

## PRETTY NUPTIAL EVENTS OF THE WEEK

MOLDENHAUER-SCHULZ WEDDING

A pretty wedding was solemnized at the home of Mr. and Mrs. Herman Moldenhauer, Jr. in the town of Barton last Saturday afternoon at 3 o'clock, when their daughter Meta was united in marriage to Leo Schultz, son of Mr. and Mrs. William Schultz of the town of Kewaskum. Rev. Weber officiated. The couple was attended by Miss Clara Moldenhauer, as maid of honor, and the Misses Meta and Ada Schatz as bridesmaids. Elmer Moldenhauer was best man. The bride wore a white tulle gown with a French blue georgette and tulle sash and carried a bouquet of Columbia roses and white sweet peas. The maid of honor wore a dress of a pearl grey and carried a bouquet of Columbia roses and white sweet peas. Meta Schultz wore a French blue georgette and tulle dress and Miss Ada Schatz a Boies-dese georgette with lace. Misses Moldenhauer and Meta Schatz carried bouquets of Columbia roses and pink sweet peas, and Ada Schatz wore a message bouquet of Columbia roses and orchid sweet peas. A reception was held after the ceremony, with on-coming parties in attendance. The home was decorated with pink and white crepe paper. The groom is a popular and well known young man of the town of Kewaskum. He is a graduate of the Kewaskum High School in the class of 1916. The bride is a highly respected young lady of the town of Barton where she has a large acquaintance. The newly weds will make their home on the farm at the groom's father in the town of Kewaskum where they will be at home after May 15, 1926. Mr. and Mrs. Schultz have the well wishes of their many friends for a happy and prosperous married life.

## GLASS-DIELS WEDDING

The marriage of Miss Sylvia Glass, daughter of Mr. and Mrs. Herman Glass of Beechwood and Harvey Diels, son of Mr. and Mrs. George Diels of Sheboygan Falls took place last Saturday at Beechwood. The ceremony was performed in the St. John's Lutheran church at 2 p. m. Rev. Kuene officiated. Miss Ella Flunker presided at the organ and Mrs. George Diels acted as best man and George Glander was the other attendant of the groom. A reception was held after the ceremony at the home of the bride's parents, Mr. and Mrs. Diels will be at home at Sheboygan Falls after May 1.

## CLEAN UP WEEK MAY 3-8

The calendar says spring is here. The accumulated rubbish and debris is also here. Clean up before the busy summer season starts and rid your premises of fire hazards. Somewhere in basement or closets are paint cans and perhaps paint tins which may start a fire. The winter's accumulation of the family paper is piled in the basement. Up in the attic are hat boxes with tissue paper, broken furniture, and enough other material to make a good bonfire. The foundations of the barn and frame house may be packed with straw ready to catch the chimney spark; the yard may be full of weeds, dry grass and leaves. The old shingle roof may have a covering of moss and punk ready to ignite. You may still find shavings and chips where the last carpenter you employed left them. Down in the basement of your store are five dollars worth of boxes and banana crates to endanger your fifty-thousand dollar stock. May 3-8 has been recommended as clean-up week, and everyone is urged that city fire and health departments and civic clubs plan and carry out a systematic clean-up movement. Industrial Commission

## TOWN SCOTT

—Read our ad elsewhere—Mrs. K. Endlich. Quite a number from here attended the play at Boltonville Saturday evening. Albert Kurmow and daughters visited Thursday at Milwaukee on business. As Elsie Backhaus is employed at the home of Paul Doegnitz for some time. Mr. and Mrs. John Pesch spent Monday afternoon with Mr. and Mrs. Wm. Pesch at East Valley. Elsie and Theodore Backhaus and Manuel Schneider spent Sunday afternoon with Mr. and Mrs. Emil Wilke and family. Mr. and Mrs. George Falk and children of Wayne are spending a week with Joe Moldenhauer and Mrs. Clara Marquardt. Mr. and Mrs. Winkler and child of Kewaskum and Mr. and Mrs. George Falk of Wayne spent Sunday with Joe Moldenhauer and Mrs. Clara Marquardt. Nic. Marx and daughter Marion, Mr. and Mrs. Jac. Neule and son Erwin of Chicago, Mrs. George Mellinger and children, Mr. and Mrs. Julius Gieser of St. Michaels spent a Sunday evening with Joe Theusch and family.

## ABOUT DAY AND BIRD DAY

Gov. Blaine has designated Friday, May 7, as Arbor and Bird day. The conservation and preservation of bird life and forest life, the preservation of our native scenic beauty and places of outstanding scenic beauty, enlist the attention and interest of growing numbers of our citizens and before the steady march of modern development all conservation questions take on serious economic aspects, the governor stated. "In fact the conservation of our natural resources in itself becomes a part of modern development."

## AUCTION SALE OF HORSES

A Public Sale of horses will be held at the Henry Weis place at Boltonville on Tuesday, May 4, beginning at 10 a. m.—Weber Bros. Owners.

## CARD OF THANKS

We, the undersigned, wish to express our sincere thanks to Father Vogt, to the pall bearers to all those that assisted us during the time of the death and burial of our beloved mother, Mrs. Anna Wagner. Mrs. Gregory Schmitz Mrs. Philip Volm

## FIRE DEPT HAS TWO CALLS

The Kewaskum Fire department had two fire calls last Saturday afternoon. Both alarms being to extinguish chimney fires. The first alarm was sent in about 2:35 p. m. when the chimney on the Henry Meisguth residence on East Main street was on fire. No damage was done to the building. The second call was sent in at about 6 p. m., to extinguish a chimney fire on the Joseph Miller residence on Prospect avenue. Little damage was done to the building. In both cases it was lucky that the fire was confined to the chimney, for had it gotten a chance to spread to the rest of the building, it would have been hard to tell what would have happened on account of the high wind storm that was prevailing on that day. Saturday's fire calls, gave the department an opportunity to try out the new fire siren recently purchased and installed by the Village Board. The siren certainly gave the fire department, with the exception of probably a few, everyone heard the alarms. Charles Groeschel, Fire Chief, gives warning that all property owners should clean out their chimneys, thus helping in the prevention of fires that might in the end prove disastrous.

## DEATH OF MRS. IGNATZ SCHILLER

Mrs. Ignatz Schiller (nee Mary Dricken) of Barton, formerly of St. Michaels, passed away in death at the Oak Sanatorium at Pewaukee last Saturday after a lingering illness. Deceased, who for a number of years, was a correspondent of the Statesman, was born June 22, 1880, at St. Michaels, where on April 4, 1916, she was married to Ignatz Schiller. The couple continued to reside there for several years, when they made their home near Farmington, coming to Barton in 1922. Mrs. Schiller leaves to mourn her demise, her sorrowing husband, and four children, namely: Jerome, Laura, Norbert and Lawrence. Her aged father, Peter Dricken of West Bend, and the following brothers and sister: Edward and Nicholas Dricken of Milwaukee and Mrs. Henry Schoofs of West Bend. The funeral was held on Tuesday morning at 10 o'clock, with services in St. Mary's Catholic church at Barton. Rev. Ruhman officiated. Burial was made in the congregation's cemetery.

## CHURCH NOTICES

Sunday school at 9 o'clock. Do not send but bring your little ones. Classes for action were held. At ten o'clock the Sunday school and congregation will observe Mothers Day. All mothers of the church are asked to sit together. We wish to do honor to our mothers for they well deserve it. There will be special music and an appropriate message. Everyone is cordially invited. On Thursday afternoon, May 6, the Ladies Aid Society will meet in the Ladies Aid school room. All young people of the church who are interested in the organization of a Young Peoples society will please meet with me at the church on Wednesday evening, May 5th at 7:30. Let's cooperate.

## PEACE EVANGELICAL CHURCH (Ernst Iron, Pastor)

Sunday, May 2. Bible class and Sunday school 9:30 a. m. W. W. Hamlyn, Supt. Lesson "God's Servants with Faith." Divine worship 10:30 a. m. Junior League 2 p. m. Epworth League anniversary services at 7:30 p. m. Installation of officers. Special program of music and addresses.

## METHODIST EPISCOPAL CHURCH

Fifth Ave., West Bend. Sunday, May 2. Bible class and Sunday school 9:30 a. m. W. W. Hamlyn, Supt. Lesson "God's Servants with Faith." Divine worship 10:30 a. m. Junior League 2 p. m. Epworth League anniversary services at 7:30 p. m. Installation of officers. Special program of music and addresses.

## REFORMED SALEM CHURCH

Wayne Center. Rev. Lehrer, who has been ill the past week with the grippe, will be able to conduct services tomorrow, Sunday. "God's Servants with Faith." Divine worship 10:30 a. m. All members are kindly and earnestly requested to attend the services and the children the Sunday school to honor God, to learn and to go forward with the work of salvation.—E. Lehrer, Pastor.

## DODGE COUNTY SPEED COPS CARRY FIRST AID EQUIPMENT

Furnished by the county, first aid kits are now carried by each of the three traffic patrolmen in Dodge county to be used in cases of accidents which occur so frequently on main highways during the summer season. The first aid equipment consists of medicines, bandages of various widths etc., all contained in a compact metal case which is carried in a saddle-bag at the side of the motorcycle. Many times last season these officers were called upon to attend injured along the highways but were handicapped through lack of equipment. Dodge county is among the first in the state to so equip motor cycle officers. Hugo Laska, chief of the Dodge county speed officers, was in Hartford, Tuesday, with his new motorcycle, carrying the first aid equipment.—Hartford Times.

## FIVE CORNERS

—Read our ad elsewhere—Mrs. K. Endlich. Miss Alies Meyer visited with Miss Marjorie Schrauth Sunday. Walter Gatzke visited with Mr. and Mrs. John Gatzke and family Sunday at the home of his parents. The funeral was held Tuesday morning with services in St. Mary's church at Ashford. Rev. Father Gruenwald officiated. Burial was made in the adjoining cemetery. The funeral was largely attended. The pall bearers were: Norbert and Al. Scull and Summester and Florian Butchick. The flower carriers were Alvis Berg, Jerome Schill, Loreta Johannes and Helen Bernklau.

## NEW FANE

—Read our ad elsewhere—Mrs. K. Endlich. Math. Herziges was a business caller at Milwaukee Thursday. Mrs. A. Staler returned home from the Kewaskum hospital Wednesday. Mr. and Mrs. Art. Naumann and family spent Sunday with Mr. and Mrs. George Backhaus. Miss Irene Uelmen and Edward Dreher spent Friday evening with Miss Constance Dworschak. —The National School Equipment Co., of this city, shipped two carloads of school desks and seats to a noted military academy and to a theater in Mexico, thus adding to the prestige of Fort Washington.—Fort Washington Star.

## LOCAL PLANT TO START MALTING ABOUT MAY 1

The A. L. Rosenheimer Malt & Grain Company, will again start malting in their malting plant here on or shortly after May 1st. The malt house, which is the largest plant in the middle west, has since prohibition went into effect, been standing idle, which meant quite a loss to the firm and also to the village as a whole. Extensive repair work has been done in the plant the past several weeks and everything is now in readiness to start the wheels of that big industry into operation. The plant will from the start employ from ten to fifteen men which help will be increased as business will demand. Shortly before prohibition went into effect, the company was doing a big business, operating day and night. Farmers, not only from this locality brought their barley to the plant, but thousands of barrels were sent in from the western states to supply the demand. The fact that the A. L. Rosenheimer Malt & Grain company will again resume operations in this village, comes as welcome news to all of the citizens here, and we wish them success with the hope that they will be able to continue operations.

