KEWASKUM, WISCONSIN, SATURDAY, AUG. 13, 1927

NUMBER 43

UNITED IN BONDS OF MATRIMONY

The marriage of Miss Loretta Simmert, daughter of Mr. and Mrs. A. G. Simmert, Milwaukee, to Leo G. Marx, son of Mrs. Martha Marx, formerly of Kewaskum, took place Tuesday at 9:00 a. m. at St. Ann's Catholic church, Msgr. A. B. Salick officiated. The bride was given in marriage by her father. She wore a gown of white crepe satin and chantilly lace, trimmed with pearls, made in bouffant fashion. The tulle veil was arranged in cap fashion with an applied border of Venetian lace. She carried a shower bouquet of white thistle, lilies of the valley, wax stars and baby breath. Miss Gertrude Simmert, sister of the bride, attended as maid of honor. Her gown was of orchid taffeta with picture hat to match. She carried a bouquet of pale pink roses and baby breath. Miss Sylvia Marx, a sister of the groom, was bridesmaid. She wore a yellow taffeta gown. A picture hat of the same shade completed the costume. She carried yellow tea roses and orchid larkspur. Their gowns were made in bouffant fashion. Alvin Goodman attended the groom as best man and Alvin Simmert as groomsmen. The ushers were Sylvester Marx and John Gibbons. A wedding dinner at the Aberdeen Hotel followed the ceremony.

At the parsonage of Rev. Ruppert at West Bend, occurred the marriage of Miss Gertrude Dickman, daughter of Mr. and Mrs. Otto Dickman of the town of Auburn and Gustav Lavrenz Jr., son of Mr. and Mrs. Gustav Lavrenz, Sr., also of the town of Auburn on Wednesday, August 10th. The couple were attended by Mona Foerster, as maid of honor and Emma Lavrenz, as bridesmaid, Fred Dickman was best man and Arnold Peschken was usher. The bride was dressed in a beaded white georgette dress, she wore a veil in fan effect and carried a bridal bouquet of pink roses. The bridesmaid wore a yellow georgette dress with gold lace. Miss Lavrenz wore a pink flat crepe dress, trimmed in white roses. Both attendants carried bouquets of sweet peas. After the ceremony a reception was held at the home of the bride's parents with about 150 relatives and neighbors in attendance. The home was decorated with pink and white crepe paper and cut flowers. The newly weds left on a short wedding trip through the northern part of the state. Upon their return they will reside at West Bend where the groom is employed as a mechanic at the West Bend Ford garage. They will be at home to their friends after October 1.

At the Evangelical Lutheran church of the Redeemer at Milwaukee occurred the marriage of Marlin Schnurr, son of Mrs. Ida Schnurr of West Bend, formerly of the town of Kewaskum and Miss Charlotte Anderson of Milwaukee, daughter of Mr. and Mrs. C. M. Anderson of Atlanta, Ga. The wedding took place on Saturday, July 30. The young couple was attended by Carl Schnurr and Miss Mildred Anderson, brother and sister, respectively of the groom and bride. The newly weds left immediately on a wedding trip to the home of the bride's parents at Atlanta, Ga. The groom is a graduate of the Kewaskum High School. When he completed his high school studies he took a four year course in the Agricultural College at Madison. He is now teacher of agriculture in the high school at Wilmot, Kenosha county, Mr. and Mrs. Schnurr will reside at Wilmot, Wis.

Arnold F. Haack, son of Mr. and Mrs. Bernard Haack of New Fane, was united in marriage to Miss Clara Cowalsky of Milwaukee, at the home of the groom's father, last Saturday evening at 6 o'clock. The ceremony was performed by Rev. Cowalsky of Timber Lake, South Dakota, a relative of the bride. Miss Malinda Haack attended the bride as maid of honor and Arthur Cowalsky was best man. The couple will reside at West Bend where the groom holds a responsible position at the Gehl plant.

LEGION PICNIC AND DANCE AT BOLTONVILLE

Triangle "B" Post No. 193, American Legion of Boltonville, Beechwood and Batavia, have completed plans for a monster picnic and carnival with dance in the evening to be held at the W. W. A. park and hall on August 14. The address of welcome will be delivered at 1 o'clock by the State Commander of the American Legion, D. J. Kenny of West Bend. During the afternoon games and amusements will be on hand for young and old accompanied by concert music. At 4:45 p. m. a tug-of-war contest will take place. Don't fail to see it. The day will wind up with a dance in the evening. Music furnished by Fred Wentland's orchestra of Plymouth.

—Mrs. Tillie Zeimet and children spent Sunday with the Ed. Smith family at Menasha. Raymond and Francis Zeimet remained there for a more extended visit.

Just Dying of Curiosity

By Albert T. Reid

COMMUNITY PICNIC AUGUST 21st

The West Bend Moose band will furnish music for the big Washington County Community picnic which will be held at Schoenbeck's woods, town of Trenton on Sunday, August 21. Committees are working overtime and are completing arrangements to make the event the greatest success in the history of Community picnics. The games committee is lining up a program of contests and stunts including everything from races to rolling pin throwing and chicken catching contests and the prize committee is gathering prizes to reward the fortunate and skillful. A short snappy home talent and speaking program is being arranged—but will be limited to a very short time. The event will be an all day affair beginning in the forenoon and lasting all day. The families are requested to come early and bring a basket lunch; coffee will be available at the grounds also sandwiches for those who want them.

CONCERT POSTPONED INDEFINITELY

Owing to the serious illness of Markui Grimm one of the members of Euterpe Quartet of Concordia College Milwaukee, the open air concert at St. John's parsonage, New Fane could not be held Thursday evening, as advertised. Since many expressed keen disappointment because the concert could not be held, St. John's choir may arrange another at some later date. We all hope for the speedy recovery of Mr. Grimm.

TO HOLD LARGE PICNIC AND DANCE

The members of the Married Ladies Sodality of St. Kilian's congregation, St. Kilian will hold a picnic and parcel post sale Sunday afternoon, August 14, and a card party in the evening at Wm. Koch's place at St. Kilian. Music in the afternoon will be furnished by Fell's Moonlitte Rounders, as well as other games of entertainment and amusements will be on hand. A delicious lunch will be served by the ladies. The proceeds of this picnic and card party will go towards the building of the new school.

TOWN SCOTT

Ed. Reis of Plymouth was a business caller in our vicinity Tuesday. Miss Emma Bethke of Rosendale is spending some time with John Aupferle and family. Mr. and Mrs. John Pesch and daughters spent Wednesday evening with Chas. Backhaus and family. Mr. and Mrs. Eimer Moldenhauer of New Fane spent Thursday evening with Mr. and Mrs. Anton Backhaus. Mr. and Mrs. John Weyker and family of Port Washington and Mr. and Mrs. Peter Pauly and family of Saukville spent Sunday with John Pesch and family. News reached here of the arrival of an eight pound baby boy at the home of Mr. and Mrs. Julius Gessner at Fredonia. Mrs. Gessner will be remembered as Viola Schiltz.

—Mrs. Tillie Zeimet and children spent Sunday with the Ed. Smith family at Menasha. Raymond and Francis Zeimet remained there for a more extended visit.

NORMA TALMADGE IN SURPRISE ROLE

The Opera House theatre's next attraction will give photoplay-goers what is predicted as the biggest surprise of the year. Screamdom's most famous dramatic actress has turned comedienne and will open a one day engagement.

Norma Talmadge is the star, and her latest picture is "Kiki," an elaborate cinema version of the David Belasco stage success. Entirely different from any role she ever portrayed on the screen during her long career, "Kiki" is said to afford Miss Talmadge an ideal vehicle. The Princess Yevive of Graustark has changed into a Paris street gamine—a ragged, short skirted miss who lives by her wits and bewitching ways. Her adventures carry her into theatrical life and into the homes of the rich. She winds up by—well, she finally realizes her ambition to be a "great lady."

Miss Talmadge's supporting cast reveals many distinguished screen names—Ronald Colman, Gertrude Astor, Marc MacDermott, George K. Arthur, William Orlamond, Erwin Connolly, Frankie Darro and Mack Swain.

Church Notices

PEACE EVANGELICAL CHURCH Ernst Irion, Pastor

9 a. m. Sunday School. We will have a missionary speaker to tell us about China Missions.

Mission Day Services

At 10 o'clock a German service will be held. Speakers: Rev. A. Bettin, Bielefeld, Germany; Rev. Paul Irion, Michigan City, Indiana and Rev. J. Voeks of Palatine, Ill., will sing. 2:30 p. m. English Mission service. Rev. Paul Irion and Rev. Paul Kehle of Ripon will address us. The offering of the day should be an expression of our interest in Kingdom work. Everybody is welcome to all services.

SOOK-SIELAFF WEDDING

The marriage of Miss Elsie Sook, daughter of Mr. and Mrs. John Sook of Campbellsport, and Reuben Sielaff, Eden, son of Mr. and Mrs. Frank Sielaff of Hilbert, took place at 10 a. m. Wednesday at the parsonage of the Salem Evangelical church at Fond du Lac. Rev. A. E. Happe performed the ceremony. The couple was attended by Miss Ellen Sook and Wilfred Sielaff, brother of the groom. The bride was attired in peach colored georgette crepe and carried a bouquet of Ophelia roses and ferns. Her attendant wore a pink georgette crepe gown and a corsage of Columbia roses and sweet peas. Mr. and Mrs. Sielaff left on a wedding trip. They will reside in Eden.

The following were guests of the Louis Bath family Sunday: Mr. and Mrs. Harry Stein, Will Stein and family and Virginia Sable of Milwaukee, Mr. and Mrs. Harold Reilly of West Bend, Math Bath and family, Mr. and Mrs. Joe Hermann, sons Sylvester and Raymond, Mr. and Mrs. Charles Bath and Mike Bath from here.

A. P. Schaeffer, assessor Sal. and auditing board of review.....	62.00
L. P. Rosenheimer, auditing board of review.....	12.00
Otto E. Lay, auditing board of review.....	12.00
S. N. Casper, auditing board of review.....	12.00
Otto Backhaus, labor, teaming and gravel.....	63.20
Carl Backhaus, labor.....	10.50
John Kohn, labor.....	9.10
Albert Kocher, labor.....	2.80

Upon motion the board adjourned.
S. N. Casper,
Village Clerk

DEATH OF MRS. MATHILDA GOLL

Mrs. Mathilda Goll a well known resident of Batavia, died at her home there on Friday, August 5 after an illness of six years following a stroke of paralysis. Deceased was born July 1848 in Germany. She leaves to mourn four sons, John, Sam, Chas. and Ben Goll; and six daughters, Carrie, Mary, Lydia, Kate, Minnie and Jessy, and 37 grand children and 16 great grand children. The funeral was held Monday from the home of her daughter, Mrs. H. Klein. Rev. Glazer officiated. Burial was made in the Zion's cemetery.

CARD OF THANKS

The undersigned desire to express heartfelt thanks to their many relatives and friends who so kindly assisted them in their recent bereavement, the death and burial of their beloved daughter Lorraine Florence. We also wish to thank those who loaned cars, gave flowers, to Rev. Vogt for his kind sympathy and to Undertaker Clemens Reinders for his assistance. Thanks are also extended to all who showed their sympathy by attending the funeral.
Mr. and Mrs. Clarence Kudek.

