

DR. KARL HAUSMANN LAID AT REST

It was with sorrow and regret, that the many friends in this community and afar, received the sad news of the untimely death of Dr. Karl Frederick Hausmann, one of Kewaskum's popular and well known dentists, who after an illness of one year with Bright's Disease, during which time, especially the last three months of his illness, suffered untold agony, was forced to submission to the will of a merciful God, when he passed away in death from the family circle at 10 a. m., last Friday, April 20, 1928. Dr. Hausmann was born June 1, 1885 in Elmwood, Fond du Lac county, Wis., where he lived until he was eleven years old, when he moved with his parents to Kewaskum, in 1894. Later from 1900 to 1901, he attended Mission House College at Sheboygan. Having made up his mind to become a dentist, in which profession he was recognized as a most able and efficient doctor, producing the highest grade and type of work, resulting in his building up a wonderful practice. He entered the Chicago College of Dental Surgery, from which institution he graduated in 1905. After completing his dental course, he practiced dentistry at Waubesa, Ozaukee county for a short time, when he went to West Bend where he practiced with his brother Dr. William Hausmann. The same year having decided to start in business for himself, he came to Kewaskum, where he opened an office and where he practiced for the past 20 years. On Nov. 15, 1910, he was married to Miss Ermine Weinand of West Bend, who with one adopted daughter, Dorothy Dana, now attending Lawrence College at Appleton, survive. He also leaves to mourn his demise in the prime of life, three brothers and one sister, Dr. N. E. Hausmann of Kewaskum; Dr. William Hausmann of West Bend; Dr. Gustave Hausmann of Waupun; Elizabeth (Mrs. August C. Backus) of Milwaukee, and one aunt, Miss Elizabeth Fleischmann of Milwaukee. His mother, Mrs. Charlotte Hausmann preceded him in April 1927.

Dr. Hausmann was a man of strong character and will power. The course of his short life was not all sunshine and roses, having at several times been forced to submit to operations, at which his suffering at times was so extreme that a person of ordinary durability and resistance, would not have survived. He, however, bore them with patience, hoping for better days, ever jovial and talkative. His social bearings made him a welcome guest in all gatherings. He had an ear at all times for those in sorrow and trouble, and when his sympathies were aroused, his generosity knew no bounds. His business dealings were always of honesty and integrity, to deliver the best there was in him in the chosen profession was his aim and he had been a "Home Man", no one else. During all of his active life, he was more devoted to his family, and his home was a "home of joy, peace, and comfort." In mourning his untimely death, his family, relatives and friends, are consoled by the truth: "This world is the land of the dying, the next is the land of living."

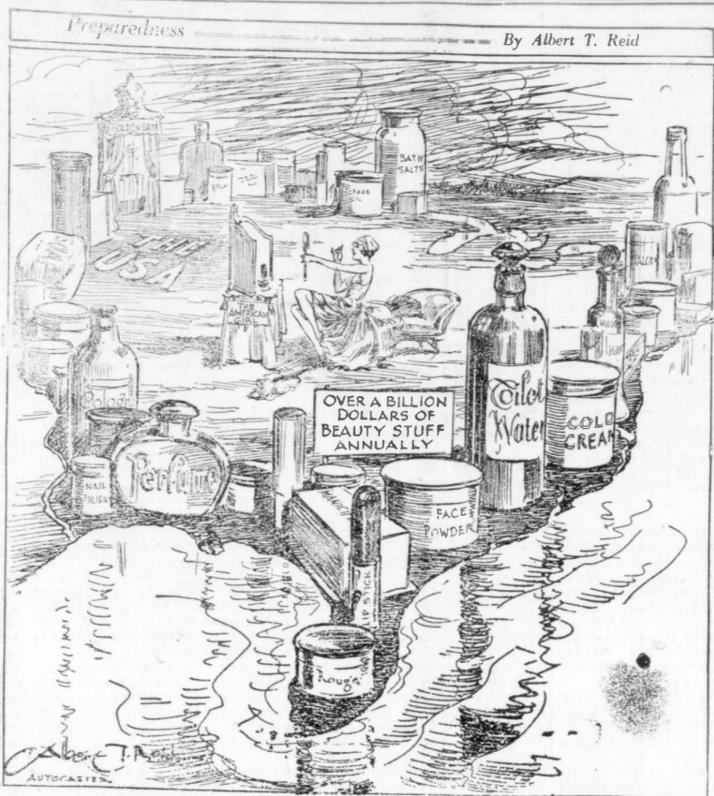

The funeral was held on Sunday afternoon at 2:00 o'clock, which services at the home of his late parents, to which place the body was removed on Saturday. Rev. Prof. Louis Hessert and Prof. Alvin Greiber of Mission House College, Sheboygan officiated. Interment was made in the Union cemetery at West Bend. Six nephews of the departed acted as pall bearers. The funeral was one of the largest held here for some time, people from far and near for every walk of life, including Governor Fred Zimmerman and F. C. Eschweiler, Justice of the supreme court of Madison, were in attendance.

MEMORIAL

In loving remembrance of Rheinhart Miller, who passed away one year ago April 26, 1927.
A precious one from us has gone,
A voice we loved is stilled;
A place is vacant in our home,
Which never can be filled.
God in His wisdom has recalled
The hour His love had given,
And though the hour slumbers here,
The soul is safe in Heaven.
Dearly missed by his parents, Mr. and Mrs. Amy M. Miller, brother and sisters.
Mr. and Mrs. A. J. Staeger.

CARD OF THANKS

We, the undersigned, desire to express our sincere thanks to all our relatives, neighbors and friends, for the kind sympathy shown us in our late bereavement, the illness, death and burial of our beloved wife and mother, Mrs. Jacob Horning. To Rev. Kuenne for his consoling words, to the choir, to the pall bearers, for the many beautiful floral tributes to all who loaned cars and to all who attended the funeral.
Jacob Horning and children.

LOSES IN SECOND DISTRICT CONTEST

Miss Amanda Meilahn, who won the county championship in the spelling contest, went to Milwaukee last Saturday, where she took part in the Milwaukee district contest and where she lost out on winning any of the three places. Manitowoc won first. Miss Meilahn went down on the word "altar". Having misunderstood the explanation of the word as given by the conductor of the contest, she interpreted as meaning the verb instead of the noun, and spelled "alter". Had it not been for that mistake, she with out a doubt had a good chance of winning one of the three places.

VICTORS IN LONG DRAWN COURT BATTLE

Word was received by the Kessel Motor Car Company this week, that they were victors in a long drawn out court case against the United States Government. The amount involved is \$91,244.50. The Kessel Motor Car Company, it will be remembered built a great many trucks for the government during the war period. After all trucks were completed and the final statements made up the War Department held up the final settlement on a technical interpretation of the contract different than was understood by the Kessel Company, and likewise understood by the officers who negotiated the contract and those who had handled it during the performance of the contract.—Hartford Times.

FOUR HURT WHEN CAR TAKES DITCH, BURNS

Charles Martin and son and Messrs. Lawson and Johnson, all of Missouri, were severely cut by flying glass when the Buick sedan in which they were driving to Hartford turned over and buried up on the sharp curve on Highway 41 about one-quarter mile east of Slinger late Sunday afternoon. The auto burst into flames immediately after the crash, but the men were released by other motorists before they were hurt by the flames. They were taken to St. Joseph's hospital at Hartford, where they were in charge of Dr. P. M. Kauth of Slinger. All of them were able to leave the hospital Monday.—West Bend News.

CARD OF THANKS

We express our sincere thanks to our kind neighbors, who assisted us in our heavy loss by fire, on Dec. 21st, last, to all those who helped us in raising the new barn, and also to the Bolonville and Beechwood fire departments, who assisted at the fire.
Mr. and Mrs. A. J. Staeger.

TRAIN SERVICE WILL AGAIN BE CHANGED

Important change of schedules of certain trains will become effective Sunday, April 29. For particulars apply to Ticket Agent.

You are invited to attend the dance at the Kewaskum Opera House tonight, Saturday. Music by Andy's Wisconsin Six of Sheboygan.

GLAD NEWS! WHAT?

The St. Michaels Dramatic Club is hard at work rehearsing at their three act comedy, "His Uncle's Niece" for three evenings, May 17, 20 and 22. One of the best plays ever staged. Be guided by the weekly announcements in the Statesman.

Mr. and Mrs. Byron Klein of Kewaskum spent Friday afternoon with Mr. and Mrs. Peter Gritzmacher.
Misses Mildred Elbet and Nora Bruhn of Brownsville were guests at the Herman Bruhn home Sunday.
Misses Rose Hawig, Alvina Werner and Roscella Hawig of Milwaukee visited Saturday and Sunday with relatives here.
Mr. and Mrs. Peter Gritzmacher and Miss Ruth Schaub of Milwaukee spent Sunday afternoon with Mr. and Mrs. Andrew Kuehl.

REGINALD DENNY IN "FAST AND FURIOUS"

"Fast and Furious", Universal's picture of Reginald Denny's original story has been booked for its first local showing by the Kewaskum Movies, tomorrow, Sunday.
Embracing all-star cast and directed by Mel Brown, one of Universal's younger directorial acs, the picture will add another host of admirers to the already large legion of Denny's film fans.
Claude Gillingwater, who has played character roles on the dramatic boards for years and who has worked in pictures for the last decade or more, is cast in one of the leading parts in this typical Denny starring vehicle.
Barbara Worth, whom motion picture critics have acclaimed as the screen find of the year and who has been forging ahead by leaps and bounds since her advent in Hollywood via the extra girl route, plays the leading feminine role opposite Denny, while other members of the cast are Armand Kaliz, Lee Moran, Chas. K. French, Wilson Bengie and Edgar Norton.

"Fast and Furious" is the story of a speedmaniac who finally meets his Waterloo when he finds himself flat on his back amidst the wreckage of his space-annihilator, gazing up into the baby blue eyes of the only girl in the world, thereby not only losing the race but also his heart.
There isn't a dull moment in the picture, it starts with a whiz and ends with a bang.

CHANGE IN TRAIN SCHEDULE

Effective Sunday, April 29th, another change in train schedule on the Chicago & North Western Railway, will take place. The new schedule will be as follows: Train No. 113, north bound, now due here at 12:25 p. m., will arrive at 12:30 p. m., Train No. 117, north bound, due here at 5:43 a. m., will arrive at 5:33 a. m., Train No. 216, south bound, due here at 6:24 p. m., will arrive at 5:59 p. m., and train No. 205, north bound, due here at 2:45 p. m., will arrive at 2:34 p. m.

MISS POHLMAN IN PLAY

Miss Alice Pohlman, daughter of Mr. and Mrs. William Pohlman, 27 Sixth street, Fond du Lac, is a member of the Vanity Box Revue, which is now playing in Oshkosh and which has contracted to appear on the Fischer theatre circuit. Miss Pohlman takes a comedy part. The company will appear regularly on Mondays and Sundays, opening Saturday.—Fond du Lac Commonwealth Reporter.

TO WHOM IT MAY CONCERN

I, the undersigned, desire to retract all that I have said detrimental to the character of Mrs. A. W. Miske, same being untrue.—Signed Wm. Weber.

NEW TELEPHONE RATES IN EFFECT

The new rates for the Theresa Union Telephone Company, as granted by the Railroad Commission last February, to the Theresa company, following a petition handed to the commission, in which the company gave its reason for an increase in rates that the old rates were insufficient to properly produce efficient and reliable telephone service, maintain the plant in good operating condition and yield a reasonable return upon the fair value of the property used in the public service. The new rates as published below, will go into effect May 1. The new rates are:

	Per month	Gross	Net
Local service		\$3.25	\$3.00
Business one party	2.75	2.50	
Business two party	2.75	2.50	
Residence one party	2.25	2.00	
Residence two party	2.25	2.00	
Residence four party	1.75	1.50	
Rural Service			
Business	2.75	2.50	
To Fond du Lac exchange	2.50	2.25	
Miscellaneous Equipment			
Extension telephones, business	\$1.00		
Local residence desk sets, additional	.15		
Extension bells within same building	.25		
Extension telephones, residence	.75		
Rural desk sets, additional	.25		

BATAVIA

See "Fast and Furious" at the Kewaskum Movies Sunday evening.
Mr. and Mrs. W. F. Liebenstein of Cascade called on Ph. Liebenstein on Wednesday.

Mrs. Chas. Firme entertained the ladies and neighbors at a feather slicing bee Thursday.

Mr. and Mrs. O. C. Baum attended the funeral of Mrs. Tom Pilarim at Menomonee Falls Saturday.

Misses Irene Ludwig and Lorna Ludwig of Fond du Lac spent the week-end with Mrs. Robt. Ludwig.

