming the game." He also said Ruth had "deserted the team."

In addition to indefinite suspension the Babe was fined \$5,000.

Three Judges Among 32 Persons Hurt in Wreck

Trinidad, Colo.—Thirty-two were injured, two critically, when one Colorado & Southern passenger train derailed another on a siding near Mayne, Colo. Judge Wiley Bell of Dallas, with a severed spine, is near death. Judge Kenneth Forne of Dallas also was hurt. Miss Mary White, eighteen, of Victoria, Texas, is still lying in spite of a broken neck. Physicians are battling to save Miss White. A child, Judge Kenneth Torrance of Alexandria, La., suffered three broken ribs.

Dentist, Accused of Slaying Wife, Ends Life

Los Angeles, Cal.—Dr. Thomas W. Young, dentist, forty-seven years old, passed and executed a sentence of death upon himself, abruptly terminating a sensational murder trial in which he was accused of slaying his wife, Grace Grogan Young, with lethal gas and burying her in a cistern of a Beverly Glen summer cottage. He garroted himself in his cell by twisting a radio antenna wire around his neck with a stick.

French Garrison of 700 Surrenders to Syrians

Paris.—Dispatches to Paris announce the surrender of the French garrison of 700, besieged in Suedia etadad, 60 miles north of Damascus, to the Druse rebels under Sultan El Atrash on account of lack of food and water, after 40 days of resistance. All hope of saving the garrison was lost after General Michaud's relief column of 3,500 was cut to pieces by the Druses and Bedouins on August 3.

10,000 G. A. R. Veterans Meet at Grand Rapids

Grand Rapids, Mich.—A feeding hosts of the Union 60 years ago gathered at the call of their commander in chief from 43 states to the fifty-ninth annual encampment of the G. A. R., which opened here. Ten thousand veterans attended.

Train Kills Five in Auto

Greensboro, N. C.—Five persons were killed at a grade crossing at Reidsville, near here, in a collision between the automobile in which they were riding and a Southern passenger train.

British Gunboats to China

London.—The number of British river gunboats in the rivers of China is to be increased to 15 by the shipping of two craft of this class, the Mantis and the Woodhawk via Canada.

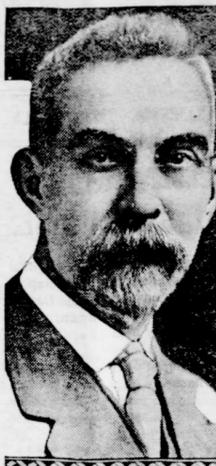

Viola Dale Gets Divorce

Los Angeles.—Viola Dale, the motion picture actress, was granted a divorce here. According to the petition filed by the screen star, her husband failed to support her according to her standard of living.

Upholds Auto Murder Charges

Washington.—Chief Justice Mc Coy of the District of Columbia Supreme court ruled that motorists responsible for fatal accidents may be tried for murder.

SENATE CANDIDATE

William G. Bruce, president of the Milwaukee harbor commission, who has been chosen by the Democratic state committee as candidate for the seat of the late Senator Robert M. La Follette.

GERMANY TO ANNEX AUSTRIA, SAYS LOEBE

President of Reichstag Says France Can't Stop Union.

Vienna.—After Germany becomes a member of the League of Nations, France will be unable to use force to prevent a union with Austria," President Loeb of the reichstag said in a speech in Vienna.

France realizes that if Germany made this union a fait accompli after the security pact is signed, it will be unable to take sanctions.

On the eve of the meeting of French, German, English, and Belgian jurists in London to draw up the draft of the proposed pact to guarantee the peace of Europe, the French government indirectly but clearly announced through newspaper monthpieces that it cannot accept the pact unless it allows France a free hand against Germany in case the latter suddenly annexes Austria.

With one indiscreet sentence Herr Loeb has made the German-Austrian union a nightmare to France, upsetting all the plans of the French government to rush through the negotiation for the pact.

"If Germany annexes Austria it will not only absorb 7,000,000 Austrians but diplomatically and militarily will control 8,000,000 Hungarians and Czechoslovakia will be three-fourths surrounded by enemies," the Journal Des Debats cried in alarm.

French Advance After Fierce Fight With Rifles

Paris.—Some of the fiercest fighting of the whole campaign marked the attack by the French Nineteenth army corps on the Brauns tribe north of Taza. The rebels, strongly backed by small groups of Rifian regulars, occupied an extremely well organized system of trenches and, despite the terrific aviation and artillery bombardment they have sustained for the last week, they were determined not to cede an inch. Largely through the aid of tanks, for the Sirocco handicapped the aviation except in the early morning hours, the infantry gained the first day's objectives, advancing three miles over a front 15 miles long.

Newton D. Baker to Aid in Campaign on Crime

New York.—Newton D. Baker, former secretary of war, is the first man named on the executive committee on the National Crime commission. Mark O. Prentiss, organizer of the commission, announced Mr. Baker's acceptance of membership after a long distance telephone call from Cleveland, where Mr. Baker lives.

Mrs. Morgan's Estate Goes to Four Children

New York.—The will of the late Jane Norton Morgan, wife of the financier, J. P. Morgan, died for probate in Mineola, N. Y., bequeaths the bulk of her property to her four children and the remainder to her husband. No other bequests are made. The value of the estate was not given. Mrs. Morgan died August 14 of sleeping sickness. All personal property and \$150,000 each is bequeathed to the children.

White House Refurnished

Washington.—The White House has been extensively refurnished and remodelled in anticipation of President Coolidge's return here. Economy in renovating the executive offices has prevailed, it is said.

Wealthy Rancher Killed

Mexico City.—Wire from Atlixco, a great factory town in the state of Puebla, says: "Robert Mauer, wealthy rancher, assassinated by agrarians. Our lives in danger. No protection."

Two Years for Auto Death

Washington.—Walter E. Roderick, a member of the Washington staff of the Chicago Tribune, was sentenced to serve two years in prison for killing Adgie Bowie, a bread wagon driver of Alexandria, Va., with an automobile.

Walsh in Audience With Pope

Rome.—Thomas J. Walsh, United States senator from Montana, was granted an audience at the Vatican by the pope.

HARD COAL STRIKE ORDERED BY LEWIS

158,000 Anthracite Workers to Quit—828 Mines Affected.

Philadelphia.—A suspension of mining in the hard-coal fields on September 1 was called by John L. Lewis, president of the United Mine Workers of America.

The suspension was called because the union was unable to obtain from the operators a 10 per cent wage increase, adoption of the check-off, equalization of wages for day workers and various other demands which they made conditional to renewal of the wage contract expiring August 31.

The order involves a walkout of 158,000 men, of whom about 10,000 will probably be left in the mines for maintenance work, such as the prevention of flooding and cave-ins.

On the basis of state figures for 1924 the suspension would affect 828 mines, operated by 135 companies, controlling, altogether, 272 collieries.

Col. Mitchell Says U. S. Holds Up Superplane

Chicago.—Col. William Mitchell, former head of the army air service, asserted that although there has been perfecting an American super-airplane capable of making a nonstop flight from the United States to Paris with a ton of explosive aboard, he has been unable to obtain government permission to make tests with the craft.

"Old fog ideas," he asserted, "are holding back the inevitable. The producers of this plane believe, and I believe, are capable of flying to Peking with a single stop at Nome, Alaska. And this, mind you, with a ton of explosive. The planes are ready. They will make 112 miles an hour for 60 hours. But we can't prove it unless the army and navy heads see fit to grant us permission."

"Ted" Coy, Former Yale Grid Star, Weds Actress

New York.—News of the marriage of Miss Jeanne Engels, the actress, who achieved an unusual success in "Rain," to Edward Harris Coy, better known as "Ted" Coy, former Yale football star, became known. The ceremony took place at the home of Mr. and Mrs. Reinhold Venable in Stamford, Conn. The couple obtained their marriage license in Stamford. Mr. Coy said this would be his second marriage. He was divorced by his former wife, Mrs. Sophie Melhorn Coy, in Paris last December. The bride gave her age as twenty-seven, and this is her first marriage. She is a native of Boston.

U. S. Charges Five With Huge Florida Land Fraud

Chicago.—Federal officials in Chicago obtained warrants for principals in what they declare is an \$1,000,000 Florida land fraud which has been clearing up in this region at the expense of legitimate transactions in the southern real estate boom.

Britain Plans to Renew Dealings With Mexico

London.—Great Britain and Mexico have agreed to resume the diplomatic relations severed when the British charge d'affaires was ordered deported by the Mexican government in June, 1924, and recalled by Premier MacDonald. Full diplomatic relations, such as are now contemplated, have not existed for more than ten years, however, since the British refused to recognize either the Carranza or Obregon governments.

Two Bootleggers Slain in Plot to Steal U. S. Plane

Chicago.—Theft of an army airplane, involving the preliminary disposition, perhaps by murder, of two rifle-armed guards, was prevented by the killing of Irving Schleg, aerial bootlegger, and his associate, Harry Berman, West side gangster.

