

Correspondence

DUNDEE

Mr. and Mrs. Jacob Jeske spent Friday at Kewaskum.
C. Kulb of Sheboygan is erecting a new cottage at Long Lake.
C. W. Baetz and family spent Saturday at Sheboygan Falls.
Mrs. Fred Heider and son Harry visited Saturday at Fond du Lac.
Dr. O. J. Wolfgram of Lyons was a caller in the village Wednesday.

Miss Edna Roehl of West Bend visited the week-end at her home here.
Many from this vicinity attended the county fair at Fond du Lac last week.

Miss Martha Cahill of Milwaukee visited Sunday with her father James Cahill Sr.

Dr. O. J. Wolfgram and nephew Walter Dalieque spent Wednesday at Milwaukee.

Mr. and Mrs. Henry Habeck of Fond du Lac visited Sunday with Mrs. Lydia Hennings.

Mr. and Mrs. Deon Heod of Winnetke were guests the past week of Mrs. Margaret King.

Mr. and Mrs. H. W. Krueger and son Kermit visited Sunday with relatives at Plymouth.

Mr. and Mrs. Christ Rahn of Fond du Lac visited Sunday with Mr. and Mrs. William Bartel.

Mr. and Mrs. John Pesch and children of Campbellsport visited Sunday with the Adan Brown family.

Hugh Murphy of Valders visited Sunday with his daughter May at the home of Mr. and Mrs. Adan Brown.

Mr. and Mrs. Clarence Stern of New Prospect spent Wednesday with the Frank and August Kutz families.

Mr. and Mrs. Christ Rahn of Fond du Lac visited Saturday afternoon with the Otto and Edward Roehl families.

Mrs. John Varinius, daughter Marcella and son John Jr., and Mrs. Irvin Kutz spent Tuesday with John Varinius at North Milwaukee.

Mrs. Mike Flood and son Myron and daughter Isabelle and friend of Milwaukee visited Sunday with the former's brother Leo Gilroy.

Miss May Eggars of Campbellsport visited from Sunday till Tuesday with her mother, Mrs. Josephine Eggars and brother George and family.

Ernest Doering and friend of Milwaukee visited Sunday and Monday with the former's sister and brother-in-law, Mr. and Mrs. Jacob Jeske.

Mr. and Mrs. John Yaeger of Stratford called on the latter's sister and brother-in-law, Mr. and Mrs. John Krueger Friday, while enroute to Milwaukee to attend the wedding of their daughter.

Mrs. Ben Thompson of Fond du Lac visited Tuesday with her aunts, Mrs. M. Gillman and Miss Jane Van Duesen. She was accompanied home by her aunt, Mrs. Rose Austin, who will spend an indefinite time with her.

Mr. and Mrs. Otto Falk and Mr. and Mrs. Reuben Falk and daughter Shirley Ann of Flint, Mich., and Mrs. H. Hafeman of Mitchell visited with their brother and sister-in-law, Mr. and Mrs. Edwin Falk at New Prospect.

Mr. and Mrs. Otto Falk and Mr. and Mrs. Reuben Falk and daughter Shirley Ann returned to their home in Flint, Mich., Wednesday, after a ten days' visit with their parents, Mr. and Mrs. Aug. Falk and other relatives here.

Mrs. Den Holman and son of Chicago, who have been visiting the past month with the former's father, Marble Thayer, returned home Friday. They were accompanied by Mr. Thayer and son George, who spent a few days there.

Mr. and Mrs. J. H. Haskins and niece Miss Edith Van Buser of Winnetke visited the forepart of the week with Mrs. Margaret King. On Saturday they were accompanied home by Mrs. King and son James, who will spend a few days at Winnetke and Chicago.

Mr. and Mrs. Aug. Falk and son Erich entertained the following at dinner Sunday: Mr. and Mrs. Erwin Ferone and son Emil of Sheboygan Falls, Mr. and Mrs. Lester Engelman and daughter Carroll of West Bend, Mr. and Mrs. Otto Falk and Mr. and Mrs. Reuben Falk and daughter Shirley Ann of Flint, Mich., Mr. and Mrs. Henry Hafeman and children and Mr. and Mrs. Marion Tuttle and children of Mitchell, Mr. and Mrs. Edwin Falk and children of New Prospect, Mr. and Mrs. John Furlong and son Roger and Mr. and Mrs. Edwin Wittkopf of Plymouth and Mr. and Mrs. Oscar Hintz and children of here.