HOLD FAMILY REUNION AT BARTON

The Wm. Goebel's woods at Barton was the scene of the Koch and Kocher families reunion last Sunday afternoon, at which about 200 guests were in attendance. Relatives to the Kocher and Koch families from northern Wisconsin, Barton, West Bend, Milwaukee, Kewaskum, Campbellsport and Chicago were in attendance.

NOTICE

After August 20, the New Fane Milling Company will grind feed and press apples on Monday, Wednesday and Saturdays.
Chas. Beck.

YOUNG MAN IS INSTANTLY KILLED

A fatal auto accident happened on Highway 55, near the Washington and Fond du Lac county line about two miles north of Kewaskum, last Saturday evening at about 11 o'clock, when a large Master Six Nash touring car owned and driven by Chas. Howe of Lloyd St., Milwaukee, got off the highway and crashed through the guard rail at the approach to the bridge crossing the Milwaukee river at that place. At the time of the accident there were three other occupants in the car, besides the driver, namely: Elmer McPherson, aged 29 years, 247 Mineral St., Chas. Cassedau, 246 Mineral St., and Wm. Wentz, 246 Mineral St., all of Milwaukee, who were on their way to Shawano where they intended to visit relatives over the week-end. They left Milwaukee at 8:30 p. m. Saturday evening, arriving at the scene of the accident at about 11 o'clock. The driver stated that when they came within a few feet of the guard rail something seemed to go wrong with the steering apparatus, losing control of the machine, the car crashed into the guard rail with the result that a piece of the guard rail punctured McPherson's abdomen, who was sitting in the rear seat, and who was almost instantly killed. The rest of the occupants of the car were thrown out of the machine and escaped injury. They found the body of the dead man lying on the edge of the road. Cornor Clemens Reinders and Marshall George F. Brandt of this village were summoned and the remains of the unfortunate man were brought to the Reinders undertaking parlors here from where they were removed on Sunday afternoon to Milwaukee. At a coroners inquest held on Tuesday evening at the city hall a verdict was handed in by the jury when the automobile in which he was riding and driven by Howe, who was under the influence of liquor crashed into the guard rail at a high rate of speed. Deceased leaves to mourn, his mother Mrs. Emma McPherson, and the following brothers and sister: Ellen, Robert, Willard, Lester, Joseph and Earl. The funeral was held on Wednesday afternoon from the funeral home of Wm. Grunewald, 347 Reed St., burial was made in Good Hope cemetery, Milwaukee.

NEW FORD CAR BUILT IN SIX MODELS

Chicago—The new Ford car, described as a little brother of the Lincoln, will be introduced to the public within three weeks, it was learned. A standard gear shift with clutch, actually a small sized Lincoln transmission, replaces the old planetary system. The engine has a larger bore and longer stroke and "it" is said, develop speed of fifty-five miles an hour in high. Four wheel brakes, wire wheels and balloon tires are standard equipment.

The new car, it is said, will sell for from \$30 to \$50 more than the present model. It will appear in almost any color combination the buyer desires.

The motor is four cylinder, L head type cast in block, with a 3 1/2 inch bore and a 4 1/2 inch stroke, developing 2,500 to 2,700 revolutions a minute. A high gear ratio gives the car its speed. The timer, the bugbear of Ford owners, is replaced with a Lincoln type distributor. There will be no part of the new Ford interchangeable with parts of model T, it is said, the car being entirely new.

The car will appear in six models it is reported: sport roadster, business and sport coupes, tudor and fordor sedans and touring cars and a ton truck.

WEST BEND WILL PLAY PLYMOUTH SUNDAY

The West Bend base ball team of the Eastern Wisconsin League, will play the strong Plymouth team at West Bend tomorrow, Sunday. West Bend has an all home team with the battery. The team has played good ball all season, and are deserving of a large attendance at their games. They lost to Plymouth last Sunday at the latter place by a score of 5 to 2, and are looking for revenge in tomorrow's contest. The game therefore will be a hotly contested one and full of lots of exciting moments.

NOTICE TO CONTRACTORS

Sealed bids will be received by the Village Board of the Village of Kewaskum, Wis. for the construction of approximately 3,000 sq. ft. of cement sidewalk, also bids for furnishing the cement for same. All bids to be in the clerk's office not later than 7:00 p. m., August 22, 1927. The board reserves the right to reject any or all bids.
Dated August 8, 1927.
S. N. Casper,
Village Clerk.

LOCAL CHURCH TO OBSERVE JUBILEE

Some congregations build new and magnificent church edifices to the glory and honor of their God and Father above, other congregations decorate already existing edifices with the same spirit and intentions, to the latter class belongs the Ev. Lutheran St. Lucas church of Kewaskum.

Feeling that the bare plaster was no longer in harmony with the spirit of the place of worship as it should be, the congregation chose C. A. Christiansen of Milwaukee to decorate the interior. It is useless to describe the work in detail, seeing it believing all are spell bound by the beauty and harmony embodied in the fresco-work.

The general color tone runs in a warm gray and amber color. On either side of the sanctuary a large oil painting is painted on the wall, one being the Ascension of Christ and on the other side the apparition to the Shepard or rather the angel announcing the Birth of Christ. The sanctuary ceiling is treated in a clouded effect with the three empty crosses as they appeared on the first Easter morning. The walls are treated in a warm gray which gradually blends into the ceiling tone, a border of laurel leaves symbolical of peace and victory is painted above the choir rail in a mosaic affect also a border symbol of the blood of Christ in a grape leaf pattern is painted around the triumph arch, dividing the pillars in the front wall dividing the sanctuary from the church are made in an Italian marble effect.

With the church being re-decorated, the congregation will tomorrow, Sunday, celebrate its golden jubilee of the church, with services in the morning at 9:30 o'clock, conducted by Rev. F. Greve, and at 7:30 p. m. Rev. Schluster of Oshkosh. The congregation was organized on August 20, 1877. Rev. P. F. Gilbert was the first pastor, who served the congregation for seven years, upon his resignation Rev. F. Greve, accepted the pastorate of the church, and was installed on January 11, 1885. In the year 1887, a parsonage was built, which today stands as one of the historic buildings of the congregation. On August 20, 1902, the congregation celebrated its 25th jubilee, with appropriate services during the day. On Jan. 11, 1910, the 25th anniversary of Rev. Greve as pastor was celebrated. As time passed on the condition of the church edifice became such, that it was deemed necessary to build a new one, this was accomplished in 1912, when a new \$15,000 building was erected. On Feb. 1, 1914, the first services in this new modern building were held. In June 1923, Rev. Greve resigned his pastorate of the congregation, and on Sept. 16 of the same year Rev. H. H. Heide accepted the position as pastor of the church, and who is serving the congregation in a faithful manner at the present time. In connection with the celebration luncheon in cafeteria style will be served at the congregation's school. The public in general is cordially invited to attend the celebration.

YOUNG MAN UNDER ARREST FOR FORGERY

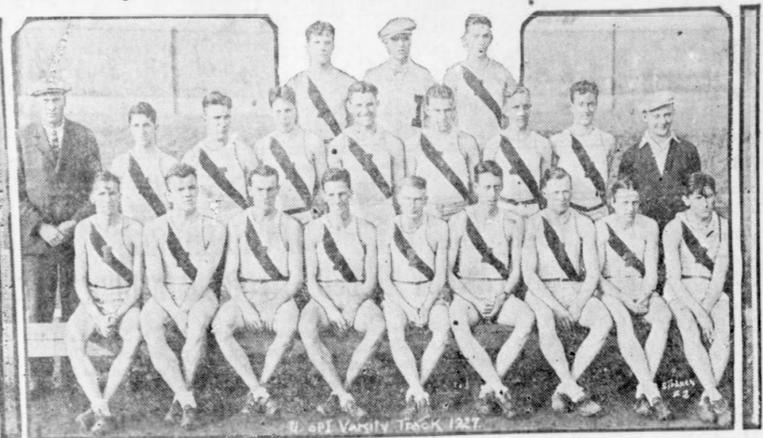

Edward Bartelt, aged 17 years, is languishing in the county jail in this city as the result of forgery and thefts which he admits having committed in this vicinity and also at Waukesha. Bartelt, who is an orphan boy, will have a hearing in juvenile court before County Judge Bucklin some time this week. Bartelt was employed on the farm of Peter Strupp in Addison until a short time ago. While thus employed and while Mr. Strupp was on a vacation, Bartelt issued a check for \$20 on the Allenton State Bank in favor of John J. Hess and signed Mr. Strupp's name. He also took money from their home. The young man made a complete confession after he was taken a prisoner by Sheriff Hetzel last Friday. Bartelt was arrested at Waukesha after having committed a number of thefts in that city.—West Bend Pilot.

YOUNG MAN LOSES EYE IN AUTO ACCIDENT

Nic Lahr, son of Mrs. Mich. Lahr of the town of Barton, is confined at Dr. Urkart's hospital at West Bend as the result of an automobile accident, when the car which he was driving left the road on Highway 55 about 1 mile north of Barton on Sunday at 3 a. m. Mr. Lahr was on his way home alone and thinks that his car ran off the road when he fell asleep at the wheel. He was caught beneath the wreckage and his head was badly injured. He was taken to Dr. Urkart's hospital, where upon examination it was found necessary to remove his right eye and eyelid, and take out a piece of the bone above the eye which was crushed. He is getting along nicely and probably will recover if no infection sets in.

University of Illinois Won Big Ten Track Championship

The photograph shows the 1927 University of Illinois track team which won the Big Ten championship. Left to right, bottom row: D. W. Fairfield, Chicago; D. R. Lyon, Chicago; J. V. Simon, Chicago; J. F. Sittig, Chicago; Capt. D. T. Rup, Mattoon; D. F. McKeever, Milwaukee, Wis.; A. C. Meistahn, Montrose; E. J. McElwee, Sidney; A. O. Currier, Lawrenceville; Second row: Harry Gill (coach), R. T. Hall, Louisville, Ky.; F. L. Peters, Billings, Mont.; F. B. Stine, Chicago; R. B. Orlovich, Joliet; H. E. Bergstrom, Chicago; R. T. Hamlett, Chicago; J. M. Royer, Oak Park; Paul Thoma (manager), Top row: T. J. Wachowski, Chicago; F. P. Johnson (assistant coach); H. S. Foner, LeMotte.

GOLF LIGHTS ARE BASEBALL PATRONS

Hagen Included in Ranks of Lovers of Diamond.

If you see the big leaguers on the links you see many of the crack golfers in the ball yards. Walter Hagen never misses a practice game when the Yanks and Braves train at St. Petersburg. Walter knows his baseball onions. He once almost followed baseball as his profession. He was with the Rochester club and had a chance to go to the Phillies, when he decided his future was in golf. A wise choice!

Columbia Crew Has Aims for Olympic

Columbia varsity crew, which won the national title at Poughkeepsie, may not defend its honors in the intercollegiate regatta next year. The Blue and White oarsmen are anxious to compete at next year's Olympic games, provided they are named as America's representatives, and they will be forced to forego the Poughkeepsie regatta unless the American Olympic committee chooses a date for the American tryouts next year that does not conflict with the intercollegiate race.

Many Players Hurt

It seems a year of injuries among the big leaguers. Among those who are on the casualty list now are Thomas Thevenow (shown in the photograph) Cardinals' shortstop, with a broken ankle; Urban Shocker, Yankee hurler, also a broken ankle; Fred Schulte, Browns' outfielder, with a fractured wrist and rib, and Frank Hogan, Braves' catcher, with a cut hand. Pity the poor insurance men.