Mrs. Morgan's Estate Goes to Four Children

New York.—The will of the late Jane Norton Morgan, wife of the financier, J. P. Morgan, died for probate in Mineola, N. Y., bequeaths the bulk of her property to her four children and the remainder to her husband. No other bequests are made. The value of the estate was not given. Mrs. Morgan died August 14 of sleeping sickness. All personal property and \$150,000 each is bequeathed to the children.

White House Refurnished

Washington.—The White House has been extensively refurnished and remodelled in anticipation of President Coolidge's return here. Economy in renovating the executive offices has prevailed, it is said.

Wealthy Rancher Killed

Mexico City.—Wire from Atlixco, a great factory town in the state of Puebla, says: "Robert Mauer, wealthy rancher, assassinated by agrarians. Our lives in danger. No protection."

Two Years for Auto Death

Washington.—Walter E. Roderick, a member of the Washington staff of the Chicago Tribune, was sentenced to serve two years in prison for killing Adgie Bowie, a bread wagon driver of Alexandria, Va., with an automobile.

Walsh in Audience With Pope

Rome.—Thomas J. Walsh, United States senator from Montana, was granted an audience at the Vatican by the pope.

RADIO

By PERCY WARREN, in Radio World.

We all know that a set which is built of expensive materials works very well and is recommended by all experts, but suppose that we haven't the money to purchase the best new parts? By that I do not mean that we mustn't use materials efficient electrically and still expect to get very good results. What I mean is that we can build our own coil at a very small cost and still obtain efficiency.

Of all the sets that give distance and volume there is not one that excels the simple regenerative type.

The set that I am going to describe is of the three-circuit variety and is a world-beater for volume and distance, even though the inexperienced person can build it.

Construction of the Coil. The first thing that you want to do before you build this set is to read every piece of data that refers to the successful operation of the receiver. You have probably read the information already. After doing this we are all set to build the coil, which is very simple, but with which a great deal of care should be taken.

Procure a form about four inches in length, three inches in diameter. We will wind the grid coil first, starting about one-fourth of an inch from one end of the form. Before doing this, better drill two holes about three-sixteenths of an inch in diameter and about one-half of an inch away from each other for anchorage. Put binding posts here and mark one G and one P plus. Now drill two holes exactly as the ones drilled on the other end.

The other materials include: 001 fixed; R2, two or three 500 ohm resistors. Now for the winding of the coil. Connect the post marked A in the diagram on coil to the antenna post marked GR in the diagram. P plus (C in diagram) goes to the active post of the socket and the plus post of the A battery, which is connected to B minus. The terminal marked G on coil goes to one end of the grid condenser and to the lead. The other end of the grid condenser goes to the grid post of the socket. The terminal marked E (in diagram E) goes to the plate post of the socket. The last terminal, marked B plus (in diagram B) goes to one end of the 001 condenser, which is connected to the B plus terminal of the A plus and the rotor plate of the condenser which is shunted across the plate coil to the B plus side of the plate coil. This wiring should be done with No. 18 bare wire or rubber-covered telephone wire. Avoid solder. That completes the winding of the set.

Aerial Advice. Your antenna should be at least 75 feet in length, well supported. Your lead-in should be put on a foot away from the wall, well insulated. Your ground should be as good as possible and should consist of 14 rubber-covered wires. The wires should be No. 14 hard-drawn pure wire. The aerial should be at least 20 feet above the level of the ground and at least 10 feet above the level of the roof. If it is possible, place the antenna wire as 25 feet, which must be done in order to get away from the ground and the qualities of the tin.

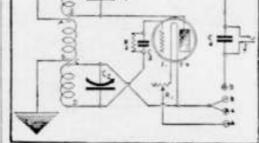

Diagram Showing Circuit of Tuned Plate Regenerative Set.

of the form. Put two binding posts here and mark posts P and B plus. On this same side about two inches away drill two more holes of the same dimensions as the four others. The beginning of the grid coil winding goes to a post marked G and lettered as D on the diagram. Continue winding 50 turns of No. 22 single cotton-covered wire and put the end of the coil to the post marked A plus. Leave half an inch and put the beginning of this new winding to the post marked GR. (B in diagram). Continue winding until 10 turns have been completed, connecting the end to the post marked A plus. (C in diagram). Leave one-fourth inch now and place the beginning of the wire to the post marked P (E in diagram). Continue winding until 35 turns have been made, connecting the end of the wire to the last post, which is marked B plus. (F in diagram). Make sure that all the windings are in the same direction and that all the posts are designated.

Panel Instructions. Lay aside the coil and take the panel. There are two controls on the front, besides the rheostat, which should be of the 6-ohm type for WD-11 or 12 tube. The panel is 7 by 10 inches and is of hard rubber, which is more efficient for radio than the beautiful-looking bakelite panel. Drill a hole for the variable condenser, 2.5-6 inches away from the end and 3 1/2 inches from the top of the panel. The templates for the condensers are in the cartons. The condenser is the only article which costs any "real money."

The dials are three inches in diameter. The same dimensions apply to the other variable condenser when drilling the holes. For the rheostat drill 1 1/2 inches from the bottom and 4 inches from the end. The other dimensions are given with the rheostat. That is all the drilling that goes on the front of the panel, except the baseboard holes, which are determined by the size of the board that you have (usually an inch-thick board about six inches in length, and having about three holes evenly spaced, 3.1-3 inches space).

On the board mount the coil between the two condensers. Don't squeeze it in.

Assembly Directions. At the extreme end of the board place the terminal strip (the strip which consists of the battery binding posts and the antenna and ground posts). Directly in back of the coil put the socket. If you deem a jack too expensive a pair of binding posts may be put on the terminal strip or on the panel and the tips of the phones put there.

When the vacuum tube does not fit properly in its socket, a toothpick or a match whittled down to form a wedge can be placed between the socket and the tubes to hold it tightly in place.

Head phones are the most sensitive when wound with a great many turns of very fine wire. Copper is the best kind of wire for this purpose, as it has a lower resistance than other forms of wire. The wire is usually insulated with a coating of enamel.

Never use hard-drawn brass wire in radio antennas. Although brass is a fairly good conductor of electricity, it has the disadvantage of becoming brittle when exposed to the atmosphere. An antenna in which brass wire is used is apt to snap if exposed to a strong wind.

The fixed condenser in a receiving set should have mica dielectrics for best results. Do not use condensers in which the dielectric is paraffin paper. For the best operation of a set it is important to make sure the condenser

The other materials include: 001 fixed; R2, two or three 500 ohm resistors. Now for the winding of the coil. Connect the post marked A in the diagram on coil to the antenna post marked GR in the diagram. P plus (C in diagram) goes to the active post of the socket and the plus post of the A battery, which is connected to B minus. The terminal marked G on coil goes to one end of the grid condenser and to the lead. The other end of the grid condenser goes to the grid post of the socket. The terminal marked E (in diagram E) goes to the plate post of the socket. The last terminal, marked B plus (in diagram B) goes to one end of the 001 condenser, which is connected to the B plus terminal of the A plus and the rotor plate of the condenser which is shunted across the plate coil to the B plus side of the plate coil. This wiring should be done with No. 18 bare wire or rubber-covered telephone wire. Avoid solder. That completes the winding of the set.

Aerial Advice. Your antenna should be at least 75 feet in length, well supported. Your lead-in should be put on a foot away from the wall, well insulated. Your ground should be as good as possible and should consist of 14 rubber-covered wires. The wires should be No. 14 hard-drawn pure wire. The aerial should be at least 20 feet above the level of the ground and at least 10 feet above the level of the roof. If it is possible, place the antenna wire as 25 feet, which must be done in order to get away from the ground and the qualities of the tin.

Trouble Hints. If you are getting noisy results first push up the prongs of your socket, clean the terminals at the end of the tube with sandpaper and use your B battery with a good ground. If, when you put the tubes across the battery, you hear a rushing noise you can be sure the battery is no good. Test the pass condenser, which is the condenser having a capacity of .001 microfarads, is often shorted.

Variable Resistances to Take Up Little Room. No two sets operate on the same value of resistance when using the distance-coupled type of antenna query amplification. The resistance should be adapted. The resistance of the coil and the changing voltage of the B battery.

Variable resistance may be used as to occupy very little room. In all commercially made variable resistances are so made that it is easy to mount them. The diagram shows a room-saving method. Use a large hard rubber or bak

PRUDENCE'S DAUGHTER

IN NEW YORK

CHAPTER II -Continued

"It's settled," Prudence's voice was muffled. "Well, you want her to go, don't you?"

"Yes, of course, I want her to go." There was a sob in Prudence's throat. "Well, then I suppose you're satisfied."

"Yes, I'm satisfied," Prudence's shoulders rose and fell, heavily, and she pressed her face more deeply against his shoulder.

On Jerry drew her quickly about on his knees, until she was huddled in his arms, heart-broken sobbing like a child, although a woman - at forty with a grownup daughter going away.