Rosenheimer Malt & Grain company will again resume operations in this village, comes as welcome news to all of the citizens here, and we wish them success with the hope that they will be able to continue operations.

## SKAT TOURNAMENT WELL ATTENDED

The skat tournament held at the Kewaskum Opera House last Sunday afternoon, was well attended. Prizes were awarded as follows: 1. E. L. Morgenroth, 18 good hands and 537 points. 2. Frank Keyes, West Bend; 692 points. 3. Heart solo against 5—Jacob Schaeffer of the town of Kewaskum; 4. Chas. Helming, 18 good games and 518 points. 5. Byron Martin, Kewaskum; 539 points. 6. Elyon Romaine, high class 150 points.

## "RUSTLERS' RANCH"

A pretty romance of the West spiced with plenty of fastaction is the current offering at the Kewaskum Movies where "Rustlers' Ranch" starring Art Acord will be shown tomorrow, Sunday. A large crowd of the town of Kewaskum is expected to see the picture. It is a story about that most romantic of all callings—the roving cowboy, and about a widow and her daughter who are being persecuted by the local banker. The plot is handled in a novel way by Cliff Smith, director.

## TWO TONS IN SILVER QUARTERS

Fred R. Zimmerman, Secretary of State has collected and deposited with the State Treasurer 400,000 silver quarters which he received in payment of automobile title fees, to comply with the title registration law that was enacted at the last session of the Legislature. The weight of this silver is over two tons, \$1,000, or 4,000 quarters, weigh forty-two and a half pounds. Zimmerman announced that over 420,000 applications have been received to date this year to April 10, and that \$6,336,964.85, in registration and title fees, has been deposited with the State Treasurer for the current fiscal year. The title fees are not always paid in silver. Some applicants prefer to include the twenty-five cents in their check or money order. This is satisfactory and no application is rejected on this account, but it necessitates considerable additional clerical work to handle both the license and title fee in this way; each must be accounted for and deposited separately. This is the only reason for requesting applicants to enclose the title fee separately.

## TIME FOR DORMANT SPRAY FOR HOME ORCHARDS

Purpose—To kill oyster shell scale and other injurious scale insects such as San Jose Scale and Scurvy Scale. Time to Apply—Dormant Spray—This spray is best applied just as the buds are swelling and before any leaves appear. Right now is a good time for this work. Materials to use—Liquid lime sulphur at the rate of 1 gallon to each 10 gallons of water. Or any approved oil spray such as scalecide used according to directions. Method of Application—The spray must be thoroughly applied to every part of the tree. Unless the spray comes into actual contact with the scale the insects will escape alive and multiply enormously during the summer months. Any good pump equipped with angle die nozzles, which produces sufficient pressure to insure a fine MISTY DRIVING spray will give satisfactory results if the operator is thorough in his work. Unless the work is well done it might almost as well be left undone.

## PLAY WELL RECEIVED

The play, "The American Flag", presented by members of the Pearson Brown Post of the American Legion of Campbellsport at the Opera House here on Wednesday evening under the auspices of the Kewaskum Post, was well received. All present were well satisfied with the efficient manner in which it was presented. Every member of the post acted their part excellently and deserve to be complimented. The saxophone and piano duets by Wm. Schaefer and Miss Irene Klotz were especially given high praise.

## BETTER HOMES WEEK MAY 16 to 22nd

West Bend is going to observe "Better Homes Week" during the week of May 16 to 22. This is due to the untiring efforts of a few enthusiasts in the movement, who finally succeeded in making large groups of the population see the propriety and necessity of extending the nationwide movement over West Bend.

## SEEK TO REDUCE CROSSING PERIL

Madison April 24—A proposal to draft a definite program of grade crossing elimination in Wisconsin was discussed at a meeting of chief engineers of the various railroads in the state and members of the highway and railroad commission Friday afternoon. The new plan bringing general approval of the grade crossing elimination from the railroad representatives. J. T. Donaghey, state highway engineer, pointed out that the work of grade crossing elimination should go forward with the improvement of the highways and that a scheme should be worked out so that the work would be budgeted and both the state and the railroads would be in a position to foresee coming events.

## SKAT TOURNAMENT WELL ATTENDED

The skat tournament held at the Kewaskum Opera House last Sunday afternoon, was well attended. Prizes were awarded as follows: 1. E. L. Morgenroth, 18 good hands and 537 points. 2. ## Correspondence TO REPAIR MAIN STREET

Arrangements were made on Thursday by the village board with County Highway Commissioner Charles Johnson, to have Main street in this village repaired. Work upon same to be done by the county. The work will be started as soon as possible. The street will be graded, after which a layer of fine gravel will be hauled upon it. When this has been done a coat of tar will be poured on top. This is indeed a good move on the part of the village board, as Main street has, ever since the sewer system was installed, been a rough road to travel upon.

## CAMPBELLSPORT

William Mayer spent Friday at South Germantown. Mrs. Helen Roth spent Sunday with relatives at West Allis. Mrs. Albert Gupe of Milwaukee was a visitor here Sunday. Joshua Dickman left Friday for Chicago for several days' stay. Alfred Schield of Cudahy visited with relatives here Sunday. Ray J. Wenzel of Milwaukee spent Sunday at the home of Mrs. Barbara Cole. Mr. and Mrs. Julius Kopplin returned Monday from a motor trip to Fall Creek. Mrs. Anna Ertz returned Sunday from a two weeks' visit with relatives at Eden. Charles Seering and Herman J. Paas were business callers at Milwaukee Monday. Miss Margaret Little of Theresa visited with relatives here Saturday and Sunday. Mr. and Mrs. O. S. Raymond of Fond du Lac visited with relatives here Sunday. Mr. and Mrs. B. H. Glass and Miss Dorothy Schwandt spent Monday at Fond du Lac. Mrs. Veronica Foley and children James and Mae motored to Fond du Lac Thursday. Mrs. Edward Kibble and son, Jerome visited with relatives at Kewaskum Saturday. William Campbell and Lawrence Ketter of Milwaukee spent Saturday and Sunday here. Mr. and Mrs. James Farrel and Mrs. Olga Schwandt and family spent Friday at Milwaukee. Miss Mary Curran of Oshkosh spent the week-end here with her mother, Mrs. Emma Carran. Mr. and Mrs. Richard Kocher of Barton spent Sunday here at the Aug and Wm. Koch home. Herman Oppenoth of Kewaskum was a business caller at the Gerald Fitzgerald home Friday. Mr. and Mrs. William Knickel Jr. of Milwaukee were guests of Mr. and Mrs. David Knickel Sunday. Mrs. Arnold Kudwig spent Sunday with her daughter, Agnes at St. Joseph's convent at Milwaukee. H. F. Haskin, who visited at the homes of R. L. Raymond and George Romaine has returned to Waupun. Mrs. Mathilda Hammermeister and daughters Emma and Mary were guests Thursday of Mrs. Wm. Wedde Sylvester Kleinhaus and Harold Hausalter of Milwaukee spent the week-end at the homes of their parents.

Mr. and Mrs. Martin Hausner and family of Crystal Lake were guests of the former's brother Philip Hausner Sunday. Mrs. A. L. Wright a nd daughter Kathryn and Alberta returned home from a week-end stay with relatives at Hartford. Mr. and Mrs. Charles Lade and daughter Beverly and Mrs. Maria Klotz of Milwaukee spent Sunday with Mr. and Mrs. Ben Day. The residence of Mr. and Mrs. Guet Tunn was sold to Frank Tunn of Milwaukee. Mr. Tunn will locate here in the near future and Mr. and Mrs. Tunn will make their home with him for an indefinite time. Mr. and Mrs. John H. Hendricks and family, Charles Van de Zande, Mr. and Mrs. Alfred Van de Zande and daughter and Miss Esther Van de Zande spent Thursday evening with Mr. and Mrs. Joseph Straub at Lomira.

## HOUNDS ON GHOST TRAIL

Hustisford's famous ghost is about to be materialized, according to a report given out by Dodge county officials. Following a report last week that five chickens and quantities of grain had been stolen from the ghost's stronghold, the Robert Uecker farm, Sheriff William Rhode obtained two bloodhounds. The hounds, it is said, succeeded in trailing the thief and John Doe proceedings have been started. Warrants will probably be issued in the very near future, according to District Attorney John A. Thiel of Mayville.

## CARD OF THANKS

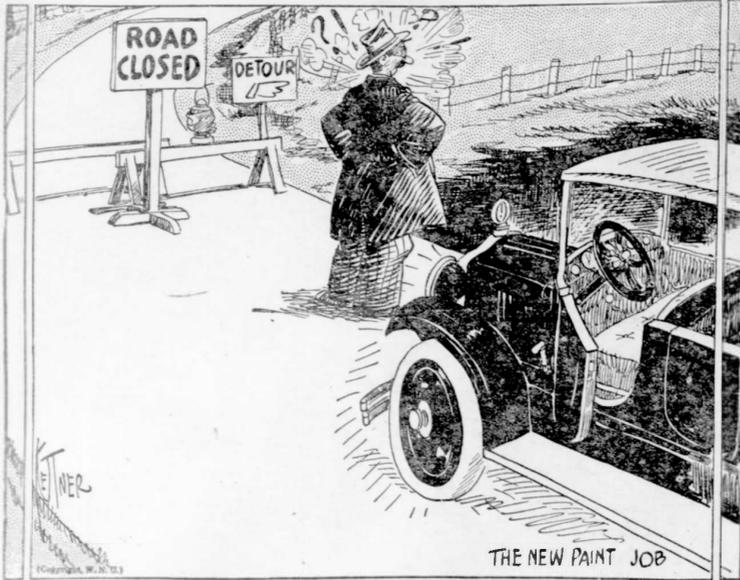

We, the undersigned, wish to express our sincere thanks to Father Vogt, to the pall bearers to all those that assisted us during the time of the death and burial of our beloved mother, Mrs. Anna Wagner. Mrs. Gregory Schmitz Mrs. Philip Volm

## Along the Concrete

THE NEW PAINT JOB

## Wit and Humor

THE SAME

A bricklayer and his wife went up North for a holiday. As they were wandering about, a man came up to them and began in the usual officious manner: "This is the famous Roman Wall, begun in A. D. 20." The astonished couple turned and regarded the remnants of the wall. After a while the wife spoke out. "A. D. 20" said she. "That's the sort of firm to work for. Joe."—Titbits.

## LOTS OF 'EM

"You say he went broke on the stock market? The poor fish!" "Yes, and likewise the poor sucker!"

## Still Looking

About the Wandering Jew we are No longer in the dark: The unfortunate man was looking for A place in which to park.

## Dikes

The lesson of the day was about Moses and the Promised Land. The teacher asked a little girl why all the cities in the Promised Land had high walls around them. Wide-eyed with awe, the little girl answered: "That was to keep the milk and honey from running out, ma'am."

## Not Friends

Barbara had been away visiting a near-by city. Soon after her return I met her on the street, and stopping, said to her: "Well, honey, I suppose that you and your mamma had a lovely visit with your friends?" "They wasn't our friends," promptly replied Barbara, "they was our relatives."—New York Sun.

## Missing

"Policeman, that ruffian took my wife's arm!" "He didn't have it, str. when we searched him at the station."—Progressive Grocer.