African Caddies Using Heavy Iron Golf Clubs

Native caddies in South Africa become crack golfers with improvised clubs made of heavy iron wire bent at the business end into the correct lie. The club head is a short piece of iron pipe. The grip is of old rags or cloth wrapped with fine wire. With only one club of this crude nature, Joseph, a native caddie at a Bloemfontein club, won a caddies' course measuring 3,000 yards in 44 strokes. Bogeys for the nine holes is 28. The native caddies often return better scores than do the players who carry the regular assortment of drivers and irons.

BASEBALL NOTES

Pete Fowler, Atlanta club pitcher, has been sold to the Chicago Cubs. Babe Ruth is singing a song that was popular several months ago. It is "Don't Bring Lou-lou." Sale of John Miljus, leading pitcher of the Seattle baseball club, to the Pittsburgh Pirates is announced. At last the perfect name for a rookie. The Giants have come up with a young fellow named Boni.

Sporting Squibs

Lindbergh flew high and low but spurns the Jack. Rowing at Columbia university this season will cost \$24,000. There are 26,700 sporting clubs in England with a membership of 1,420,000. The Longwood Bowl tournament at Boston is the oldest of all tennis competitions in the United States. Dartmouth college has a rule that no student can obtain a degree unless he has succeeded in swimming the length of its pool. One by one our drug store cowboys are coming around to the hard historical truth that America never had a great national hero with patent-leather hair. Eben M. Wells '28 of Wintthrop, Mass., holder of the world record for the 45-yard high hurdles, has been elected captain of the Dartmouth college 1928 track team. Newer and lighter football helmet will probably be adopted throughout the country next fall and as a result players will only be weighted down about seven pounds instead of fifteen or twenty. Bert Bates, Toronto youth who is stationed at Talara, Peru, with an oil company, has taught the natives how to play lacrosse and league competition is now in progress there. Columbia university has re-engaged Daniel Meenan as head coach and Paul Mooney as assistant coach of basketball for next season. "Sunny Jim" Coffroth, owner of Tin Juana, the famous Mexican race track, is said to be planning a \$15,000 purse for the Coffroth handicap in 1928. Aviation has brought forward the fact that an immense amount of publicity may be developed without the promotion of Tex Rickard or the supervision of Judge Landis.

The KITCHEN CABINET

(© 1927, by Western Newspaper Union.) If we would do something worth while, we must first realize that we must be something. We must be able to think, plan, create, not be a mere echo of what some one else has done.—Lloyd.

HINTS AND GENERALITIES

"Take care of the minutes and the hours will take care of themselves," we have learned in childhood, but rarely heed. The pauses between tasks, due to lack of forethought and planning, will sum up to many an hour in a week's work. We all wish to be neighborly and show proper interest in others, but the hours spent in idle talk, if not gossip, might be spent so much more profitably. Most thrifty housewives have a bit of work at hand, that may be picked up in an idle moment and much may be accomplished in odd times. When food is baking and must be watched, turned or attended to, that time may be spent in getting other foods ready for the meal. After lettuce is washed and drained, place in the ice chest and the lettuce is then ready for the dressing.

It is said that Victor Hugo wrote many of his wonderful books in the 15 minutes before breakfast. This thought gives us the proper value of a few minutes in a daily schedule. It is imperative that every mother should have some knowledge of food values. Health is the most valuable asset of any individual, and no matter how intelligent or how well provided with wealth, ill health makes life a failure very often. One raw vegetable a day is the rule given us to keep in good health. Fresh fruits, green salads and simply cooked foods should be the rule. Vitamins are present in the green-leaved vegetables and vitamins are the health-producing and growth-producing elements which we cannot afford to slight. Lettuce is one of the foods we are advised to eat freely. The leaf lettuce, being richer in vitamins than head lettuce, should always be eaten during the season when it may be grown freely in our gardens. The green leaf lettuce contains the vitamins A, B, C. Serve it twice a day when it is tender and plentiful and once a day the year around. Simple Foods. An ear of two of corn and two or three potatoes with a bit of shredded onion and a little chopped green pepper with a French dressing will make a most acceptable salad. If this is not enough for the family feed and cut into potato shaped slices a small tomato for each serving; cover with the salad and serve on lettuce. Egg and Cabbage Salad.—Cook six eggs; when cold remove shells and cut into halves lengthwise, take out the yolks and rub them through a sieve, season with salt, pepper, grated onion and mix to a paste with mayonnaise dressing. Mix into small balls and set aside. Shred the whites of the eggs with a sharp knife and add twice as much shredded cabbage. Mix with mayonnaise, arrange a bed of lettuce and sprinkle the cabbage mixture over it, then drop the egg balls on the salad. Cabbage Salad.—Chop a small firm head of cabbage with one good sized onion, brown a thick slice of pork cut into dice and pour the hot fat over the cabbage, reserving some of the fat to garnish the top. Season well with salt and cayenne and add a tablespoonful or two of vinegar heated to the boiling point in the frying pan. Mix well and garnish the top with a tablespoonful of the brown cubes. Another Onion Salad.—Cut the small green onion into slices, season with salt and pepper and add sweet or slightly soured cream or a dressing. Nice with cucumber added or the cucumber may be served with the sour cream. Peanut Salad.—Peanuts chopped coarsely and sprinkled with a little shredded green onion over lettuce and served with a French dressing, make a most acceptable salad. Cantaloupe Cocktail.—Scrap out small balls from ripe melons and fill sherbet glasses. Prepare a rich lemon syrup, using the juice and rind of the lemon with sugar. Chill and pour over the melon balls. Decorate with a bunch of fresh green mint and serve well chilled. Orange Ice.—Boil one cupful of sugar and two cupfuls of water five minutes. Mix the grated rind of one orange to the sugar first. Add one-third cupful of lemon juice and one cupful of orange juice. Freeze after becoming cool. This makes one quart. Rice and Almond Cream.—Blanch one-half cupful of almonds and cut them into thin strips. Put into a double boiler with the almonds, three cupfuls of milk and one-fourth cupful of sugar, one-half cupful of salt and one cupful of well-washed rice. Cook until the rice is tender. When ready to serve, dip it into sherbet cups and garnish with whipped cream and apple jelly.

It is imperative that every mother should have some knowledge of food values. Health is the most valuable asset of any individual, and no matter how intelligent or how well provided with wealth, ill health makes life a failure very often.

One raw vegetable a day is the rule given us to keep in good health. Fresh fruits, green salads and simply cooked foods should be the rule. Vitamins are present in the green-leaved vegetables and vitamins are the health-producing and growth-producing elements which we cannot afford to slight. Lettuce is one of the foods we are advised to eat freely. The leaf lettuce, being richer in vitamins than head lettuce, should always be eaten during the season when it may be grown freely in our gardens.

Paris Says Sans Sleeves

The little figured effects, which have been so exploited this season, are practical and adaptable to midseason wear. The short cape-and-blouse costume which has either a separate or an attached sleeveless blouse. For street wear these youthful looking cape suits are developed either of the novelty woolen checks or of satin or crepe. These sleeveless daytime frocks which have a cape to match are ideal for early autumn when cool breezes struggle for supremacy with departing summer sun glow. Then, too, without the cape, one is charmingly attired for afternoon bridge or five o'clock tea. With the cape, perfect street apparel is achieved.

Silk Suits Use Prints

Modeled on the successful lines of the sweeter suits, new suits made of printed silk in small patterns are delightfully feminine. The frocks are long-sleeved and the sweaters V-necked.

No More Long Scarfs

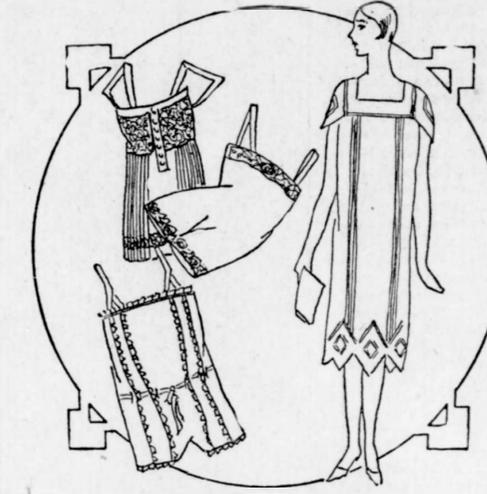

Thumbs have been turned down by the fashion arbiters on the long scarf, that is, in conjunction with the new popular short coat. The thing to wear instead is a large brightly colored handkerchief worn around the neck and loosely knotted in front.

Hats for Sports

A well-known milliner is using a soft, thin angora jersey to face small sports shapes of velvet, usually contrasting the colors.

Pretty Things that are Made at Home

THERE'S always "room for one more" dainty garment in one's wardrobe of pretty underthings. That's why it is both profitable and pleasurable to spend one's leisure hours making up a number of lingerie items to add to the collection. Such adorable nightrobes, chemise and such as are being made of colorful voile this season! The beauty of these fluted voiles is that they are so amazingly inexpensive, at the same time so truly lovely. Three yards of peach-colored voile with a half yard of French blue makes the attractive "nightie" in this picture. If you prefer, substitute flesh color for the peach, with deep rose instead of the blue. Perhaps pure

Dainty Things Easily Made

white with pale green would appeal to you more, or possibly maize color with orange voile for the diamond-shaped applique. Any of these color combinations will be effective, the outstanding point of interest being the unique short sleeves camouflaged by inserting diamond-shaped portions of the voile at each shoulder line. Speaking of short sleeves, have you heard the latest? Well, it's this—sleeves for nightgowns are coming back again. The clever thing about the gown in the picture is the way a short-sleeve effect has been obtained without resorting to the ordinary sewed-in-sleeve which so few of us like. The hemline is also pointed to match the sleeve. Diamond motifs of the contrasting voile are applied, as the picture shows. Applique, please to re-

Her's Brief Day

Fame is fleeting. The laurel wreath rests but a short time on the brow of one here before it is transferred to another. The world wants little of us, who leave much for posterity and takes little for himself.—Grit.

They'll Catch Us Sure!

TWO HOMES MADE HAPPY

By Women Who Used Lydia E. Pinkham's Vegetable Compound. "I have taken Lydia E. Pinkham's Compound and I think it is the most wonderful medicine I ever tried." The statement is made by Mrs. St. James, 210-1/2 N. 1st St., St. Paul, Minn., who is taking the Compound and she is a better health than before. Mrs. J. Brown of 29 Lane Street, Paterson, N. J., writes: "I cannot speak too highly of your medicine and I recommend it to all my friends." These statements were taken from two enthusiastic letters which are of the help that has been rendered from using the Vegetable Compound. Both Mrs. Shoup and Mrs. Brown were in a run-down condition which caused them much unhappiness. When women are suffering from lack of strength and from weakness of their own life and that of their family is affected, when they feel tired and strong and are able to do their household easily, happy home is the result. Are you on the Sumfit list for Better Health?

Lighting Makes for Safety. Good lighting increases safety. Four persons are accidentally killed every minute of the working day due to faulty lighting and two are accidentally killed every hour due to the same primary cause. An average of 100,000 workmen are out of work annually due to accidents traceable to inadequate lighting. At \$1.00 per person this is a loss to the country of \$100,000,000 annually.

Stomach Disorders are decidedly unpleasant

Green's August Flower is gentle laxative, will aid promptly in relief of stomach and bowel troubles, and your freedom from pain and discomfort will make you feel that life is again worth living. 30c and 50c bottles. At all druggists. J. G. Green, Inc., Woodbury, N. J.