"Don't cry, Prudence," he said, holding her very close to him, his own eyes wet.

Presently she lifted her face, stammering with tears, and laughed at her foolishness, and patted away her tears with a filmy bit of lace and soft laven ridiculously serving as a handkerchief.

After that there was nothing for Jerry to do but procure the tickets for her baggage, and see that she had money enough for her needs.

CHAPTER III

Jerry Is Free

Rhoda La Faye met Jerry at Grand Central station in New York as she had promised. Rhoda surprised Jerry, puffed her greedy - she seemed quite different from the old Rhoda of college days - so brisk, so tolerant, so assertive.

"She does me a great injustice," said Jerry, smiling. "I think you will like this. It is quite nice and roomy. Remember I am your landlord, so pretend to be a little pleased with it anyhow, not to hurt my feelings."

"Listen, Angel-face," the indolent creature was saying, "will you forgive me if I desert you tonight? I have heaps to do. I have to put back grounds in three pictures that I promised word-of-honor would be ready at ten tomorrow. Besides, I need the money. I shall have to sit up all night to get them done, anyhow."

"Oh, I am so sorry! I am afraid my coming today has bothered you, and -"

"Oh, please don't say that. I love having you here. It only happens this way once in a while - sometimes for weeks I haven't a thing to do - and correspondingly little to eat," she concluded, with a light bit of laughter.

"But Theresa Brady will look out for you. She has a room at Miss Delaney's, where you're to live. And she said she would take you out for dinner, and help you get settled and everything. She is a marvelous girl - Theresa Brady - the most talented thing you ever saw. You will adore her."

the street with the stopping of the car, and after a sharp glance at the recording meter, tossed a bill to the driver, and held out a nervous, hurrying hand to Jerry.

In response to her impatient pressure on the button the door was opened a little by a lovely rose-and-cream-colored woman, in a trailing rose-and-cream-colored gown, who smiled radiantly upon Jerry, her white hand, flaunting a brave display of flashing rings and tinkling thin silver bracelets, outstretched in friendly welcome.

"The little girl from Iowa?" she said, and her voice was one of musical vibrations.

"Hello, Mimi!" said Rhoda, her brisk tone seeming almost harsh in contrast. "Theresa here? Listen, Mimi! This is Miss Harmer, Mrs. Delaney. Mrs. Delaney is your hostess. Jerry, your landlady if you wish, and also, I hope, your friend. I have to fly - honestly, it is a shame, but it's a rush order. You know how these things are, Mimi." She put her arm about Jerry regretfully. "It is a crime, I know, to leave you like this, Angel-face, but you don't, know what it is to work for your bread and butter."

"Oh, I don't mind a bit," said Jerry, bravely trying to hide her sense of loneliness and disappointment. "I shall write some letters, and unpack my bag. I don't mind at all."

Rhoda squeezed her gratefully. "You are a darling! Mimi will take good care of you. But let me warn you! Keep all your lovers out of her sight. She's a beauty-catcher! She took two from me, and three from Theresa, and heaven only knows how many from other poor working girls! Call Theresa, will you, Mimi? She is going to take her out for dinner."

Rhoda dropped a snatching kiss somewhere in the direction of Jerry's face and ran away.

Mrs. Delaney took Jerry's bag, and led her up a very narrow, very dark and very winding stairway.

"Rhoda says you are a plutocrat," she said musically. "And so we gave you our best foot forward - second floor front. Rhoda says 'Plute' is your middle name."

"She does me a great injustice," said Jerry, smiling. "I think you will like this. It is quite nice and roomy. Remember I am your landlord, so pretend to be a little pleased with it anyhow, not to hurt my feelings."

"Jerry could not but smile at the 'roominess' of which she had so bravely boasted. To the vision of her generous, Middle Western eyes, it was chokingly, crampingly small, a smallness overemphasized by its gaudy ornamenting in vivid orange and black. But Jerry said nothing at all of that, she only smiled, and assured her silver-tongued hostess that she knew she was going to be very happy in her new home."

"Here is your kitchenette," explained Mimi, opening a door in the rear. "Oh, I don't want to cook. I am going to study very hard. I shall take my meals out somewhere."

"Oh, you will not like going out for breakfast, I am sure," protested Mimi. "No one goes out for breakfast! And surely you will want your luncheon in, and your tea! One eats so little. But of course, you shall do just as you wish! But everyone prefers - But you needn't take the room at all, you know, Miss Harmer, unless you like it."

"Oh, I do like it, and I have taken it already. And now that I think of it, I am sure you are right, and I shall very much prefer having my little breakfast in. I'll get an electric grill and a percolator, and then I can have parties, too."

"I shouldn't wish you to take the room unless you like it," said Mimi with her engaging frankness. "But I am glad you do like it. I need the money. I was quite ill last year, and have had no engagement for some months, and you know how in the

profession ~~br~~ reader our salary when we are working." She laughed exuberantly for that particular foliage of the profession. "Theresa and I have this house together. A maid comes in every morning to do the rooms. Wait till I call Theresa!"

And then she swept out to the hallway, and called, her voice ringing like the cadences of a lulling song, that Miss Harmer was here, and Theresa should come down.

Jerry thought she would like Theresa. She was tall and large, yet thin, seeming taller, larger and thinner in the presence of Mimi, who was short in stature and appeared small, though with a suggestive roundness both of face and figure. Theresa was dark, unfashionably intense, with a sort of subdued or repressed ferocity in the tones of her voice, the deep lines of her face, and in every quick, sure movement. Jerry thought she seemed younger than Mimi, although more quiet, more reserved, much colder. She looked tired. There were dark circles beneath her eyes, lines of weariness in every feature. Smudges of paint showed upon her rumpled smock, and her nails were rough and ragged, obviously hit to the quick. She held out her hand, a large, thin, capable hand, stained with ink, and painted with the smokes of countless cigarettes. Jerry's met it warmly. They smiled at each other.

"It is like Rhoda to dump you off in a strange city and wash her hands of her voice as she spoke of Rhoda's vagaries forbade a suspicion of malice. "She is working wickedly hard."

"Is she doing well? Does she work very hard?" Jerry asked, with great eagerness.

"Um, both. She works like the devil at her job, to get a little money ahead so she can study."

"There's no money in art, and everyone knows it," said Mimi, mustily positively. "Rhoda and Theresa - they are both fools. I always say so. They should take up something new, something modern, something there is money in. It's all very well to talk of slaving for art - slaving for art, I call it."

Theresa laughed. "You should talk!" she said derisively. "I don't see that you've acquired such a fortune behind the footlights! But that you're behind them very often, I must say. Then, Mimi effectually silenced, she turned to Jerry. "You want to pass up a little after your journey. I suppose. Come up when you are ready, will you? I am on the third floor at the back. Be careful not to stumble, it's very dark. Will you come out to dinner with us Mimi?"

"No, thanks, I have a date. Here are the keys, Miss Harmer - this to the door downstairs, this to your room. If you want anything, don't hesitate to ask. Come, Theresa, let the poor child shake off the dust of travel."

"They went out, smiling back at her, closing the door after them. Their voices came to her from the narrow hallway.

"You look a mess," said Mimi discontentedly, but still with musical resonance. "You ought to be ashamed of yourself."

"Oh, don't bother me! I'm tired as the deuce!"

"Why don't you go to bed, Theresa? You're such a fool to slave so. And nothing to come of it, either. Fame-puff, what's fame? A bank account is the only way to judge a talent!"

"Who's your date?"

"Phil Mills. Lie down, Theresa. I'll bring you a cup of tea. And for heaven's sake, wash your hands. I was ashamed for her to see your finger nails. You're certainly a mess. Do lie down a while, you look positively yellow."

Their voices receded as Theresa drew herself wearily up the stairs, and Jerry, standing in the center of her tiny new home, looked about her with quizzical, humorous eyes, and laughed. It was ridiculously small, ridiculously gaudy, ridiculously frigid in its very flamboyance. The bathroom was no more than a stuffy dark closet. The vaulted kitchenette was a shelf, a hole in the wall.

"Oh, Prudence!" laughed Jerry, thinking of her mother, sure she was happy, but there were tears in her eyes.

"Jerry has certainly got in with some queer fish. How will she fit in with her surroundings?"

COLORFUL FROCKS FOR FALL; DRESSING SMALL MAIDEN

THE melancholy days are come - to a time in their history when it's no use trying to be melancholy any longer, for just ahead of them comes one brilliant style show after another, setting forth the most cheerful, sensible and interesting apparel for fall - not a melancholy note in it! These new fall garments put every beholder in a good humor; they reveal an advance in the art of designing and making beautiful clothes suited to the needs of American women. There may be a few freakish things among them, but the discriminating need waste no time on them, and do not.