WARNING

All children, who are prowling around at night, destroying other people's property, are taking the law in their own hands, and placing themselves liable to arrest.

The Hard Season For Grandmother

By Albert T. Reid

MEETS WITH PAINFUL INJURIES

Perry Nigh, aged 62 years, a well known farmer of the town of Auburn, met with painful injuries on Thursday morning, when he fell through a man hole in the barn floor on his farm, into the stable and landing on a concrete floor. Mr. Nigh was at work in the barn, when in some unknown manner he happened to step into the man hole and fell through, a distance of from ten to twenty feet. He suffered a sprain of the ribs and other painful bruises on his body. He is getting along as well as can be expected at this writing.

WALCZAK-STANGE WEDDING

A quiet wedding took place at the home of Mr. and Mrs. Frank Stange in the town of Scott on Saturday, September 7, at 7 p. m., when their son Oscar was united in marriage to Miss Gertrude Walczak of Milwaukee. Rev. Gustav Kanies officiated. The couple were attended by Mrs. Walter Kruse, as maid of honor and Miss Edna Klug, as bridesmaid. Elmer Stange was best man. The bride wore a white dress and veil and carried a bouquet of white roses and baby's breath. The maid of honor wore a pink dress and carried a bouquet of pink roses and baby's breath. The bridesmaid also wore a pink dress and carried a bouquet of pink roses and baby's breath. A reception was held after the ceremony with about twenty-eight guests in attendance. The home was decorated with pink and white crepe paper. The bride party left the same evening for Milwaukee. The following day the newly wedded left on a short wedding trip. They will reside in Milwaukee, where the groom is employed as a barber. They have the well wishes of their many friends for a happy and prosperous married life.

INSANE MAN DRIVES CAR, ARRESTED, FINED

Robert Hacker of the town of West Bend, recently released from the state hospital at Mendota, was arrested by Traffic Officer George Brugger last Sunday afternoon for reckless driving. Brugger had a hard job on his hands to bring him to a stop. Hacker, as ordered to stop driving, but refused to do so. Brugger shot one of the rear tires, but he continued, then a front tire was shot and Hacker still kept a-going. Brugger then commanded a passing car, bringing Hacker to a stop. Hacker was fined \$50 and costs in Justice Hayden's court on Monday, but his actions were rather peculiar and he was ordered for an insanity examination. The alienists reported him insane on Tuesday afternoon and he undoubtedly will be committed to some state institution.

BEAVER DAM FAIR FROM SEPT. 30th TO OCT. 4th.

The Dodge county county fair will be held at Beaver Dam from September 30th to October 4th inclusive. The fair this year promises to be larger and better than ever, going under the motto: "The World's Greatest County Fair." Besides the large variety of exhibits, there will be auto polo, motorcycle races, Whippet races, auto push ball, spills, head-on auto collisions on Tuesday afternoon only. Horse races on Wednesday, Thursday and Friday. In addition to the regular fair, there will be night shows which promise to be extraordinary.

Church Notices

PEACE EVANGELICAL CHURCH
9 a. m., Sunday School.
10 o'clock German services.

DROWNS IN LUCAS LAKE

R. B. Annen, salesman of the Ph. Gross Hardware company, Milwaukee, met death by drowning in Silver Lake in the town of West Bend, shortly before six o'clock Tuesday afternoon. Mr. Annen in company with J. A. Playter, also an employee of the Gross Hardware company, were on a fishing trip, and while in an attempt to change seats in the boat, the boat dipped water and capsized, throwing both men into the water. Playter, who could swim, righted the boat and then clung to it until help came to his rescue. He was taken ashore by the Lucas family and Otto Lundgreen, a camper at the lake, who heard Playter's call for help. Playter states that he did not see anything of Mr. Annen after the boat had capsized. Sheriff Holtebeck and Deputy Sheriff John S. Peters of West Bend, and a crew of men dragged the lake for an hour when they gave up the search for the night. The Lucas family, however, continued the search, and it was not until late in the night when the body was found.