Kill All Flies!

Harold Somers, D.D., D.V.M., has a new fly killer which kills all flies. It is a small, white, rectangular box which is placed in the room and kills all flies that enter. It is a most effective and safe fly killer. Price, 25c. J. G. Green, Inc., Woodbury, N. J.

Silence Seldom Hurts

It takes days to get over the sting that results from having talked too much. Only rarely does one regret keeping still.

"BAYER ASPIRIN" PROVED SAFE

Take without Fear as Told in "Bayer" Package

Does not affect the Heart

Unless you see the "Bayer" package or on tablets you are not getting the genuine Bayer Aspirin. Proved safe by millions and prescribed by physicians over twenty-five years for Colds, Headache, Neuritis, Toothache, Rheumatism, Neuralgia, Pain, Pain.

KILL RATS SAFELY

You can now stop house mouse and rat infestation in any quantity by using K-R-O. K-R-O is the most powerful and most effective rat and mouse poison. It does not contain arsenic, phosphorus, barium carbonate or any other toxic poison. At your drug store, or mail order, you will find K-R-O in a small box. It is a safe and effective rat and mouse poison. K-R-O CO., Springfield, Ohio. KILL-RATS-ONLY

Farmer (to passing hobo)—Hi, you! They need workers at the farm down there just beyond the cross-roads.
Hobo—Thanks for the warning, boss. I'll make a detour.

Stucco Colonial Is Attractive Design for a Comfortable Home

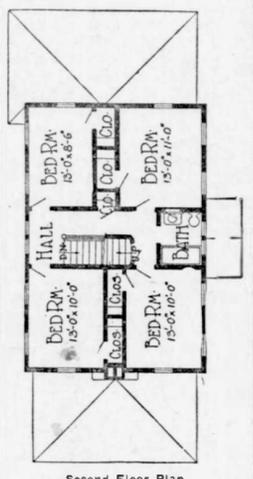

By W. A. RADFORD
Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to practical home building, for the readers of this paper. On account of his wide experience as editor, author and manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1827 Prairie avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

The colonial style of architecture is popular among those who build homes both in the city and the smaller communities as well. It is economical to build because the lines of the building are straight. It is attractive in exterior appearance and the greatest amount of room may be secured on the two floors.

The home design shown is of a seven-room house, 35 by 24 feet, exclusive of the porches on either end. It follows the colonial style of room arrangement, with an entrance hall in the center, a living room extending the depth of the house on one side and dining room and kitchen on the other. In addition to this arrangement, a large washroom with lavatory is added for the convenience of the farm family.

The living room, as will be noted by the floor plans that accompany the exterior view, is 15 feet wide and 23 feet long. In the center of the outside wall is set an open fireplace with doors opening onto the porch on either side. The dining room is at the front and is 13 by 14 feet. The kitchen is rather large, while the washroom is 8 by 10 feet.

The stairs to the second floor run out of the entrance hall and lead to a central hall above. Each bedroom is a corner room, giving plenty of light and ventilation. The bathroom is at the end of the hall at the front of the

house. Each room has a closet adjoining it.
A basement, the same size as the house proper, provides storage room and space for the heating plant and fuel. Also dormers set in the roof admit light to a good-sized attic, which also may be used for storage and other purposes.
The exterior walls of the house are covered with stucco, making an unusually attractive home. The frame may be of lumber, or the house may be constructed of brick, tile or concrete blocks, with the stucco applied over. This is an unusually attractive farm house building design.

House Can Be Made Ugly by Use of Wrong Paint

A house is lived in too long and under too many conditions of weather and season, to say nothing of other circumstances, to be extreme in any way.

It need not be so neutral as to forego all individuality, but it should, on the whole, be rather conservative than enter on the other side. The exterior should be neutral enough to serve as a peaceful transition between the surroundings and the interior furnishings, and to sit harmoniously and quietly in its own grounds.

If the house is finished with smooth siding, such as wide boards or clapboards, it takes paint, but if it is covered with rough lumber, or shingles, a stain should be used. Stain is a thin material and will not successfully tint smooth woodwork, but it penetrates deeply into the surface of rough wood. These are technically known as single stains, although they may be applied just as well to any wood of a rough surface. Paint should be used on smooth siding and trim, where it will produce a film of weather-resisting material on the outside of the boards, penetrating only slightly into the wood fiber.

Paint for exterior purposes is usually made of mineral pigments and linseed oil. The oil is the agent which binds the pigments together and binds the film structure to the surface. Being a vegetable product, it is natural that it should decay. Therefore, the

natural and proper procedure in the "wearing away" process of paint is that the oil should decay from the surface inward.

When the oil has decayed the pigments on the surface are no longer bound together and are easily blown or washed away. Painters call this "chalking," and when it is not too rapid is the ideal wearing away process. The surface is thus left fit for repainting. Loose paint should be removed by scraping. A torch will be necessary if there is an abundance of loose paint.

If the old paint holds fast in spite of the scraper or torch, experienced painters generally soften it up a bit with benzol. At any rate, when they repaint they put a pint of benzol or solvent naphtha to each gallon of the new paint. This will soften what remains of the old paint and allow the new coat to bond with it. It also prevents "crawling" or eventual scaling.

Outside paint work, subjected to the hard wear of the elements, should be renewed at least every three to five years, depending on its condition and appearance. If one's purse is suited to stand the strain, a building should be painted every two years. Two-coats are necessary. For the first coat the paint is generally reduced with turpentine or oil, while the finishing coat is seldom reduced with anything except linseed oil.

A prepared paint containing the maximum qualities of carbonate of lead, oxide of zinc and pure linseed is best.

Good Lighting Saves Strain on Eyesight

Artificial light plays a part in the cheer and comfort of the home comparable with heat and shelter, but at a cost far less than these. It is not only very useful, but it radiates cheerfulness as well.

Good artificial lighting is the home-fire of the electrical age.
That we are paying a high price for careless lighting is evident in the great percentage of persons having defective vision.

Lights should not only be adequate in quantity, but should be properly diffused, and all light sources should be equipped with shades or inclosed in diffusing media. Frosted lamps aid in softening light and in softening the lighting effect.

But in our homes, even those should be screened from our eyes by means of shades or other diffusing devices. Much can be done toward introducing cheer and comfort in the home by selecting proper lighting equipment.
If the householder will keep in mind

that much can be done in decorating the home by properly shading light, in comparison to the cost of other furnishings, he will be greatly benefited. Eyesight is too valuable to be lost through improper lighting.

Rough Surfacd Brick Vogue of Exteriors

Brickwork is rapidly undergoing a radical change at the hands of the leading architects of the country, who are fast getting away from the old idea that in order to supply the very last touch in artistry it must present a surface as smoothly even and correct as if it had been molded. No longer is this the fashion, nor is it acceptable to the men who dictate architectural vogues.

Today the brickwork which catches the public eye and the popular fancy must be very rough. And the brick themselves must be of the same order. The rougher the better. Clicker brick, which only a few years ago had no market at all, are now in high favor.

Great River of Oil
The 85,000 miles of trunk and gathering pipe lines in the United States represent an investment of \$900,000,000 and transport 2,000,000 barrels of crude oil daily.

Overcomes Drowsiness
A meeting seed is any aromatic or pungent seed, as fennel, caraway or dill, so called because taken to counteract the effects of drowsiness in church.

A fortune will be made by the man who invents a house paints pressing machine.

Psychology does a great deal except what is the most important—stopping the worrying.

Children Cry for

Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

Girlhood Revived by Extremes of Fashion

Dr. Jabez Jackson, president of the American Medical association, said recently that any woman who could yet wouldn't improve her appearance with cosmetics ought to be spanked. Doctor Jackson, elaborating this novel point of view, said at a luncheon in Kansas City:

"When a woman goes in for cosmetics and heavy cuture her health improves. Take the during new fashions. They stimulate the circulation. Did you know it?
"A grande dame, got up in the latest and most daring thing from Paris, stopped at her doctor's table at the Fitz the other day and taugted and said:
"Doctor, I adore these new fashions. They make me feel so girlish. Every time a man looks at me I blush."
—Detroit Free Press.

CHICAGO & NORTH WESTERN RY.

Farm Chief Sums Up His Ideals for 1927 Wisconsin State Fair

To establish and maintain the greatest dairy cattle show on earth, with a correspondingly second-to-none Dairy Products show.

A 4-H (boys and girls) Farm club exhibit program including representation of these organizations from the standpoint of quality in exhibits and personnel, that will be outstanding.

A Manufacturers' exhibit which will be in keeping with the progress of industry in Wisconsin and indicate the possibilities for the potential development in this line.

A Horticultural and Crop exhibit which will stress quality rather than quantity at all times.

Lastly, a race and entertainment program which will provide clean, wholesome sport and fun to appeal to all classes of people.

Commissioner of Agriculture Walter A. Duffy thus sums up his ideals for the Wisconsin State Fair, to be held this year Aug. 20 to Sept. 3, in the first public statement he has made relative to the exposition since he assumed office.

Mr. Duffy points out that it should not be difficult to make the Dairy Cattle and Dairy Products shows the leaders in the world in view of Wisconsin's undisputed supremacy in this field of agricultural industry and he presents some interesting statistics to support his statement.

"In 1926 there were 3,606 head of livestock shown at the Badger State Fair, of which 1,355 were cattle and of these 1,065 were dairy animals," he said. "This was equal to the National Dairy Show and the Dairy Cattle Congress combined."

"There are several reasons for Wisconsin's preeminence as a dairy state: Wisconsin's investment in the livestock industry totals over a half billion dollars. Eighty per cent of the

farmer's income is from livestock sources. Wisconsin produces 75 per cent of the country's American cheese, 91 per cent of its Munster and brick cheese, 83 per cent of its Swiss cheese, and 30 per cent of its condensed and evaporated milk. It easily lends all

WALTER A. DUFFY

states in sale of dairy cows. During 1926 the state sold 72,880 head of dairy cows to nearly all the states and several foreign countries.

"People come to the fair not only to learn, but to be entertained. For this reason the entertainment features will be emphasized this year. The amusement park has been augmented. An effort will be made to provide SAFE, CLEAN amusements for all. Clean vaudeville acts, plenty of music, fireworks, are features that interest and please all and no good fair is complete without them. To sum up, no effort will be spared to make a fair this year that will educate, please and amuse all."

CASCADE

Miss Catherine Murphy returned from Ferry Lake Saturday.

Miss Sylvia Kunio of Sheboygan spent Sunday with her parents.

Mrs. Henry Skelton and children were Plymouth business callers Saturday.

Miss Muriel Godfrey of Sheboygan is a guest of her grand father, James Godfrey.

Miss Bess Calteaux of Milwaukee is spending her vacation at the Mrs. F. J. Murphy home.

Francis Fitzpatrick who attended the summer session of Milwaukee Normal returned home Friday.

Mrs. Geo. Schletter, formerly of here underwent a serious operation for goitre last Wednesday, at Plymouth hospital. She is recovering.

Miss Eileen Slattery returned from Pine Lake Thursday. Miss Slattery has been hired as teacher at Rothburn. Ben Butler will teach school in the Kramer Dist. this year.

Mrs. Jac. Watry and Raymond Watry of Belgium, Miss U. Watry and M. Petesch of Fredonia, Miss Bess Calteaux, A. C. Calteaux, Francis and Joseph Oberlin of Milwaukee were Sunday guests at the home of Mrs. F. J. Murphy.