"The Dust of the Earth", given by home talent Sunday evening was a success in every way, all report it was one of the best plays seen here for a long time.

The ladies of the Altar Society of the St. Mathias Ann church will hold a prize card party at the church hall on Sunday evening, April 29. The usual games will be played, beginning at 8 o'clock. Lunch will be served after the games. All are cordially invited.

Mrs. Elvira Duncan died at her home in Boltonville on Wednesday after a lingering illness of one year with a complication of diseases. She had attained the age of 87 years. The funeral will be held Saturday at one p. m. from the house. Rev. Abe will officiate. Burial will be made in the Boltonville cemetery.

The local fire department has posters out for the 5th of May advertising a bazaar given by the department at the new hall. The bazaar will be held in the afternoon and evening. Supper adults 50 cents, children 25 cents. Supper will be served from 4 o'clock on. Refreshments, music and other entertainments will be on hand for all. Hundreds of useful articles will be sold at reasonable prices. Come bring your friends.

Mrs. Byork, died Thursday, April 18, 1928, after a week's illness with pleurisy. She was born April 23, 1889 in Denmark, Germany, and immigrated with her parents to America when still a young girl, settling at Milwaukee, coming to her present home a year ago. In 1908 she was married to Ben Byork, who with one daughter, Marcella survive. The funeral was held Monday, April 23 at Milwaukee. Rev. Abe officiated. Burial was made in Forest Home cemetery at Milwaukee. Those from here who attended the funeral were: Mr. and Mrs. O. Kaiser, Mr. and Mrs. Arthur Deonath, Mr. and Mrs. Roland Miller, Mr. and Mrs. Wm. Firme, Mr. and Mrs. H. Leifer, Mrs. G. A. Leifer, Mrs. Oswald Voigt and daughter Edna and Mrs. Schummel. The pall bearers were: O. Kaiser, Art. Donath, Roland Miller, Wm. Firme, Lorenz Schultz and Herbert Leifer.

On 21 acres of timber, located a quarter of a mile northwest of Lake Fifteen, better known as the Hahn woods, on Saturday, May 19, 1928, beginning at 2:00 p. m. Auction will be held in the woods. After sale of timber, three lots will be sold in the village of Campbellsport, located across the street from St. Matthew's church, west.

Math. Hahn Executor
Geo. F. Brandt, Auctioneer. 4 28 3t.

ATTENTION

Members of the G. U. G. Germania are advised that all coupons and unsold tickets to the May festival of the G. U. G. Germania, which takes place May 5th, 1928, must be returned to the secretary John Klessig on or before May 1st, 1928.—John Klessig, Secretary.

TRAIN STRIKES AUTOMOBILE

Henry P. Schmidt, a member of the board of supervisors of the town of Barton, and his son, Peter, had a close call from meeting with serious and possible fatal injuries shortly after 9 o'clock last Friday morning when their Star touring car was struck by passenger train No. 206, southbound, on the Techtman crossing two miles north of the village of Barton. Mr. Schmidt and his son had spent part of the morning with the John Staehler family in the town of Kewaskum. They left the Staehler home, which is located on the road formerly known as highway 55, shortly before 9 o'clock. When nearing the crossing Mr. Schmidt remarked to his son that no train was due at that time, not knowing that the train was running on a changed schedule. Hardly had he uttered the last word when they heard the engine's whistle and the speeding train approaching. Peter, who was at the wheel, stepped onto the gas and the machine had about gotten over the crossing when the engine struck it a glancing blow on the left rear end. Although the impact was terrific, the auto remained on the highway and its occupants uninjured.—West Bend Pilot.

EAST VALLEY

Mrs. Andrew Strobel visited her sister at Kewaskum Sunday.

Miss Lorraine Pesch spent Monday evening with Ruth Reysen.

Joe Berres of Milwaukee spent Sunday at the Nic Hammes home.

See "Fast and Furious" at the Kewaskum Movies Sunday evening.

Mr. and Mrs. Joe Schiltz spent Sunday with Mr. and Mrs. John Klug.

Miss Genevieve Salchert spent Thursday evening with the P. Rinzel family.

Mrs. Peter Schiltz, Mr. and Mrs. Joe Schiltz were Oostburg callers on Tuesday.

Ruth Reysen and Lorraine Pesch spent Monday evening at the Peter Schiltz home.

Mrs. Ed. Uelmen and family spent Sunday with Mr. and Mrs. Mike Schladweiler.

Mr. and Mrs. Julius Reysen and daughter spent Sunday with Mr. and Mrs. John Seil at Cascade.

Mr. and Mrs. John Roden and family of St. Michaels spent Sunday with Mr. and Mrs. Peter Schiltz.

Joe Becker and Johnny Kaas of Kewaskum and Joe Schladweiler were visitors at the Leo Kaas home Sunday.

Mr. and Mrs. Wm. Kuert, Leona Rinzel and Genevieve Sachert spent Tuesday evening at the Wm. Pesch home.

Mr. and Mrs. F. Hopkins and sons Herbert and Frank, Mrs. Peter Rinzel and son Edmund spent Monday at Milwaukee.

Cecelia Lorraine and Elroy Pesch, Theresa, Joe and Wm. Hammes and Ruth Reysen visited at the P. Rinzel home Friday evening.

Miss Martha Rinzel has resumed her studies at Milwaukee State Normal, after doing her practice teaching at the local school here.

Mr. and Mrs. Gebhard Strobel and son Orlando and Mr. and Mrs. Adolph Bishop of Milwaukee visited the Leo Kaas family Tuesday evening, in honor of Mrs. Andrew Strobel's 65th birthday anniversary.

The ladies of the Altar Society of the St. Mathias Ann church will hold a prize card party at the church hall on Sunday evening, April 29. The usual games will be played, beginning at 8 o'clock. Lunch will be served after the games. All are cordially invited.

The following were Sunday visitors at the Peter Rinzel home: Ambrose Rinzel and family, Misses Zita, Irene and Vazel Rinzel and brother Palmer and Mich. Bauer, all of Milwaukee, Mr. and Mrs. Noah Netzing and family of New Fane, and Mrs. Frank Hopkins and sons of here.

Your family and friends are cordially invited to attend a community dance for the benefit of East Valley school on Tuesday, May 1 at 8 p. m. at Forest Lake Resort hall, given by the True Kindred Community club of Auburn. Music by Frank Fell's Moon-Light Rounders. Admission 50 cents. Ladies free. A hand-made quilt made by the club, given away free.

AUCTION

On Tuesday, May 1, beginning at 9:30 a. m., a big auction of stock including 27 head of high grade Holsteins, 1 and 2 year-old herd sires, farm machinery, etc., will be held on the farm of Stephen Bauer, one mile south of the limits of the city of West Bend, one-half mile west of the plant of the West Bend Concrete Products Co. on highway 55. Free hot lunch will be served at noon. The sale will be conducted by Auctioneer Arthur Quade.

—Mr. and Mrs. Louis Bath and son Louis and Miss Mary Remmel were Milwaukee visitors Saturday.

Badger State Happenings

Ashland—An appropriation of \$20,000 by Ashland, Bayfield and Iron counties for the construction of a nurses' home at Pure Air Tuberculosis sanatorium near Bayfield was approved at a meeting of the Tri-County Sanatorium building committee.

Stevens Point—The program has been completed for the twenty-seventh annual state convention of Wisconsin fiddlers, which will be held in Stevens Point May 4, 5 and 6. Sessions will be held at the Baptist church, the Methodist church and Hotel Whiting.

Chippewa Falls—Besides granting a divorce, \$125 alimony, \$100 attorney fees and custody of three children to Mrs. Alex Billiard, Judge Cook sentenced Alex Billiard to jail for 15 days. The jail sentence was for contempt, the husband having violated an order to remain away from the home while the divorce was pending.

Merrill—A contract was awarded for grading and paving 4.27 miles of road, the last gap between Merrill and Wausau. The work will be completed this summer. The contract was awarded by the Lincoln county highway commission to a Wausau concern. The bid was \$129,549. The county has \$160,000. The balance will be used for miscellaneous expenses.

Madison—A permanent injunction prohibiting the city of Stoughton from collecting or attempting to collect 1923 and 1925 taxes assessed upon shares of stock of the First National Bank, Stoughton, was granted by Judge Z. Luse in United States district court. The order is expected to affect bank stock tax suits between cities and banks in other cities of the state.

Spencer—The Baker farm, 10 miles east of Spencer, has commenced a liming program which is probably one of the largest ever carried out in northern Wisconsin. Jim C. Baker, resident manager in charge of this 1,500-acre farm, reports that five carloads of crushed limestone have been hauled to the farm and will be used for an extensive campaign to build up the fertility of the soil.

Kenosha—For the first time in eight years there will be no summer camp for Kenosha Boy Scouts. A curtailment of the budget for 1928 by the community chest has forced abandonment of the project this year and instead arrangements are being sought with other councils in this section whereby Kenosha boys may be enrolled in other camps to join in the programs organized by other councils.

Manitowoc—A condenser recently completed here for the Great Atlantic & Pacific Tea Co. is about ready to start operation. It is understood that the condenser will be one of the largest milk producers for the company in the entire country. It will operate 24 hours a day with three shifts. Milk is to be shipped here from great distances by truck and rail and the product will also be brought by car ferry from across the lake.

Platteville—The Platteville State Normal school farm has been for years dominated by Guernsey cattle. Faculty members in charge are showing symptoms of conversion to other breeds and last week two registered Holstein cows were added to the herd. They were purchased at the Jerry Hordan sale, one for \$435 and the other for \$325. Prof. Ulrich, director of the agricultural department, says it is the plan of the school to enable students to study all classes of livestock eventually.

Madison—Until the supreme court determines legality of the loan, the teachers' annuity board will advance no part of the \$326,000 it has authorized for construction of the new University of Wisconsin field house. This loan, if legal, is to be made to a building corporation. Pending court action, the board also has tied up the rest of its \$400,000 loan to the memorial union. The union already has obtained \$50,000 but no more money will be paid until legal questions are settled.

Madison—First collections under the new life insurance company tax show that the state gains \$98,697 in revenues over those collected in 1926. In that year, these companies paid \$1,328,018. They paid \$1,426,715 in 1927. The revised tax act imposes a 2 per cent tax on premiums of out-of-state companies, and it exempts from taxation the interest required to maintain the policy reserve. The change radically shifts the tax load. Home companies now pay \$645,406 instead of \$1,034,243 they paid the preceding year. Foreign companies are raised from \$289,774 to \$781,303.

River Falls—Pierce and St. Croix counties will have their first boy scout council as soon as the charter applied for is approved. Officers of the proposed council include Mayor W. M. Sutherland, River Falls, and Judge W. P. Knowles.

Berlin—Strict quarantine is to be maintained in Green Lake county to prevent any further spread of rabies, according to Dr. V. S. Larson, state veterinarian. Several dogs with rabies have been killed recently.

Madison—City Atty. Martin Paulsen, Racine, served notice on state officials of his application to the supreme court to test the gasoline tax law. The notice asserts that a petition will be filed with the supreme court May 8 for a mandamus application to restrain collection of gasoline taxes, as well as disbursement of revenue derived from gas taxes.

Washburn—One-third of the schools in Bayfield county are closed because of influenza among the students, county school officials here reported.

Plymouth—In the absence of their mother, who went away and left them, three baby foxes here have accepted the motherly attentions of a cat that recently lost her new born kittens.

Beaver Dam—The rural relations committee of the Beaver Dam Chamber of Commerce, composed of business men and farmers, is sponsoring a move to start Four-H clubwork in Dodge county. The four projects decided upon are calf club, pig (single) club, poultry club and seed corn club.

Madison—The state humane agent issued a warning against inhumane treatment of animals because of the prospective "short" pastures. "Pastures will be late. Many farmers are short on feed," said O. A. Stolen's statement. "It is the duty of the humane agents to do everything in their power to obtain feed. Under no circumstances must stock be permitted to starve."

Madison—Farm wages have made practically no change in the last year. Walter H. Ebling, statistician of the state and federal agricultural departments announced here. The average Wisconsin farm wage per month at present is \$46.75 with board and \$54 without board, he reported. The daily wage is \$2.25 with board and \$2.15 without board, which Ebling stated is practically the same as a year ago.

Superior—Heralded by squeals that echoed through the corridors of Douglas county courthouse, Charles Hughes, Dairyland, walked into the office of the county clerk, opened a paper carton and displayed five live coyote cubs which he had captured. He carried also the carcasses of the mother coyote and one other cub. Hughes was required to kill the cubs before he received his bounty, totaling \$54.

Antigo—Two Langlade county rural schools are to have forests of their own. The Morse & Tradewell Co. has donated an acre to the Post Lake school and the Langlade Land Co. has given an acre to the Cloverdale school. County Supt. Dora Desessure has ordered 1,200 seedling pines from the federal forestry department and 1,000 from the state conservation commission and they will be planted on Arbor day.