DELIVERS TRIAL SERMONS

At the regular services held in the Evangelical Peace church last Sunday, Rev. J. C. Frohne of Indianapolis, Ind. delivered brief sermons in the German and English language, as a candidate to succeed Rev. Ernst Irion, who resigned his position as pastor of the congregation several weeks ago. At a meeting held by the members of the congregation after the services, it was agreed to engage Rev. Frohne as pastor of the church. Rev. Frohne will not accept the offer until he has given the matter due consideration. Just when he will be in a position to let the congregation know of either his acceptance or refusal we were unable to state up to the time of going to press.

DEATH OF MRS. EDWARD ROEHL

Mrs. Emma Roehl of the town of Osceola passed away in death at her home in the above named township on Sunday, Sept. 15 at the age of 48 years. Deceased was born at Medford, August 28, 1881, and was married at Dundee on Nov. 5, 1900. For a short time she lived in Fond du Lac, then moved to the Osceola home. Besides her husband, Edward Roehl, she leaves to mourn her demise, one daughter, Mrs. Almond Buslaff, a son Irwin, two brothers, William Salzwedel of Fond du Lac and Herman Salzwedel of Medford and one sister, Mrs. Knute Eckland of Medford, and two grand children. The funeral was held from the residence at 1:15 p. m. Wednesday and at 2 p. m. from the Campbellsport Baptist church. Rev. C. J. Gutekunst of New Fane officiated. Burial was made in the Union cemetery.

PUBLIC AUCTION

Residence and lot 50 x 120 located on First street, will be offered to the highest bidder on Saturday, September 28, 1929, at 2 o'clock P. M. House in first class condition with electric lights. Terms reasonable and made known on day of sale.

WILL MOVE TO FORT ATKINSON

Herman Meilahn, licensed embalmer, who for the past five years has been engaged in the undertaking and radio business here, will move his family and household furniture to Ft. Atkinson some time next week, where Mr. Meilahn will start an exclusive funeral home. It is with regret that the many friends of Mr. and Mrs. Meilahn learn of their leaving our midst. Mr. Meilahn is a first class undertaker and embalmer, being well adapted to that type of work. Due to his ability in his chosen vocation, there remains no doubt in our minds that he will meet with good success in his new field of activity. The Meilahn family will be at home at 211 North street, Ft. Atkinson. We wish them success.

FREE CHEST CLINIC AT KEWASKUM, SEPT. 25th

The first fall monthly clinic of the Wisconsin Anti-Tuberculosis association, Milwaukee, will be held here on September 25th, according to an announcement made by Miss Ruby McKenzie, county nurse. This clinic, which will be held at the school building, will be for the purpose of examining school children. There is a possibility that a few adults will be examined at this clinic, however, these persons will probably be those who have had some contact with cases of tuberculosis.