Miss Patricia Miller is staying at the home of her grand mother, Mrs. M. Michaels, while her mother Mrs. Ernie Miller is at Plymouth hospital. Mrs. Miller underwent a serious operation for the removal of her goitre. She is slowly recovering.

Subscribe for the Kewaskum Statesman and get all of the news of your community.

BATAVIA

Mrs. Anna Reis is visiting friends at Plymouth this week.

Mr. and Mrs. Orin Kaiser and son returned from their trip Sunday.

Mr. and Mrs. Julius Reinke of Sheboygan visited with Mrs. Peter Diener Sunday.

Mrs. Paul Huth and son Edward of Milwaukee called on Batavia friends Monday.

Grandma Diener is spending a few weeks with Mr. and Mrs. Frank Diener and family.

Mrs. Holz and children and Mrs. Paul Leifer and children spent Tuesday at Random Lake.

Mr. and Mrs. Paul Leifer and children of North Milwaukee are spending the week with Mrs. G. A. Leifer.

Mrs. Paul Wenland and son Robert of Milwaukee are spending a few weeks with Mrs. Bertha Schilling.

Mrs. G. A. Leifer and Mrs. Paul Leifer and children spent Monday with Mrs. August Capella and the Otto Leifer family at Plymouth.

Mrs. Wm. Emley and daughter and Mrs. Kaul of Ladysmith who spent a few weeks with relatives and friends here, returned home Monday.

The Moraine Base Ball league will play ball at Batavia with Adell and Batavia. Come and see a good game. Last Sunday Batavia motored to Parnell defeating that team by a score of 7 to 9.

Mr. and Mrs. Max Schoetz and daughter of Menasha, Mr. and Mrs. Meyer and family, Mrs. Rosa Schaefer of Kaukauna, Mr. and Mrs. Emmet Miller and family, Mr. and Mrs. Edw. Reis and family of Plymouth, Mr. and Mrs. V. Vanness and children, Mr. and Mrs. Wm. Bartelt and family, Mr. and Mrs. Oscar Bartelt and family of Waucousta, Mrs. Kaul of Ladysmith, Mrs. P. Pithlonger and family, Mrs. Enright and family of Boltonville, Mr. and Mrs. Triphan and family of Mitchell, Miss Margaret Kupch of Milwaukee spent Sunday with Mrs. Anna Reis and John Emley and family at Batavia.

American Legion Picnic and Dance Triangle B Post, No. 173, American Legion of Boltonville, Batavia and Beechwood have completed arrangements for a monster picnic and carnival with dance in the evening to be held at the M. W. A. park and hall on August 14 at Boltonville. The address of welcome will be delivered at one o'clock by the State Commander, D. J. Keny of West Bend. During the afternoon and evening games and amusements will be at hand to entertain young and old. Concert music will be furnished. At 4:15 a tug of war will take place. Don't fail to see it. The day will wind up with a dance in the evening with music by Wendland's orchestra of Plymouth.

CAMPBELLSPORT

William Demstrey spent the week-end with relatives at Milwaukee.

Miss Mary Thill of Chicago arrived Saturday for a four weeks visit with relatives here.

Mr. and Mrs. Harry Diener are entertaining his brother John Diener and wife of Chicago.

Mrs. Byron H. Glass who has been ill at her home the last two weeks is slowly improving.

Mr. and Mrs. Charles Miritz and sons Scott and Delbert visited with friends at Grafton Sunday.

Miss Dorothy Meyer and Aaron Rudolph of Oconto Falls are spending a week here with his mother Mrs. Ella Rudolph.

Arthur Hoffman, 6-year-old son of Dr. and Mrs. Leo A. Hoffman underwent an operation at St. Agnes hospital Monday.

Mr. and Mrs. John J. Pesch and children, Mr. and Mrs. Alfred Van De Zande and family are spending a week at Long Lake.

Mr. and Mrs. Michael Theisen, who spent three weeks with relatives here have returned to their home at Chattanooga, Tenn.

Mrs. John Uelmen and daughter Anastasia of Green Bay are spending a week with her brother Frank Ketter and wife.

Mr. and Mrs. Arthur Baldwin and son Harold of Hartford were guests of Mr. and Mrs. O. M. Johnson Saturday and Sunday.

Mrs. Regina Thill and Miss Margaret Little have returned home from a several weeks motor trip through western points in the state.

Dr. P. A. Hoffman accompanied by Orien Klassen of West Bend and John Hill of Johnsonburg left Tuesday on a two weeks motor trip to Minnesota and the Dakotas.

Mr. and Mrs. Bernard Ulrich and daughter Anna accompanied by Anton and Gustave Ulrich of Milwaukee visited with Mr. and Mrs. Nicholas Schlaefter at Montello Sunday.

Mr. and Mrs. Henry Scholler and son Ray, Mr. and Mrs. Donald Johnson and son Jerry, Mr. and Mrs. Henry Pauline of Random Lake visited with Mr. and Mrs. L. C. Kohler Sunday.

The Misses Florence Bauer, Dorothy Schwanndt, Beulah Koch, Katherine Tuttle, Leona Meyer, Lillian Behnke, Eleanor Hendricks, Ruth Anderson and Margaret Hopkins are spending a week at Green Lake.

Mr. and Mrs. Ray J. Wenzel and children of Milwaukee visited with her mother, Mrs. Barbara Cole Sunday. Dr. Otto J. Cole, who has been critically ill at St. Mary's hospital the last four weeks is slowly improving.

Mr. and Mrs. Christ Litcher and son of Fox Lake, Mr. and Mrs. Clarence Litcher and family of Appleton, Mr. and Mrs. John Hughes and family of Fond du Lac were guests of Mr. and Mrs. Jacob Scheid the past week.

WAYNE CENTER

Washington Foerster transacted business at Appleton Tuesday.

Miss Margaret Melzer called on the Arnet sisters Sunday evening.

Mr. and Mrs. Ralph Petri visited at West Bend Tuesday evening.

Lucy and Leo Wietor were Theresa business callers Monday afternoon.

Mr. and Mrs. Frank Wietor and son Cyril were Ashford visitors Saturday evening.

Ruth Menger is spending a two weeks' vacation with relatives at Milwaukee.

Mr. and Mrs. Jac Becker of Kewaskum called on F. L. Borchert Sunday evening.

Miss Ruth Petri returned home after spending a week with Ralph Petri and family.

Norma Hawig is spending her vacation with John Hawig and family at Milwaukee.

Mrs. Rudolph Hoepner and daughter Arline spent Saturday with relatives at Theresa.

Mr. and Mrs. Henry Gritzmacher visited Sunday afternoon with Philip Arnet and sisters.

Misses Phyllis and Helen Serwe of Theresa are spending a week's vacation with Lucy Wietor.

Miss Katie Mueller of Madison, South Dakota is visiting with the Carl Jung family a few days.

Wilmer and Rosella Hawig, Leo and Lucy Wietor spent Sunday afternoon at Long Lake resort.

Arline Mertz and sister Anita visited a few days with Mr. and Mrs. Charles Mertz at Kewaskum.

Mr. and Mrs. Otto Roecker and son Daniel of Allenton were Sunday visitors at the Henry Guenther home.

Mrs. Albert Terlinden and daughters spent Tuesday evening with her parents, Mr. and Mrs. Carl Wehling.

Miss Kate Miller of Madison, South Dakota and Mrs. Kate Schaub were callers at Fred Borchert's Tuesday afternoon.

William Bartelt of Theresa and daughter Elsie of Michigan spent Friday with Mr. and Mrs. Rudie Hoepner and family.

Miss Katie Mueller of Madison, South Dakota visited with the Arnet sisters, Fred Borchert and Carl Struebing families.

Edward and Bobby Jossie of Milwaukee visited a week with their grand parents, Mr. and Mrs. Carl Struebing here.

Mr. and Mrs. Eddie Bachman and daughter Virginia were guests of Mr. and Mrs. Roy Zuehlke and daughter Sunday evening.

Mrs. Ralph Petri and daughters Paula Catherine and Betty Jane spent from Thursday to Sunday at Milwaukee and Waukesha.

Misses Mona and Beulah Foerster motored to Milwaukee Saturday, while there Mona attended the Hess-Radium wedding Saturday evening.

Mr. and Mrs. E. Hessler and son Junior and Mrs. Elizabeth Gerlach of Milwaukee visited Saturday afternoon with Frank Wietor and family.

Mrs. Jacob Knoebel and daughter Norma of Kewaskum and Miss Lena Terlinden of Milwaukee called on the Arnet sisters Tuesday evening.

Mr. and Mrs. Arthur Lenz and daughter of West Bend and Mrs. John Meyer of Richfield visited Sunday evening with Henry Gritzmacher and family.

The following were dinner and supper guests at the Hy. Schmidt home where they also helped celebrate Lucy's birthday: Mr. and Mrs. Henry Schmidt and daughters Irene and Marion, Dr. and Mrs. John Becker and daughter Alice and son Roy, Mr. and Mrs. Edw. Schroeder and daughter Ruth, Mr. and Mrs. Fred Becker, Mr. and Mrs. Ed. Summerfelt and Miss Helen Marose, all of Milwaukee, Mr. and Mrs. Wallace Geidel of Kewaskum, Mr. and Mrs. Fred Borchert and daughter Agnes and sons Milton and Lester of here.

WEST WAYNE

H. Coulter of Indiana visited Sunday at the Dave Coulter home.

Miss Elvira Coulter visited Friday afternoon with Violet Coulter.

John Coulter called on the Alvin Schwartz home at Lomira Sunday.

Jos. P. Schmitt and wife spent Sunday afternoon at the home of Martin Schmitt.

Miss Elvira Coulter visited Wednesday afternoon with Hedwig and Esther Dogs here.

Mrs. Andrew Mchulsky and son and Mrs. T. Coulter of Mayville visited Wednesday at the Wm. Coulter home.

30,000 STUDENTS LISTED AT UNIVERSITY

Madison, Aug. 11.—More than 30,000 students received instruction from the University of Wisconsin during the last year, according to figures prepared for the new catalogue. Of this number 12,779 enrolled for resident study while 17,648 non-resident students took advantage of the correspondence study-courses of the university extension division. Approximately 60 per cent of the latter were men students. Included in the total list are the 5,032 summer session students. The total list of resident students is an increase of 503 over that of 1924-25. Women were again in the minority in this list, only 5,771 enrolled in comparison with 7,008 men.

Be Ready for Any Condition at Harvest

McCormick and Deering grain binders have long enjoyed a world-wide reputation for substantial construction and ability to stand up and do accurate work year after year. Now you can buy in one machine the best features of both the McCormick and Deering, with the addition of many new improvements.

The McCormick-Deering grain binder is the most substantially built and lightest running grain binder on the market. The improvements which enable it to cut grain so successfully and tie bundles with such consistent accuracy, also include features which facilitate adjustments when they are necessary.

Instead of wasting time in trying to make an old binder work another year, instead of risking the loss of grain, better see us now and place your order for a new improved McCormick-Deering binder, so that you will be fully prepared to meet every emergency when harvest time comes.

"The Wanning Sex"

ALMOST everyone ordering printed matter feels that they want "something different." They sense that to obtain such printing they must have either one or two things—special cuts or type. To outline or specify "just what they want" is a task beyond one inexperienced in the craftsmanship of printing.

When you let us do your printing you get all of this service free of extra charge. We know just which type faces to use to carry your message in the most effective way. In addition to this we have a complete line of cuts to illustrate your messages—pictures which will attract readers and make them read.