Manitowoc—A strange disease that caused the death of 10 out of a herd of 28 Holstein cattle belonging to Emil Klenast, of Rockton, was being studied by University of Wisconsin experts in an effort to stop its spread. Although none of the large neighboring herds have been affected as yet, farmers are becoming panic stricken and insisted that the experts investigate. The symptoms of the disease are always the same, a slight fever, weakness and death within three or four days.

Madison—Profits from pigs are a big item in the life of Jerome J. Henry, farm boy of Basco. First they put him through high school and now the money, growing in amount each year, is sending him to the University of Wisconsin college of agriculture. Jerome, who is a sophomore, became interested in pig breeding six years ago. He scraped together \$35 and purchased a pure bred Hampshire sow. Sales of hogs and prize money from county and state fairs premiums in the six years have brought him more than 350 ribbons, many of them blue, and \$2,200 in cash.

Madison—Walter C. Buetow, Milwaukee, has succeeded Herbert J. Kuelling as state highway engineer. The change was announced at the close of an all-day session of the highway commission when Kuelling resigned to become chief engineer of the Wisconsin Contractors association at a salary almost double that of the state position. Buetow formerly served the highway commission as bridge engineer, resigning four years ago to accept similar employment with a Milwaukee construction company. He is a graduate of the University of Wisconsin.

Milwaukee—Market quotations: Butter—Creamery, fresh extras, tubs, 45c; extra firsts, 43c@44c. Cheese—Twins, 22c@22 1/2c; daisies, 22 1/2c@23c; young Americas, 23c@23 1/2c; brick, 22c@22 1/2c; Limburger, 22 1/2c@23c. Eggs—Fresh gathered firsts, 26 1/2c@27c. Poultry—Fowls, 28c@30c; springers, 19c; broilers, 41c@48c; ducks, 26c@30c; turkeys, 25c@30c. Potatoes—Wisconsin, sacked, 16c@18c. Potatoes—Wisconsin, sacked, white, cwt., \$1.90@2.00. Barley—Choice to fancy, \$1.06@1.07; fair to good, 98c@1.05. Corn—No. 4 yellow, \$1.04 1/2@1.06 1/2; No. 4 white, \$1.04 1/2@1.06 1/2. Oats—No. 3 white, 62c@67c. Rye—No. 2, \$1.27@1.27 1/2. Hogs—Fair to best butchers, \$9.50@10.15; fair to good lights, \$9.50@10.40; pigs, \$6.00@8.50. Cattle—Steers, fair to choice, \$8.50@14.00; heifers, \$7.00@12.00; cows, \$7.00@10.00; calves, \$10.50@11.50. Sheep—Lambs, good to choice, \$15.50@16.00; fair to good, \$13.50@15.00; ewes, \$5.00@9.00.

Fond du Lac—Boy Scouts in the Badger council area will take a definite step in reforestation Apr. 28, when seedlings will be given them for planting. Six hundred trees will be allotted each district in the area, making about 4,000 in all.

Madison—Senator W. H. Markham, Dodge county, author of the Horicon marsh restoration act, has announced his candidacy for United States senator against Senator Robert M. La Follette.

Mineral Point—Education of school-boys and girls in fundamentals of business methods and especially in the purposes and functions of a bank was advocated by Solomon Levitan, state treasurer, in an address here before the Kiwanis club.

Birchwood—A recent one-day institute at Birchwood resulted in plans for a potato seed treatment day when planting time comes. Farmers will bring their potatoes into town where a steam heated tank will be used and the formaldehyde treatment given.

FLOOD LEGISLATION MEETS FIRST DEFEAT

Administration's Proposal Is Lost by Vote of 142 to 73; Veto Is Expected.

Washington.—Administration forces met defeat on the first test of strength on flood control legislation in the house. By a vote of 73 to 142 the house in committee of the whole rejected an amendment of Representative Madden (Rep., Ill.) embodying proposals of President Coolidge.

The temper of the chamber made it a certainty that other Coolidge suggestions which are in dispute would meet a similar fate and that the bill would be passed in a form objectionable to the President. That he will veto it if it reaches the White House in the form in which it will receive house approval was predicted by Representative Madden and by Representative Tilton (Rep., Conn.), the majority leader.

The Madden amendment provided that local interests should furnish rights of way for levees both on the main channel of the lower Mississippi and along the sides of proposed floodways and spillways. It also prohibited the government from undertaking work on the proposed Bonnet Carre spillway until the city of New Orleans, in recognition of its paramount interest therein, should agree to protect the United States against all damage claims arising out of its construction. A similar guarantee from southern Illinois and southeastern Missouri in the case of the New Madrid floodway in Missouri was provided for.

"I propose to vote against the bill no matter how many good things there are in it unless you put this in," said Representative Madden. "The President of the United States has done everything in his power in connection with this problem. I think you are making a mistake in refusing to cooperate with the President. You can pass this bill, I have no doubt, but you can't pass it over his veto."

Representatives Nelson (Dem., Mo.), Quinn (Dem., Miss.) and Denison (Rep., Ill.), in opposing the amendment, declared its adoption would mean the defeat of the entire flood control project. The people of the area in which the proposed floodways and spillways are to be located, they asserted, do not want them, inasmuch as they are primarily for the protection of other regions.

In lieu of the Madden proposal, the house approved a section offered by Representative Reid (Rep., Ill.), chairman of the flood control committee. It provides that local interests should furnish rights of way for additional levees needed on the main channel of the Mississippi but not for levees along floodways and spillways. The Reid provision also included a clause relieving the United States from any liability for damages for or by floods or flood waters at any place. This was one of the Coolidge amendments which the house flood control committee accepted.

With the exception of the proposals embodied in the Madden amendment and a provision in a later section of the flood control committee accepted all of the Coolidge compromise provisions. Under this later section the government would not purchase either land or rights of way between the floodway and spillway levees. In the event that water is diverted from the Mississippi into the floodways or spillways, however, property owners would be assured such compensation as they are entitled to under the Constitution. This is the section which the President favors as a means of avoiding a scandal in the sale of land to the government. Prospects are that the house will approve the committee amendment by which the government is required to purchase the land or flowage rights.

The house approved a number of amendments offered by Representative Reid which made the bill conform more to the views of the President.

1,000 Miners Vote to End Illinois Strike

La Salle, Ill.—Approximately 1,000 miners representing seven locals of the United Mine Workers of America, voted here to return to work at the old wage scale of 86 a day and \$1.37 a ton for diggers. The miners have been on strike since April 1, 1927 for higher pay.

Following the taking of the vote, the miners appointed a committee of fourteen to confer with the operators' association to see if they would be permitted to return. James Yearley, head of the delegation, stated that the industry would suffer if payment of the higher scale was forced.

If the operators are willing it is considered likely that twenty-five mines in La Salle, Bureau and Putnam counties will reopen. Operators have in some cases expressed willingness to meet the men half way in any offer to resume production.

Keech Sets New Auto Record

Daytona Beach, Fla.—Ray Keech, driving the triple special of J. M. White, Philadelphia manufacturer, set a new world's record for special built cars of 207.5526 miles an hour here. The elapsed time for a mile on the two-way trip was 17.345 seconds.

California's Population Grows

Sacramento.—California's population for the last year was 5,398,475, an increase of 151,728 over 1926.

French Cable Peace Plan

Paris.—The French peace treaty to substitute for the anti-war pact drafted by Secretary Kellogg of the United States, has been cabled to French ambassadors at Washington, London, Tokio, Berlin and Rome.

Launch Largest Destroyer

Paris.—The largest and most powerful destroyer afloat, the Guepard of 2,690 tons with a speed of 36 knots an hour, was launched by the French navy at Lorient.

TO PLAY DUTCH STARS

Helen Wills.

The Hague.—Helen Wills and Miss Anderson will meet the Dutch tennis stars, Ken Bowman and Miss Canters and Miss Conquerre, at Scheveningen on May 12 and 13. It was announced here.

PRESIDENT WINS ON NICARAGUA POLICY

Teeth Drawn From Blaine Resolution After Battle.

Washington.—Five hours of stormy senate debate on the administration's Nicaragua policy ended with an apparent collapse of the movement of radicals to rebuke the President by settling an arbitrary date for the withdrawal of marines from the Central American republic.

Senator Blaine (Rep., Wis.), author of the amendment to the naval appropriation bill for the withdrawal of American marines from Nicaragua by Christmas, accepted a modification which removes virtually all the teeth from his proposal.

The modification, offered by Senator Pittman (Dem., Nev.), changes the proposed legislation from a drastic interference with the President's powers to an amendment which, if passed, would have virtually no effect. It provides that the President may utilize marines for the protection of American citizens and their property in case of physical attack or the danger of such attack.

While Senator Blaine accepted the Pittman proviso and another change which delayed the time for the withdrawal of marines from Nicaragua until February 1, the senate did not act officially upon it, some of the senators asking for more time to study its language.

In view of the fact that Senator Blaine has accepted the modifications, the chances for an administration victory are believed good.

As it is now pending before the senate, the Blaine amendment places sharp limitation on the use of naval appropriations for the maintenance of marines in foreign countries. The Pittman proviso states, however, that such limitations shall "not apply in case of actual physical attacks upon American citizens or their property, or the immediate danger of such attacks and that at any time the forces of the United States may be used by the President for strictly protective purposes without the consent of congress."

A flock of other amendments curtailing the President's use of marine forces abroad were offered. These included amendments by Senator Heflin (Dem., Ala.) and McKellar (Dem., Tenn.) The McKellar amendment would allow the President to act in an emergency to protect American life and property, but would establish the principle that congressional consent would be necessary if marines were maintained abroad for any considerable time.

Depew Wills Million to Yale, His Alma Mater

New York.—The will of Chauncey M. Depew, statesman, railroad executive, orator, and humorist, makes direct bequests of more than \$2,200,000. The total value of the estate, however, is considerably greater and is variously estimated between five million and fifteen million.

The largest single bequest is \$1,000,000 to Yale university, his alma mater. This sum is bequeathed without restriction as to its use.

The village of Peekskill, N. Y., where Mr. Depew was born nearly 94 years ago, receives \$100,000 in trust for educational and other public uses.

Mellon Denies Plan to Resign

Washington.—Secretary Mellon, who recently returned to his office after a visit to the Bahamas, denied reports that he would retire from politics and business at the close of the present administration.

Farmers Organize Party

Paris.—An agrarian party similar to that of the United Farmers in Canada has been formed in the Cantal district in France and is causing a good deal of disquiet among the regular political groups in the present general election for the chamber of deputies.

Japanese City Swept by Fire

Tokyo.—One thousand buildings were destroyed with an estimated loss of \$500,000 in a fire at Hirotsuki. Four schools and six hospitals were razed.

To Meet Armour's Obligations

Chicago.—Ten million dollars will be advanced from the personal holdings of Mrs. Lolita Sheldon Armour and Mrs. Lolita Armour Mitchell, widow and daughter, respectively, of J. Ogden Armour, to meet obligations of the late meat packer.

Plan Factory at Prison

Bismarck, N. D.—North Dakota may put a factory at its state penitentiary for making vitrified brick. The prisoners now make twine.

SCORES ARE KILLED BY QUAKE IN GREECE

Town of Corinth Almost Totally Destroyed; Thousands Homeless and Destitute.

Athens, Greece.—Chaos reigns in the group of Greek villages which were shaken by a severe earthquake, which caused the death of at least thirty persons and made thousands homeless. Some reports place the list of dead at fifty.

The town of Corinth was the worst hit by the tremor. According to reports the number of dead there totals twenty, with seventy injured. Four-fifths of the houses were destroyed in Corinth and the remainder are unsafe for habitation. The power house was destroyed and the town plunged into total darkness. During the excitement the prison was broken open and many convicts escaped and roamed through the town.

It is estimated that there are 10,000 homeless and destitute at Corinth, 2,000 at Loutraki, and 4,000 elsewhere. Many of the refugees are scantily clad and lost all their belongings in the ruins.

The Corinth canal was closed to boat traffic, owing to fears that the canal walls would give way at any moment. Guards were posted at regular intervals to spread the alarm if necessary.

The American School of Archeology, which is excavating at Old Corinth, which was destroyed by a quake in 1858 and lies three miles from the new city, was not seriously damaged. Chimneys fell, but the museum and contents were only slightly damaged. All the Americans fled outdoors and none was injured.

Vienna.—Renewed earthquake shocks in parts of Bulgaria brought panic and terror. The Bulgarian government has declared a moratorium in the affected districts.