## Naturally

"I'm working in a restaurant now." "What doin', waitin' on table?" "No, you nut, on people."

## CIRCUMSTANTIAL

Ambulance Surgeon—Are you married? Victim—No, I ain't married. All this was done by a flivver.

## That's Anything But Dumb

Why should they call her dumb, When, goodness knows, Sweet Doris's sense enough To wear smart clothes?

## Gob Humor

"I have courted your daughter for years." "Well, what do you want?" "To marry her, of course." "Good. I thought you were going to ask for a pension."—Tennessee Tar.

## Food for Thought

Lucille—Oh, yes, I'll pay for the furs if you give me a blank check." Dealer—What bank, please? Lucille—What bank would you suggest?

## The Ship Rail Habit

"She Silbersheet goes to Europe frequently, doesn't she?" "Does she? She's returned so often that every time she sees a banister she crawls up on it and begins to look around for the photographer."

## The Outcome to Govern

First Luncher—Let's match for the cats. Second Dillo—All right. Where shall we dine? First—Let's match first.

## The Reason

"Why did the boss fire you?" "Well, you know the boss is one of these fellows who stand around and watch other people work." "Well, people began to take me for the boss."

## Too Late

"I've come," said the woman politician, "to ask you to support me." "I'm sorry, miss," replied the man, "but you're too late. I've been married for years."

## Well Selected Materials and Design Make Even Small House Attractive

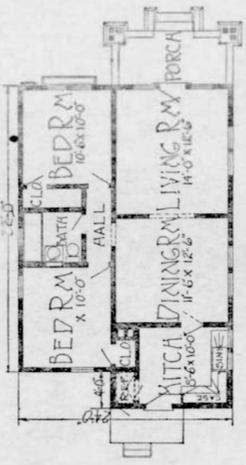

By WILLIAM A. RADFORD

Mr. William A. Radford will answer questions and give ADVICE FREE OF COST on all problems pertaining to the subject of building, for the readers of this paper. On account of his wide experience as the house author and manufacturer, he is, without doubt, the highest authority on the subject. Address: 1327 Prairie Avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

A great many people have the mistaken idea that the very small house or cottage cannot be made so attractive nor so architecturally correct as a large house, but one glance at the accompanying picture will prove beyond doubt that this is wrong. Probably the reason for the growth of this idea is the fact that too often the wrong methods are used in the attempt to make the small house attractive. That is, it is ornamented with many fancy trimmings which have just the opposite effect from that which is desired.

Simplicity is a good rule in all house design, but it is absolutely essential in the design of the small house. Lines and materials are the means which should be used to make the small house attractive and this cozy little cottage illustrates what can be done along those lines. It is notable that not one strikingly "ornamental" feature is used.

The house measures 24 feet wide by 32 feet deep. At the front there is a projecting porch, extending only part way across the house and at the rear the kitchen projects slightly from the rectangular form. The roof, which is

covered with a composition roofing, extends out in moderately wide eaves and the plain rafter ends are allowed to show. The porch roof forms a simple gable and is supported by pillars which are broad at the base but tapered off at the top by a lighter construction above.

The walls are covered with a plain drop siding which extends down to the grade level with a slight spread just above the ground. The effect is to make the house sit closely down upon the lot as though an integral part of it. Six-pane upper sash are used in the windows to good effect while a window box at the front and trellis for training a beautiful vine add much to the front exposure. Well selected plantings about the foundations and the hanging baskets on the porch add a homelike air and this little home extends an invitation which is irresistible.

The front entrance, with windows at each side, leads directly into the living room and from it an arched doorway gives a view of the dining room beyond. Back of the dining room is the kitchen. It is a small kitchen, as might be expected, but is well arranged so that it affords ample and convenient working place. Windows over the sink not only afford plenty of light but also make possible a view of the outdoors for whoever may be doing the kitchen work. The refrigerator is placed in a recess beside the back door. It could easily be arranged to be served from the

## Nursery Wall Decoration

Has Great Possibilities

The nursery, a room devoted exclusively to his majesty, the baby, is no luxury, but is the wisest gift parents can make to the youngest. He will be happier and healthier if, from birth, he has his own quiet little nook, sacred to his privacy.

## The Outcome to Govern

First Luncher—Let's match for the cats. Second Dillo—All right. Where shall we dine? First—Let's match first.

## The Reason

"Why did the boss fire you?" "Well, you know the boss is one of these fellows who stand around and watch other people work." "Well, people began to take me for the boss."

## Too Late

"I've come," said the woman politician, "to ask you to support me." "I'm sorry, miss," replied the man, "but you're too late. I've been married for years."

back porch without entering the kitchen. The two bedrooms, with a bathroom between, are placed at the other side of the house. These rooms all open off of a hallway which is reached from the dining room. Both bedrooms are provided with closets and that in the front bedroom is unusually large. A portion of it might easily be used to provide a linen closet.

## Tension Is Relieved

by White Woodwork

There is something about white woodwork in a house that seems to relieve the tension of the stern duties that compose the day's work, and this, too, may be used as a device to connect the various elements of the house. It fittingly frames other light tones in the background and contrasts pleasingly with the darker ones. It is neutral, for it goes with anything, but it is distinctive, too, and adds richness and spaciousness to the aspect of the home.

In general, light colors make the room seem larger and lighter, and give the effect of brightness, cleanliness and cheer. If used to excess, an effect of barrenness may be produced. Light colors generally respond well to artificial light.

On the other hand, dark colors will decrease the size of the room, but produce an effect of richness and dignity. They are, however, hard to illuminate at night and may become gloomy or even dingy if used too hard. Conscious contrasts in light and dark, such as dark walls with light woodwork, or light walls and dark woodwork, are restless and distracting. There should be only enough difference between walls and woodwork to avoid monotony.

## Chimney Is Important

Part of New Residence

The matter of flashings is one that needs careful attention when a person is building a house in which he hopes to be comfortable and free from petty troubles. A most important place for proper flashing is about the chimneys. On a stucco home the chimneys usually are finished in stucco to harmonize with the rest of the house, but are of masonry construction, lined to conform with the rules of fire safety.

The stucco should be applied only after the chimney has been carefully covered with metal lath. Such a chimney always should have a cap of stone, cast concrete or other masonry which will overhang the metal lath and stucco and provide protection against water seeping in at the joint. Usually this is accomplished by providing a generous overhang and grooving the underside of the chimney cap well away from the stucco, so that the water will be carried to the vertical and unbroken portions of the chimney where it can do no damage.

## Steel Braces for Scaffolds

Practical in Stucco Work

Steel braces that are attached to the wall with four nails and have two legs that rest against it to keep them from shaking, have been found practical for stucco and other construction jobs. They can be set up in the usual way, but is required for the usual wooden staging, are made of steel that will not bend, and fold up for easy carrying. They are manufactured in two lengths, three and three and one-half feet, weigh less than 200 pounds the dozen and are sold to last indefinitely if properly handled. A dozen or two of the brackets, it is said, will take care of the average stucco job.

## Lay Shingles Properly

and Use Good Nails

Straight-grained shingles, sawed from sound bolts, laid four and a half inches to the weather, nailed with two three-penny blued nails to each shingle, and no shingle more than six inches wide, will outlast two successive coverings of cheaper shingles, laid carelessly. Poorly nailed shingles, especially when laid in wide courses, too much exposed to the weather, will curl, split and decay from too much wet surface underneath. Inadequate nailing invites decay and ruin.

## Stucco Easily Applied

by Expert Workmen

The recommendations and specifications for the application of stucco have been carefully laid down and are so simple that any contractor can follow them. If they are followed with intelligence and skill, the result will be an exterior that is durable, fire-resistant, impervious to moisture, structurally sound, attractive in appearance, economical in first cost and low in maintenance and repair charges.

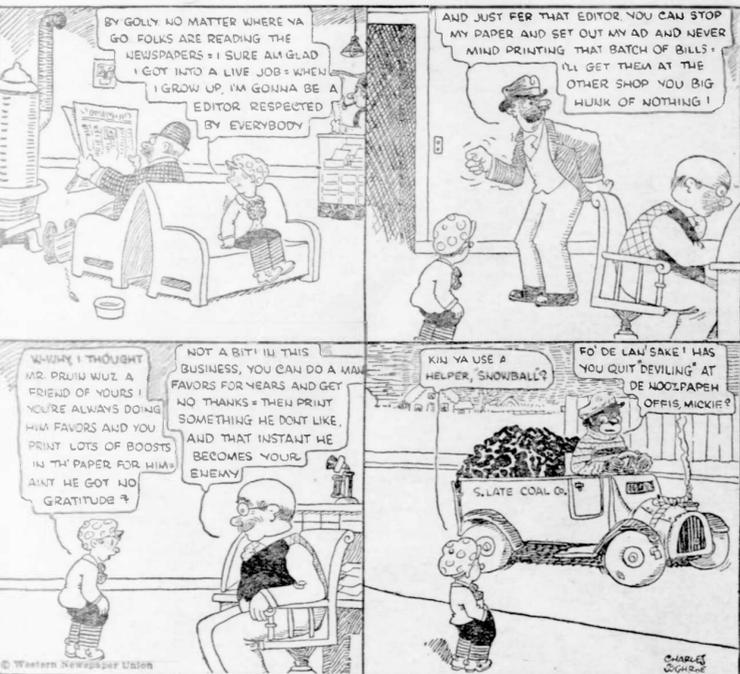

## Smooth Bark Trees

Need Heat Protection

A young tree, and more especially those with smooth bark, should be wrapped with a protective covering during the hot summer months of their first year. The sun, if hot, will burn into the tree, and in many instances kill or at least scar one side, which will affect the growth. A wrapping with burlap or rags will be sufficient, and this should be done up to the point where the tree branches.

# RADIO

Farm Radio Making Rapid Growth—There Are Nearly 1,000,000 Radio Sets on Farms in the United States.

(Prepared by the United States Department of Agriculture.)

There are nearly 1,000,000 radio sets on farms in all parts of the country, the Department of Agriculture estimates in a report on the growth of farm radio during the past five years.

In some states, the department says, there are radio sets on 25 to 40 per cent of all farms. Estimates made by the department in 1923 showed 145,000 sets in use on farms at that time; 305,000 sets in 1924, and 553,000 sets early in 1925.

Increased power and improved broadcasting, together with better receiving sets, the department believes, will do much to aid in establishing the permanency of the use of radio for the benefit of agriculture.

Interference among stations may gradually be eliminated, the department believes, as many of the less active stations are being discontinued, and technical improvements are being made in both broadcasting and receiving equipment. Of 1,458 radio stations of all sizes licensed to broadcast since broadcasting began, only 539 were active on January 1 this year.

**Co-Operative Arrangements.**  
The department has made co-operative arrangements with more than 100 stations for broadcasting official market news gathered by department representatives in leading shipping and consuming areas. Since the first of the year the department has made arrangements with about 60 stations to broadcast on a regular schedule four additional services dealing with general agricultural information.

Literally hundreds of stations have requested the privilege of handling the government reports, but many of the requests have had to be refused the department says, because the stations are remote from the department's market news branch offices.

"When the experimental radio market news service was announced on December 21, 1920," the report states, "those in the Department of Agriculture who were directing the new activity hardly anticipated the wonderful possibilities of radio broadcasting as we now know it. A laboratory transmitter at the United States bureau of standards on a 400-meter wavelength, a few enthusiastic amateurs within a hundred miles of Washington, and a 5 p. m. schedule of about 500 words by radio telegraph, composing what was called the 'radio marketgram,' constituted the elements of the experiment."