No matter what kind of printing you want we can do it—deliver the job promptly—and at a price far below what you may pay elsewhere. Try us.

Doings at Our State Capital

Madison—Moves were made by several leaders of the senate and assembly for a reconvening of the Wisconsin legislature in an endeavor to adjust appropriation bills to avert vetoes and a subsequent special session.

Gov. Zimmerman has vetoed the Duncan bill, to permit construction of dormitories and common at state normal schools by non-profit sharing corporations.

The governor also vetoed the Wood bill, providing for the sale of auto registration records by bids, his reason being that the sale would create a monopoly of registration information.

Several bills passed during the closing days of 1927 Wisconsin legislature have been struck by Gov. Zimmerman's veto ax.

The Hull bill appropriating \$125,000 to build a prison for women at Taycheedah. The bill contemplated the removal of women now imprisoned at Waupun, relieving the congestion there and making available for occupancy the quarters women occupy.

In vetoing this bill, Gov. Zimmerman said: "The investigation of the interim committee authorized by the present legislature to investigate labor conditions in the penal institutions may well develop many ideas and suggestions in the administration of these institutions which will require modification of present plans.

The bill appropriating \$5,000 annually for six years for the study of bovine mastitis and \$5,000 per year for two years to study animals reacting to the tubercular test but showing no lesions. The governor said that he "could not approve the practice of providing the university with a budget contemplated to supply the financial needs of the university and then have such a budget supplemented and duplicated by various independent additional appropriations, as this bill does."

A bill increasing appropriations of the State Historical society from \$37,500 to \$67,500. He said that a surplus of \$4,557 indicated that the society's expenditures can be kept lower than the sum fixed in the bill.

The bill to protect trailing arbutus and white ladyslipper, which the governor believes to be non-enforceable and conducive to spite prosecutions.

Senator Santhoff's bill, which would have provided for a three-physician verdict as to the question of a man's sanity instead of the present jury trial. Gov. Zimmerman emphasized in his veto message of this measure the "constitutional provision providing that every man has a right to be tried by a jury."

Bill regulating the sale and size of fireworks, which the governor regards as "absolutely unworkable and not understandable."

Gov. Zimmerman signed the Gehrmann bill appropriating from the conservation fund \$17,000 for the purchase of Copper Falls and a park area about the falls in Ashland county. This is the first of the park bills to reach the governor, and it does not involve the surtax issue in the other park measures.

Other measures to receive the governor's approval provide for the construction of roadways under or over state trunk highways that pass through the grounds of any state charitable or penal institution; amendment of the statutes relating to the platting of lands, and regulations relating to the use of state owned automobiles and the use of personal automobiles in the business of the state. Under the latter bill, each department head might have a state-owned machine. If he determined that departmental employees needed automobiles in fulfilling their duties, they may use their own cars with his approval under this allowance system.

New London—Cole Sloan, 35, World war veteran whose wife committed suicide in Milwaukee June 14, took his life here by swallowing poison. Sloan had been in poor health since the war.

Manitowoc—Another extension of the city park system is contemplated here. The city park committee holds an option on 40 acres adjacent to the Silver Creek park bought last year. If the property is purchased it will provide Manitowoc with adequate park space for many years.

La Crosse—Waupaca was selected as the 1928 convention city by the Wisconsin Rural Letter Carriers, association at the annual convention here. Harold Turner, Black River Falls, was elected president.

Prairie du Chien—A recent terrific hail and rain storm nearly wiped out the tobacco crop in Kickapoo valley, which had promised to be the best in this tobacco growing area for many years. The hail riddled the field, velvety leaves in a 40-mile path from Barnum to Lafarge.

News of Badger State

Biramwood—More than 200,000 pounds of milk is handled each day by 21 cheese factories within 10 miles of this town.

Green Lake—James Lacey, county agent, has arranged poultry culling demonstrations to be held in each township during September. J. B. Hayes of the college of agriculture will be in charge.

Madison—Williams Manthe, Fond du Lac, was elected chairman and E. M. Dahlberg, Ladysmith, was elected secretary at the organization meeting of the newly created conservation commission. Both will serve for two years.

Port Washington—The 1927 congress of the Wisconsin Skat league will be held here Aug. 28. A qualifying tournament will be held Aug. 27. Wives of the players will hold a separate tournament, and will be entertained at a bridge and 500 party at the Masonic temple.

Muscoda—The Muscoda Cheese & Creamery Co., Inc., operating 10 plants in the Wisconsin river valley, receives 125,000 pounds of milk daily. The average price per 100 pounds in May was \$1.35. This concern manufactures daisies, longhorns and cheddars. The price of American cheese is about 4 cents higher than last year at this time.

Brodhead—The international sun dial which had attracted many tourists to this place, has been given to the village by F. A. Cooley, who built it about 25 years ago. The dial is one of a number which Mr. Cooley had in his garden, and is so constructed that it tells the time of day in various parts of the world, also making possible comparisons in time. The dial will be placed in the city park.

Chicago—Since the joint conference of operators and miners in the western Pennsylvania, Ohio, Indiana and Illinois, has been destroyed, there can be no such meeting as proposed by Governor Donahey of Ohio to end the suspension of mining in the union bituminous coal fields of the country. Illinois operators notified the Ohio chief executive.

Gov. Donahey was informed in reply to a letter seeking a joint conference, that the Illinois operators are ready to meet the Illinois mine workers whenever their problems can be discussed in an open and unhampered way. The miners thus far have refused to negotiate a new wage scale except on the basis of the old Jacksonville agreement, which the operators in the four states decline to accept.

Nice Miller, president of the Coal Operators' Association of Illinois, wrote Governor Donahey that "we believe the situation eventually must be worked out by the operators and mine workers of each district, working for their mutual benefit along broad lines, recognizing present realities."

"You address me as 'Chairman of the Coal Operators of the Central Competitive field.' There is no such organization or position," Mr. Miller wrote.

"In common with western Pennsylvania, Ohio and Indiana," the letter continues, "we were bound into what was known as the central competitive field, and in common with those other districts, we were unable to get any co-operation or relief whatsoever from officials of the United Mine Workers toward making obviously necessary adjustments. There have been no adjustments of our wage structure for over seven years, during which time there have been far-reaching changes in the industry that have literally cried aloud to be recognized.

"The same unsatisfactory experience of operators in the other unionized districts, and the inflexible and unyielding policy of the miners' union have resulted in a complete breakdown of the union and expansion of the nonunion fields.

"Most of the smaller bituminous coal fields outside the old central competitive field are today nonunion, and now the important Pittsburgh field is, to all practical purposes, non-union, and Ohio is of necessity starting along the same path. Only Indiana and Illinois remain union in the old sense, and in these states the industry is prostrated.

"At the Miami (Fla.) conference (in February of this year) union officials stood only for a renewal of the former destructive Jacksonville contract."

Mr. Miller enclosed information stating that the Illinois operators cannot renew the Jacksonville terms and live, and that the Illinois miners are not in position to consider anything but the Jacksonville agreement until the international policy instruction is released.

Governors of Illinois and Indiana joined with Governor Donahey in approving the proposal for a joint conference.

Russia Buys U. S. Machinery—Moscow.—The Soviet government announced that representatives of importing and exporting interests and a committee of the fruit and vegetable union had departed for California to purchase fruit-packing machinery.

Fifteen Killed in Mine Blast—Clay, Ky.—Explosion-wrecked No. 7 mine of the Western Kentucky Coal company gave up the bodies of 15 miners. All missing victims of the recent blast have been accounted for.

Plane Up 52 Hrs; Sets Mark—Dessau, Germany.—Cornelius Edzard and Johann Ristitz brought their Junkers W-33 plane to earth, after having established a new world endurance record of 52 hours 23 minutes.

Noted Irish Leader Dies—London.—John Dillon, who for 30 years was one of the leaders in the fight for home rule for Ireland, died following an operation. He was seventy-two years of age.

GOV. DONAHEY'S MINE PEACE SCHEME FAILS

Operators Refuse to Attend Meeting; They Want Pacts by Districts

Columbus, Ohio.—Because of unwillingness of operators to co-operate, Governor Donahey's plan for mediation of the mine strike in the central competitive field through convocation of a meeting on the same scale of that held in Miami, Fla., earlier in the year, has failed.

Governor Donahey, in admitting his inability to bring about the conference, stated that the governors of Illinois, Indiana and Pennsylvania had lent their good offices to the move and that the miners generally were in favor of the plan, but that the operators could not agree.

The mine owners for the most part favored agreement by districts, according to the governor, it being their contention that the central competitive field had been broken up with regard to a unified wage agreement.

"I have urged both the miners and the operators to get together on an economic basis in order that the coal industry may resume production, but without success," the governor admitted.

"County authorities have been informed that I expect them to maintain peace, but if they are unable to do so, I will not hesitate to call out troops," he added.

Effingham, Ill.—Fifty employees of the Edinburg Coal company, all union men, quit work. They had been working under a provisional agreement pending settlement of the wage controversy in the central competitive field.

Chicago.—The joint conference of operators and miners in the western Pennsylvania, Ohio, Indiana and Illinois, has been destroyed, there can be no such meeting as proposed by Governor Donahey of Ohio to end the suspension of mining in the union bituminous coal fields of the country. Illinois operators notified the Ohio chief executive.

Gov. Donahey was informed in reply to a letter seeking a joint conference, that the Illinois operators are ready to meet the Illinois mine workers whenever their problems can be discussed in an open and unhampered way. The miners thus far have refused to negotiate a new wage scale except on the basis of the old Jacksonville agreement, which the operators in the four states decline to accept.

Nice Miller, president of the Coal Operators' Association of Illinois, wrote Governor Donahey that "we believe the situation eventually must be worked out by the operators and mine workers of each district, working for their mutual benefit along broad lines, recognizing present realities."

"You address me as 'Chairman of the Coal Operators of the Central Competitive field.' There is no such organization or position," Mr. Miller wrote.

"In common with western Pennsylvania, Ohio and Indiana," the letter continues, "we were bound into what was known as the central competitive field, and in common with those other districts, we were unable to get any co-operation or relief whatsoever from officials of the United Mine Workers toward making obviously necessary adjustments. There have been no adjustments of our wage structure for over seven years, during which time there have been far-reaching changes in the industry that have literally cried aloud to be recognized.

"The same unsatisfactory experience of operators in the other unionized districts, and the inflexible and unyielding policy of the miners' union have resulted in a complete breakdown of the union and expansion of the nonunion fields.

"Most of the smaller bituminous coal fields outside the old central competitive field are today nonunion, and now the important Pittsburgh field is, to all practical purposes, non-union, and Ohio is of necessity starting along the same path. Only Indiana and Illinois remain union in the old sense, and in these states the industry is prostrated.

"At the Miami (Fla.) conference (in February of this year) union officials stood only for a renewal of the former destructive Jacksonville contract."

Mr. Miller enclosed information stating that the Illinois operators cannot renew the Jacksonville terms and live, and that the Illinois miners are not in position to consider anything but the Jacksonville agreement until the international policy instruction is released.

Governors of Illinois and Indiana joined with Governor Donahey in approving the proposal for a joint conference.

Russia Buys U. S. Machinery—Moscow.—The Soviet government announced that representatives of importing and exporting interests and a committee of the fruit and vegetable union had departed for California to purchase fruit-packing machinery.