Stylists who devote themselves to children's clothes appear to be having little trouble nowadays with the "difficult age." When little miss reaches the tin-feather stage, any-where from six to early teens, the majority of her clothes are very simply designed and sensibly made. It is their mission to give her freedom to be as active as she will, and to keep her more or less unconscious of what she wears. When occasion requires dressier things her clothes are still simple as to line, but much ingenuity is lavished on them in order to give them distinctive and charming style touches.

Beautiful Costume for Fall.

rosewood, reddish purple, several strong blues and soft rose shades, warm browns and golden pheasant, and with them are navy, gray, wine, fuchsia and black. Metal brocades and gold embroideries or gold buttons provide touches of splendor and are used with the proper restraint. In dresses skirt lines are fuller, but in those designed for the street the fullness is introduced by means of plaits, and the straight silhouette preserved. There are also numbers of straight-line models. Sleeves are long, in afternoon frocks often decorative, and in neck treatments there is so much variety that no one style

dominates, but the trend is toward higher neck lines. A conservative herald of fall modes appears in the tan-colored flannel dress, with navy figures, shown in the picture. It is bordered in dark red, the border outlining the skirt, which is split at the sides and finished with red buttons. The narrow girdle is made of the figured flannel.

Suitable for Miss Six-to-Tweave.

provides adornment and furnish color for the trim dress at the right. "Paris" is written in the clever strap which extends across the "V" shaped neck opening and slips through a slash at one side.

Tub frocks, for every-day wear fill much more of the horizon in children's styles than their dressier things. These, in gingham, cotton broadcloth, English prints and other dependable weaves, are popular in simple dresses with bloomers to match.

Boleros
Owing to the shorter waistslines, the bolero effects are coming into more prominence for both woollen and silk costumes. These short coats, for that in effect is what a bolero is, reach only to the waistline. Many dresses now have straight backs but a bolero effect in front.

Colorful Wedding Gowns
Color, which is conquering the world, has not been omitted from the modern wedding procession. A faint tone of blush pink appears in some wedding gowns and even in the veil.

Bows Everywhere
Bows are a prominent form of trimming. Everything that is capable of being tied is made into attractive

bows. The scarfs on coats are tied in becoming bows on the left side. Russian caulkin shoes are also made to feel this bow tendency. Smart booties show walking shoes as well as dress shoes finished with tailored and novelty bows.

The KITCHEN CABINET

And this for comfort thou must know. Times that are ill won't still be so. Clouds will not ever pour down rain. A sultry day will clear again. -Herrick.

SOME GOOD THINGS

When serving fried chicken and not to have it too dry, brown it as usual, then add a tablespoonful of water, tightly cover and let the chicken steam for a long time. A deep Scotch kettle is the best for all such cookery. Season well after it has been partly cooked. Meat cooked in this way will be moist, tender and of a very pleasing flavor.

For an old fowl, roll in seasoned flour, fry until brown, then cover with sweet milk and bake in a moderate oven until the milk has been nearly absorbed and the chicken tender.

Chicken au Lait. - Take a five-pound fowl, one quart of milk, one small onion, one tablespoonful of flour, one egg, one stalk of celery, one small piece of bay leaf, four tablespoonfuls of butter, one teaspoonful of salt, one-half teaspoonful of pepper and one-half cupful of cream. Put the milk and seasoning vegetables over the heat and simmer for 20 minutes, then remove the vegetables. Add salt, pepper and two tablespoonfuls of butter; let stand where it will keep hot. Prepare the fowl for roasting and stuff it. Brush with butter and dredge with flour, then place in a deep pan and brown well all over. When nicely browned, cover the chicken with the milk, cover the pan and cook slowly until the fowl is tender. Remove the fowl, strain the broth, thicken with a tablespoonful of flour, add a beaten egg, and one-half cupful of cream very slowly to the strained gravy.

Jellied Philadelphia Relish. - Take two cupfuls of chopped cabbage, one-half of a green pepper chopped, one-fourth of a cupful of brown sugar, one-half teaspoonful of mustard seed, one-fourth teaspoonful of celery seed, one-fourth of a cupful of vinegar, one tablespoonful of gelatin and one-fourth of a cupful of water. Soak the gelatin in the cold water, set in hot water, then add the other ingredients.

Nantucket Buns. - Scald a pint of milk, add four tablespoonfuls of butter, and when cool enough a cupful of home-made yeast, a teaspoonful of salt and flour to make a batter. Let rise over night, add two beaten eggs in the morning, one and one-half cupfuls of sugar, a half-cupful of currants and flour to mold. Cover and let rise, make into buns when light bake in a moderate oven.

Filling. - Boil together one cupful of sugar, one-half cupful of water until it forms a thread. Pour the hot sirup over the stiffly beaten egg white, beat until thick, then add one-half cupful of chopped peanuts, one tablespoonful of lemon juice and one-half cupful of prunes cut into fine pieces. Beat until thick enough to spread.

Ginger ale added to grape juice, just as it is ready to serve, well chilled, is a most delightful drink.

This is Canning Time.
They are fortunate who are able to obtain wild fruit to can, as the flavor is especially fine. Wild raspberries, strawberries, blueberries, blackberries and plums give quite a variety for the winter fruit closet.

Wild Plum Preserves.
- Weigh carefully ten pounds each of plums and sugar; do not prepare more at one time, lest the fruit crush and its appearance be spoiled. Add three pints of water to the sugar and cook until clear, removing the scum but not stirring the sirup. Add a teaspoonful of soda to six quarts of water, and when boiling hot drop in a few plums at a time until each carcass open, then take out with a wire dipper before any of the pulp escapes. Place the plums on a platter to avoid crushing, then add to the sirup, a few at a time, until tender enough to pierce easily with a straw or toothpick; place in a stone jar. Repeat until all are cooked, then boil down the juice to a thick sirup and pour it over the fruit. Cover the jar with a cloth and paper and keep in a cool place.

Tomato Jam. - Put into a preserving kettle seven pounds of ripe tomatoes, three pounds of sugar, one pound of seeded raisins, one pint of vinegar, one lemon, two teaspoonfuls of cinnamon, two of cloves and a few dashes of cayenne pepper. Cut the fruit fine and cook until it forms a thick jam. Seal in glasses with paraffin. Serve as a conserve with meats. This will be well liked.

Wild Grapes for Winter. - Carefully wash and remove all stems from well ripened wild grapes. Place a layer in a stone jar, then a layer of sugar, repeating until all are used. Cover with a double thickness of cloth and tie a newspaper over that. Keep in a cold place. The grapes cure themselves. Cultivated grapes left on the stems are treated in this same way and keep their delicious flavor. Huckle and blueberries, too, may be treated in the same way.

Effect of Altitude
There are two theories as to why flying sickness. The French school holds it is caused by shortage of oxygen, while the Italian school maintains it is due to lack of carbonic acid in the blood at high altitude.

Despotic Regulations
In ancient Filipino laws, payment of money exonerated the most heinous crimes. Chieftains were absolute. "Ye shall obey" is an injunction to the common man very frequently repeated.

Wily Butcher Knew What He Was About

A good story is told in Tamworth, Warwickshire, England, whence came originally the famous Tamworth herd of swine. During the year 1805 a gentleman was exhibiting at the door of an inn a trotting mare, when a butcher of the town, stepping up, offered to trot his black pony against her for \$125. A smile of contempt was the only notice he at first received. However, the knight of the clever peasant, in his original offer, the bet was accepted. And the next morning appointed for the match, four miles from the town, the butcher appeared at the starting post mounted on his black pony with his tray in front of him and brandishing a small narrow-bone. He was allowed the start, when immediately afterward, as his competitor was rapidly passing him, he rattled a flourish upon his tray, which had the instantaneous effect of frightening the high-mettled mare into a gal-

lop. This was repeatedly the case, and as often, according to the etiquette of trotting matches, was the hot-hasty mare obliged to stop and turn round. Thus, ultimately, the black pony won in hollow fashion.

Japanese Constitution

The constitution of Japan was not patterned after that of any other country. It was promulgated in 1889 and was formulated by Prince Ito, who, after investigating the constitutions of the various nations, adopted the constitution of Japan largely after the Prussian. It is divided into 76 articles and provides for a law-making body of two chambers, the house of peers and the house of representatives. The emperor convokes, opens and closes the diet, has all executive authority, and all laws are submitted to him for sanction.

Longevity From Sap?

Longevity through the utilization of sap from trees as a food for human beings is the theory of an Oregon scientist, who is investigating whether there is any foundation for a myth that the ancients who lived to a great age drank the sap of trees. Man must be satisfied with a life of seventy or eighty years, while a redwood tree in California, which was a seedling 525 years before Christ, goes on living at 2,500 years of age, he reasoned. If this scientist can find and isolate the long-life substance in the California redwoods, he believes he will cure something better than a gland cure for restoring youth, and prolonging life, says *Copper's Weekly*.

SEMI-ANNUAL
REMNANT SALE

Friday and Saturday, Sept. 4 and 5

After our Summer sales hundreds of bright new Remnants have accumulated. Remnants of Silks, Ribbons, Wool Dress Goods, Towelings, Drapery Goods, Cotton Crepes, Ginghams, Percales, Sheetings, Etc., Etc.