DEATH OF MRS. JOHN TERLINDEN

Mrs. John Terlinden, a former resident of the town of Auburn, Fond du Lac county, Wis., died at her home in Grand Meadow, Minn., on August 25, 1929. The Grand Meadow Record under issue of August 29 gives the following account of her death:
"Death again invaded Grand Meadow last Sunday and took from us one of this community's finest and most beloved women. Mrs. John Terlinden succumbed at four o'clock that afternoon, the result of an illness that started with a stroke of apoplexy suffered on August 12th. Mrs. Terlinden never rallied greatly from the illness, though at times her condition showed slight improvement. While family and friends had feared during the illness that she could not long survive, her death was a distinct shock to all and the whole community is sorrowing.
Funeral services were held at the Grand Meadow Lutheran church this Wednesday afternoon, Rev. J. C. Thompson of the local church and Rev. Eisenberg of Wykoff, former pastor of the local German Lutheran church, officiating at the services which were attended by a large concourse of sorrowing relatives and friends. The members of the W. R. C. of which Mrs. Terlinden was an honored member, attended in a body and acted as a guard of honor. Interment was made in the family lot in the Bear Creek cemetery beside the body of Mr. Terlinden who passed away but two years ago.
Mrs. Terlinden was a member of the local American Legion Auxiliary and that organization also attended in a body and acted as a guard of honor. "Emelia Buss was born in the town of Auburn, Fond du Lac county, Wis., on October 31, 1863 the daughter of Ferdinand and Charlotte Buss. She died at her home in Grand Meadow, Minn., on August 25, 1929, at the age of 65 years, 10 months and 25 days. She lived there since she was a young woman and was married there on September 18, 1884 to John Terlinden. Soon after marriage the young couple came to Minnesota and settled at Young America, Carver county, where they lived until the year 1900.
That year they purchased a farm two miles northeast of Grand Meadow and moved to it. That was their home until about ten years ago, when they sold the farm and moved to Grand Meadow to reside. Mr. Terlinden died October 20, 1927.
To Mr. and Mrs. Terlinden were born nine children, two of whom died in infancy. Their eldest son, Jacob, died January 4, 1919. The surviving children are: Minnie and John at home, William at Osage, Iowa, Lizzie (Mrs. John Kroener) at Stoughton, Wis., Clarissa (Mrs. Sigurd Kvall) of Grand Meadow and Henry. She is also survived by five grand children, as well as four brothers and four sisters, namely: Henry, Herman, Otto and Theodore Fick, Mrs. Frank Schultz, Mrs. Fred Brockhaus, Mrs. Herman Geidel and Mrs. William Quandt, all living in Washington and Fond du Lac counties, Wisconsin.
Mrs. Terlinden was a sincere Christian woman and was a lifelong member of the Lutheran church and a faithful worker in the church of that faith.
Out of town relatives here for the funeral were: Herman Fick, Mrs. Frank Schultz and two daughters and son Henry, and Charles Krahn, all of Campbellsport, Wis., Jerry Terlinden, Peter Terlinden, Mrs. Ed. Kuske and Mrs. Fred Terlinden of Meyer, Minn., Mr. and Mrs. John Kroener and children of Stoughton, Wis., Mr. and Mrs. William Terlinden of Mitchell, Iowa, and Herman Wagner and family and Mrs. Ella Betts of Minneapolis."

CARD OF THANKS

We, the undersigned, desire to express our sincere thanks to all our relatives, neighbors and friends for the kind sympathy shown us during our recent bereavement, the illness, death and burial of our beloved father, Edgard Mueller, to the pall bearers, to Rev. Ph. Vogt for his consoling words, for the many spiritual and floral bouquets to all who loaned cars and to all who attended the funeral.

SEALED BIDS WANTED

The Board of Education of Joint School district No. 5, Town and Village of Kewaskum will receive bids for approximately 120 tons of coal to be delivered at school house as needed. Coal to be Yougneby screen lump or Elkhorn or Virginia split. Price each separately. Bids sent to Emil C. Backhaus, district clerk on or before Sept. 30, 1929. The board reserves the right to reject any or all bids.

Board of Education.

Orin Kaiser purchased the Batavia Auto Garage.
John Emley was a business caller at Jamesville Wednesday.

Mrs. Aug. Held of West Bend spent Sunday with Mr. and Frank Held.
Mrs. Thurman and son of Milwaukee, spent Sunday with O. Voigt.

Grace Laux is spending a week with her parents, Mr. and Mrs. John Laux. Dr. E. C. Pfeifer and family of Racine were Batavia callers Sunday evening.

Mr. and Mrs. Anderson of California are visiting relatives in this vicinity.

Mr. and Mrs. Richter of Milwaukee, spent Sunday with Otto Mehlus and family.

Mr. and Mrs. Spahoff and daughter left for their home in Michigan Wednesday.

Mr. and Mrs. Florian Lambert of Oshkosh called on Mrs. O. Rau Wednesday.

Ottillie Rau spent the week-end at Sheboygan Falls with her sister, Mrs. John Pfeifer.

A number from here attended the funeral of Mrs. Straus at Random Lake Monday.

Mrs. G. A. Leifer spent Wednesday at Random Lake with Mr. and Mrs. Albert Leifer and family.

Dr. and Mrs. E. A. Bemis visited the Rev. John Marks family at Horicon Tuesday and Wednesday.