**Amateurs Were Enlisted.**

"Assuming an effective radius of audibility of 300 miles about each station, licensed amateurs in the areas covered were enlisted to copy the reports and to furnish them to shippers' associations, county agents, state bureaus of markets, farm bureaus and other agricultural agencies, banks, newspapers and local telephone exchanges. A number of licensed operators offered to copy the reports. By January 1, 1922, the market reports were being relayed and broadcast by radio telegraph from seven post office stations in a chain across the country."

"During 1924, reports were furnished to three of the then very few radio telephone broadcasting stations. Since then, the service has grown by leaps and bounds until now there is practically no agricultural community in the country that is without official market reports on agricultural commodities. Well-established schedules of weather, crop and market reports

## Human Ear Deceives in Judging Volume

Few people realize the enormous range of the human ear. In a normal young ear can hear all tones from as low as 16 vibrations per second to as high as 40,000 per second. The range of intensity is likewise enormous. If we take as one the strength of the weakest sound we can hear, then the strength of the ordinary talking voice will be a million.

In estimating the relative strength of sounds, our ears deceive us. For instance, when asking people about the comparative strength of two radio sets, one often hears them say that one set is twice as loud as another. When they say that they do not understand the peculiarities of the ear. On being questioned, they agree that the strongest set behaves as if it had one more stage of amplification than the weaker set. Now one more stage of amplification represents 200 times the power output, yet it seems only twice as loud. In other words, our ears are very poor at gauging the intensity of sound. This is a very necessary condition.

are broadcast from more than 100 stations in all parts of the country." An authentic list of broadcasting stations the country over that broadcast market and crop reports has been prepared by the department for free distribution. Requests for the list should be mailed to the Bureau of Agricultural Economics, United States Department of Agriculture, Washington, D. C.

## FOREFATHERS OF RADIO

By GEORGE LEWIS  
of The Crowley Radio Corporation.

Developments in radio transmission went ahead by leaps and bounds, but the reception of signals was hampered by the lack of proper means for detecting them. Many men worked upon this problem. J. A. Fleming, for instance, invented the "valve," which was the forerunner of the radio tube developed by DeForest in this country. But the detecting device which became most popular in the early days of radio was the crystal detector, as developed by DeWoolody and Picard

J. A. Fleming.

and introduced in 1906. By means of the crystal detector the received electric current is so modified that it will operate a telephone receiver.

Up to this time there had been so few radio stations that there was little difficulty about the signals of more than one station being received at the same time and "interfering" with one another. However, such difficulties were anticipated by other factors which overcame them.

The length of waves sent out by the transmitting station depends upon certain constants of the apparatus, just as the length of a water wave depends upon the object which causes the disturbance in the water and is responsible for the waves. Thus a cork dropped into a pond will send out little, short, choppy waves, while if a big ocean liner overtakes, the splash it makes will be followed by giant waves of great length. By adjusting certain parts of the transmitting apparatus the length of wave that it sends out may be controlled, and by adjusting similar parts of the receiving apparatus one may control the wavelength to which it will respond. This adjustment is called "tuning."

Thus, very early in the history of radio transmitting, stations near each other were tuned to different wavelengths, so that the operator of a receiving set could tune to any one of them.

If our ears were sensitive to changes in intensity they would either be insensitive to weak sounds or moderately loud noises would become unbearable.

The degree of the ear's sensitiveness to loudness can be well illustrated by the fact that it is difficult to distinguish between two sounds, one of which is twice as strong as the other. To successfully make the differentiation it is necessary that both sounds have the same pitch, the same quality of timbre, and that the comparison be rapid.

**Headphones**  
Never test batteries with headphones. The wire on the bobbins is liable to be burned out, thus destroying their usefulness. The telephone cord should never be allowed to hang low and come in contact with the storage battery, because the acid will eat into it very rapidly.

**Many Listeners in England**  
Radio set owners in the British Isles now total 1,644,325.

## MODISH BLACK SATIN COATS; AIRY HATS HERALD SUMMER

LIKE the return of an old friend, rejuvenated and chic—after a long vacation, the black satin coat of this season makes its entry—everywhere there is awaiting it a feast of a thousand welcomes. Black satin coats, following all the modish new ideas of the hour and stressing particularly the use of summer furs in colors and trimmings, have returned in force; while windows in the big apparel shops are given over to their display, showing them developed in straight lines and flaring models, and with all the variations in collars,

the flower-trimmed hats with equal pleasure and confidence. But now stylists have launched the real, summer hat and millinery windows are blossoming out with airy and wide-brimmed models that will cast a grateful shadow when the sun is high. Many of these midsummer hats are of transparent brims—and many of them are flower-trimmed. They are in keeping with the sheer and dainty summer frocks that are finding universal favor, and they are enchantingly becoming—distinctly midsummer types with crowns somewhat higher than

The Flared Silhouette.

sleeves, fastenings and other details they have been and often revealing picturesque trim lines.

The group of five hats pictured here is representative of this class of headwear and lends off with a moderately wide-brimmed hat covered with zorro and jabot effects which are so graceful and chic; therefore a good proportion of the late models embodies these style points. An example of the flared silhouette is shown in the picture in a coat with deep veers and the popular side fastening. Its fur collar, in light gray squirrel, holds its own with many other collars of similar shape made of white ermine, but the display emphasizes the distinction of black and white

Group of Summer Hats.

by many models in which ermine is used for collars and—with much restraint—in trimming touches.

Fur collars are not confined to squirrel or white ermine by any means. Summer ermine and furs that imitate it, and dyed squirrel provide a choice of color in the short-haired furs, and white fox contributes its soft becomingness also.

Except in sunny climes the story of millinery so far this season has been told in small, colorful and chic hats that belong to early spring. Flower trims on many of them herald a coming summer—like the songs of cheerfully promising robins—and we have listened to the songs and bought

**Wide Bracelets**  
Wide bracelets set with large stones are more popular than narrow types. Stones are generally of semi-precious type and because of the width of the bracelet but one is worn on an arm.

**Amethysts and Silver**  
New costume jewelry emphasizes the beauty of clear amethyst set in filigree silver. It is particularly lovely when worn with frocks of pale tinted shiftons.

**Complete Suit With Scarf**  
To wear with the new tailored suits are squares of taffeta with plaided borders in pastel or more brilliant colors. As a rule the hat matches the dominant tone in the scarf.

## The Kitchen Cabinet

In a sense love is everything. It is the key to life, and its influence are those that move the world. Live only in the thought of love for all and you will draw love to you from all. Live in the thought of malice and hatred and malice and hatred will come back to you. —Trine.

### WHOLESUME DISHES

A waffle is good at any meal and usually well liked. Now that the fresh maple syrup is on the market it will be doubly enjoyed.

**One-Egg Waffles.**—Break the yolk of an egg into a bowl and beat well, add two cupfuls of buttermilk and two cupfuls of flour sifted with one teaspoonful of soda and two of baking powder. Beat the egg white

and add to the batter after adding a tablespoonful of melted butter. Heat the waffle iron for some time slowly, then grease quickly with a brush or cloth tied to a stick, turn and grease the other side, now add the batter—just enough to fill after the rising of the dough. Cook well on one side before turning on the other. Most recipes make six to eight waffles. Serve cold syrup with a hot waffle, or it will make the crisp, hot waffle soggy. Wipe the iron with tissue paper before putting it away.

**Liver Soup.**—Take half a pound of cold cooked liver, put through the meat grinder. Fry one small onion in two tablespoonfuls of butter, then add the liver. Add one cupful of sifted bread crumbs, season with salt, pepper and add six cupfuls of soup stock. Cook fifteen minutes, press through a colander and thicken with the yolk of an egg. Serve at once.

**Boston Brown Bread.**—Take one cupful of whole wheat flour, corn meal and graham. Mix two cupfuls of sour milk and one-half cupful of molasses, a teaspoonful of salt, and one of soda. Stir in the dry ingredients, beating thoroughly. Turn into well-buttered pound baking powder cans and steam two hours. Remove the covers and roll into a hot oven for fifteen minutes to dry out. Add raisins if desired to the batter.

Use maple syrup with one cupful of sugar and one of the syrup in making butter scotch. The flavor is especially good and different.

Strained honey mixed with chopped fruit and whipped cream makes a delightful dessert.

**Vegetable Combination.**—Cook a whole cauliflower in salted water until tender. Place the cooked cauliflower on a hot chop plate and surround with alternate mounds of the following vegetables, cooked and seasoned: Small onions, sliced carrots, sliced beans, sliced turnips and shredded beans. Prepare and serve with the following sauce poured over hot: Melt three tablespoonfuls of butter, add two tablespoonfuls of flour, stir until smooth, add gradually one cupful of boiling water, seasoned with one-half teaspoonful of salt and cayenne to taste and one tablespoonful of lemon juice. Pour this over two well-beaten egg yolks, stir and pour over the cauliflower.

### Hot Soups.

The expert soup maker will obtain different flavors for the soups she serves by using leftover meats and vegetables.

**Corn Chowder.**—Try out four tablespoonfuls of fat salt pork cubes, add one sliced onion and cook five minutes, stirring to keep the onion evenly cooked. Parboil four cupfuls of potato slices, drain and add the potatoes to the fat and onion, with two cupfuls of boiling water; cook until the potatoes are soft, add a cup of corn, a quart of milk, salt, pepper to taste and serve with buttered crackers.

**Quick Egg Soup.**—Stir a teaspoonful of beef extract into a quart of boiling water, add a grated onion, celery salt, salt and pepper, let the mixture boil over four tablespoonfuls of cooked rice and two well-beaten eggs.

**Split Pea Soup.**—Wash and put to soak one cupful of split peas in plenty of cold water. Add, after soaking all night, enough water to make two quarts and with a two-inch cube of salt pork and a sliced onion cook until the peas are soft enough to put through a coarse sieve. Thicken if necessary with flour and butter cooked together, add milk or cream and serve well seasoned.

**Cream of Peanut Soup.**—Add a cupful of peanut butter to a quart of milk, season with salt, cayenne, a tablespoonful of grated onion, a bay leaf, and celery salt, and cook ten minutes. Moisten a tablespoonful of cornstarch with cold milk, stir until smooth, add to the soup and cook ten minutes. Serve with cubes of toasted bread.

**Cream Soup.**—Put thin slices of bread as thin as shavings with butter in a saucepan to brown. Pour over enough boiling water to make the soup needed, add salt, remove and add a cupful of thick cream; season well and serve hot.

**Metal in Formation**  
The bureau of mines says that silver and lead, when occurring together, are more often found in lime formation. Silver, when occurring alone, may be found in many other kinds of rock.

**And a Coat of Paint?**  
The case grew out of her arrest recently when she drove an automobile clad in pajamas and a bathing suit.—From a news item to a Washington paper.

**WANDSCHNEIDERS HATCHERY**  
Our Quality Much Higher than Our Price

Wandschneider's chicks are the old stand by chicks with thousands of poultry raisers and farmers in the middle west. They are so healthy and vigorous you can't help but raise them successfully. Our flocks are State Inspected and Accredited for size, vigor, color, and laying qualities. Every chick an Accredited Chick. Don't buy chicks of unknown value. Buy Wisconsin Accredited chicks. We are one of the oldest Accredited Hatcheries in the state. Send for free catalog before you buy. Wandschneider's Hatchery, Fort Atkinson, Wisconsin

**A Comeback**  
A man complained at his club about the heavy losses he had sustained in Wall Street. But a broker slapped him on the shoulder and said: "Cheer up, brother. You mustn't go on like this because you've dropped a plunk or two. Come down to my office some morning and I'll give you a few pointers." "It isn't pointers I'm after," said the loser. "It's retrievers."