Odd lots of Children's Hosiery, Summer Sweaters, Underwear, Lace Curtains at savings of 1/4, 1/3 and 1/2 less than their regular values

School Supplies at Special Prices for Friday and Saturday, September 4th and 5th

Buy your school needs here for less money.

TABLET SPECIAL—Extra thick Beats All Tablet for pencil, 200 sheets, regular 10c tablet. Only one to boy or girl. For Friday and Saturday only **6c**

Special Values in Boys' School Suits, Boys' and Girls' School Shoes and Oxfords, Boys' Shirts, Blouses, Knickers, Etc.

Grocery Specials for Friday and Saturday

Oatmeal—Small package	10c	Catsup—Monarch brand, 14 oz.	21c
Soap Flakes—Large package	21c	O'Cedar Polish—30c size	23c
Naphtha Soap—Feis 6 bars for	32c	O'Cedar Polish—90c size	46c
Matches—H. F. Q. 7c package at	5c	WINGOLD FLOUR—Made of old wheat. Every sack guaranteed.	
Monarch Cocoa—Full 1-pound can at	35c		
Baking Powder—25 ounce can K. C. brand	19c

Store Open Saturday Evening WEST BEND, WIS. Store Open Saturday Evening

NEW PROSPECT
Mrs. J. Sabolke is spending a week at Kekoske.
Mr. and Mrs. J. Tunn spent Monday at Fond du Lac.
Emil Bartelt spent Sunday with relatives at Mayville.
Wm. Becker of Waucousta was a village caller Tuesday evening.
Dr. J. H. Welt and son of Campbellsport were callers here Tuesday evening.
Mrs. James Calhoun of Shawano spent a few days with Mr. and Mrs. J. F. Walsh.
Miss Cordell Bartelt spent over Sunday with Miss Bernice Raymond at Campbellsport.
Mr. and Mrs. E. W. Becker and family visited Sunday with relatives at Sheboygan.
Mrs. J. W. Dunn of Lake Forest, Ill. spent the past week with her sister, Mrs. J. F. Walsh.
Mrs. Augusta Krueger returned Friday evening from a week's visit with relatives at Cascade.
A large number from here attended the mission feast at St. John's Luth. church at New Fane Sunday.
Mr. and Mrs. H. Opeorth and son Alex of West Bend spent Sunday with Mr. and Mrs. Edgar Romaine.
Huro Hoffman, wife and daughter Dorothea spent Saturday and Sunday with the O. M. Johnson family.
Mr. and Mrs. Phil. Koch and daughter Merriel of Lake Seven spent Tuesday with Mr. and Mrs. W. J. Romaine.
Mr. and Mrs. Richard Trapp and children Gerald and Virginia spent Wednesday with relatives at Fond du Lac.
Mr. and Mrs. O. M. Johnson spent Monday with the latter's father, Ferd. Feuerhaumer and family near New Fane.
Mr. and Mrs. Hilbert Hundt and son of Chicago left Tuesday for their home in Chicago, after visiting a week with the O. M. Johnson family.
Mr. and Mrs. J. P. Uelmen and their guests Mrs. Geo. Schneider and children spent Tuesday evening with Mrs. J. Janssen at Beechwood.
Mrs. A. G. Bartelt and grandsons August and Lyle Bartelt visited Friday with Mr. and Mrs. Robt. Bartelt and family at Kewaskum.
Mr. and Mrs. Peter Uelmen of Campbellsport, Mrs. Geo. Schneider and children Margaret and Jackie of Oshkosh spent Sunday with Frank Bowen and family.
Louis Arimond, sister Hazel and friend of Milwaukee visited Sunday with their aunt, Mrs. Anna Romaine. Mrs. Romaine returned with them to attend the State Fair.
Mr. and Mrs. W. A. Krueger, Mrs. Geo. Schneider and children of Oshkosh, Mrs. Monroe Stahl, daughter Eunice and Ed. Stahl of Beechwood spent Tuesday with Mr. and Mrs. J. P. Uelmen.
Dr. R. Frohman of Birnamwood spent Sunday and Monday with Mr. and Mrs. G. M. Romaine. He was accompanied home by his wife and children, who spent the past week with her parents and other relatives here.
Mr. and Mrs. Haupt and family of Milwaukee spent Saturday and Sunday with John Tunn and family. They were accompanied home by Gust and Emil Flitter who spent the week with relatives there and also attended the State Fair.

CASCADE
Tom Gilboy was a Sheboygan caller Saturday.
Miss Franc. Duherty returned to Milwaukee Saturday.
Miss Alice Salter of Osceola is a guest of Virginia Schadok.
Mrs. J. W. Wenstadt of Milwaukee spent Sunday with relatives.
Mr. and Mrs. J. Crosby of Waldo spent Sunday in the village.
Ralph Kohlman purchased a new Essex coach from A. Suemnicht.
Francis Crosby of Waldo was a guest of Francis Murphy Sunday.
Mrs. J. Regan and niece of Milwaukee spent Sunday with Rev. D. Regan.
Mrs. F. J. Murphy, daughters Catherine and Alice were Plymouth callers Wednesday.
Miss Audrey Darling spent the past week attending teachers' meeting at Fond du Lac.
School will re-open here September 18, with Misses Mae Swann and Viola Petznick as teacher.
Mr. and Mrs. M. F. Mc Grath of Milwaukee were week-end guests at the Mrs. F. J. Murphy home.
Mr. and Mrs. M. F. Mc Grath of Milwaukee, Mrs. F. J. Murphy and family and Mr. and Mrs. J. Godfrey were entertained at a supper at the Morgan home Sunday evening.
On Sunday Rev. D. H. Regan delivered his farewell sermon at St. Mary's Catholic church. His parishioners sincerely regret his departure. Rev. Regan has been the beloved pastor of St. Mary's and St. Michaels congregations for the past seven years, and was very much beloved by his congregations and the entire community. On Tuesday evening at the church lawn a farewell was given the pastor. He will go to Berlin, he will be succeeded by Father Leo Schiffer at present in Milwaukee.

ROUND LAKE
Mrs. Wm. Hennings and son Clyde were Fond du Lac business callers on Monday.
Norman Seifert is assisting his brother-in-law Geo. Scholtz filling out to this week.
Chas. Romaine of Fond du Lac is spending several weeks at his cottage at Long Lake.
Mrs. Wm. Hennings visited her sister Mrs. M. Calvey and family Thursday afternoon.
The party given by Hilda Kutz Sunday evening at Round Lake hall was largely attended.
Mr. and Mrs. A. Seifert and son Norman were business callers at Fond du Lac Thursday.
The Misses Viola Miselfeldt and Ronda Peterson of Fond du Lac visited Miss Beulah Calvey the week-end.
Mr. and Mrs. M. Calvey and family and Clem Shermeister visited Friday with Mr. and Mrs. Geo. Buehner and family.
Mr. and Mrs. Fransway and Mr. and Mrs. Edgar Meyer and daughter June and Miss Gladys Seifert of Milwaukee visited the week-end at the A. Seifert home.
A large crowd attended the dance at the Round Lake pavillion Saturday evening. Next Sunday, Manager Fransway will give away a 14 kt. blue white diamond ring, purchased from a Milwaukee jeweler. The ring will be made to fit the lucky winners finger. Don't forget the date, Sept. 6th, at Round Lake.

Easy Street

Saving is largely a matter of habit. People who save and those who don't—both may have trouble in making ends meet. The difference is those who don't save never reach EASY STREET at all. There are too many turns in the road. Don't pass up the STOP and SAVE signs. They will help you to reach EASY STREET.

NOTICE TO CREDITORS
Washington County Court—In Probate.
In the matter of the estate of Margaret Kirsch, late of the Town of Wayne, in the said county deceased.
Letters testamentary on said estate having been granted to Greger Kirsch and Anna Kirsch and an order allowing and limiting the time for creditors to present their claims against said estate and fixing the time and place for examining and adjusting the same having been entered:
Notice is hereby given that creditors are allowed until the first Tuesday in January, 1926, to present their claims against said deceased to the court for examination and allowance, and that said court will on the third Tuesday of January, A. D. 1926, at the probate office in the city of West Bend, in said county, examine and adjust all claims so presented against the said Margaret Kirsch, deceased.
Dated August 18th, 1925.
By order of the Court
P. O'NEARA, County Judge
H. P. Schmidt, Attorney

MCCORMICK-DEERING

There is a Reason!

There is a reason why McCormick-Deering Tractors are increasing in popularity by leaps and bounds. There is a reason why these sturdy, completely equipped tractors are rapidly replacing cheaper tractors in all sections of the country. There is a reason, also, why the farmers and orchardists of one county in California bought, during 1924, over a hundred McCormick-Deering tractors—more than all other makes combined in the same period.