Mr. and Mrs. Otto Leifer and daughter Clara of Plymouth, called on Mr. and Mrs. Roman Keller Sunday.

Mr. and Mrs. Henry Torke and Mrs. Albert Donath of Milwaukee, spent Saturday evening with Mrs. G. A. Leifer.

Mr. and Mrs. Fred Knolle and son and Mrs. Keesey of Milwaukee spent Sunday with Ida Liebenstein and Mrs. Ludwig.

Mr. and Mrs. Waldema Schwenzen and Mrs. Harry Greenwald of Plymouth, called on Ph. Liebenstein one day this week.

Mr. and Mrs. Albert Schultz and daughter, Mrs. Etta Schultz and Miss Kate Hoffman of Milwaukee, visited at P. J. Liebenstein's Thursday.

P. J. Liebenstein, Herman Staeger and Martin Seider accompanied Harold Liebenstein to Naperville Sunday, where he will enter North Central College.

Mr. and Mrs. Chas. Lillige entertained the following relatives and neighbors Saturday evening, in honor of their 2nd daughter's marriage: Mr. and Mrs. Chas. Kelling and family, Mr. and Mrs. Reuben Kelling, Mr. and Mrs. Henry Kelling and family, Mr. and Mrs. Ed. Kelling and family, Mr. and Mrs. J. Glander, Mr. and Mrs. Hy. Weddig, Mr. and Mrs. J. Weddig, Rev. and Mrs. C. Krueger, Mr. and Mrs. Arvin Hintz, Mr. and Mrs. Grossklaus and son, Mr. and Mrs. Henry Ramel.

The Tobia Verein of Plymouth surprised Mr. and Mrs. Albert Eberhardt in honor of their 30th wedding anniversary one evening this week. The following were present: Mr. and Mrs. H. Schulte and son, Mr. and Mrs. Wm. Koopman and family, Mr. and Mrs. Wm. Nicklaus and children, Mr. and Mrs. M. Leyhe and family, Mrs. Edwin Bade, Mrs. Alma Cleman, Miss Elizabeth Pieper, Mrs. Aug. Capella of Plymouth and Mr. and Mrs. Arth. Eberhardt and family, Mr. and Mrs. Albert Weinhold and Mrs. G. A. Leifer. Dinner and supper was served in Eberhardt Grape Arbor. It was a pleasant gathering which will long be remembered by all who attended. The guests departed wishing Mr. and Mrs. Eberhardt many more happy years of wedded life.

"SOME MOTHER'S BOY" AT THE KEWASKUM MOVIES

That wayward youth some times needs just a little loving care and a guiding hand to get back on the right path is forcibly brought to the attention of picture patrons in "Some Mother's Boy," the new Rayart feature which will be shown at the Kewaskum Movies tomorrow, Sunday evening.

The film is not a preachment against indifferent parents, on the other hand it pictures the power of maternal love, the love of a woman who, deprived of the affection of her own son, is not made bitter, but finds an outlet for her loneliness in her motherly devotion to a youth who has never missed it because he has never known it.

Mary Carr is the mother, and Jason Robards the youth with a criminal past who discovers life anew, while Jobyna Ralston provides the romantic interest. Duke Worne directed this Trem Carr Production released by Rayart.

With the Wisconsin Legislature

Madison—Consolidation of the department of agriculture, dairy and food commission and department of markets, and appropriation of \$600,000 for a state office building here received final approval of Gov. Walter J. Kohler.

Smaller units also will be abolished and their duties absorbed by the new department of agriculture and markets which the consolidation bill creates. They are the state fair board, livestock sanitary board, board of veterinary examiners, state treasury agent and state humane agent.

Duties and functions of the merged departments will be continued by a commission of three members which the governor expects to appoint before final adjournment of the 1929 legislature.

Appointments on the new department are for six years and are subject to approval of the senate. The commissioners will receive \$5,000 per year. Assemblyman Don V. Smith, Lake Mills, was author of the consolidation bill which carried out recommendations made to the legislature by the governor in his first message to that body.

Sen. Irving P. Mehligan, Milwaukee, introduced the bill to appropriate \$800,000 from the state insurance fund to provide a state office building to house the state capitol overflow now costing the state approximately \$55,000 per year rent in other Madison office buildings.