## COLOR IT NEW WITH "DIAMOND DYES"

Just Dip to Tint or Boil to Dye. Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything! Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

**Poland Dealing With Russia**  
Russia under the Soviet regime is dealing more extensively with Poland, according to trade figures. In the period 1923-24 Poland exported to Russia goods valued at \$1,713,710, whereas the exports had jumped in the 1924-25 period to \$7,908,737.

**A Lady of Distinction**  
Is recognized by the delicate, fascinating influence of the perfume she uses. A bath with Cuticura Soap and hot water to thoroughly cleanse the pores followed by a dusting with Cuticura Talcum powder usually means a clear, sweet, healthy skin.—Advertisement.

**Most Fortunate**  
"How did Ethel manage to win that famous man?" "Well, all the time he was courting her she suffered from sore gums and didn't feel like talking." President James Monroe used to go to market and do his own purchasing for the White House.

## Children Cry for

**Fletcher's CASTORIA**  
MOTHER—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep. To avoid imitations, always look for the signature of Dr. J. C. Ayer & Co. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

**NORTHERN HEMLOCK**  
ASSOCIATION INSPECTION

**Homes of Worth and Beauty**

For that "Home of Your Dreams" nothing excels Native Hemlock as a building material. Used since Colonial days. Architects and builders recommend it for these vital and economical reasons:

- 1—Oversized studding, rafters and joists—8% to 16% more wood to the piece—greater structural strength.
- 2—Grips nails like a vise—heat or frost can't draw them—holds your building rigid against wind strain.
- 3—Free from dry rot—assures longer life for your buildings.
- 4—Contains no pitch—won't stain plaster—more fire resistant.
- 5—Easy to work—won't gum the carpenter's saw—speeds up construction and lowers building costs.
- 6—Takes all paints and stains perfectly.
- 7—And—It's Grade-marked with Licensed Association Brand and Grade plans stamped on each piece at the mill insuring responsible manufacture and guaranteed grades.

No other structural lumber combines all seven of these very essential and practical advantages.

With good lumber like this available, why use short-lived substitutes?  
Ask your lumberman to show you samples of Grade-marked Northern Hemlock. Or write us for booklet check-full of helpful suggestions on building.

**The NORTHERN HEMLOCK Mfrs.**

SAYS:

"See Mrs. K. Endlich's ad elsewhere in this paper."

—Read our ad elsewhere—Mrs. K. Endlich.

—The regular monthly stock fair held here Wednesday was largely attended.

—Miss Anna Rizzi and friend called on Miss Marcella Hermann Sunday evening.

—Mrs. Jacob Becker and daughter Elvirena were Milwaukee visitors on Monday.

—Miss Mariam Schaefer of Milwaukee spent the week-end under the parental roof.

—Mrs. Theodore Schmidt and son spent several days this week with relatives at Milwaukee.

—Mrs. Ralph Petri of Wayne boarded a train here Monday for Milwaukee where she visited relatives.

—Elnora and George Wichman of Milwaukee spent Sunday with Mr. and Mrs. Adolph Rosenheimer Jr.

—Miss Isabelle Backus returned to Chicago Sunday, after spending several weeks with her mother here.

—S. C. Wollensak of Milwaukee spent Monday with Mr. and Mrs. Hy. Quade and other friends in the village.

—Mr. and Mrs. William F. Schultz left Wednesday for a visit with Mr. and Mrs. Clyde Withlach at New York.

—Miss Camilla Driessel of Milwaukee spent Sunday with her parents, Dr. and Mrs. Henry Driessel and family.

—Miss Rosalita Herman and Wm. Berger Jr. of West Bend spent Sunday with Edw. Berger and family at Kohler.

—Street Commissioner Walter Belger had a crew of men at work this week cleaning up the streets of the village.

—Mr. and Mrs. John F. Schaefer and Mrs. L. D. Guth spent Sunday with the Harvey Brandt family at Wauertown.

—Mrs. John Brunner spent a few days with Mr. and Mrs. P. O'Malley and family and Joseph Brunner at Milwaukee.

—Mr. and Mrs. John F. Schaefer, son Louis, Mrs. William Eberle and Mrs. L. D. Guth were Milwaukee visitors Monday.

—FOR SALE—Sonora Victrola with about fifty records, all in excellent condition. Inquire at this office.—Advertisement.

—NOTICE—I will take stock for pasture. Also, have had for sale, the acquire of John Gales, Kewaskum R. D. 2.—Advertisement.

—NOTICE—Anyone having ashes and rubbish to haul, kindly notify Street Commissioner Walter Belger, who will take care of same.

—Mr. and Mrs. Martin Kniekel and family of Campbellsport spent Sunday with Mrs. Elizabeth Schaefer and other relatives here.

—Carl Schnurr, student of the University of Wisconsin at Madison visited over the week-end with his parents, Mr. and Mrs. August Schnurr.

—Mrs. Herbert Backhaus, who was seriously injured several weeks ago, when she was run over by an automobile, is able to be up and around.

—With the first rainfall of the season in this locality, this week, it was of great help to the farmers for the grain that was sown the past ten days.

—Fred Jung, Mr. and Mrs. D. Hilbert and Mr. and Mrs. Chas. Edkins of Fond du Lac spent Sunday with Mr. and Mrs. Hubert Wittman and family.

—Mr. and Mrs. C. Scheuerman and family, Mr. and Mrs. Chas. Johnson, Miss Margaret Schlosser and Edward Brandt of Milwaukee spent Sunday with the Jacob Schlosser family.

—Mr. and Mrs. R. R. Kruse, the latter a sister of Mrs. L. C. Brauchle, and Ed. Wolf of Columbus, visited at the home of Dr. and Mrs. L. C. Brauchle and family last Sunday.

—A large number of cotton tails were planted in this vicinity the past week. This work was promoted by several local sportsmen who had the rabbits shipped here from Kansas.

—Mr. and Mrs. A. W. Miller of Appleton spent Sunday with Mr. and Mrs. Walter Freis and family. They were accompanied home by Mr. Miller's father, who will visit with them for some time.

—Miss Marie Kulek of Milwaukee spent several days of last week with her parents. While here she attended the funeral of her grand mother, Mrs. Anna Wagner.

—Tony Meyer and family of Milwaukee spent last Saturday with Mr. and Mrs. F. E. Colvin. They were accompanied here by Mrs. Sara Van Eng, who visited a few weeks with them at Milwaukee.

—Mr. and Mrs. Charles Blaesser of West Bend spent Sunday with Mr. and Mrs. John Muehleis. Mr. Muehleis, who suffered a slight stroke of paralysis at his home here two weeks ago, is improving nicely.

—Mr. and Mrs. John Reisel and Mary Reichal of Newburg and Mrs. Mary Miller of Milwaukee spent Sunday with Mrs. August Bakgo Sr. and Mrs. Minnie Mertes and daughter Marna and other relatives here.

—Mr. and Mrs. William Schulz and family moved their household furniture to this village on Wednesday and will make their future home in the former Mrs. Robert A. Barkins residence, which Mr. Schulz recently purchased.

—Mr. and Mrs. Ed. Smith and family of Menasha spent several days the latter part of last week with Mr. and Mrs. S. F. Witzig. Being called here by the illness of Mrs. Smith's father, Mr. Witzig is now on the road to recovery.

—Mr. and Mrs. Gen. H. Schmidt and family of Chicago visited several days this week with Mr. and Mrs. N. J. Mertes and other relatives and friends here. Mr. Schmidt returned home on Wednesday while his family remained for the week.

—Mr. and Mrs. John Schmidt, Mrs. Mary Ann Hobeck and son Joseph of West Bend, Mr. and Mrs. Clemens Reimers were entertained at the home of Mr. and Mrs. Anthony P. Schaeffer last Saturday evening, in honor of Mr. Schaeffer's birthday anniversary.

—Mr. and Mrs. B. M. Seymour and sons Robert and James of Chicago and Miss Esther Backus of Milwaukee spent over Sunday with the R. A. Backus family in the town of Auburn. They were accompanied here by Mrs. Backus' "Hubbie" Backus and son Donald, who visited relatives at Chicago and Hinsdale.

—Complaint has been made in this office that automobiles being parked along the curbside are driven up onto the sidewalk and in some cases onto the portion of the lawn at private homes. This is of great annoyance to these owners, who walk along the sidewalk and also to nearby owners, who will appreciate it very much if this practice is stopped.

ANNIVERSARY SALE

Our Anniversary occurs on MAY 10th, it marks a period of 20 years in the jewelry business in this village. During this time we have conducted this business honestly and gave the public Quality Goods at the lowest prices. We wish to thank all our patrons for their patronage, and to show our appreciation we will offer for this ONE DAY ONLY, discounts on all cash sales on practically all our stock. Genuine absolute discounts from prices on goods carried in our regular stock, and from our regular prices. We reserve from necessity a few classes of goods on which the manufacturer's restricted prices do not permit a discount. We make this offer more as a gift than from the standpoint of merchandising, that is why we give no souvenirs. Anniversary Discounts—15% discount on Watches, Rings, Diamonds, Jewelry, Clocks, Silverware, Colored Glassware, Leather Goods, Ives, Umbrellas and some other lines not mentioned above. Also—Cut Glass 20%, Ivory Toilet Ware 33%, Hand Painted China 25%, Stationery 20%, Compacts 20%, Benrus Watches 10%. Sterling Silver Novelties, etc., values as high as \$1.75, choice at 45c; a limited number of Pearl Bead Chains at \$1.20; a very Liberal Discount on Talking Machines and Records. Come in and vote whether you purchase or not.

Discounts May 10th Only—Come and Save Money

MRS. K. ENDLICH, KEWASKUM

NEWS OF THE BADGER STATE

Antigo—By a vote of 19 to 4, the Langlade county board has repealed a dance inspection ordinance after a year's trial.

Plymouth—Cheese—Market for week ending May 1. Wisconsin exchange, 17 1/2; farmers' board, 17 1/2; American, 17 1/2; longhorns, 17 1/2.

Stevens Point—John S. Hofstos, 66, chief of police here for 17 years and a member of the force for 25 years, died at a Marshall hospital of Hodgkin's disease, a rare ailment.

Monroe—Two hundred fifty bankers and their wives are expected in Monroe May 5 for the tenth annual meeting of Group 2, Wisconsin Bankers' association.

Madison—The prohibition party will have a complete ticket in the Wisconsin election this year, A. R. Buckman, Deerbrook, stated. The party has not yet decided upon its candidates for this year, he said.

Barnes—Two barrels of buttermilk were used in extinguishing a fire in the milkhouse on the farm of Bert Wadwell, near here. The buttermilk was more convenient than water to throw on the flames.

Racine—Six hundred of the 1456 remaining Grand Army veterans who answered Lincoln's call will again salute the flag they defended when they mobilize here, June 14 to 16, for their sixtieth annual state encampment.

Marquette—Sawing their way through the tall bars and the heavy wire screen, and squeezing between the inner and outer steel window shields, three prisoners escaped from the county jail here. The prisoners were not missed until the turnkey brought their breakfast this morning.