Houses collapsed in the new tremors. The crowds were reported to be lynching all persons caught looting the ruins and threatening the same action against those accused of profiteering in food.

Sofia, Bulgaria.—To the panic and despair resulting from the heavy earthquakes in southeastern Bulgaria has been added sufferings from floods. Reports from Philippopolis and other points in the devastated region said that it had rained unceasingly for 48 hours.

A tenth of the 125,000 persons affected by the quake have shelter of a sort where they have been able to improvise huts. There are thousands, however, exposed to the full rigors of the weather. Added to these sufferings is a scarcity of food and a lack of fuel.

Premier Liapchoff has repeated that foreign help must come to the destitute population, who will be compelled to live for a long time without adequate shelter and on scant rations.

The relief, however, has started to arrive. The American Red Cross telegraphed \$5,000. The pope sent about \$90,000.

King Alexander sent a telegram of condolence to King Boris and the Yugoslav Red Cross dispatched about \$12,000. Newspapers, teachers and other intellectual interests have formed a committee to collect funds for this stricken country.

Yugo-Slavia's department of the Interior has relaxed its frontier regulations and has ordered that all Bulgarian immigrants be transported to the interior of the country so there may be no occasion for conflict.

Light shocks were experienced at several places that have hitherto been untroubled. There were no casualties, as the first sign of a tremor. The Panagurichite, Ladlane, and Kiralji districts were shaken by quakes.

Sofia, Bulgaria.—Death, destitution and insanity stalked through southeastern Bulgaria in the wake of a series of earthquakes which have devastated the region.

More than 100 bodies were counted in Philippopolis and the neighborhood. How many were buried beneath the ruins was not known, many of whom were in a critical condition. It was impossible as the population fled panic-stricken to the countryside.

It was believed that Philippopolis, which is the second city in size in Bulgaria, would itself furnish the high est casualty list of the places affected. Only the higher part of the city about a quarter of a mile across, was undamaged. The remainder was destroyed or too dangerous to occupy. Several churches and a hospital, crumbled in ruin.

In many villages in the region only a few houses stood. These places included Papazali, Kalatchi, Baltadzli, Chakiroto, Manole, Tressli, Alibakovo, Belozen and Satyoghevo. The people were in destitution. Many were driven insane.

Pay Raised on Pittsburgh Lines

Pittsburgh, Pa.—Agreement has been reached between the Pittsburgh Railways company, operating the city's trolley system, and the Trainmen's union, whereby motormen and conductors are granted an increase of 1 1/2 cents an hour, effective May 1.

Oldest Paulist Father Dead

Washington.—Rev. Walter Elliott, oldest member of the Paulist community, is dead here. He was eighty-six years of age.

Bones of Prehistoric Monster

Greenfield, Ind.—Fossilized bones of some prehistoric monster were unearthed recently on the Fair farm north of here. The teeth are enormous, some of them eight to ten inches around.

Fourth Pair of Twins

Peterboro, Ont.—Mrs. Peter de Car to gave birth to her fourth pair of twins. Three of the four pairs have arrived in three years. Each pair consist of a boy and a girl.

Dairy Work at Woodward, Okla.

Much Helpful Information Given in Report of Western Station.

(Prepared by the United States Department of Agriculture.)

Dairymen operating farms in the vicinity of Woodward, Oklahoma, or under similar conditions in other parts of the country, will find helpful information in the report of the dairy work at this station. Results covering the period from 1921, when congress made the initial appropriation for live stock work at Woodward, to 1928 are discussed in Circular No. 12-C, "Dairy Work at the Woodward Field Station, Woodward, Okla., 1921 to 1926," which has just been published by the United States Department of Agriculture.

The experimental work covers feeding and management problems; records of production; studies on growth and cost of raising calves; pasture experiments with sudan grass, winter wheat, rye, and sweet clover; and studies in breeding dairy cattle.

Made Advanced Records. Twenty-two cows in the Woodward herd have made advanced registry records, showing an average yearly production of 14,650 pounds of milk and 507 pounds of butter fat at an average age of three years five months.

Cost of raising 17 heifers at the farm averaged \$59.27 the first year and \$37.21 the second year, making a total of \$96.48 for two years.

Experiments have been conducted with a view to developing a rotation of pasture crops that might furnish grazing for the whole year. The experiments have shown, however, that winter wheat and winter rye are not dependable for fall and winter pasture, since there was not sufficient growth in the fall and winter to furnish good pasture. In fact, where the wheat and rye were allowed to reach sufficient growth to provide plenty of feed for the cows, March 9 was the earliest date the pasture was available.

Lack of moisture was the cause of the slow growth. Heretofore there has been a gap between the last pasture day of winter wheat and rye and the first pasture day of sudan grass. From the results of the one year that sweet clover was pastured it is thought that this crop may fill the gap. There is a possibility also that bromo grass and crested wheat grass may be worked into the rotation.

Place Bulls in Vicinity. As a part of the breeding project the bulls born in the station herd are placed in the herds of dairy farmers in the vicinity of Woodward, in order to determine the transmitting ability of these bulls for high milk and butter fat production. The farmers receiving the bulls agree to keep records of the production of both the daughters and their dams, so that a comparison may be made of their production. The herd sire now being used at the Woodward station had been placed in a grade herd to test his ability as a sire of high production. The records of his first six daughters "proved" him. The daughters averaged 452 pounds of butter fat a year, which was an increase of

LESSONS GLEANED FROM THE INCUBATOR ARE EDUCATIONAL

Short Course in Embryology Well Worth Cost of Eggs.

(Prepared by the United States Department of Agriculture.)

Now, during the season when incubators are in operation, it may happen that the eggs purchased or saved for incubation do not completely fill the tray for one hatch. This offers an excellent opportunity for an interesting and highly educational lesson in natural history, says one of the workers in the United States Department of Agriculture. If there is space for from 20 to 24 more eggs get them from any source where fertility is probable and mark them for identification. Operate the incubator as usual, but instead of incubating all the experimental eggs for the full 21-day period, take one out for examination each day, watch the daily developments within the shell, and observe the successive stages of the growth of the chick from the germinal disk of the fresh-laid and apparently lifeless egg to the marvelously developed mechanism able to peck its shell and to emerge a living bird. It is possible to get something of an idea of what is happening by candling a single egg day after day, but a still more instructive method is to first candle an egg and then break it carefully in

Short Farm Notes

Change pastures as often as possible.

Alfalfa seeded on soil well developed a good stand.

A small amount of alfalfa mixed with the feed is beneficial, especially for brood mares.

It is good business to hatch early. Pulletts must be hatched early if they are to lay high priced winter eggs.

When the calf is put on milk it should be given some small amount of fresh milk. Three times daily is better than twice.

Full grain feeding is necessary in order to finish calves for market. Longer feeding period is also necessary for finishing calves than is necessary for finishing older steers.

Wether lambs that have not been decked sell for higher market prices than do undocked rams. It is good business to follow the practice which brings the most money.

Seed Treatment Helps Clover on Acid Soils

Bacteria will help bring back clover like it used to grow in the pioneer days.

Wherever clover is to be seeded on acid soil the seed should be inoculated, suggests I. L. Baldwin, bacteriologist at the University of Wisconsin college of agriculture, to farmers in sections of the state where there is a large percentage of acid soil.

"On acid soils the bacteria which help clover to make use of the free nitrogen of the air do not live long in the absence of the legume plant," he stated. "When new seed is sown on this type of land there is insufficient bacteria in the soil for the clover to use the nitrogen and consequently make its best growth."

"While it was formerly felt that inoculation of clover seed was necessary only when the crop was sown on new soil, recent experiments indicate that inoculation of all seed over a period of years is a profitable investment both in increased crop yields and in the prevention of crop failures."

Feeding Young Cattle for Good Market

Feeders who have become accustomed to fattening young steers will always succeed as well the feeding of young cattle being fattened for market. They try feeding calves on a diet of milk and hay, but this method is not so profitable as feeding on a diet of hay and grain.

It is better to feed a young steer on a diet of hay and grain than to feed him on a diet of milk and hay. The young steer will gain more weight on a diet of hay and grain than on a diet of milk and hay.

Uphill—Extra power! Downhill—Better brakes!

for safer, more delightful travel

The illustrations of the Nash Advanced Six and Special Six Sedans, shown above, point out two very great advantages which belong to everyone who drives the Nash.

For climbing hills, going around other cars, getting away in front at a traffic start, Nash has extra power and greater flexibility, produced by the highly perfected, precision balanced, Nash 7-bearing motor, and the equally famous Nash straight line drive.

New Reduced Prices—24 Models—\$655 to \$1995, F.O.B. factory

Coming down hills, driving in traffic, meeting a sudden emergency—Nash 2-way 4-wheel brakes surround Nash owners with exceptional safety. And they also require the minimum of attention and adjustment, because of their 2-way and fully equalized design.

The extra power and extra safety of Nash travel cost you nothing, as you will discover if you compare Nash prices to the prices asked for other cars. Nash leads the world in motor car value!

ST. MICHAELS

Jake Roden and John Pesch received their new Chevrolet sedans.

Mr. and Mrs. Fred Zimmerman were callers at Lomira last Friday.

Mrs. Wilger is spending some time with her daughter, Mrs. Math. Heringes and family.

John Roden and Al. Uelmen were business callers at Oostburg last week Wednesday.

Mr. and Mrs. Wm. Radmer of Milwaukee spent the week-end at the Frank Rose home.

Mr. and Mrs. Frank Rose attended the funeral of Mrs. Jac. Horning Sr., at Beechwood last Friday.

Mr. and Mrs. Ed. Janowski and children of Milwaukee were callers at the John Roden home Sunday.

Mr. and Mrs. Nic. Stockhausen from the northern part of the state, spent some time here with relatives.

Mrs. John Rodenkirch, who was seriously ill with pneumonia, is recovering and will soon be up and around.

Two weeks from Sunday a class of children will receive their first Holy Communion at the St. Michaels Catholic church.

Mr. and Mrs. John Roden and daughter and Miss Erma Homeyer were callers at the Peter Schiltz home Sunday afternoon.

Mr. and Mrs. Edw. Ullrichson and children and Miss Viola Goewski of Milwaukee, spent Sunday with the Louis Habek family.

John Hammes, who was employed at the Frank Thull home, spent a few days at his home at East Valley, in order to recover from a bad cold.

Miss Margaret Shaw, who teaches school at South Germantown, spent Friday and Saturday with Miss Erma Homeyer at the A. Roden home.

Mrs. Ben Bahr, who had been very ill with bronchitis, is somewhat improved at this writing. Miss Celia Bahr, a trained nurse of Racine is taking care of her.

Mr. and Mrs. Aaron Rose and daughters of Fond du Lac called at the A. Roden home Friday, while enroute to Beechwood to attend the funeral of their aunt, Mrs. Horning.

The ladies of the Altar Society of the St. Mathias Ann church will hold a prize card party at the church hall on Sunday evening, April 29. The usual games will be played, beginning at 8 o'clock. Lunch will be served after the games. All are cordially invited.

Relatives of Frank Thull, who was very seriously ill with pneumonia, were called to his bedside Saturday night, as his condition was so critical that it was feared he would not survive the night, he has since then passed the crisis, and hopes are being entertained for his complete recovery.

GRAND VIEW

J. F. McNamara has his house shingled.

Geo. McVoy called at the John Mullen home Sunday evening.

J. F. McNamara spent several days at Fond du Lac on business.

Mrs. Leo Mullen spent Friday afternoon with Mrs. Oswald Weiland.

N. J. Klotz and daughters spent Friday afternoon at Campbellsport.

Pat McNamara is quite ill with pneumonia at the present writing.

Harold C. Johnson spent Tuesday afternoon at Fond du Lac on business.

Mr. and Mrs. Jos. Bertram of Fond du Lac callers Saturday afternoon.

Mr. and Mrs. John M. Braun were at Fond du Lac on business Monday afternoon.

Mrs. M. Hall and family of Ashford spent Sunday evening with M. B. Hall and family.

Mrs. M. B. Hall and sons spent Friday afternoon with Mrs. Joe Seblaefor at Campbellsport.

Mr. and Mrs. Geo. Johnson of Campbellsport spent Friday with their son Harold and family.

Mildred Johnson spent Thursday and Friday with her grand parents, Mr. and Mrs. H. A. Wruke.

Miss Lillian Meade of Eden called at the J. M. Braun home and at Campbellsport Monday morning.

Mr. and Mrs. Wm. Strupp spent Sunday afternoon with Mrs. Mary Furlong and daughter in Auburn.

Mr. and Mrs. Peter Jaeger and family of Ashford spent Sunday afternoon with Peter Schommer and family.

Geo. Bowen and son Louis of Fond du Lac were business callers at the John M. Braun home Tuesday afternoon.