The appropriation is to be repaid to the insurance fund by annual payments somewhat less than the present outside rentals, to extend over a 20-year period.

Twelve appointments were submitted to the senate by Governor Kohler and all were approved without a protest or objection by the legislators. None of the appointees came under the classification of politician; virtually all came under the classification of an expert for the job.

The governor picked bankers for the task of investing and protecting public funds; he selected a school teacher to look after teachers' pensions; he chose farmers of reputation to guard the interests of agriculture and dairying; he picked an expert to do the state's buying, and kept in office men whose records entitled them to positions of honor and trust.

Among those given high state office was one Milwaukeean, John H. Puelcher, president of the Marshall and Ilsey bank. He was given a six-year term on the annuity and investment board, handling millions of dollars in state trust funds.

Other appointments follows: Commissioners of agriculture, markets, dairy, food and allied departments; Charles L. Hill, Roseau; William Reuk, Sun Prairie, and Herbert Kulpfel, Neillsville. Annuity and investment board: Isaac P. Witter, Wisconsin Rapids; Antoine Kuckuk, Shawano, and Miss Grace R. Ogden, La Crosse.

Board of control—George B. Harris, Wausesa. Board of conservation—Homer Witzig, Superior. State board of health—Dr. Gustave Wideschein, Kenosha. Board of chiropractic examiners—Frederick G. Landy, Director of purchases—F. X. Ritger.

The governor, in announcing his appointments, called attention to the records of the men in public service, business and civic affairs. New members of the unified investment and annuity board, it was pointed out, have excellent qualifications for the work they have been called upon to do for the state.

The state senate refused by vote of 10 to 5 to continue, in the interim between this and the 1931 legislative session, the Severson committee for investigation of lobbying.

The refusal came after a brief contest in which Senator H. J. Severson, Jola, charged members who voted against the continuance with fearing possible results of an investigation.

Senator Severson's committee was created after the progressive leader discovered a lobbyist in the senate gallery attempting, he said, to signal a senator. The committee held few sessions during the closing days of the session.

Senator Severson's committee was created after the progressive leader discovered a lobbyist in the senate gallery attempting, he said, to signal a senator. The committee held few sessions during the closing days of the session.

Eagle River—The Rev. W. W. Perry, 76-year-old retired Milwaukee clergyman and grand secretary of the Wisconsin grand lodge F. and A. M., died at his summer home here.

Kenosha—Five horses were burned to death and damage of \$10,000 was reported when the large barn on the farm of August J. Pieper, Kenosha county assemblyman, on the Lake Shore road was destroyed by fire.

Chilton—By a margin of 22, the proposed school bond which would have placed an indebtedness on this city of \$147,000 for a new school, was voted down at a special election. A meeting will be held to decide whether another election will be held. School officials are anxious to continue the fight.

Madison—One hundred and thirty-one boys and girls will parade 245 livestock entries at the fourteenth annual junior livestock exposition to be held at the Wisconsin college of agriculture, Nov. 5-7. The Wisconsin Livestock Breeders' association offers prizes in baby beef, lamb and pig classes.

Neillsville—The Clark County Dairy Record association, largest mail order cow testing association in the United States, now has a membership of 550 members, who own a total of 9,000 cows. This organization was formed three years ago with headquarters at Neillsville and has grown month by month.

Cadiz—With five families quarantined for smallpox in Greer county, residents here are fast seeking vaccination. Three of the cases are here and two in Brownstown. It is believed that many persons in the county have been exposed to the disease because the case of a woman was diagnosed as a "drug rash."

Madison—Oscar Markus, former Medford postal clerk and former district commander of the American Legion, was sentenced to one year in the Milwaukee house of correction for violation of the postal laws. Sentence was passed by Judge Claude Luse in federal court. A federal jury at Superior found Markus guilty after a trial in August.

Kenosha—Kenosha's \$1,250,000 central high school building constructed three years ago with facilities for handling the high school needs for five years, school officials said, is overcrowded. Pupils are using the stage of the auditorium and every available room for assembly and study halls, and the congestion offers a difficult problem of administration.