Janesville—Lack of sanitary features may force the abandonment of the city's tourist camp this year. There is no sewerage system at the camp and this has brought on criticism from the state board of health and from tourist bureau representatives.

Beloit—"You may drop the case, I have found a different way," wrote Mrs. W. A. Harris, 40, to attorneys she had engaged to contest a divorce action filed by her husband. Police, breaking into the home when the woman's sister became alarmed, found Mrs. Harris dead in the kitchen, with a gas set open.

Kenosha—As the first steps toward a special election to decide whether Kenosha will remain under the city manager form of government or go back to the aldermanic plan, proponents of the change have announced that attempts will be made to get 2,000 signatures to a petition asking the council to call an election within 30 days.

Fond du Lac—A reward of \$500 offered for the finding of Frances Webb, 5-year-old Neenah girl, kidnapped a short time ago, has been paid to John Mann of St. Peter, Fond du Lac county farmer at whose home the child was left on the night of the kidnapping. Fred Zimke, who confessed the kidnapping after being arrested in Madison, is being held for trial.

Racine—William J. Smith, veteran of the Civil war and one of the oldest residents of Racine, died on his eighty-seventh birthday. Mr. Smith was born in Racine county, his parents being among the first white settlers. At the outbreak of the Civil war he enlisted with Co. K, 8th Wisconsin regiment, infantry.

Chippewa Falls—After deliberating an hour and five minutes, the jury in the case of the State of Wisconsin against Mrs. Helen Allard, charging assault with intent to kill, returned a verdict of acquittal without felonious intent. Mrs. Allard, about Emma Schultz, 29, three times in the left thigh on the evening of Nov. 2, when she returned from an afternoon auto trip with George Allard, husband of Helen Allard.

Madison—Camp Douglas, central gathering ground for the Wisconsin National guard, is to be known as Camp Williams this summer in honor of Lieut. Col. Williams, who has spent 30 years on the reservation, the adjutant general's office has announced. The change in name is temporary but a bill will be presented at the next legislative session to make it permanent. The Wisconsin military reservation has been known as Camp Douglas during most of its 40 years of existence.

Monroe—The contract for 8.5 miles of concrete paving on Highway 20, from this city to Judo, to meet the concrete pavement coming west from Brodhead, has been let to a Madison firm for \$203,251. This was the lowest of 14 bids, the highest being \$50,000 greater.

Manitowish—By a vote of 11 to 3, the city council of Manitowish endorsed a resolution and memorial to congress asking modification of the prohibition law.

Madison—James M. Clancey, Stoughton attorney and prominent democrat who died recently, left an estate valued at slightly more than \$80,000, according to the petition for administration of the estate filed in county court here. Mrs. Emma Clancey, the widow, is sole heir in the absence of a will.

Madison—Storekeepers are helping promote reading in rural communities of Wisconsin by becoming amateur librarians. It was disclosed at the recent county library conference here.

Tonah—Members of the local Walton league are planning a fish preserve on the upper La Crosse river for out-lings.

Menasha—After 41 years of service Joseph H. Miller resigned as chief of the local fire department. Assistant Chief Paul Thiener succeeds him.

Stevens Point—Having measles is getting to be a habit with Edward Hoffman, a high school student of this city. He is now under quarantine with the disease for the fourth time.

Eu Claire—Sunday, July 11, has been fixed as the date of the annual convention of the Holy Name society of the La Crosse diocese of the Catholic church. It was announced here. From 1,500 to 1,750 visitors are expected for the gathering.

Chippewa Falls—A sentence of 18 months to the Milwaukee house of correction together with a fine of \$1,500 was given to Joseph Lehrer, Bloomer, when he was found guilty by a jury in circuit court here for violations of the prohibition law on three counts.

Reedsburg—Less estimated at \$35,000 was caused by fire which destroyed the house, two barns and other buildings at the farm of John Ende, near here. The fire spread from the house to a 15-acre tract of timber, destroying second growth, but causing little damage to large trees.

Eu Claire—Special services commemorating the golden jubilee of Our Savior's Norwegian Lutheran church here were held Sunday, April 25. Many visiting clergymen assisted in the services, including the Rev. J. H. Preus, of the late Rev. J. W. Preus of Minneapolis, who served as pastor of the church from 1887 to 1896.

Minocqua—Equipment with which to begin construction of the new 981-foot bridge, which is to span Lake Minocqua, has already arrived and work will begin soon. The bridge will be entirely of wood because the soft bottom of the lake will not permit a concrete base. Nearly \$100,000 will be spent jointly by the state and federal government on the new structure. It will be ready July 1.

New London—Ollie Fayne Ormsby Belle, a 4-year-old Junior row, the property of the Christianson Bros. stock farm, near here, has broken the state record for high test cows. She produced 35,887 pounds of butterfat and 7193 pounds of milk in seven days. A cow belonging to Lewis Bros., Lake Beulah, formerly had the state butter record, 35,3 pounds.

Elkhorn—James Lauderdale, 84, Sunday school superintendent of the Bethel Methodist church, six miles north of here, has completed 30 years of service in that position. He holds a record for steady attendance at his duties in the church, and during a recent heavy blizzard he walked two miles through the drifts when his car became stalled in the snow, rather than miss a day from his work.

Madison—The prohibition party is entitled to a place on the ballot in the September primary for state, congressional or legislative officers, Atty. Gen. Herman L. Ekern has ruled. The opinion was requested by Secretary of State Fred Zimmerman, who had been asked whether the prohibition party was entitled to a place on the tickets in the congressional and legislative districts in Milwaukee county.

Oshkosh—The State Normal school and the entire west section of Oshkosh were threatened when fire, fanned by a high wind, destroyed the main warehouse of the McMillen Sash & Door Co. here. Students and faculty members, forming a volunteer fire fighting army, extinguished many small blazes that broke out on the roofs of the four normal school buildings, and controlled sweeping grass fires as the flames approached the educational buildings.

Washburn—Complete electrification of the Washburn Water Works Co. plant with the installation of new pumping apparatus, has been started. In a recent decision by the railroad commission the application of the water company for an increase in rates for Washburn was denied. The commission recommended that electric motors be substituted for the steam-driven pumps.

Milwaukee—Four firemen were killed and sixteen injured in a new dust explosion which followed an insignificant fire at the Marsh Wood Products company here. The explosion occurred after the fire had apparently been extinguished. Twelve men had been left to "clean up." While making sure the fire was out, the men scrapped about the bin of the plant, when suddenly there was a terrific blast. Millions of wood particles, each of which was aglow, showered the men and within a fraction of a second they were afire from head to foot. The force of the blast knocked them into the burning shavings, which added to their peril.

Manawa—Fifteen minutes after his brother, William Malloy, 60, was found dead in bed from a stroke of apoplexy at a neighboring farmhouse, Martin Malloy's farm buildings, six miles east of here caught fire and burned to the ground.

Fond du Lac—Frightened away by the unexpected return of the proprietors, burglars who stole \$329 dropped part of their loot as they fled through a rear door of the Cutler grocery store here.

Neenah—For the first time in this city's history a woman will direct a department of its municipal government. Mrs. F. W. Bishop was named city poor commissioner at the organization meeting of the council. She succeeds S. E. Merrill, who has held the office for many years.

Kenosha—Mike Olsen, 75, a familiar figure among Kenosha's pioneer residents, died of injuries received when he slipped in the bathroom of his home and bumped his head on the bathtub.

DIXIE POWER GROUP WINS ON SHOALS BID

Joint Committee Would Accept Proposition of Alabama Combination.

Washington.—The long-fought controversy over disposition of Muscle Shoals has loomed up again with the announcement that the majority of the joint committee of congress has agreed to recommend the bid of the Muscle Shoals Fertilizer company and the Muscle Shoals Power Distributing company.

The two companies have been organized by southern power companies, generally known as the "Southern Power group," headed by the Alabama Power company.

The committee, or a majority of it, favors a fifty-year lease of the property to the two companies mentioned which will return to the United States a total of \$181,348,000.

While there were seven bids which were looked on as entitled to consideration, the one which was most seriously taken into account, next to the winning bid, was that of the Air Nitrates corporation, backed by the American Cyanamid company. The maximum offered by this bidder was \$95,738,000.

Henry Ford, who it was reported would bid, did not make the committee a proposition. The Union Carbide company was a bidder.

The report of the committee, with a bill to carry it into effect, was presented to the senate and house. Senator Deneen presented it in the senate. He had no sooner done so than the battle over Muscle Shoals was once more on. Senator Norris made it plain he would object to the bill going to calendar and wanted it to be referred to the committee on agriculture.

It is plain there is ample trouble ahead for the bill authorizing the lease. The general belief is that it will not be approved this session.

Representative James of Michigan submitted minority views in the house and bitterly scored the majority report and the successful proposal as a "monstrosity" offered by the Alabama Power company and its associates.

The chief reason advanced by the majority of the committee for accepting the bid of the Muscle Shoals Fertilizer company and the Muscle Shoals Power Distributing company was because these bidders agreed to make the most fertilizer for the use of agriculture. A production of 40,000 tons annually is the amount which, after a certain period, is guaranteed.

Labor's Plan to Remodel World Given to League

Geneva.—Labor's program was presented at the opening session of the International commission for the preparation of an international economic conference under the auspices of the League of Nations. M. Joubaux, French labor leader, insisted that the conference must not dodge a great variety of problems touching the interest of the working man and including the production and distribution of raw materials, particularly coal, oil, iron, rubber, cotton, wheat and chemicals.

Two currents were manifested at the opening of the discussion among the 40 delegates who elected former Premier Theunis of Belgium acting president to replace Gustave Ador, ex-president of Switzerland.

The European governments advocated the convocation of the conference at an early date if possible, not later than October. The others insisted on the wisdom of at least one year's preparation and study before convocation, in order to make the conference truly world-wide and obtain reasonable assurance that it would prove helpful in remedying the economic distress still prevalent.

A SECRETARY'S WIFE

A striking photographic study of Mrs. Leland Harrison, attractive wife of the assistant secretary of state.

FIFTEEN BIG MILLS ARE CONSOLIDATED

One of Largest Organizations of Kind in America.

Baltimore.—Certificate of incorporation of the Flour Mills of America, Inc., was filed with the state tax commissioner.

The incorporation papers call for the issue of 80,000 shares of preferred stock and \$25,000 of common stock of no par value.

For taxation the stock was assessed at \$100 a share, making the potential capital of the company \$9,000,000. The incorporators are John C. Huston, M. S. Sowell Martin and Robert M. Johnson, all of 49 Wall street, New York.

Chicago.—A merger of fifteen middle western flour milling companies into one concern intended to rank as the largest manufacturer of hard winter wheat flour in the world and as one of the four largest milling companies in America is in process of formation.

The organization will be known as the Flour Mills of America, Inc., and it is said that a group headed by Spencer Trask & Co., Edward B. Smith & Co., J. & W. Seligman & Co. will shortly make offering of its securities.

Twelve plants of the Kansas Flour Mills company in Kansas City and the Southwest and three flour mills of the Valier and Spies Milling company of St. Louis are brought together. Headquarters will be in Kansas City. Thad L. Hoffman, president of the Kansas Flour Mills company, is president, Charles Valier, St. Louis, vice president; A. T. B. Dunn, treasurer. Directors are: Thad L. Hoffman, R. W. Hoffman, Enterprise, Kansas; A. T. B. Dunn, W. R. Duerr, H. J. Owens, Charles Valier, Lewis Valier, Fred Morrow, Toronto, and L. M. Gardiner, New York.