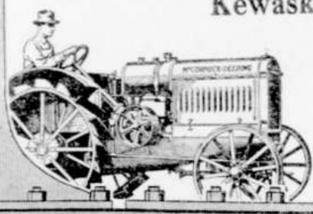

The reason is that McCormick-Deering 10-20 and 15-30 Tractors are the long-lived kind, and are by far the most economical per year of service.

The crankshaft and crankshaft ball bearings in every McCormick-Deering are guaranteed against breakage for life. There

are ball and roller bearings at 28 points, and all wearing parts, including cylinders, are replaceable. Entire frame is in one sturdy unit. All gears and important wearing parts are enclosed, running in oil. All parts are easily accessible, easily removed. Complete equipment includes throttle governor, wide platform, adjustable drawbar, Alemite lubricating system, impulse magnet, fenders, etc. Weight is distributed perfectly for good traction and safe operation. Short turning radius for convenient handling.

All in all, the McCormick-Deering is the tractor for every farmer in this community. Let us show you what it will do for you, then we'll tell you how easily you can own one.

A. G. KOCH
Kewaskum, Wis.

Now, while you have it in mind, come in and see us about a McCormick-Deering Tractor!

"Good equipment makes a good farmer better"

SAYS:
"See Mrs. K. Endlich's ad elsewhere in this paper."

—Mr. and Mrs. Emil Schultz and family of Parkston, South Dakota, arrived here Thursday for an extended visit with Mr. and Mrs. Wm. Schultz and other relatives in this vicinity.

—Mr. and Mrs. Geo. Niebelsik of Chicago and Mr. and Mrs. Martin Knickel and son Bruce of Campbellsport spent Sunday with Mrs. Elizabeth Schaefer and other relatives here.

—Mr. and Mrs. Henry Backus Jr., motored to Watertown Sunday and returned Tuesday. They were accompanied back by Mr. and Mrs. Geo. E. Rau of Chicago, who are spending the week here.

—Tomorrow, Sunday, a band tournament will be held at West Bend, sponsored by the West Bend juvenile band. It is expected that five brass bands in the county will participate in the celebration.

—Miss Edna Wollensak left for her home in Milwaukee on Tuesday, after spending a week with the Hy. Ramthun family. She was accompanied by Miss Loretta Ramthun who visited a few days with her.

—Miss Regina Rothlinger returned here Tuesday, to resume her duties as maid at the Republican House, after spending a two weeks' vacation with her parents in Ashford and with relatives in Minnesota.

—Mr. and Mrs. Paul Tump and family of Milwaukee spent Sunday with Mr. and Mrs. Louis Brandt and family. Mr. Tump returned home Monday, while his family remained here for a more extended visit.

—Mr. and Mrs. William Lindstrom and family of Milwaukee spent Sunday with Gerhard Keller and son here. Mr. Lindstrom returned home the same day while his family remained here for a more extended visit.

—Albert Koehn of Appleton spent Sunday with Mr. and Mrs. C. C. Schaefer and family. He was accompanied home by his wife and Mrs. A. Stokes of Oakland, Calif., who visited a week here with the Schaefer family.

—Mr. and Mrs. John Kreutzer Jr. and daughter Dolores, Mr. and Mrs. Louis Stini and sons Louis and Ralph and Miss Agnes Krueger, all of Ashford and Geo. Krueger of Eden spent Sunday with Mr. and Mrs. Oscar Wittman.

—Prof. A. L. Rich and wife of Winneconne spent Monday evening in the village, coming here to get the remainder of his furniture which he had stored in the Edw. F. Miller furniture store. Mr. Rich was formerly principal of the local High School.

—Mrs. Anna Marie Schuster, who resides with her son Joseph in the town of Barton, celebrated her 100th birthday anniversary last week Thursday. In spite of her advanced age she still has a bright intellect and is able to be up and around every day.

—Nicholas Stoffel and brother Clarence were at Milwaukee Sunday where they attended the christening of the former's infant son at the St. Katherine's church. The little fellow received the name of Gerald Clarence. The sponsors were Clarence Stoffel and Miss Priscilla Marx.

—All students who are contemplating on attending the Kewaskum High School the coming term, and who are looking for a boarding place, will kindly call on any member of the school board who will gladly direct them to a place. There are a number of places to stay, and by calling on the board will save them a great deal of time and worry about finding a place.

—Miss Laura Brandstetter who has been employed as saleslady at the A. G. Koch store, resigned her position Tuesday. She left the same day with her sister, Mrs. Edward Krause and husband for Milwaukee, where they visited relatives until Friday, when they left for the latter's home in Palm Beach, Florida, going there via automobile by way of Washington, D. C. Laura will visit in Florida for several weeks when she will return to her home here.

—About 150 guests assembled at the Opera House last Saturday evening where a miscellaneous shower was held in honor of the Misses Madeline Baum and Helen Fritz. Dancing formed the main pastime of the evening. At 12 o'clock a delicious luncheon was served. The brides-to-be received many valuable and beautiful gifts. The weddings will take place today, Saturday at 1:30 p. m., instead of 3:00 p. m., as announced on the invitations. This change had to be made by reason that Rev. Barth, who will perform the ceremony, will leave for Iowa on the afternoon train.

—Mr. and Mrs. A. Baker of Abbottsford and Mr. and Mrs. J. Fuller of Fond du Lac called on the Jacob Knoebel family one day last week.

—Mr. and Mrs. Jac Schlosser, sons Harold and John and Mrs. Al. Harland Baum and Helen Fritz. Dancing formed the main pastime of the evening. At 12 o'clock a delicious luncheon was served. The brides-to-be received many valuable and beautiful gifts. The weddings will take place today, Saturday at 1:30 p. m., instead of 3:00 p. m., as announced on the invitations. This change had to be made by reason that Rev. Barth, who will perform the ceremony, will leave for Iowa on the afternoon train.

—Mr. and Mrs. Elwyn Romaine and family left Thursday on a trip to Birnamwood, Marinette and other places of interest in the northern part of the state.

—Mrs. A. J. Franz and daughter Cleopha left Saturday for their home in Cleveland, Ohio, after visiting for some time here with the Rosenheimer and Lay families.

—Mr. and Mrs. Albert Schaefer and family and Miss Agnes Schaefer of Milwaukee spent Saturday and Sunday with Mrs. Elizabeth Schaefer and other relatives here.

—Mr. and Mrs. John H. Martin daughter Elizabeth, Mr. and Mrs. Norton Koebbe, Miss Frances Raether of here and Mr. and Mrs. Chas. Winkelmann and family and John Van Blarmon of Milwaukee spent Sunday with Rev. P. Mohme and family at Elkhart Lake.

—Plymouth, Wis., Aug. 28—On the farmers' call board today 9 factories offered 755 boxes of cheese and sold as follows: 460 cases longhorns at 21 1/2c, 75 cases Young Americans at 21 1/2c, and 220 boxes square prints at 22 1/2c.

LOCAL HAPPENINGS

—Labor Day next Monday, Sept. 7.
—Mrs. Simon Stoffel spent the week at Holy Hill.
—Carl Schaefer was a Milwaukee visitor Thursday.
—Mrs. R. L. Davies was a Milwaukee visitor Monday.
—William Falk of West Bend was a village caller Sunday.
—Anthony P. Schaeffer was a Milwaukee visitor Sunday.
—Elmer Eberhardt of West Bend was a village caller Tuesday.
—Mr. and Mrs. Otto Graf visited relatives at Milwaukee Sunday.
—D. M. Rosenheimer was a business caller at Milwaukee Tuesday.
—Ellen Ramthun of Milwaukee spent Sunday with her parents here.
—William Buss and family of Hartford spent Sunday with relatives here.
—A number from here attended the State Fair at Milwaukee this week.
—Mrs. Nicholas Mayer and daughter Maggie spent Sunday at West Bend.

—Ulrich Kuntz of Kingfisher, Okla was a pleasant village caller Monday.
—Misses Margaret Schlosser and Ella Guth spent Sunday with home folks.
—A large number from here attended the dance at Wayne Saturday evening.
—Marvin Schaefer of Milwaukee is spending a week's vacation under the parental roof.
—Lawrence Smith of Milwaukee spent the week-end with the Simon Stoffel family.
—George Feierabend of Milwaukee spent the week with Rev. and Mrs. H. Heidel and family.
—Norbert Becker left Tuesday for Milwaukee, where he is attending the school of engineering.
—Mrs. William Windorf visited from Monday until Wednesday with relatives at Milwaukee.
—L. P. Rosenheimer left Saturday for a several weeks business trip to the State of Washington.
—Mr. and Mrs. Albert Opgenorth of Milwaukee spent Sunday with the Herman Opgenorth family.
—Fred Buddenhagen of Milwaukee spent Sunday with his family and other relatives and friends here.
—Mrs. Harold Petri of Milwaukee spent Tuesday with her parents, Mr. and Mrs. Ferdinand Raether.
—Miss Hulda Koepke of Milwaukee spent Sunday with her mother, Mrs. Mary Koepke and family here.
—Mrs. August Lay and son and Mrs. Walters of Kohler spent Saturday with the Charles Buss family.
—Mr. and Mrs. Elmer Miller and daughter and Joe Miller of Milwaukee spent Sunday with relatives here.
—Mrs. Reuben Frohman and children of Birnamwood spent last week with the Elwyn Romaine family.
—Mr. and Mrs. Julius Johnson and daughter Betty of Whitewater spent Sunday with friends in the village.
—Miss Norma Knoebel returned home last Friday after visiting two weeks with relatives at Milwaukee.