Mr. and Mrs. Frank Ketter and family spent Sunday afternoon with Mr. and Mrs. Math Schommer, and family.

Mr. and Mrs. John Braun and sons Harold and Edward spent Thursday evening at the D. F. Smith home at Woodside.

Quite a number from this vicinity are attending services at St. Mary's church at Eden this week. The mission will close Sunday evening April 29.

John Sammons Sr., received word that a daughter was born to Mr. and Mrs. Ray Fox at Milwaukee last week. Mrs. Fox is a grand daughter of Mr. Sammons.

Mrs. Leo Mullen of here and Mrs. Frank Bauer of Campbellsport spent Saturday afternoon at Fond du Lac and Chas. Keno spent Sunday evening at the Harold C. Johnson home.

Irene M. Schommer and daughter Hazel, Edna Scheid, Margaret Braun, Francis Murphy and sister Marie, Marguerite and Daniel, Selma and Katherine Urban attended the county contest at Fond du Lac Saturday. Dan

WE WANT YOU TO SEE IT
The New
McCormick-Deering
Spreader

HERE IT IS—the new McCormick-Deering—built from the ground up to meet the requirements of present day agriculture. The new McCormick-Deering is not a built-over model but a distinctly new type, a machine embodying the high principles of design, workmanship and manufacturing skill. Long life and efficient spreading are assured when a McCormick-Deering is used. Spreading costs are reduced because the durability of the machine minimizes upkeep and extends the investment over years of satisfactory service. Two horses handle capacity loads without tiring. Eight roller bearings and light weight construction make this light draft possible. The spreader is easy to load—it is low down and the two beaters and spreader spiral shred and spread the manure as it should be done.

LOCAL HAPPENINGS

Saturday, April 28, 1928

—Carl Goertz was a Milwaukee visitor Tuesday afternoon.
 —Peter Mies of Mayville called on friends here last Saturday.
 —Walter Shepard of Janesville visited Sunday with friends here.
 —See "Fast and Furious" at the Kewaskum Movies Sunday evening.
 —For an enjoyable time attend the dance at the Opera House tonight.
 —Otto E. Lay and daughter Charlotte spent Saturday at Milwaukee.
 —Miss Corrine Schaefer visited the week-end with friends in Milwaukee.
 —Mrs. E. L. Morgenroth was a guest of relatives at Chicago last week.
 —Mr. and Mrs. Arnold Huck of Berlin spent Sunday with the Jos. Mayer family.
 —The regular monthly stock fair held here Wednesday, was largely attended.
 —Mr. and Mrs. Max Lechl and son Bobby were week-end visitors at Milwaukee.
 —Mrs. John Klumb and Miss Helen Rempel spent Saturday with friends at Milwaukee.
 —Henry Knoebel is confined to the Driessel hospital with a severe attack of pneumonia.
 —Henry Heidel of Milwaukee spent Sunday with his parents, Rev. and Mrs. H. Heidel.
 —Mr. and Mrs. Chas. Blaesser of West Bend spent Sunday with Mr. and Mrs. John Muehleis.
 —Mrs. Geo. Nieman and son Jack of West Bend spent Sunday with the Elwyn Romaine family.
 —Grand dance at the Kewaskum Opera House, tonight Saturday. Music by Andy's Wisconsin Six.
 —Mrs. Lena Kibble of Suring visited from Friday till Tuesday with her daughter, Mrs. Chas. Brandt.
 —A. G. Koch Inc., was very busy delivering McCormick-Deering tractors the past couple of weeks.
 —Mr. and Mrs. John Strachota and family of Milwaukee spent Sunday with Mr. and Mrs. Val. Peters.
 —Mr. and Mrs. Fred Jung of Fond du Lac spent Sunday with Mr. and Mrs. Hubert Wittman and son.
 —Edward Miller of Milwaukee visited Sunday with his parents, Mr. and Mrs. Edw. F. Miller and family.
 —Mr. and Mrs. Peter Flasz of St. Kilian spent Sunday with Mr. and Mrs. Joe Eberle and daughter.
 —Louis Bath and family, Mrs. Don Harbeck and son William were callers at Fond du Lac Sunday afternoon.
 —Mr. and Mrs. Emil Rempel and family spent Monday evening with Mr. and Mrs. Art. Nauman and family.
 —Mrs. Mayme Roden, saleslady in the A. G. Koch store, was confined to her home this week because of illness.
 —Mr. and Mrs. Henry Hauerwas and family of Milwaukee spent Sunday with Mrs. Nic. Mayer and family.
 —Mrs. Jos. Gritter left last Friday for Chicago, where she will visit some time with Mr. and Mrs. Florian Furicht.
 —Mrs. John Van Blarcom Sr. moved to West Bend the forepart of the week, where she will reside in the future.
 —Dr. Chester Perschbacher of Appleton, spent Sunday with his parents, Mr. and Mrs. A. A. Perschbacher and family.
 —Fire, last Saturday afternoon, destroyed the plant of the Menomonee Falls Mfg. Co., entailing a loss of \$30,454.
 —Mr. and Mrs. Gerhard Peters of Milwaukee spent Sunday and Monday with Mr. and Mrs. John Stellflug and family.
 —Mr. and Mrs. Arthur Guenther and family of Campbellsport spent Sunday with Mr. and Mrs. Ferd. Raether and family.
 —Misses Sylvia Christensen and Dorothy Buss, nurses from Milwaukee spent Tuesday with the Schurr Bros. and friends.
 —Mr. and Mrs. Ralph Olwin of Milwaukee, spent Sunday with Mr. and Mrs. W. S. Olwin, and also attended the funeral of Dr. Karl Hausmann.
 —Misses Maude Hausmann of Evanston, Ill., and Dorothy Dana of Appleton, attended the funeral of their uncle, Dr. Karl Hausmann here Sunday.
 —Mr. and Mrs. Alb. Stark and Mr. and Mrs. Phil. Meinhardt of Milwaukee, spent Sunday with Mrs. Wm. Krahn and other relatives and friends here.
 —Mrs. Ed. Woog, Mrs. John Klug and family of Random Lake and Mrs. Ed. Kreilkamp of Wauwatosa called on Mr. and Mrs. John Klessig Sunday afternoon.
 —Dr. and Mrs. Alvin Backus of Cedarburg, spent Sunday with the former's father, Wm. F. Backus, and while here attended the funeral of Dr. Karl Hausmann.
 —Mr. and Mrs. Louis Schaefer, sons Russell and Louis Jr., of Juneau and Mrs. Adolph Neumeyer of Le Roy spent Sunday with Mr. and Mrs. Wm. F. Schultz.
 —N. W. Rosenheimer, supervisor and Anthony P. Schaeffer, assessor, were at West Bend Wednesday, where they attended a meeting of assessors of Washington county.

"SPARKLES"
 SAYS:
 "See Mrs. K. Endlich's add elsewhere in this paper."

—You can create an immediate life estate of \$1000, for your son and daughter, aged 10 at a cost of less than 5 cents per day, ask John B. Pick.

—The assessors of Washington county met at the court house at West Bend on Wednesday, in their annual one-day session, with assessor of incomes A. H. Bussewitz.

—Mr. and Mrs. Frank Zwaska, son Frank Jr., and Mr. and Mrs. Rudy Wagner and daughter Audrey of Milwaukee spent Sunday with Dr. and Mrs. Geo. F. Brandt and son George Jr.

—Henry Quade spent Saturday and Sunday with his wife in the St. Lukes hospital at Chicago, where she underwent a major operation last week Friday. Mrs. Quade is now convalescing very nicely.

—Mr. and Mrs. Frank Hepe and daughter visited with the former's father, E. Hepe, who is confined to the Hartford hospital with a severe attack of pneumonia, on Monday and Wednesday.

—E. W. Jaehnig of Port Washington, Mr. and Mrs. Herbert Witt and Laura Neunes of Fredonia spent last Thursday evening with D. M. Rosenheimer and family and Mr. and Mrs. John Klessig.

—Father Ed. Stehling of Marytown, Fond du Lac county, was assigned as priest to Holy Angel's parish at West Bend, to fulfill the vacancy caused by the resignation of Rev. Hyde, who left for Milwaukee Wednesday.

—Mr. and Mrs. Eugene Klotz, Wm. Andrae and Erwin Andrae of Milwaukee and Chas. Andrae of Chicago visited with Mr. and Mrs. Fred Andrae and family Sunday, and also attended the funeral of Dr. Karl Hausmann.

—Miss Mirian Schaefer entertained a number of her friends at cards, at her home Monday evening. Honors were awarded to Lucina Martin and Frances Raether. Dainty refreshments were served after the games.

—John Pick, son of Mr. and Mrs. Ed. Pick of West Bend, high school student, won first honors in the District Oratorical contest of the Milwaukee Journal last week. His subject was "The Development of the Constitution."

—The Schmitz Sisters orchestra of Mt. Calvary, well known in this section of the state, who have furnished music at dancing parties for the past five years, and who are known as one of the best musical organizations of its kind, presented a program of music from station KFIZ, Fond du Lac Commonwealth Reporter Thursday afternoon. Nick Schmitz, father of the girls, is manager of the orchestra.

—The following honors were awarded at the card party, held by the ladies of the Holy Trinity church at the Holy Trinity school hall on Tuesday evening: Skat—F. Hilmes, Rev. Ph. Vogt. Schafskopf—J. Matinear and Edw. F. Miller. Bridge—A. A. Uer and Miss Irene Dixon, 500—Mrs. A. P. Schaeffer and Mrs. Casper. Cinch—Mrs. C. Berres and Mrs. N. Mayer. Bunco—Ralph Heisler and William Harbeck. Black Peter—Mrs. F. Hilmes. The door prize was awarded to Ralph Heisler.

—Edward Weidig, whose Ford coupe was stolen on the night of Feb. 29th, last, while he was attending a show at Fond du Lac, was found stored in a garage at Milwaukee, this week, by detectives from the Northwestern National Insurance company, in which company the car was insured.

—The car was stolen by a man whose name we were unable to learn, and who is traveling with his wife and daughter. The arrest came about when the thief stole another car at Janesville, and in the attempt to sell the car, the report says, he was unable to get a clear title. In looking up records of the car, the check for the Weidig car stored in a Milwaukee garage was found. The coupe had been driven about 400 miles since it was stolen and had an Illinois license and also a new steering wheel with a lock on it. The car was brought here on Friday for identification.

AMUSEMENT

Saturday, May 12—Grand dance in Frank Wietor's hall, Wayne. Music by Shorty Hoffman's orchestra of Chilton. All are invited.

Monday, April 30—Farewell dance at Cascade Opera House, Cascade, Wis. Music by Schlosser's five-piece orchestra. A cordial invitation is extended to all.

Wednesday, May 9—Farewell dance at Shorecrest hall, Parnell. Music by Schlosser's five-piece orchestra. All are invited.

Little Nature Studies

TOO CHEAP

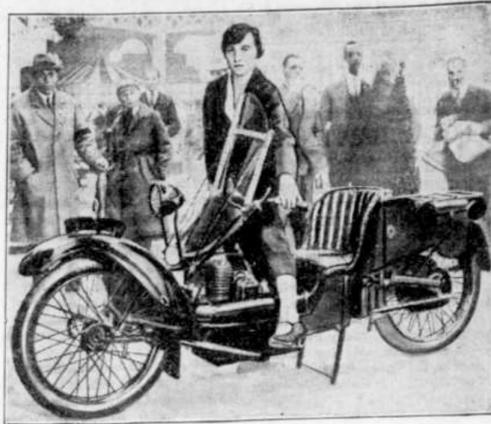

Rarin' to Go

An Alabama man declares that the briefest courtship of all was that of a negro couple in that state. It ran about as follows (Nastus speaking first):
 "Why don't you take me?"
 "Cause yo' ain't ast me."
 "Well, now I asts yo'."
 "Well, now I has yo'."—Los Angeles Times.

More Suitable Employment

Sometimes a misprint by chance states the truth. Not long ago a Manchester bookseller made a list of novelists who, in his opinion, ought to sell better.
 When put into type the heading ran:
 "Novelists Who Ought to Sell Better."
 One American automobile corporation has salesmen in many countries, giving sales talks in 15 languages.

NOW IT IS THE ARMCHAIR MOTOR CYCLE

The photograph shows the new type of armchair motor cycle, exhibited with one of the charming London misses, at the London Motor Cycle exhibit, held at the Olympia hall.

SAVING IN TIRES JUSTIFIES PAVING

Rubber Worth \$9,590 May Be Worn Away Per Mile of Road Yearly.

(By E. E. Duffy.)
 No less than \$1,918 yearly may be saved on tires for each mile of high type pavement that replaces gravel or macadam roads, according to the last service bulletin of the Iowa Highway commission, which takes as a basis the recent investigations of Washington State college. This means that where automobile traffic is heavy, the saving in the tire wear alone justifies paving.