LOYD GEORGE COMING

David Lloyd George.

London.—David Lloyd George will visit the United States in 1928 to preside at the international estedford, says a dispatch from Llangollen, Wales.

OPERATION PROVES FATAL TO GEN. WOOD

Famous Soldier Succumbs at Boston Hospital.

Boston.—Maj. Gen. Leonard Wood, governor general of the Philippines, died at the Peter Bent Brigham hospital here following an operation for brain tumor.

General Wood was buried in the Rough Rider plot of Arlington National cemetery burial ground for the famous Roosevelt campaigners of the Spanish-American war.

The site was selected by Mrs. Wood, in memory of her husband's service with Theodore Roosevelt and of the intimate friendship between them in the years following the Spanish-American war.

The spectacular rise of Gen. Leonard Wood from an obscure post in the medical corps to a commanding rank in the combatant branch of the United States army was one of the outstanding features of American military annals. Appointed an assistant surgeon several years before the Spanish-American war, Wood rose to the foremost rank of American generals, his active duty culminating in the governor generalship of the Philippine Islands after he had served four years as chief of the general staff of the army, the topmost military command.

While his rapid promotion, ascribed largely to his close friendship with Theodore Roosevelt, was the subject of frequent criticism in military circles, General Wood's service was recognized throughout the establishment as of the highest type. His first official commendation for gallantry came during the hostilities with the Apache Indians in 1885, when he received the congressional medal of honor for bravery, and his work throughout the World war, limited as it was, from the general's standpoint, won him the distinguished service medal "for especially meritorious and conspicuous service."

General Wood was born in Winchester, N. H., on October 9, 1859, the son of Charles Jewett and Caroline E. (Hagar) Wood. His preliminary education was obtained at the Pierce academy, Middleboro, Mass., after which he attended Harvard university and was graduated from its medical school in 1884.

Upon the surrender of Santiago by the Spanish forces, General Wood was made military governor of the city, later becoming civil governor, with the rank of major general, and finally assuming command of the entire island as military governor.

When the armistice was signed following the World war, the country being turning its attention to the nationwide primary campaign that was to supply presidential candidates for the next general election.

When the Republican national convention, assembled at Chicago, began on the long list of candidates before it, the trend showed General Wood had a tremendous following, and it was not until the convention decided to turn to Senator Harding that he was eliminated.

Contemptuous Dry Chief—Indianapolis, Ind.—Rev. E. S. Shumaker, superintendent of the Indiana Anti-Saloon league, found guilty by the Indiana Supreme court of contempt of court, was sentenced to 90 days on the state farm and fined \$250. His attorneys immediately filed a motion for arrest of judgment and August 18 was set for hearing of arguments on the motion.

Shumaker, who had appeared in the court chambers at the state house under formal order of arrest served by the county sheriff, then was released on \$1,000 bond. The court did not fix sentence on Jess E. Martin, a league attorney, also found guilty of contempt.

The contempt charges grew out of an attack on the Supreme court by Shumaker in his annual report to the league early in 1926.

Railroad Tank Kills Three—Waterloo, Ill.—Three men were killed and three injured when a water tank along the right of way of the Mobile & Ohio railway five miles north of here collapsed and fell onto a work train beneath.

Deny Arms to Mexicans—Mexico City.—Under a decree issued by President Calles, the military and civil authorities are enforcing the disarmament of all civilians, except those who obtain permits to possess firearms.

Boy Golf Prize Winner—Cleveland.—With a 36-hole score of 149, Clark Morse of St. Louis, seventeen years old, won the medal for the 1927 national public links championship here.

538,000 Aliens Enter in Year—Washington.—Commissioner General of Immigration Hild announced that for the year ended June 30, 538,000 quota immigrants entered the country and aliens leaving numbered 253,508, a net increase of 284,493.

O'Mara, Irish Tenor, Dies—Dublin.—Joseph O'Mara, widely known operatic tenor, is dead here. O'Mara made a three years' tour of the United States, singing in "Peggy Macree."

Admiral Bowles Dies—Barnstable, Mass.—Rear Admiral Francis T. Bowles, retired, is dead at his summer home here.

GENEVA FAILURE IS CENSURED BY DAWES

V. P. Delivers Attack in Presence of British Prince and Premier.

Buffalo, N. Y.—In the presence of Prime Minister Stanley Baldwin of Great Britain and the prince of Wales, Vice President Charles G. Dawes boldly took up the problem of naval disarmament, discussed the breakup of the Geneva conference, and declared it "unthinkable" that America and England would enter on programs of competitive cruiser building.

Mr. Dawes strongly indicated his belief that the inability of the American and British delegations at Geneva to agree was due to insufficient parliamentary preparation and the pre-occupation of the conferees with the needs of their own countries.

The Geneva meeting, Mr. Dawes said, must not be considered altogether a failure, for it was only an incident in the onward march of disarmament among English-speaking peoples.

Mr. Dawes' frank declaration was made in a most dramatic setting. It came as the unexpected climax of the ceremonies attending the dedication of the peace bridge connecting Buffalo and Port Erie, Ontario, in the course of which the prince of Wales stood by while a ribbon crossing the bridge at the international boundary was cut with golden shears.

Then with the British prime minister, the prime minister of Canada, and other notable British personages, the prince crossed over to the American side to participate in the speaking at the Buffalo approach to the bridge, which commemorates 100 years of peace between the United States and Canada.

The prince had uttered a few brief words of friendship toward America, Secretary of State Frank B. Kellogg and Gov. Alfred E. Smith of New York had spoken in similar vein, and Premier Baldwin and high officials of Canada had made brief addresses.

Premier Baldwin, who has steadfastly refused to comment on the disarmament situation ever since he landed in Canada, touched on the Geneva conference without specifically mentioning it.

"We have had to differ for the moment," Mr. Baldwin said, "but we know in our hearts that this does not affect our friendship."

The ceremonies were elaborate and carried out with almost religious solemnity. A crowd estimated at 100,000 was massed around the speakers' stand at the Buffalo approach to the new bridge, where the principal exercises were held.

New Ford Airplane to Take 25 Passengers West—Chicago.—Twenty-five passengers will take the air in Chicago and land at Los Angeles within a day. It plans now being worked out by Henry Ford's airplane experts materialize, it was revealed here.

At a cost of \$1,000,000 the Ford shops now are completing a 25-passenger airplane, which, it is understood, will be put into regular passenger service between this city and Los Angeles. Other Ford-built planes will maintain scheduled flights connecting San Diego, San Francisco, Los Angeles, El Paso, Mexico City and Chicago.

Details of the general Ford air transport scheme, which involves capitalization of \$5,000,000 and the operation of about twenty 12-passenger planes, were discussed at a recent conference in Los Angeles between G. L. Mallory, Ford representative there, and Chief Deputy California Corporation Commissioner Maltzer.

Contemptuous Dry Chief—Indianapolis, Ind.—Rev. E. S. Shumaker, superintendent of the Indiana Anti-Saloon league, found guilty by the Indiana Supreme court of contempt of court, was sentenced to 90 days on the state farm and fined \$250. His attorneys immediately filed a motion for arrest of judgment and August 18 was set for hearing of arguments on the motion.

Shumaker, who had appeared in the court chambers at the state house under formal order of arrest served by the county sheriff, then was released on \$1,000 bond. The court did not fix sentence on Jess E. Martin, a league attorney, also found guilty of contempt.

The contempt charges grew out of an attack on the Supreme court by Shumaker in his annual report to the league early in 1926.

Railroad Tank Kills Three—Waterloo, Ill.—Three men were killed and three injured when a water tank along the right of way of the Mobile & Ohio railway five miles north of here collapsed and fell onto a work train beneath.

Deny Arms to Mexicans—Mexico City.—Under a decree issued by President Calles, the military and civil authorities are enforcing the disarmament of all civilians, except those who obtain permits to possess firearms.

Boy Golf Prize Winner—Cleveland.—With a 36-hole score of 149, Clark Morse of St. Louis, seventeen years old, won the medal for the 1927 national public links championship here.

538,000 Aliens Enter in Year—Washington.—Commissioner General of Immigration Hild announced that for the year ended June 30, 538,000 quota immigrants entered the country and aliens leaving numbered 253,508, a net increase of 284,493.

O'Mara, Irish Tenor, Dies—Dublin.—Joseph O'Mara, widely known operatic tenor, is dead here. O'Mara made a three years' tour of the United States, singing in "Peggy Macree."

Admiral Bowles Dies—Barnstable, Mass.—Rear Admiral Francis T. Bowles, retired, is dead at his summer home here.

Beware of Poor Neutralization

Squeals and Poor Quality Among Ills of Maladjustment.

A neutralized receiver, unless it is carefully adjusted, can be less efficient than one in which neutralization is not employed. There are three chief ills of improper neutralization, according to an article in the Radio Broadcast Magazine.

"The first and most obvious manifestation of incorrect adjustment of the neutralizing device is oscillation in some or all of the radio-frequency circuits," reads this article. "These oscillations, as a general rule, become more severe as the frequency is increased, and a loud squeal or whistle will be heard as the tuning controls are adjusted to receive some station that is transmitting."

"Such an effect will make it difficult for the user of the receiver to obtain satisfactory reception and the oscillations will be radiated from the antenna attached to the receiver and cause interference on other receivers located in the neighborhood. Such oscillations can be prevented by correct adjustment, and it is essential that the proper setting be determined in order to make it possible to obtain best results from the receiver."

"A second detrimental effect of maladjustment of the neutralizer is poor quality, which is generally due to the existence of too much regeneration. The quality, under these conditions, will generally sound drummy, indicating that the various frequencies in the carrier are being unequally amplified by the radio-frequency amplifiers. To preserve good quality, the radio-frequency amplifiers must amplify without distortion a band of frequencies extending about 5,000 cycles above and 5,000 cycles below the carrier frequency, and this condition does not exist unless proper neutralization is obtained."

"Another effect of improper neutralization," says Radio Broadcast, "is to cause one or more of the tuned circuits in a single-circuit receiver to be thrown out of synchronism so that the set loses a great deal of its sensitivity, and as a result it is not possible to tune-in distant stations with satisfactory volume. These three major effects of improper neutralization indicate how essential it is that neutralization be always carefully and completely accomplished."

Varieties of Troubles That Cause Interference—Outside sources of interference which affect reception in a receiver are listed as follows: Sign flashers, induction coils, X-ray machines, static machines, telephone ringers, atmospheric static, electric street cars, defective transformers, regenerative receivers, bad contact in switches, amateur wireless station, static produced by belts, loose street lamp in socket, smoke or dust precipitators, defective street light rectifiers, electrical manufacturing processes, commercial wireless (code) station, leaking insulators on power circuits, overlapping of broadcasting stations, motion picture machines using arc lamp, induction from high potential circuits, heterodyning of broadcasting stations, defective rail bends on street railway systems, defective lightning arresters—power circuits, motors and generators of the commutator type, arcing wires in trees and other grounded objects.

How Sun Determines Volume on Long Wave—The sun's activity is probably the chief factor in determining the strength of long-wave radio signals. The annual report of the International Radio Commission, which is especially concerned with the radio transmission search prepared by Dr. L. W. of the bureau of standards, in addition to the curves and showing the routine measurements of the laboratory, curves were shown the report which indicate a relationship between the long-wave strength and the changes of number of sun spots during the year sun-spot cycle, the signal increasing in strength with the number of sun spots.