EAST VALLEY

Mr. and Mrs. Frank Rau and children of Edgar spent last week with relatives here.

Mr. and Mrs. Peter Ketter of Milwaukee spent Saturday and Sunday with Steve Ketter and family.

Mrs. Henry Thullen of Chicago, Mr. and Mrs. Nic. Hammes and children were business callers at Campbellsport Friday evening.

Mr. and Mrs. Henry Thullen of Chicago left Sunday for their home after spending the week-end with Mr. and Mrs. Nic. Hammes.

Mr. and Mrs. Peter Ketter of Milwaukee and Mr. and Mrs. Steve Ketter of here spent Sunday with Mr. and Mrs. Frank Lange at Newburg.

Mr. and Mrs. Frank Rau and family of Edgar, Mr. and Mrs. H. Rinzel and children and Mr. and Mrs. Peter Rinzel and children spent Thursday evening at the Nic. Hammes home.

MEMORIAL

In memory of Mrs. Margaret Engelmann who passed into eternal sleep one year ago, Sept. 1st, 1924:
Farewell dear mother, sweet thy rest,
Weary with years and worn with pain,
Farewell, till in some happy place
We shall behold thy face again.
'Tis ours to miss thee, all our years,
And tender memories of thee keep
Thine in the Lord to rest, for so,
He giveth his beloved sleep.
Sadly missed by the children.

Dairy Barn and Machinery Shed Carefully Planned for Small Farm

Mr. William A. Radford will answer questions and give advice FREE OF COST on all problems pertaining to the subject of building work on the farm.

By WILLIAM A. RADFORD.

Not every farm needs, or can afford, a large and elaborate dairy barn and a number of auxiliary buildings.

These stalls clean and sanitary, and the tracks extend out of the building through the side of the corner doors.

Heifer Calves Deserve Attention of Dairymen

Cut Egg Crop Short

Timothy has a good reputation, but clover gives it an added lustre.

Junior calf club activity is an avocation that may be the father of a profitable vocation.

It costs just as much to raise a 40-bushel crop as one that yields 50 bushels, so why not plant your farm to adaptable varieties?

High yields require good stands and good stands may be best secured with good seed.

Clover Mix Better Than Timothy Alone

Field of Hay Can Be Materially Increased.

Why not make it timothy and clover when planting for the next hay crop? There are three good reasons for doing so, according to A. W. Blair, associate soil chemist at the New Jersey agricultural experiment station.

First, clover enriches the soil in nitrogen, whereas timothy takes all of its nitrogen supply from the soil.

Second, the yield of hay from the mixture of clover and timothy is generally greater than from timothy alone.

Third, the mixture gives a hay having a decidedly higher protein value than timothy alone.

In 1921 the average yield of hay from four timothy plots at the experimental station was at the rate of 2,350 pounds per acre, while the average yield on four corresponding timothy and clover plots was 2,676 pounds per acre.

Fourth, the timothy and clover plots yielded a fair second cutting of hay (much richer in protein than timothy hay) whereas there was no second cutting from the timothy plots.

In most cases the percentage of nitrogen is nearly twice as high in the mixture as in timothy alone. In the 1921 experiments, the timothy plots returned an average yield of 20.5 pounds of nitrogen per acre, whereas the timothy and clover plots returned an average yield of 46.4 pounds per acre.

According to the 1920 United States census, New Jersey farmers seeded 75,000 acres of land to timothy in 1919. Had this land been seeded to timothy and clover, the yield of hay would have been materially increased and its feeding value would have been distinctly improved.

Proper Care Increases Life of Farm Tractor

Tractors, like horses, do not last long if they are neglected or abused. Some simple rules for increasing the life of these machines as well as for reducing their repair bills are offered by E. R. Gross, professor of rural engineering at the New Jersey State College of Agriculture.

1. Handle the tractor as though it could feel. This will avoid many broken or bent parts.

2. Do not race the motor except when it seems necessary. The governor is intended to protect the motor when under load. The operator must throttle it when it is running idle.

3. In almost all cases move slowly instead of jerks. It is easier on the machine. This applies to shifting gears and operating the throttle and clutch.

4. Examine the machine throughout in order to detect any loose bolts. Tighten them before damage is done. This, with oiling and greasing, is as essential as the daily care given a work animal.

5. Motor repairs and adjustments such as taking up bearings, replacing piston rings, cleaning spark plugs, removing carbon, and the like, must be done eventually, but may be deferred if the tractor is carefully operated.

6. In addition to the daily care, give the tractor each winter a thorough cleaning with water to remove dirt, and with kerosene to remove grease. If it is needed, an overhauling should accompany the cleaning.

The wives of two traveling salesmen were introduced. They settled down for a comfortable talk. Servants, the weather and children were discussed, and then one wife inquired: "And what is your husband's line?"

The other wife considered before she replied: "I'm not entirely sure, but he is always talking about doing his own thing."

Mercurization is the treatment of the cotton fabric with caustic soda, potash, or some similar chemical, so as to increase the color-absorbing qualities of the cotton. It also gives it a silky gloss. The process derived its name from the inventor, John Merce, an Englishman who died in 1801.

Drowning used to be a capital punishment in Great Britain, as an alternative to execution. It was regarded as the milder punishment, and was usually administered to women prisoners. The last official drowning in England occurred in 1856, and in Scotland in 1855.

It is a curious fact, but almost seem agreed that four out of five of the storms occur in the day time and that during the day are usually the most intense and damaging. This fact is true irrespective of the sections of the country in which such storms are studied.

We cannot render benefits to those from whom we receive them, and usually administered to women prisoners. The last official drowning in England occurred in 1856, and in Scotland in 1855.

Whenever the women of the world really make up their minds to put a period to war, they can do it.—John Ruskin.

Brumante, the great Italian architect, was fifty-five years old when he came to Rome from Milan in 1498. In a short time he became the greatest master of the Roman style created from the ancient monuments.

The Buddhist religion forbids taking of life. Members of the Mount Everest expedition found the animals and birds of Tibet so tame that they entered about the party, especially near the villages.

The illusion that times that were better than those that are, have pervaded all ages.—Horace Walpole.

Whether you work by brain or hand, you need health and strength. The more than these you need moral courage. Men fail not through bodily fatigue, but because of mental lack.—Grit.

Life is troublesome, full of care, its appointment and bitterness for those that carry responsibility and realize their shortcoming. But it has its reward as great as its worries.

Girls were never admitted to the public schools of Boston until 1800. They were then permitted to go half the year in summer only.

FARM NOTES

Few farms are without cats, yet rats abound.

Timothy has a good reputation, but clover gives it an added lustre.

Put aside a few bales of fourth cutting alfalfa for the hens to pick at this winter.

Junior calf club activity is an avocation that may be the father of a profitable vocation.

It costs just as much to raise a 40-bushel crop as one that yields 50 bushels, so why not plant your farm to adaptable varieties?

High yields require good stands and good stands may be best secured with good seed.

Even better seed must be of an adapted variety if maximum yields are to result.

WRIGLEYS

AFTER EVERY MEAL

affords benefit as well as pleasure. Healthful exercise for the teeth and a spur to digestion. A long-lasting refreshment, soothing to nerves and stomach.

Big Coffee Output
Coffee produced in Colombia this year will be more than 2,000,000 bags.

QUALITY for 70 years
Our Monarch Quality Foods are not sold by chain stores.

What's wrong with this picture?
You're right! Oil doesn't run up.

But poor oil does evaporate right up and out of a hot motor. Motor Oil has the body and backbone to withstand motor heat without fatal evaporation.

A Vanishing Art
With the death of Hontio Amos, one of the last survivors of the old Wood Indians at Mississippi, the art of making the Cape Cod type of aboriginal "back basket" from white oak chips is another step nearer vanishing.

SOMETHING TO THINK ABOUT

By F. A. WALKER

WE NEED MORE THINKERS

THROWN with others, the young man or young woman very soon finds that he or she is affected in various ways by their actions.

In this manner every human in the world began the formation of character, building it up piece by piece.

WHO SAID

"A falling drop at last will carve a stone."

WHEN Titus Lucretius Caris uttered these words, he expressed a wealth of philosophy and displayed a discernment of vision that today makes his name remembered.

Lucretius is the name by which this famous Latin philosopher and writer is known.

YOUR Last Name

IS IT JEWELL?

IT IS usually agreed that this name, Jewell, has no connection whatever with Jewell, but that it is derived from the first name Jules or Julius.