Tread Rubber Costs.
 Tread rubber on the average tire costs about \$10 per pound. The amount of rubber worn off during the life of the tire is about 3.45 pounds. It was found that on a good crushed stone macadam surface, with 500 vehicles traveling over it daily the tire wear cost in the course of a year is \$2,500 per mile. The cost on rigid pavements with the same number of vehicles is only \$672.

The state college has found that a properly constructed concrete pavement may be expected to give service for at least twenty-five years. Spreading the entire cost of the pavement over this period, the average cost per year is \$1,540. This figure is actually \$78 per year less than the saving in tire wear effected through driving on the rigid pavement.

Need for Pavements.
 A greater volume of traffic indicates an even greater need for pavements. Where 2,500 vehicles travel daily over a mile of road, which is not uncommon nowadays, the saving will be five times as great, or \$9,590. With concrete pavements costing about \$30,000 per mile, the pavement will be paid for by tire saving alone in three years. Considering the many other factors, such as wear and tear on the car and gasoline consumption, it is obviously uneconomical to neglect paving where the community has the ability to organize its finances so that the rural roads can be made to save rather than continue wasting money.

Crankpin Wear Uneven

It Frequently Happens

Bearing adjustments are incomplete if they are made without first having determined the condition of the crankpin, which is susceptible to uneven wear. It frequently happens that what looks like a perfect job of bearing tightening is most disillusioning when the engine is started, largely because the journal is worn "out of round." The condition of this part should be determined before any adjustment is made. If grinding is necessary it is a fairly simple job with the up-to-date facilities of the average repair shop.

See That Your Bumpers

Are Set 18 Inches High

Owners of motor cars are urged by the United States bureau of standards to have their bumpers set in conformity with the standards adopted by the Society of Automotive Engineers, in order that the overlapping and interlocking of bumpers on the street may be eliminated. The S. A. E. standard fixes the horizontal center line of bumper face, exclusive of fittings, at 18 inches above the ground for front bumpers and 19 inches for rear bumpers or fender guards.

Dangerous Speed Limit

in Large City of Paris

Twenty-five miles an hour has been fixed as a sort of arbitrary "dangerous" automobile speed in downtown Paris. There is no legal limit, for the driver of a car is responsible for his acts at all speeds. The police, nevertheless, have decided that a common-sense standard must be used so traffic officers can exercise control. This limit is to be enforced only where there are cross streets. On the avenues a car may go as fast as traffic conditions and safety permit.

Aligning Auto Wheels

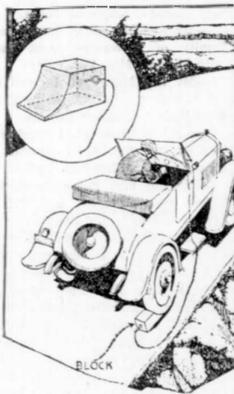

The camber or spread of the front wheels at the top should be three degrees for each wheel, and the top should measure three inches more than the bottom. The amount of lead or toe-in is very small, not to exceed one-fourth inch narrower at the front than at the back of the front wheels. The front axles are also tilted back at the top five and one-half degrees to give a castor effect, which gives about one-fourth inch backward tilt at the top of the steering spindle.

Wiping Windshield

The car owner who makes it part of his routine to wipe off the windshield every morning and evening assures himself of better visibility the next time it rains. The most effective windshield cleaner requires considerable time before it can clean a glass that is speckled with dust. If the cleaner is called upon to wipe off only rain, it is 100 per cent efficient from the start. This is possible only when the motorist keeps the windshield free from road film.

Block and Cord Useful for Parking on Hills

Every motorist who has had occasion to change a tire or make repairs while parked on a steep hill, knows that stopping and getting under way again often is difficult and sometimes dangerous. The conventional practice is to block the wheels with a rock, perhaps leaving the rock in the road for other motorists to bruise tires on. The writer has solved this problem by the use of the block-and-cord

Block-and-Cord Equipment for Autos to Permit Easy Starting on Steep Grades.

equipment shown in the illustration. With this, I can stop on a steep hill and block the car so that there is no possibility of its backing down. When ready to leave, I start in low gear and take the block with me. To avoid the possibility of scratching the car when putting the block in, I cover it with a few scraps of old carpet. It may bump the side but no damage will result.—J. E. Hoag, Los Angeles, Calif., in Popular Mechanics Magazine.

Handbook for 1928 Is

Issued by the N. A. C. C.

The 1928 "Handbook of Automobiles," an illustrated catalogue of the leading makes of automobiles, with their specifications, has just been published by the National Automobile Chamber of Commerce. It covers all the products of members of the N. A. C. C. and includes the principal specifications of 154 vehicles, including 85 passenger cars, 2 taxicabs, 9 motor busses and 58 commercial vehicles and trucks.

AUTOMOBILE NOTES

Pistons are now being made for motor cars of less than one-third the weight of those previously used.

Automobiles have to take care of the boy on a bicycle. He is no longer referred to in terrified accents as a "scorcher."

So far, fortunately, reckless drivers have not adopted the habit of hanging the scalps of their victims over the edge of the radiator.

The Indianapolis speedway, scene of the great 500-mile auto classic each Decoration day, is used for stock car testing during the off-seasons.

The average cost of owning and operating an automobile in Alabama is \$675.40 a year, or nearly \$2 per day.

It was no farther back than 1894 when a "motor cycle" meant a four-wheeled carriage with a one-cylinder gasoline engine under the seat.

A new \$100,000 racing automobile with 900 horse power is capable of making 220 miles an hour, in case anybody is in a hurry to get to the other end of Daytona beach.

The Cream of the Tobacco Crop

LLOYD WANER

Noted Star of the Pittsburgh Pirates, writes:

"When I arrived at the Pittsburgh training camp, I noticed my brother-in-law smoked Lucky Strike cigarettes, and he explained to me you will agree that in a close and exciting race and it certainly called for splendid physical condition to withstand the tax and strain upon one's nerves and wind. Like Paul, my favorite Cigarette is Lucky Strike."

Lloyd Waner

"It's toasted"

No Throat Irritation - No Cough.

Nothing Doing

Clarence Cobden, the successful advertisement illustrator, said at an advertising men's dinner in Denver: "A rich young man came to me the other day and said defiantly: 'I am going to open a high-class clothing store next month, Mr. Cobden, but I expect to run my business without advertising.' 'Young man,' I said, 'to run a business without advertising—well, that is just like winking at a girl in the dark.'"

Aptly Marked

First Player—What marking is there on your tennis ball?
 Second Player—"Not Yours," in bright red.—Humorist.

In these times we fight for Ideas, and newspapers are our fortresses.—Hefne.

Begin to doubt conscience, when it suggests that you tell everybody about your misdeeds.

You never can convince a man he is crazy. For that reason, you have to lock him up.

Eggs Not Good

There is a certain elderly man who makes very fine lemon pie. One day she was giving a dinner and course, made a pie for it. The pie was very warm and the woman's eggs did not whip well for the ring. When the pie was set one of the guests complimented very highly on it.
 "Oh," she said, "it's not as good as usual. The eggs weren't good."

Much Gold in Sight

South Dakota's Black Hills have the richest gold mine in America—Homestake, near the town of Lead. According to Capper's Weekly, its discovery in 1875 has since produced \$200,000,000 in gold. The ore is blocked out to form the hills with 4,750 tons a day. The world's appetite for gold is unappreciated.

An old-fashioned woman hearing of her husband's am in an old-fashioned way is a pity case.

Better swallow your indignation when you thirst for money.

The mind makes the body rich.

Why Burn It Up?

SMOOTH, cushiony Velvet Oils keep your engine running smoother and cooler. They completely defeat friction—cost no more than ordinary oils, but last longer and save you money. Stick to Velvet for safety.

VARIETY IN SILKEN SCARFS; BELTED SILHOUETTE STRESSED

More colorful than a guy... why two scarfs, to be sure... And so it is...

general utility wear? Truth is, that it is one of those welcome seasons where "you pay your money and you take your choice."

One would not err in event of choosing either of the two candidates which appear in the picture. Whatever their other differences it is perfectly apparent that these models agree as to the "to be or not to be" of the belted silhouette.

Ways of Wearing Scarfs.

The style that is one way of a conventional scarf set. The essence of such an arrangement is shown in the picture to the left.

Scarves which consist of head and neck and give quite a different effect from the conventional scarf set.

Many stylists are settling the status of the belt by designing some of their most successful costumes, especially those of tweed or novelty woolsens, with self-material belts.

Natural gray kasha is the medium employed for the semi-sports separate coat shown here. It is lined with crepe de chat. There is a piping of marine blue kasha outlining the deep cuffs, the novelty pockets and the strap along the center back.

The three-piece ensemble suit pictured to the left is of tweed. The blouse and coat facings are of crepe silk. Straps of tweed trim the blouse. The pockets are of the patch type, and by the way, pockets are almost as intriguing a subject as belts these days.

The belt in this instance fastens across the front only, which is a very considerable thing for it to do, seeing that this allows the chic coat to fall

son—not only self-fabric belts on the coat or jacket, but fancy belts for blouse and frock prove of fascinating interest.

There is no doubt that the constant noise of the carriers rattling along through the tubes did not jar on the deafened girls in the least, and so they were seldom disturbed in their counting and making correct changes.

It was found that the constant noise of the carriers rattling along through the tubes did not jar on the deafened girls in the least, and so they were seldom disturbed in their counting and making correct changes.

Two Youthful Models. In a clever unrestricted line from the neck at the back. The skirt which is sewed to a bodice, has a cluster of side plaits.

Three materials which are indorsed by the ablest designers for either ensemble or separate coat are touse woven basket cloth, repp and jersey cloaking. Navy blue is considered very fashionable. Sometimes the navy coats have tuxedo revers of matching moire. Likewise cuffs with perhaps a bow of the moire at the shoulder, or a scarf of the same run through slots cut in the woolen coat collar.

Julia Bottomley. (©, 1928, Western Newspaper Union.)

Skirts Like Tulips. The tulip, which is naturally a spring flower, has furnished inspiration for the skirts of the present season. The lower part of the dresses are meant to hang in exactly the beautiful flare of a tulip held upside down.

Yellow Hat. Banana bakou fashions a large hat that has a high, rounded crown and an irregular brim shaping from a wide left side to almost nothing on the right.

The KITCHEN CABINET

Face your deficiencies and acknowledge them, but do not let them master you. Let them teach you patience, sweetness, insight. When we do the best we can, we never know what miracle is wrought in our own life, or in the life of another.—Helen Keller.

VARIOUS DISHES

Where deep sea food is plentiful there are so many delightful dishes of fish, lobster, clams and oysters which lend variety to the menu.

Deep Sea Pie.—Steam two dozen hard shell clams, remove shells and chop coarsely. Take the meat from a two-pound lobster, boiled and cut fine; rinse one and one-half dozen oysters, dry on a cloth and add them unchopped to the clams and lobster. Make a rich white sauce, using two cupsful of milk, four tablespoonsful each of butter and flour, add salt, pepper, chopped hard-cooked egg, one onion also chopped, a tablespoonful each of green pepper and celery, one-half cupful of buttered crumbs. Line a deep pie dish with a good crust, fill with the mixture, cover with a top crust having several vents in it and bake forty minutes. Wrap in a cloth to steam ten minutes before serving.

Red Snapper Salad.—Take two cupsful of flaked cold, boiled red snapper, add one tablespoonful of capers, the same of chopped sweet pickled gherkins, one cupful of diced celery, a teaspoonful of minced red or green pepper and a thinly sliced cucumber. To one-fourth cupful of French dressing add one small grated onion. Pour over the fish mixture to marinate. Rub the inside of a bowl with a clove of garlic cut into halves. Line the bowl with lettuce and pour in the salad mixture; heap generously with stiff mayonnaise. Garnish with chopped hard-cooked egg and thin sliced pickles.

Beef and Marrow Sandwiches.—From the shin of beef which has been cooked for soup, remove some of the marrow, chop it into pieces and arrange it on nicely toasted bread, then lay on thinly sliced pieces of the meat, season well with a dash of salt and pepper, a little prepared mustard, cover with another layer of marrow spread toast and set into a hot oven to become thoroughly heated. Serve with the soup, making a most satisfying meal.

Blueberry Griddle Cakes.—Cream together one tablespoonful of butter and two tablespoonsful of brown sugar. Add one egg, two cupsful of flour sifted with three teaspoonsful of baking powder and one-half teaspoonful of salt, one cupful of canned blueberries and enough milk to make a good batter—about one cupful. Cook slowly on a greased griddle, remembering that they are baked, and serve with butter, soft maple sugar or honey.