The merger takes in these plants: Hoffman Mills, Enterprise, 1,000 barrels; Moses Brothers Mills, Great Bend, 2,000 barrels; Kingman Mills, Kingman, 650 barrels; Pratt Mills, Pratt, 600 barrels; Anthony Mills, Anthony, 1,000 barrels; Goodlander Mills, Fort Scott, 625 barrels; one hundred and fifty grain elevators in Kansas and Oklahoma; Valier and Spies Milling company, St. Louis, 3,200 barrels and 1,900,000-bushel elevator; Valier and Spies Milling company, St. Jacobs, Ill., 600 barrels and 200,000-bushel elevator; Valier and Spies Milling company, Marine, Ill., 500 barrels and 100,000-bushel elevator.

BELGIAN DEBT PACT RATIFIED BY U. S.

Senate, by Vote of 55 to 20, Sanctions \$417,780,000 Settlement.

Washington.—Congressional approval of the last of the big war-debt settlements thus far funded was completed when the senate, by a vote of 55 to 20, ratified the \$417,780,000 Belgian debt settlement.

Just before the final vote the senate rejected, by a vote of 52 to 21, an amendment by Senator Howell of Nebraska providing for the exchange of the Belgian promises to pay for negotiable bonds that could be sold in the open market, similar to the proposal he attempted to tack on the Italian settlement.

After this defeat the opposition, led by the old irrecusable group and a handful of Democrats, collapsed and the ratification resolution quickly went to final passage.

The opposition was based chiefly upon the renitention of interest on Belgium's \$171,780,000 prearmistice debt because of the promise of leniency made by the late President Wilson. The American debt commission recognized that promise as a "moral obligation" and made the concession.

The postwar debt of \$246,000,000 was funded along the lines of the British settlement, bearing 3 per cent interest for the first ten years and 3 1/2 per cent for the remainder of the sixty-two-year funding period. Belgium will pay a total of \$727,830,500.

France must pay \$200,000,000 during the first five years of its \$4,000,000,000 debt-funding agreement with the United States, Republican leaders in congress have informed members of the American debt commission.

The demand is based on the conviction that the house and senate will refuse to ratify any agreement which reduces the initial payments appreciably below the final offer of Joseph Caillaux last fall.

Mr. Caillaux offered \$400,000,000 annually for the first five years, and \$60,000,000 annually during the second five, making an aggregate of \$500,000,000 for the first decade.

The Bereaer offer, held unacceptable by the American debt commission, would begin payments at \$25,000,000 annually and aggregate only \$475,000,000 in the first ten years.

A compromise, it is understood, will call for total payments of approximately \$7,250,000,000, with initial annualities in excess of \$300,000,000 and extending close to the Caillaux figures. Suggestions from Paris that a separate "secret" agreement might be entered into as a substitute for the "safeguard" clause were received with astonishment by American officials. Any such agreement, it was pointed out on the highest authority, would be entirely beyond authority of the debt commission.

Secretary Mellon informed M. Bereaer that France's initial offer had been found unacceptable.

Would Cut Immorality as a Bar to Aliens

Washington.—"Moral turpitude" is removed from the immigration act, as far as deportation is concerned, under the terms of the new deportation bill reported by the house committee on immigration.

Visitors like the countess of Cathcart would not be affected by this change, inasmuch as section 3 of the act, relating to admission of aliens, remains unchanged. But such aliens as the Earl of Craven could not now be deported for moral turpitude. This was possible under the present law, although it was not attempted.

The bill substitutes for moral turpitude a jail sentence of one year or a total of several sentences amounting to 18 months. It is primarily designed to facilitate deportation in order "to promote the maintenance of law and order."

Confiscate 34,400 Bottles

Chicago.—Within a few hours after police had raided what is estimated as the city's largest distillery, police of another station, on information supplied by railroad special agents, confiscated 34,400 bottles of ale—retail value \$34,400—and arrested six men. Prohibition authorities said it was the largest shipment of ale ever intercepted in Chicago.

Butter on Protection List

Washington.—Butter has been added to the list of basic commodities to be protected under his farm relief bill, Chairman Haugen of the house agricultural committee announced.

Noted Writer Dead

Stockholm, Sweden.—Ellen Key, who has had a powerful influence on Swedish literature, is dead here, at the age of seventy-six years.

Has Rare Art Museum

Belvidere, N. J.—The recent acquisition by Dr. George Wycoff Cummins of this town of a number of authentic Revolutionary documents has brought to light the fact that Doctor Cummins has one of the largest private museums in this country.

Grange to Meet in Maine

Portland, Maine.—The 1925 convention of the National Grange will be held in Portland, November 10 to 14, its executive committee has decided.

Extend Tacna Registration

Arica, Chile.—The period for plebiscitary registration has been extended twenty-five days by unanimous vote of the Tacna-Arica plebiscite commission.

Three-Mile Limit Stands

New York.—The right of the United States to seize foreign run ships beyond the three-mile limit was denied by the United States Circuit Court of Appeals.

Take Precautions in Producing Milk

Dairymen Adding Safeguards to Protect Material From Contamination.

Up-to-date dairymen are using the most sanitary methods known for producing market milk. They realize that milk is easily contaminated and are adding to their systems of production such additional safeguards as are necessary to protect this essential human food from contamination.

Such dairymen no longer permit large numbers of flies in the milk house. They clean the utensils thoroughly, wash their hands before milking and even go so far as to clip the under part of the cow's body so that loose dirt and dust that might cling to long hairs will not find a place to lodge and later fall into the milk.

Practically every farmer grooms his horse; and good dairymen now groom their cows because they know it is beneficial to the health of the animals.

Large dairies use a good steam boiler for furnishing the steam supply for sterilization. Small dairies use a more simple steam sterilizer or boil the utensils in water for five minutes. Information relative to the construction of sterilizers may be obtained from the United States Department of Agriculture.

Another important process that good dairymen use in the handling of milk is to cool it properly during storage, transportation, and delivery. This prevents the rapid multiplication of bacteria in market milk. The milk is cooled to a temperature of 50 degrees Fahrenheit or below. The best way to do this is by means of a surface cooler, using the coldest water available, and then setting the cans of milk in a well-insulated tank, the water of which is below 40 degrees Fahrenheit.

Other measures that are employed by these dairymen for safeguarding

Keeping a Record of Each Cow—Note the Covered Pail Which Keeps Dirt Out.

and especially is it a means of removing dirt that might get into the pail cooled, and in some cases bottled, are located at a convenient distance from the barn and so situated as to be free from dust and stable odors. These buildings are screened to exclude flies. Some are divided into two rooms, one for handling the milk and when the cows are being milked. In addition, just before milking, these dairymen wipe the udders and flanks of the cows with a damp cloth. Such precautions are sure to reduce the number of bacteria that would get into the milk.

Substitutes for Liquid Lime-Sulphur Not Good

Horticulturists and orchardists who are obliged to fight the San Jose scale are likely to find it to their advantage to stick to the liquid lime-sulphur or mineral oil sprays which they have used in the past, rather than to depend upon the use of "dry" substitutes. That is the conclusion reached by the United States Department of Agriculture after three years of trials of a number of dry lime-sulphur substitutes now offered commercially. While the value of these dry substitutes, which have been on the market for a number of years, is a disputed point, the department's tests found them unsatisfactory when compared with the liquid lime-sulphur.

The department's experiments include 30 tests with dry calcium-sulphur, 33 tests with dry sodium-sulphur and 11 tests with dry barium-sulphur. They were conducted under practical orchard conditions in four different states and cover a period of three years. Both apple and peach trees were used and conditions varied from a moderate infestation to incrustation. Conditions in the different orchards were such that the natural increase of the scale varied from rapid to moderate.

These tests showed that the commercial samples of dry calcium, sodium, and barium sulphures, even when used at strengths much greater than ordinarily employed, do not furnish a satisfactory control of the San Jose scale.

A good feed for poultry is dry bread soaked in milk and squeezed dry. After three or four days they will eat commercial chick feed.

BEST YIELDS OF CLOVER IS SECURED FROM NATIVE SEED

For instance, Mr. Blair states that the Virginia experiment station has found that American-grown seed averages over 1,000 pounds more hay per acre than the French growth, when the two are sown side by side. This difference is due mainly to the fact that the foreign seed is more subject to anthracnose. This disease destroys much of the stand of clover and seriously checks the growth of those plants not killed outright. As a result of this disease, the foreign-grown seed seldom makes a good second crop.

Indications are that the supply of American-grown seed will be very short this season, while an unusually large amount of foreign seed is on the market.

Mr. Blair cautions farmers to know the source of the seed which they buy.

The best dairymen also see to it that cows are well bedded. They remove the manure often, and in every way possible prevent the cows from getting dirty. Ample ventilation is provided, and the barn is so constructed as to allow as much sunlight as possible to get into the stalls. A concrete floor is one essential of an up-to-date dairy barn because it can be easily kept clean and does not absorb liquids that cause bad odors in stables as is the case with those floored with wood. The walls and ceilings of such barns are whitewashed twice a year to purify the stables and keep them light.

Good dairymen recognize the fact that a small-top pail as shown in the picture is of great assistance in keeping milk clean, for while milking in spite of the precautions taken, some bacteria will get into the pail; and of course the smaller the opening the less dirt will be found in the milk. Pails of this kind are on the market, but any tinier cut convert an ordinary pail into a small-top pail by the addition of a hood.

Convenient Milk House

Milk houses where the milk is the other for washing the utensils. This is advisable since it makes it easier to keep the milk free from contamination. Ventilators also are put in to keep the air in the milk room fresh and to carry off steam from the washroom.

It is now a matter of common knowledge among good dairymen that unclean utensils may be a common source of bacteria in market milk. To prevent contamination from this source, these dairymen use plenty of hot water, an alkali washing powder, a stiff brush, and steam for cleaning the utensils. They are thoroughly cleaned before being sterilized, since sterilization is not a substitute for washing. This sterilizing process not

### NEW PROSPECT

Mr. and Mrs. E. W. Becker, Mrs. K. English, Geo. H. Meyer and family were Fond du Lac visitors Tuesday.

Miss Corbell Bartlett spent Thursday with Mrs. Herman Molkenthine.

Miss Hazel of East Valley was a village caller Monday afternoon.

Frank Brown and family were Fond du Lac business callers Saturday.

Miss Corbell Bartlett spent Monday evening with relatives at Waucousta.

Mr. and Mrs. W. J. Romaine visited Sunday with the Phil Koch family at Lake Geneva.

Henry E. Uelmen and family of Sheboygan called on Geo. H. Meyer and family Sunday.

M. T. Kahn, sons Clayton and Michael spent Thursday evening with relatives at St. Kilian.

E. W. Becker, son Edmund and Mrs. Becker of Milwaukee called on village friends Sunday.

Mr. and Mrs. Andrew Beisler and children of St. Kilian spent Sunday with M. T. Kahn and sons.

W. A. Krueger and grand daughter little Belora Blige of Cascade called on Mr. and Mrs. J. P. Uelmen Friday evening.

Miss Corbell Bartlett returned home Thursday after spending the past month with the Oscar Bartlett family at Waucousta.

Miss Augusta Krueger returned Friday evening from a few days' visit with her son W. A. Krueger and family at Cascade.