Other curves given show changes in the signals during the day, of the sun's rotation (24 hours), while others indicate a day period in the case of certain stations.

Some of these curves also show fixed active areas on the sun, often produce increase in strength when they face the earth. These periodic relationships, however, are not considered as well as the relationship of the monthly yearly averages of sun spots and waves extending over a number of years.

Radio Craze Sweeps Japan—The radio craze has grown to an extent in Japan that some of the middle school authorities have issued orders that students not "listen in" during certain hours of the evening, but shall devote their hours to their studies. The heads found upon investigation of the youngsters were searching for school work in the evening hours to the radio.

FOR THE NOTEBOOK—Never solder wires to screw heads. Do not expect tubes to last always. A fishing pole makes an ideal aerial mast for portable sets. The iron for soldering work should weigh at least three-fourths of a pound. When trouble is experienced and the fault still persists after having thoroughly examined the set, take a glance at the aerial. Few things deteriorate quicker than the ground connection, particularly where it is attached to a radiator with a leaky valve. Rust soon destroys the efficiency of the connection. According to Rear Admiral W. H. G. Bullard, chairman of the federal radio commission, there are no "crises" on the board and the suggestions of every radio "fan" are invited. Never try to use a power tube without the exact "C" bias. If the results could be seen on a milliammeter, it would be realized what harm can be done to the "B" battery by incorrect bias.

English readily; first American native teachers are for the most part ill prepared in English. The children receive little instruction in a standard grammar. But the Radio Corporation of the Philippines recently broadcast, in English, a lesson which Philipinos can acquire through radio.

Radio Aids Operation of Inland River

It is generally known that it is upon the high seas, and also coming into the area, that the operation of craft upon rivers.

Maj. W. W. Parker, chief of the American Engineers, who have been in charge of the operation of the river stage reports ever since 1910.

In response to a circular letter out by Major Parker recently, the value of this service, the radio, and transportation communication along the Ohio river craft have been enthusiastic in their response to the received from this service.

River stage reports are broadcast each morning and are picked up by the lockmasters and boatmen along the Ohio river and are transmitted to a radio station at Pittsburgh. All of the Ohio river craft have movable radio receivers for the rising and falling of the river to raise and when in water. The dams are in water, and the radio receiver is in the first time in this service for miles below Pittsburgh.

All of the world's rivers are in operation they form a basis for the river in rising, the dam breaks out in a momentary but, with a derick, and lower such attention to the bottom of the river as the traffic goes over the dam of through the locks.

As for the stream reports, reports enable them to determine stage at which they must raise and to know when they will through locks and when they will over the dam. They can sit in the cabins and compare the river stage reports with the draft of their boats, which tells them what position they must take to clear the channel.

Many Ohio river craft for a long number of barges and it is difficult to maneuver such a tow and the best conditions. In the absence of accurate information as to river stages, the craft may be kept in a similar way for a week or so.

The promptness of the radio information is especially commended by river men, as they require broadcast, in many cases, several hours ahead of the printed report.

Some of the companies operating river craft have equipped all of their boats with receiving sets as the best of the river stage broadcast. The large shippers have assessed the value of this service.

How Sun Determines Volume on Long Wave—The sun's activity is probably the chief factor in determining the strength of long-wave radio signals. The annual report of the International Radio Commission, which is especially concerned with the radio transmission search prepared by Dr. L. W. of the bureau of standards, in addition to the curves and showing the routine measurements of the laboratory, curves were shown the report which indicate a relationship between the long-wave strength and the changes of number of sun spots during the year sun-spot cycle, the signal increasing in strength with the number of sun spots.

Other curves given show changes in the signals during the day, of the sun's rotation (24 hours), while others indicate a day period in the case of certain stations.

Some of these curves also show fixed active areas on the sun, often produce increase in strength when they face the earth. These periodic relationships, however, are not considered as well as the relationship of the monthly yearly averages of sun spots and waves extending over a number of years.

Radio Craze Sweeps Japan—The radio craze has grown to an extent in Japan that some of the middle school authorities have issued orders that students not "listen in" during certain hours of the evening, but shall devote their hours to their studies. The heads found upon investigation of the youngsters were searching for school work in the evening hours to the radio.

No

Foolin'

The fight for business leadership is no monkey business in this day and age, as is evidenced by the latest report from commercial centers—and which has to do directly with the future of towns exactly the size of KEWASKUM

It has been learned that the big mail-order houses now maintain a department, the duty of whose staff is to read weekly newspapers from all over the country and continually make a survey of the different districts to learn of mail-order selling possibilities.

And, it is a fact—that immediately that department finds a town or country wherein the local merchants

are not using the local paper to advertise their merchandise to the trade—that district is immediately flooded with catalogues—because it is virgin territory and the mail-order houses have learned that they can do GOOD business there.

We pass this information on to business leaders of KEWASKUM and assure them that all of our support is of course with them. We maintain a local advertising service which can be used to advantage—and for such service we make no extra charge. Come in or phone and we will call. Business goes to those who go after it.

DUNDEE

Mr. and Mrs. Ed. Bowen were Fond du Lac callers Tuesday. August Bartelt of Ferost Lake was a business caller here Wednesday.

H. W. Krueger and August Krueger transacted business in Kewaskum on Monday.

Alfred Ludwig and family visited with E. Heagler and family Wednesday evening.

Mr. and Mrs. August Koehn of Cascade were callers in the village Monday afternoon.

Mr. and Mrs. H. W. Krueger and son Kermit were Campbellsport visitors Wednesday afternoon.

Miss Ida Blodgett has been employed for some time at the Dr. George Mitchell home at Round Lake.

Mr. and Mrs. Ed. Koehn, Mr. and Mrs. Albert Koepke and Mr. and Mrs. Will Bartelt motored to Watertown Sunday.

John Pesch and undersheriff Van De Zande and families of Campbellsport are enjoying a week's vacation at a Long Lake cottage.

Ethel Corbett who has been employed at the Ulrich Sweet Shop at Campbellsport for some time is now at home with her parents, Mr. and Mrs. John Corbett.

Dr. Harry Bowen and Dr. Emmett Bowen of Watertown visited their parents, Mr. and Mrs. E. Bowen of here, and other relatives in this vicinity on Monday afternoon and evening.

Frank Szmecet and family have returned to Chicago after having enjoyed several weeks at their cottage at Long Lake. Mr. Szmecet has disposed of his property and summer home at the lake.

The Pastor and congregation of the Dundee Lutheran church received a cordial invitation to attend the services and celebration of the golden jubilee of the Lutheran church at Kewaskum next Sunday.

ROUND LAKE

Mr. Seifert and son Erwin were business callers at Fond du Lac Friday and Saturday.

Miss Martha Buslaff of Waucousta spent Wednesday afternoon with Miss Beulah R. Calvey.

On Saturday afternoon a private picnic and dance in the evening was enjoyed at Round Lake by a society from Random Lake.

Mrs. M. Calvey and daughter Dehelia and Mr. and Mrs. Henry Habek visited Wednesday with Mr. and Mrs. William Hennings.

Mr. and Mrs. M. Calvey and son Vincent were business callers at Fond du Lac and also took dinner and visited with Mr. and Mrs. G. A. Romaine.

On Sunday there will be a picnic and dance at the A. Seifert grove. Free dancing all afternoon from one until five o'clock. Music will be furnished by Clem Smermeister's orchestra. Bring your families and basket lunch and enjoy an outing on the beautiful shores of Round Lake. Everyone welcome.

Mr. and Mrs. M. Calvey and family, Mr. and Mrs. George Buchner and son Kenneth enjoyed a basket picnic and dinner at Big Cedar Lake Sunday and listened to the eight piece orchestra. The sights and scenery are very beautiful and some of the party took the pleasure boating around the lake, and witnessed the yacht races which is very interesting.

Mr. and Mrs. M. Calvey and family, Mr. and Mrs. George Buchner and son Kenneth enjoyed a basket picnic and dinner at Big Cedar Lake Sunday and listened to the eight piece orchestra. The sights and scenery are very beautiful and some of the party took the pleasure boating around the lake, and witnessed the yacht races which is very interesting.

EAST VALLEY

Mr. and Mrs. Nic Berres are visiting a few days at the Nic Hammes home.

Misses Celesta and Cecelia Pesch of Fond du Lac spent Sunday with their parents here.

Jerome Schiltz returned to his home in Milwaukee after spending two weeks with relatives here.

Mr. and Mrs. Wm. Goehring of Silver Creek visited at the Mike Schladweiler home Sunday evening.

Mr. and Mrs. Nic Berres, and Mr. and Mrs. Nic Hammes spent Tuesday evening with Mr. and Mrs. S. Ketter.

Mr. and Mrs. Adam Roden and John Hammes of St. Michaels spent Monday evening at the Nic Hammes home.

Mr. and Mrs. Julius Reysen and daughter Ruth and Mrs. C. Reysen spent Sunday evening at Batavia and Boltonville.

Mrs. Edward Prucha of River Falls, Wis., visited from Friday to Sunday with her brothers Joe and Mike Schladweiler.

Mr. and Mrs. Joe Sullivan and son Jac of Milwaukee, Mr. and Mrs. Wm. Berres and family of Oshkosh spent Sunday with Mr. and Mrs. Steve Ketter and family.

The members of the Ladies Sodality of St. Mathias church will give a picnic and parcel sale on the church grounds on Sunday afternoon, Sept. 18. All are cordially invited to attend.

Mr. and Mrs. Nic Berres and son Erwin, Mr. Brockhaus, Mr. and Mrs. John Henrichs and daughter, Mr. and Mrs. Art. Berres and family of Milwaukee spent Sunday with Mr. and Mrs. Nic Hammes and family.

The following called at the Julius Reysen home Sunday: Mr. and Mrs. John Sell of Cascade, Mr. and Mrs. Peter Schiltz of here, John and Jerome Schiltz of Milwaukee, Elmer, Lawrence and Lester Uelmen of New Pane.

The following called at the Julius Reysen home Friday afternoon: Mr. and Mrs. Willis Darling and daughter Emogene of Mattoon, Mr. and Mrs. Ed. Engelman of Beechwood, Mrs. Jac. Held and son Enos of Plymouth.

The following spent Sunday with Mrs. Peter Bell and family: Mr. and Mrs. Bilgerton, Mrs. Clarence Luby, Miss Gertrude Gerhard, Miss Gertrude Michaels, Miss Irma Wagner, Albert Chapin and Louis Stege of Fond du Lac and Mr. and Mrs. N. E. Michaels and family of Cascade.

The following called at the Julius Reysen home Friday afternoon: Mr. and Mrs. Willis Darling and daughter Emogene of Mattoon, Mr. and Mrs. Ed. Engelman of Beechwood, Mrs. Jac. Held and son Enos of Plymouth.

Kewaskum, Wis.

LET'S HELP EACH OTHER!

Why not? That's the real spirit of co-operation. It's the spirit that wins, both for the man who produces milk and the man who sells it. You help yourself when you help us build this business. As you help us get more patrons you strengthen our ability to pay you more money. This is the best time of the year to interest that neighbor in shipping his milk to our market—your market. Lots of folks have milk to sell, but give little thought to marketing it. They just get rid of it any old way, just so they are rid of it. Why not help them get more money for it? Some of our shippers are doing this. They are helping themselves as they help us, and as our business grows bigger and stronger we are better able to serve you. There is always a good market and a higher market for fresh, clean well cooled milk.

THE KEWASKUM CREAMERY

Wm. B. Wells, Proprietor