Cereal Dishes. There is much good food that goes down the kitchen sink or into the garbage pail that should be saved for various dishes. Even a spoonful of oatmeal or other food if saved and added to gems, muffins, griddle cakes and omelets, will increase the food value as well as the palatability of them.

Four cold water into the cereal dish and after soaking serve and drain into a sieve. Two or three tablespoonsful are thus saved for food. When there are leftovers of small amounts the following dishes are suggested:

Cereal Souffle.—To one cupful of thick white sauce add one-half cupful of cooked left-over cereal. Beat well and add the beaten yolks of two eggs, one-half teaspoonful of salt, a dash or two of cayenne pepper and one-half cupful or more of any preferred meat finely minced, such as ham, cheese, mushrooms or sweet pepper. Any one, or combinations of these foods are good. Cool, add the stiffly beaten whites and bake twenty minutes in a moderate oven.

Hominy or Rice Dodger.—Cook together one cupful of cooked rice or hominy in a double boiler with one-half cupful of milk; beat until soft and well blended. Remove, add one tablespoonful of sugar, one-half teaspoonful of salt, one well-beaten egg, and flour to make a batter—about one cupful. Spread in a well buttered tin in a layer one-third of an inch thick and bake in a hot oven until brown. Eat hot, split and well buttered.

Hominy Muffins.—Mix together one cupful of cold hominy grits or other cereal, one cupful of milk, two tablespoonsful of sugar, two tablespoonsful of butter, one teaspoonful of salt, heat until scalded and beat until smooth. Let cool, add one-half of a compressed yeast cake softened in a cupful of warm water and three and one-fourth cupsful of flour. Beat smooth, let rise over night, cut down and put into gem pans; when light bake. Forcing the cereal through a ricer will help to make the mixture smoother with less heating.

For dinner, which is served at noon for the school child, a lamb chop, or steak, or roast beef or chicken with a slice of bread and butter and a dish of spinach, a little fruit jelly with a cookie and a glass of milk.

Rules When Buying Set. There are at least four important things to consider when buying a receiving set. The choice of a set should be decided by: (1) How much money can be spent; (2) what sort of service is expected; (3) where the set is to be used; (4) appearance of the set.

Will Change Direct Current. Adapters to convert a direct current battery receiver into one using AC tubes have been presented for the fan desiring to change his filament supply to the house lines. One unit will accommodate six tubes, while another also has six sockets.

There are 13 stages in the manufacture of a vacuum tube.

Fly Flight Facts. House flies, it is found, often make a journey of five or six miles in 24 hours. Some 234,000 flies of different species were obtained for unique flight tests.

RADIO

Battery Fluid Composed Mostly of Cornstarch

Giving special emphasis to the ineffectiveness of battery "dopes" and patented mixtures which are alleged to "charge batteries, reduce internal resistance, remove sulphation prevent freezing," the National Better Business Bureau has issued its annual report concerning its activities in the battery field.

After stating that the outstanding battery "dope" coming to the bureau's attention during the past year was composed essentially of cornstarch, the report points out that the advertisers of battery compounds generally are not making the blanket claims for their product which was the custom several years ago. Many no longer claim that their compound will "charge batteries."

The report details at some length the co-operation which legitimate battery manufacturers have given the national bureau. In connection with the advertising of so-called "eliminators" the work of the bureau is of particular interest. Early in 1927, advertisers were offering products of varying construction without differentiating their merchandise from competitive units in any manner. It was the practice to describe these units as A and B "battery eliminators" and to point to the many disadvantages of batteries and battery-operated radio sets.

In a recent survey 50 advertisers described their units in accordance with the bureau's recommendations and only seven used the negative term "eliminator."

Educating New Owners of Radio-Receiving Sets

In the selection of a radio set many features must be considered. There are many trick contrivances on the market, but, basically, the modern receiver is constructed in two general classes—that is, it uses two fundamental circuits—the tuned radio-frequency, with detector and audio amplification, and the superheterodyne. The former is designed for employing an outside aerial, the latter for an inside or loop aerial. Before choosing either type, take into consideration the conditions pertaining to location. Apartment dwellers, as a rule, are not permitted the advantages of an outdoor antenna. Many of them resort to an indoor aerial, running along the picture molding of a room. The wisest ones choose a straight loop, in connection with a superheterodyne circuit. Most of the standard sets are now built for sensitivity and selectivity. These words are not mysterious. Sensitivity relates to the ability of the set to pick up weak signals. Selectivity relates to their separation to avoid receiving more than one station at a time, and also to avoid the clashing of signals from stations whose wave lengths are closely allocated. Both these attributes make for quality, but, of course, the general tone of a radio set depends much on the type of loud speaker.

Things to Know About Life of "C" Battery

The question of the necessity for replacing the "C" battery in a receiver when the others are no longer useful often arises. In this connection there is one important thing to keep in mind, that the "C" battery is used to prevent the flow of grid current, which means that there is no current drawn from the battery. The useful life of the battery is, therefore, equal to its "shelf life," or the life it would have if it were not used at all. The life of the battery is independent of the number of tubes used in the receiver. The shelf life depends primarily on the size of the cells. For this reason the high-voltage batteries used to bias the power tube have to be replaced more frequently than those used to bias the radio-frequency amplifier.

Electrical Apparatus Leaks Cause of Static

A leak in electrical apparatus in the home, such as furnace or ice box control, irons, electric heaters, warming pads, violet ray machines, vacuum cleaners, fans, washing machines, etc., whether resulting from broken insulation or a bad contact, may result in spark production with a consequent broadcasting of high frequency waves. In many instances this condition can be remedied if a by-pass condenser is connected across the contacts. These condensers are fairly small in the case of devices requiring minute currents, but they are silencers that function instantly and unflinchingly.

Adjust Speaker for Pure Tone

For perfect tone and reception, the cone speaker should be adjusted every time it is used. All that is necessary is to loosen the small chuck and allow the driving rod to assume a neutral tension. This is necessary since the paper surface tension changes with weather conditions.

Rules When Buying Set

There are at least four important things to consider when buying a receiving set. The choice of a set should be decided by: (1) How much money can be spent; (2) what sort of service is expected; (3) where the set is to be used; (4) appearance of the set.

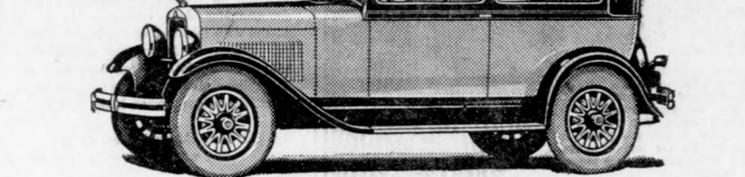

Will Change Direct Current

Adapters to convert a direct current battery receiver into one using AC tubes have been presented for the fan desiring to change his filament supply to the house lines. One unit will accommodate six tubes, while another also has six sockets.

There are 13 stages in the manufacture of a vacuum tube.

STUDEBAKER The Great Independent

\$795 F. O. B. FACTORY

ERSKINE SIX

STUDEBAKER's new Erskine Club Sedan—with generous room for five adults offers big car comfort over unpaved roads, abundant power for hills or mud. In officially supervised tests, an Erskine Six sedan proved ability and durability by racing 1298 miles in 24 hours! A speed and endurance record for stock models under \$1000! You can drive this Erskine Six 40 miles per hour the day you buy it!—because of Studebaker's high quality materials, precision workmanship, inspections and engineering genius. Smooth 62-mile speed later. Studebaker's long established quality standards and large scale manufacturing save you

money in first cost and after cost. Values such as this are making 1928 the greatest year in Studebaker's 76-year history.

Dealers' Opportunities

Studebaker assists dealers to conduct their business on a profitable basis—sales training—financing—used car merchandising—advertising helps—accounting—service—etc. No wonder Studebaker-Erskine dealers make money with these 4 great lines: The new President Eight, 1985 to \$2450. The World's Champion Commander, \$1465 to \$1025. The new Dictator, \$1195 to \$1395. The new Erskine Six, \$795 to \$965. Write or wire NOW for complete, confidential information if there is no dealer in your town or if you wish to move to a town where the Studebaker-Erskine franchise is available.

FREE "Trip through Studebaker Factories"

Every car owner, every family with children in grade or high schools, will want this interesting free booklet, "A Trip Through Studebaker Factories." It pictures how your car is made—complete from molten metal to dynamometer tests of completed cars. If you cannot visit the huge Studebaker plants in South Bend this summer, send for this free book now—use coupon at right. See pictures of great Studebaker foundries where castings are made from molten iron ten times hotter than boiling water. See six-ton steam hammers forge Studebaker crankshafts. Learn how Studebaker springs are forged and tempered. Why Studebaker steel forgings are baked in huge ovens to insure great strength. Understand how a Studebaker steel body can be fused by electric arcs into one strong silent unit. See airplane views of Studebaker's 800-acre Proving Ground. Learn more about the 76-year-old company and the 21,000 men who build your Studebaker or Erskine. Send for this entertaining free booklet NOW! Use coupon.

Program for Evening Formally Called Off

A well-known radio announcer was spending the night in the home of a friend. The host did not know that he was an accomplished snorer and had given his guest the adjoining room, from which any sound was perfectly audible. They were just coming forthly settled for the night when the announcer started "broadcasting." The entertainment was not favorably received, and the host was unable to sleep a wink and was contemplating some means for nullifying the disturbing noises, when his guest stopped snoring abruptly and in a loud voice said: "Ladies and gentlemen, the program to which you have been listening is being broadcast to you through the courtesy of Blank & Co., and with this he shifted his position and they both spent the remainder of the night in sleep.

The Seasoning

Mistress—Did you season the oysters, Dinah? Dinah—No'm, I thought you said that was taken care of in months what had "it" in them.

Right!

"Mary, what is a hen?" "It's an egg's mother, teacher."—Boston Transcript.

Best Fish Story

Probably the year's best fish story comes from an Oklahoma correspondent of the Farm Journal. On a recent fishing trip with two companions, he relates, his attention was distracted from his line for a moment. Suddenly one of his fellows called his attention to a powerful pull at the line and he tugged away enthusiastically—only to find that an old rubber boot had been hitched to his hook by his playful friends.

Pear Tree Has History

A pear tree at Bristol, Conn., is now one hundred seventy-five years old and has been owned by six generations of one family. The tree, now in the possession of Edward Pierce, was originally planted in 1752 by Joseph Lewis, an ancestor, and has borne fruit every year. Family tradition says that Josiah Lewis came to Bristol from Southington by horseback bringing the pear tree with him. At the time of his daughter's marriage to a settler, Mr. Lewis presented her the pear tree, which was planted in the rear of the bridal home.

Giving Pa a Chance

Street Orator (talking on the rights of a father)—There should be only one head in each family! Voice—Yes, especially when there's only one set of headphones!—Stray Stories.

Deserving

Employer—How can you ask such a high salary when you're inexperienced? Applicant—It's harder work when I don't know how.

A man may be every inch a gentleman and not be very tall at that.

Many a man's better half has separated him from his last quarter.

Lizard Scares Foes by Display of Ruff

Out in Australia, the home of the kangaroo and a lot of other curious animals, there is a peculiar lizard, apparently impressed with the truth of the maxim that an enemy scared and chased away is an enemy less to fight today. And there's nothing like a good bluff, anyway—if it works, says the Baltimore Sun. To frighten its foes away this reptile has developed a most remarkable growth of skin on its neck, ordinarily hanging in loose folds but capable of being erected into a wide frill or ruff very like those of the days of Good Queen Bess, and it shows from the front when it is standing out around the head and neck.

As if all this was not enough the lizard also walks or runs on his hind feet, holding his forelegs up in the air. We may hazard a guess that he borrowed the system from the kangaroos, but if he did he forgot to lend them the ruff in return. Just how terrifying all this is to the natural enemies of the frilled lizard we are unable to say, but if we look at his picture in the books we must at least admit that it makes him appear sufficiently unattractive.

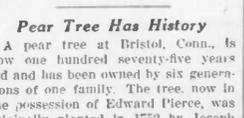

The Gentle Reminder

Visitor—And is that all? Flower Garden Guide—Yes, you have seen all the flowers but the forget-me-nots!—Detroit News.

On the First Day of this year, the number of horses and mules on farms was 20 per cent less than on January 1, 1920.

GOOD FARMING PAYS

A Perfect Seedbed

Here is the machine you have heard so much about, for preparing your seedbeds. Farmers everywhere are reporting crop increases, running from 5% to as high as 40%, due to use of this machine. It surely does put ground in excellent shape, and will pay you big to use it, no matter what you plant. We are pleased to show you this famous

WESTERN PULVERIZER, PACKER & MULCHER
—the Sprocket Type Packer

With the clods crushed, the under soil firmly packed as deep as plowed, and the surface pulverized into a level, moisture-retaining soil mulch, you too will get a better stand and much larger yield. This machine does it all in one operation. Turns shorter and pulls much easier than any other type of packer.