Mr. and Mrs. H. E. Uelmen, daughter Mary Elair and son Peter spent Saturday and Sunday with Mr. and Mrs. J. P. Uelmen.

Mrs. E. W. Becker and children Edmund and Corolla June have returned from an extended visit with her father, Frank and family at Dorchester, Wis.

Mr. and Mrs. John E. Krueger, Mr. and Mrs. J. P. Uelmen, and Mr. and Mrs. J. P. Walsh attended the play given by the American Legion at the Opera House at Campbellsport Monday evening.

### ST. KILIAN

Grandma Semas on the sick list.

John M. Flisch and Miss Frances Strachota spent Tuesday at Milwaukee.

Art Payne and Miss Marietta Byrne spent Sunday with relatives at Milwaukee.

Mrs. Anna Flisch and son Anton of Milwaukee spent Sunday with Mr. and Mrs. Joseph Flisch and family.

Miss Louise Ronesho of Milwaukee spent Saturday and Sunday with Mrs. Kathryn Strachota and family.

Mrs. Kathryn Strachota and family spent Sunday with Mr. and Mrs. W. B. Jaeger and family at Ashford.

Mrs. Joseph Beisler and daughter Frieda of Ashford are visiting at the Henry Jaeger home since Tuesday.

The Hillside school closed Friday. Miss Helen Damash, teacher of same left Sunday for her home at Berlin.

Mr. and Mrs. Miller of Randolph, Minn. is visiting with Mr. and Mrs. William Sem and Grandma Sem since Saturday.

Mrs. Lizzie Borchert returned to her home at Campbellsport last week after spending several months with the Geo. German family.

Mr. and Mrs. Chas. Katzenberger and daughter Irene of Allenton spent Wednesday with Mr. and Mrs. J. P. Schmitt and family.

Mrs. Caroline Strobel returned to her home here Saturday after spending several weeks with relatives at Hartford and Milwaukee.

Mrs. And Brodzeller returned to her home here Wednesday after spending the past week with the Joseph Brodzeller family at Theresa.

Mrs. A. M. Wieting returned to her home at Chicago Sunday after spending the past two weeks with Mr. and Mrs. Wm. Sem and family.

Mr. and Mrs. Henry Jaeger and daughter Violet attended the funeral of the infant son of Mr. and Mrs. Jos. Schill at Ashford Tuesday morning.

**NIGHT'S REST**  
**DISTURBED**

Is Nature's Way of Telling You "Danger Ahead." A Healthy Bladder Does Not Act at Night

Mrs. G. W. Bushong, 1012 S. East St., Bloomington, Ill., says, "Lithiated Buchu tablets relieved me of bladder weakness. Was distributed twenty to thirty times a night. I feel I am well. I tried many treatments, submitted to operation, and much torture. In one week after taking Lithiated Buchu I could notice improvement. I will be glad to tell or write my experience." Lithiated Buchu is not a patent medicine. The formula is on the bottle. It cleanses the bladder as epsom salts do the bowels. The tablets cost 2 cents each at all drug stores. Keller Laboratory, Mechanicsburg, O. Locally at Edw. C. Miller's.

will bring him deep into the mire and muck of the metropolis? No one! We can only shed a silent tear and pray for him!

Carrying his suitcase, Emil stepped out upon the street in search of a lodging for the night. He made his way to East Water and Wisconsin streets, where he paused before the Trust Co. building, to get his bearings. It was dark—the phenomenon often happens in the lights illuminated the corner but imperfectly. The youth was awed by the strangeness of it all. Glancing uncertainly up and down the streets, he was about to proceed in his quest, when he felt a gentle touch upon his arm.

He wheeled and faced a beautiful handsomely dressed blond!

"Oh, sir," said the beautiful blond, as she delicately removed some zinn frage between her pearly teeth, "will you please help me?"

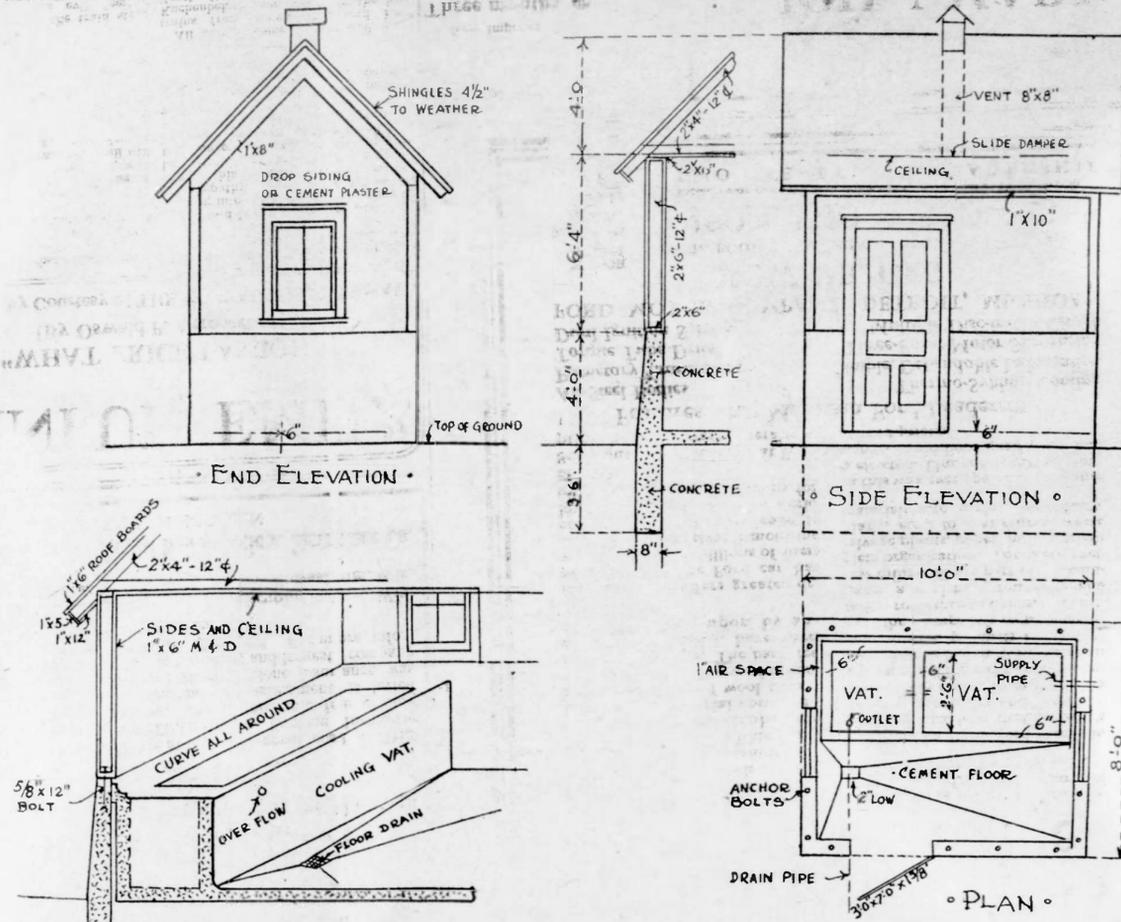

"Eh, simple, innocent country youth, was stunned for a moment. To be accosted by this beautiful creature was surprising—her plea for help made him dumb. Through his mind flashed everything that he had ever read of the wiles and ways of city women and he was wondering how to get when the blond, becoming impatient, brought him to earth with a slap.

"Please, sir, help me! Can't you!"

Emil did the beautiful blond do to him? Read the next instalment of this thrilling novel of life as it is in Milwaukee for amazing developments! (Continued Next Week)

# BUILD A MILK HOUSE

Owing to numerous requests regarding plans and specifications of Milk Houses, we are publishing same for general information of the dairy-men of the surrounding community. We can't have real good milk unless we have a good place to keep it. Where it keeps cool and is safe

from dirt, dust, flies, etc. Build the Milk House separate from the barn, but handy to it, where it is away from strong odors. Supply it with plenty of fresh water. Enough light to see to work, and of material that is easily kept clean. It will be a paying investment. The U. S. Bureau of Dairying furnishes some interesting figures giving data on the keeping quality of milk produced under different conditions. "Milk cooled promptly to 50 degrees kept 118 hours or just about 5 days; milk not cooled kept 23 hours, not even one whole day. A good milk house makes it possible to keep milk good.

## "SINFUL EMIL"

OR  
"WHAT PRICE PASSION"  
[By Oswald P. Arrowroot]

Published by Courtesy of THE MILWAUKEE JOURNAL

Emil Patrick Kuchenbeiser, reaching 21, tires of life on his father's farm near Kewaskum and determines to go to Milwaukee where his genius may have full play. He tells his father, Amos Kuchenbeiser, of his plans and the ensuing quarrel is overheard by Emma Hemstitch, hired girl, who swoons when she learns that Emil will leave but first exacts from Emil a promise which the elder Kuchenbeiser charges his son forever to hold sacred.

Emil then bids all farewell and is about to step aboard the train at Kewaskum, when a heavy hand is laid upon him and a stern voice commands him to halt.

Chapter III  
Emil whirled from the train steps only to pierce into the evil, loathing countenance of Jobson Kartoffel—and he knew that he was lost!

"Oh!" he exclaimed dramatically, his fine features writhing in agony. "I might be say Oh! For Jobson Kartoffel, the leader of the Kewaskum Bohemian set—the man about the county as it were—was a man to brook no obstacle. Emil well knew that Jobson would be relentless in the exercise of his power and influence and his heart sank within him. "You can't owe me!" Jobson sneered, his hand retaining its hold on

Emil's shoulder. "I want cash! Come across, you sneak, or I'll break every bone in your head!"

A crowd began to gather and Emil, perceiving the faces of no glimmer of sympathy. Useless to appeal for aid to the hostile crew. So, slowly, but painfully he drew from his pocket the sum of \$1.75 and handed it over. He owed the money as the result of a session at pinche with Jobson the week before.

"The price of being snatched!" muttered, of our hero to himself, as he sought rest in the couch.

## Ford

# Highest in Quality Lowest in Price

Ford cars are built throughout of the finest materials that can be produced. The very best steels available are used in Ford manufacture. The plate glass for windshields and windows is a perfect as can be made. Upholstery material contains a larger percentage of wool than is ordinarily specified—even for much higher priced cars. The basic features of Ford design have never been improved upon by any manufacturer.

No other car offers greater dependability. The Ford car has won the favor of millions of users under every conceivable motoring condition. Its convenience is known and appreciated the world over; its performance is taken for granted.

Such quality is possible at Ford prices because every operation, from mining of ore to final assembly, is under direct control of the Ford Motor Company.

Iron is taken from Ford mines in Michigan; coal from the Company's mines in Kentucky and West Virginia. Glass comes from Ford glass plants; wood from the Ford timber tracts in the North. Raw materials and finished products are carried over the Company's own transportation routes; coke ovens, blast furnaces, a steel mill, foundries and saw mills—all are part of this complete organization. There are even salvage plants, paper mill, cement plant, etc., to transform waste materials into useful by-products.

In this way every possible economy is effected. Under no other circumstances could Ford quality be had at Ford prices.

### Features That Maintain Ford Leadership

- All-Steel Bodies
- Planetary Transmission
- Torque Tube Drive
- Dual Ignition System
- Thermo-Syphon Cooling
- Simple, Dependable Lubrication
- Three-Point Motor Suspension
- Multiple Disc-in-Oil Clutch