The first of the name in this country was Thomas Jewell, who was born in England, about 1600.

This name is sometimes spelled Jewel and in England there was a John Jewel, born in 1522, who was bishop of Salisbury and a leader of Protestants.

Virginia Baked Ham.
Soak six or eight pounds of smoked ham overnight, drain and bring to the boiling point.

THE FAITH AT HOME

By DOUGLAS MALLOCH

I WANT the folks at home to know, whatever others say about me, that what I do or where I go, the home folks have no cause to doubt me.

I want the folks at home to feel tonight, when I go to pray they kneel, though father may be far away, there is no stain upon this day.

I want the folks at home to trust; I want it not for my sake only; for some stay home, for some folks must.

I want the folks at home to keep one joy when they lie down to sleep, the peace of knowing that the name they bear has not a mark of shame.

I want the folks at home to say, whatever others say about me, that here or there or far away, there is no need for them to doubt me.

However separations grieve, or slender hurt, if they believe, a fellow still can do his best, and not care much about the rest.

SCHOOL DAYS

Mother's Cook Book

And this for comfort you must know, things that are ill won't stir the so.

SOMETHING TO EAT

SOMETHING new is hard to find; something different will depend largely upon the ingenuity of the cook.

Pineapple Salad.
Arrange slices of pineapple in nests of head lettuce, sprinkle with cream cheese which has been put through a sifter.

Golden Dressing.
Take one fourth of a cupful each of pineapple juice, orange or cherry juice, hot in a double boiler, beat two eggs lightly, add one-half cupful of sugar, pour over the hot juice and cook until smooth; remove to a dish to cool.

Delicious Sweet Potatoes.
Peel and cook sweet potatoes, mash, using three cupfuls; add a half cupful of sugar, a fourth of a cupful each of butter, raisins, and pecans, a third of a teaspoonful of salt and a few grains of cinnamon or nutmeg.

Cymlings or Summer Squash.
Cook, mash and season them generally with butter, salt and pepper. Place in a baking dish, cover with buttered crumbs and slices of bacon.

Rolls Beefsteak.
Beat a round steak well and spread with a good seasoned stuffing. Roll up neatly and tie in shape. Put into a dripping pan with a teaspoonful of vinegar, basting frequently, with the addition of a little water.

Virginia Baked Ham.
Soak six or eight pounds of smoked ham overnight, drain and bring to the boiling point.

THE RACKET ROGUES

Of course there are a great many of them. There have to be a good many of them in order to play the game in the way it should be played.

It is called the racket game. It is not played with either one racket or many rackets. But there are plenty of players.

The rules of the game are few. In fact there is only one chief rule. If they all play this chief rule it is all that is expected of them.

The chief rule is that all should make as much noise as possible, and they play many times when no one is certain that they are playing, but when they are certain that there is lots of noise.

Those who play this game are called the Racket Rogues.

They call themselves rogues because they love to be naughty and full of pranks and rags. They adore mischief and nonsense, but above all they love noise.

They love noise so much that they could never have called themselves anything but Racket Rogues.

When there is about to be any noise anywhere some of the members of the Racket Rogues club are always on hand. They are ever ready for noise.

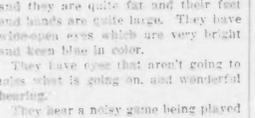

They hear some noise and some of them rush toward it and without being seen they add a great deal of noise of their own.

They laugh and talk at the tops of their voices. They shriek and yell and scream.

They move things with as much noise as possible. They do everything that they do with all the noise they can.

They walk heavily, they jump heavily. They hate quiet and stillness and silence.

The reason why only some go to join each noise they hear is that there

They Are Quite Fat.

must always be plenty of others ready to join another racket that is going on.

It would not be right for any racket to be happening without some of the Racket Rogues taking part.

They look like ordinary little fellows and they are quite fat and their feet and hands are quite large. They have wide-open eyes which are very bright and keen blue in color.

They have eyes that aren't going to miss what is going on, and wonderful hearing.

They hear a noisy game being played and without being seen they are about, adding to the general cries with their cries, too.

They hear a lot of commotion and they are on hand, too. They wear invisible suits, which means that the eyes of people cannot see them.

But they can hear them, although they do not always know it is because of the Racket Rogues.

All they know is that they hear a great racket and it seems much noisier than it should be.

It is then that the Racket Rogues are about.

Whenever you hear a great racket you may be sure the Racket Rogues are around adding their part.

Sometimes you will hear people say: "My, what a racket there is!"

When you hear people say that you will know what it means.

When some one says: "Dear me, what a terrible racket," you will understand why the racket is so great.

When games are being played quietly you will know that the Racket Rogues aren't bothering about these quiet games and that they are waiting for some excitement.

Oh, you can't mistake the Racket Rogues even if you never lay eyes on them.

You will hear them and the Racket Rogues will laugh and shout and cry: "Come on, every one of us that is here. Show what we can do. For we're the Racket Rogues, we are!"

Her Dress Was Dry
The young lady of the house looked and ill at ease.

"What's the matter, Evelyn?" inquired her father.

"Well, dad," she replied, "you might have told me that you had painted the garden seat. Fred and I sat on it last night, and Fred got his coat and trousers in a dreadful mess!"

For Pete's Sake, Hurry Up
Her Mother—Has Ferdinand any favorite song to sing while he bathes?

Mrs. Pester—When I start in to speed him up he usually tunes up with "I Hear You Calling Me."

View of Southern Cross
The Naval Observatory says if the earth had no atmosphere the southernmost star of the Southern Cross could be seen just above the horizon in latitude 27 north, but, since the atmosphere prevents stars from being seen at the horizon, it would be necessary for a few degrees farther south in order to see it.

How high a star has to be above the horizon in order to be visible depends upon the brightness of the star and the condition of the atmosphere.

The Old Standby in a New Dress

—the same dependable remedy that over a period of more than fifty years has been found so reliable in the treatment of catarrh and diseases of catarrhal nature.

The outside of the package only has been altered. To facilitate packing and reduce breakage in shipping, the paper wrapper which has identified the Pe-Ru-Na bottle for many years has been displaced by a substantial pasteboard carton.

Pe-Ru-Na cannot be made any better. Three generations of users testify that Pe-Ru-Na is the best remedy in the world for catarrh and diseases of catarrhal origin.

The remedy our fathers and grandfathers used with so much satisfaction is still the standby for the ills of everyday in thousands of American homes.

PE-RU-NA
The Original and Reliable Remedy for Catarrh

Sold Everywhere
Tablets or Liquid

Might Be Construed as "Gentle Hint"

Little Francis Irwin, film prodigy, is very partial to ice cream cones and discovered that the way to get them was to speak up on any and all occasions.

His parents often reproved him and finally, with the threat of a spanking hanging over his head, little Francis lapsed into silence.

A few days later the company went on location. Francis said not a word and when the car hesitated while the driver tried to ascertain which street to take, one of the party asked the child if he were getting sleepy.

"Oh, no," said Francis, "I was just wondering if you were looking for a drug store."

Have Antiseptic Ready
Every mother of little tots should keep an antiseptic within easy reach when children come in with bruised or cut fingers. Cleaning the wound immediately will often prevent infection.

The fellow who first discovered that honesty is the best policy had evidently tried them all.

Build of GRADE-MARKED Northern HEMLOCK

for Strength & Durability

On your Northern Hemlock studding, rafters and joists the Grade-mark (above) assures you: That they are extra standard size (more wood and strength to the piece), insuring greater strength to your framing. That they are responsibly manufactured and rigidly graded under the exacting Grading Rules adopted by this association. Add to this its other well-known characteristics—immunity to dry-rot, ability to take and hold paints and stains perfectly, and you'll appreciate the investment value of Northern Hemlock construction—framing, underflooring, sheathing, siding and exterior trim. Buy by the Grade-mark. Save money. Your Lumber Dealer will assist you to select the right grade.

ST. MICHAELS DEFEATS DUNDEE

The St. Michaels base ball team defeated Dundee by a score of 9 to 7 on their diamond last Sunday. Ehner, who hurled for St. Michaels did fine work by striking out 12 men. Lockeie, the Dundee pitcher did good work. The last inning was very exciting when the bases were filled and only one man out, the boys, however, buckled down and got a nice double play. Next Sunday, Sept. 6, St. Michaels will motor to Round Lake where a return game will be played with Dundee. Lockeie and Hennings will be the battery for Dundee, while Ehner and Schneider for St. Michaels.

PRESENT BROS. MAKE BIG SHOWING AT COUNTY FAIR

Present Bros., of West Bend, and now also of Plymouth, made a great showing at our county fair last week, displaying Iowa farm and draft horses and in particular the six-horse team driven by Ben Present for the benefit of the grand stand audience and was highly applauded by the spectators. It surely was one of the best outfits that was ever seen at our county fair. It surely is a great addition to our city to have such people as the Present Bros. to locate here, and the Reporter gladly welcomes them to our city.—Plymouth Reporter.