It will prevent wheat winter killing and the soil blowing. You will find it also the best machine ever devised for covering clover and grass seed; for your alfalfa, potatoes, and all other crops.

Investigate this machine. When you see its construction and how it works, you will readily understand why it is such a favorite everywhere. Very reasonable in price.

L. ROSENHEIMER, Dealer, Kewaskum

Letter Heads!

Did you ever consider your letter-head as your most used card of introduction, Mr. Businessman? The first glance at your firm's stationery establishes the personality of your business in the mind of the recipient. The price of your letter-heads should be the last consideration.

Good paper—well selected type—artistic arrangement—and good printing may be expected when you let us print your letter-heads and other office stationery.

The most of well-printed stationery from our Print Shop is consistently low with the high-class workmanship maintained.

No matter what your printing job may be, we are equipped to give you the best work and prompt service.

Kewaskum, Wis.

Why Not With Tires?

You buy \$10 shoes—\$8 hats—\$50 suits. No thought of "haggling." Plainly marked merchandise. You pay what's asked!

But tires! Anything to make the sale—"deals," "special discounts," "introductory offers," or what have you?

Here's the most convincing sales argument of all. It cuts the Gordian Knot.

MORE CARS RUN on GOODYEAR Tires Than on Any Other Kind

Goodyear Tires sell at fair prices always—no cut rates, no cuts in quality, no "deals." Don't need them.

They sell because The Greatest Tire Company in the World makes them to outperform any other tire ON THE ROAD.

Get these amazing figures! Over seventy-five billion tire miles last year on Goodyears. More than 168,000,000 pounds of rubber used. PEOPLE WANT GOODYEAR TIRES.

When customers say our service is like Goodyear Tires, it makes us happy. We are always friendly—expert—interested.

Let's get acquainted—soon.

DUNDEE

Gerhard Haegler spent Saturday at Plymouth.
Geo. Eggars was a Fond du Lac visitor Monday.
Mr. and Mrs. Carl Dins spent Saturday at Fond du Lac.
Earl Hennings was a business caller at Janesville Thursday.
John Krueger and Roland Yaeger were Fond du Lac visitors Friday.
Mr. and Mrs. Jac Jeske spent the week-end with relatives at Milwaukee.
Ed. Zethner of Milwaukee visited Sunday with his father Fred Zethner.
Miss Alice Calvey of Mitchell was a guest at the Edgar Bowen home Sunday.
Mr. and Mrs. Edgar Bowen visited Sunday evening with relatives at Cascade.
Mrs. Ernst Haegler and son Gerhard were Campbellsport visitors on Monday.
Oscar Hintz has a new Chevrolet car, which he purchased from Henning Bros.
Miss Ethel Corbett of West Bend, is spending the week with her parents, Mr. and Mrs. John Corbett.
Mr. and Mrs. Ray Strobel and Leo Strobel of St. Kilian visited Sunday with Mr. and Mrs. John Krueger.
Mrs. Jacob Jeske of Long Lake, spent Wednesday afternoon with Mrs. C. W. Baez and daughter Phyllis.
Mr. and Mrs. Irvin Kutz are rejoicing over the birth of a son, who arrived Sunday, April 22 at their home.
Miss Marie Mulvey visited from Friday till Monday with her parents, Mr. and Mrs. Jas. Mulvey at Fond du Lac.
Miss May Eggars of Campbellsport visited Sunday with her mother, Mrs. Josephine Eggars and brother George and family.
Mrs. Mike Flood and son Myron and daughter Isabella of Milwaukee visited Sunday with the former's brother, Leo and Marion Gilboy.
Chas. Schnofsky, who was confined in a hospital at Milwaukee, the past five months, returned home Sunday. He is able to walk about with the aid of crutches.

ROUND LAKE

M. Calvey and son Vincent were business callers at Campbellsport on Monday.
Mr. Voeks of Silver Creek and Geo. Theyer spent Friday evening at M. Calvey's.
Mr. and Mrs. Wm. Krueger and family of St. Michaels visited Saturday at M. Calvey's.
Mr. and Mrs. Edgar Meyer and family and Mr. and Mrs. Edw. Rohn visited over Sunday at the A. Seifert home.
There will be a play at the Spring Valley school at Glenbeulah Friday night. Round Lake Rounders will furnish the music. All are welcome.
Everybody is invited to attend the party given in honor of Miss Mildred Corbett at New Fane Saturday evening. Music by Round Lake orchestra.
Guests who were entertained Sunday at M. Calvey's were: Mr. and Mrs. Geo. Buehner and family, Arthur Prehn, Chas. Romaine and family, Sadie and Burr Romaine.
Come one! come all! to the grand opening ball that will be held Sunday evening in Seifert's hall. Eli Rice will be here with his minstrels, and will put pep in the dancers, when they once hear his band. He has all the latest hits. The hall has been decorated with fresh colors, and the floor has been cleaned and scraped. The grounds have been leveled, and there is lots of space for parking. Refreshments will be served.

AUBURN

Willie Dins of Auburn spent Tuesday at West Bend visiting friends.
Mr. and Mrs. Alex Sook spent Friday with Mr. and Mrs. Elmer Sook.
Mrs. John Uelmen spent Sunday evening with Mrs. Louisa Dickman.
Willie Dins called on Mrs. Louisa Dickman and son, Monday afternoon.
Mr. and Mrs. Elmer Sook spent Sunday with the Gust, Lavrenz family.
Dr. Gregor Hoffman of Hartf. rd. called on the J. F. Uelmen family Sunday afternoon.
Mr. and Mrs. Alex Sook spent Sunday evening with Mrs. Louisa Dickman and son Russell.
Mr. and Mrs. Lawrence Ketter and son Ralph spent Friday evening with Frank Ketter and family.
Mr. and Mrs. Lawrence Ketter entertained the following Sunday evening: Mr. and Mrs. J. F. Uelmen and family, Joe Uelmen, Mr. and Mrs. Frank Ketter and family, and John Ketter. The occasion being his 29th birthday. A delicious lunch was served by Mrs. Ketter.

CEDAR LAWN

Joe Calhoun motorist to Campbellsport Tuesday.
Wm. Heicht of Neenah was a business caller here last Friday.
Fred Krueger of Fond du Lac spent last Friday with John L. Gudex.
Edw. Manthey and Alvin Lehner called on friends at Mayville Monday.
Mr. and Mrs. Oscar Bartel of Waucousta were pleasant callers here on Tuesday.
John A. Gudex and son Leroy of Elmest called on the former's father last Saturday.
Lloyd Schleif of Campbellsport gathers milk for the West Bend condensary from here daily.
Frank H. Reitz of Fond du Lac, who represents the Rawleigh company, of Freeport, Ill., was a business caller here Wednesday.

NEW PROSPECT

Mr. and Mrs. John Tunn were Fond du Lac callers Tuesday.
Mr. and Mrs. J. F. Walsh were Fond du Lac callers one day last week.
Mrs. W. J. Romaine spent Friday afternoon with Mrs. Ercke at Lake Seven.
Peter Rinzel and son Math. of East Valley were business callers here on Monday.
Mr. and Mrs. R. Trapp attended the funeral of Mrs. Jac Horning at Beechwood Friday.
Miss Lizzie Polzean of Waucousta called on the John Tunn family one day last week.
Mr. and Mrs. Wm. Hennings of Dundee were Sunday guests of Mr. and Mrs. N. J. Romaine.
Mr. and Mrs. Rich. Trapp and daughter Virginia spent Saturday with relatives at Fond du Lac.
Mr. and Mrs. Walter Haupt of Milwaukee visited Monday with Mr. and Mrs. John Tunn and family.
Mr. and Mrs. J. P. Uelmen and Mrs. A. Krueger spent Sunday as guests of Mr. and Mrs. Wm. A. Krueger at Cascade.
Mrs. W. M. Bartelt, daughter Cordell, Mrs. J. P. Uelmen and Mrs. Anna Romaine were Fond du Lac visitors Friday.
Herman Backhaus of New Fane spent Monday with Mr. and Mrs. Norbert Gatzke and Mr. and Mrs. August Jandre.
Miss Belle Brier of Fond du Lac was an over week-end guest of Mr. and Mrs. N. M. Bartelt and daughter Cordell.
Mrs. C. Schultz, son Archie and daughter Gladys of Waukesha spent Wednesday with Mr. and Mrs. W. J. Romaine.
John Schultz and daughter Emma of Lake Fifteen were Sunday visitors of Mr. and Mrs. Wm. F. Schultz and daughter Ruth.
Mr. and Mrs. Mike Schladweiler of East Valley, Mrs. Frank Bowen, son Jerome and Mrs. W. M. Bartelt of here spent Monday evening with Mr. and Mrs. J. P. Uelmen.

LAKE FIFTEEN

Mr. and Mrs. Willie Wunder were West Bend callers Friday.
See "Fast and Furious" at the Kewaskum Movies Sunday evening.
Mr. and Mrs. Arnold Butzke of Waucousta spent Sunday with Mr. and Mrs. Herman Butzke and family.
Herman Hinn and sister Rose of Fond du Lac spent Tuesday evening with Mr. and Mrs. Herman Butzke.
Ernie Gatzke of Lake Seven and Miss Edna Schultz of the town of Scott and Miss Lorinda Ramel spent Sunday at the John Gatzke home.
The ladies of the Altar Society of the St. Mathias Ann church will hold a prize card party at the church hall on Sunday evening, April 29. The usual games will be played, beginning at 8 o'clock. Lunch will be served after the games. All are cordially invited.

FOUR CORNERS

Mr. and Mrs. Louis Butzke were Kewaskum callers Tuesday.
Miss Elizabeth Weasler spent Sunday with Miss Emmie Lavrenz.
Jas. Furlong of Fond du Lac called at his home Tuesday afternoon.
Mr. and Mrs. H. Hoek and Mrs. Ed. Koeh were Fond du Lac callers Tuesday.
Mrs. M. Weasler and daughter Elizabeth were Fond du Lac callers Monday.
Mr. and Mrs. Roy Ours and family spent Sunday evening with relatives near Hartford.
John Opperman and sister Frances and Alfreda Ramel spent Sunday at the Wm. Klubuhn home.
Mrs. Edw. Berg of Menomonee Falls spent Sunday with Mr. and Mrs. Peter Berres and family.
Mr. and Mrs. Geo. Buettner spent Tuesday evening with Mr. and Mrs. M. Weasler.
Mr. and Mrs. Otto Hinn and family of the town of Scott and Mrs. M. Weasler spent Sunday with Mr. and Mrs. Henry Butzke and family.
Mr. and Mrs. Herman Bartel of Waucousta spent Sunday evening with Mr. and Mrs. Joe Ketter and Mr. and Mrs. Henry Ketter and family.
Mr. and Mrs. Charles Wunder and son Leo of Milwaukee, Dr. and Mrs. Smith of Kewaskum spent Sunday with Mr. and Mrs. Alb. Butzke and family.

Several neighbors and friends gathered at the home of Mr. and Mrs. Rob Buettner last Friday evening, it being their 29th wedding anniversary. Card playing was the pastime of the evening. At 11 o'clock chili con carne was served by Mrs. Buettner, Mrs. Odekirk, Mrs. Weasler and Mrs. John Gatzke. The couple received a number of useful gifts.

DON'T CUT YOUR PROFITS

Strange as it may seem many dairymen seem to have a hankering to cut down their profits. They keep chopping away at their own milk checks, and yet they don't admit to themselves that they are doing something wrong. Every time they give feed to a cow that is a "boarder" they cut off profit. Every time they feed too small a portion to the profitable cow, they cut profit. When milk is not cooled properly and quality lowered it means less profit. It is also a hard matter to get correct samples for the Babcock test when milk is not in good condition. It pays to take good care.

Baby Cuts 10 Teeth Without Trouble

Mrs. John Ruthless, Glenville, Neb., was worried. Her baby was having much a hard time teething. He cried all the time. She was frantic; she knew that fever, colic, convulsions or worse might result. Some mothers induced her to use Dr. Pusheck's Teething Relief—absolutely harmless because it's homeopathic—then her baby was teething in 40 days. Let her tell about the difference.

"My little boy, 11 months of age" she writes, "has cut 10 more teeth and has had no trouble. He is now a happy, healthy baby."—
"Don't let your baby suffer or be kept awake. Get a bottle of Dr. Pusheck's Teething Relief. It will give you relief from your baby's teething."—
At most leading druggists.