Madison—Each Wisconsin school will soon be equipped with a first aid medical kit, under the 1929 legislature's laws. The state superintendent of public instruction has sent a letter to all schools with recommendations for standard equipment in the kit. The one-room schools are expected to buy small kits for about \$4, while larger schools of the consolidated type and high schools may pay up to \$15 for their kits.

Appleton—Turnkey Dan Kelly, discharged by Sheriff Fred W. Geise of Outagamie county and now the key witness of Dist. Atty. Stanley Staudt in onster proceedings against the sheriff, was cross examined only sufficiently to force admissions that he had served prison terms of one year and five years respectively for assault and a "crime against nature," and that he had spent some time as a patient in the northern hospital for insane.

Neenah—Having a prize winning heifer calf 64 days after finishing the test that gave her the world championship record in the 4-year-old class with twice a day milking is one feature of the sensational performance of the Holstein cow, Winowis Mandy Handstead, owned by Earl Hughes, Route 1. Another official test is being conducted on the cow this year and Monday is doing as well, if not better, than last year. Her record last year was 853 pounds of butter from 20,114 pounds of milk.

Madison—Market quotations: Butter—Creamery, fresh extras, tubs, 45c; standards, 44c. Cheese—Twins, 22c; daisies, 21@21½; longhorns, 22½c; brick, 22c; limburger, 22@22½c. Eggs—Fresh gathered firsts, 32@35½c. Poultry—Fowls, 23@25c; broilers, 23@25c; old roosters, 21c; ducks, 19@20c; geese, 16@20c; turkeys, 25@28c. Potatoes—Wisconsin cobbles, \$1.50@2.75 cwt. Barley—Choice to fancy, 75@76c; fair to good, 70@75c. Corn—No. 2 yellow, \$1.02½@1.03½; No. 2 white, \$1.02½@1.03. Oats—No. 3 white, 48@50½c. Hogs—Fair to good butchers, \$9.75@10.35; fair to good lights, \$9.75@10.50; pigs, \$8.00@9.00. Cattle—Steers, fair to choice, \$10.00@16.00; heifers, \$7.50@12.00; cows, \$6.50@8.50; calves, \$16.00@17.50. Sheep—Lambs, good to choice, \$12.75@13.25; fair to good, \$11.50@12.50; ewes, \$3.50@5.25.

Keweenaw—Farmers in this vicinity who experimented with the new variety of Badger peas developed by Prof. E. J. Delwiche at the state experimental station at Surgeon Bay report yields averaging from 30 to 50 bushels an acre. The Badger variety is a small wrinkled pea, growing on low vines but yielding exceedingly heavy.

Galesville—Injuries suffered two weeks ago, when the stake he threw at a fleeing calf rebounded, piercing his abdomen, cost Andrew Linberg, Tamarack farmer, his life.

Kenosha—Kenosha electrical contractors accepted the demands of the Electrical Workers' union for a five-day working week and an increase of 12½ cents an hour. By the terms of the agreement the workers will be paid \$1.37½ an hour.

Appleton—The high school here has a record enrollment of more than 900. The school was built to accommodate 800. The enrollment is expected to grow to nearly 1,000 and officials are considering means of alleviating the crowded conditions.

Stevens Point—John A. Weck, Stevens Point business man who committed suicide near Ladysmith last month, left no will it was revealed here. His estate was valued at \$250,000.

U. S., BRITAIN READY TO CONFER ON NAVY

Parley to Be Held in London or Washington.

Washington.—Arrangements have been completed for a five-power conference to reduce battleship, aircraft carrier, cruiser, destroyer and submarine tonnage, by the United States and Great Britain. The conference, in the opinion of Washington officials, will be held either in Washington or London, some time in December.

Premier Ramsay MacDonald is scheduled to arrive in Washington early in October to further the plans for the conference. Secretary of State Henry L. Stimson announced that the two powers are now ready to go ahead at once and that the call for the conference will be issued as soon as the proposed parley has been discussed with Japan, France and Italy. Such matters as have not been settled by Ambassador Charles G. Dawes and Ramsay MacDonald, the British premier, in their conversations on a tentative naval reduction agreement are of such a nature that they can be handled by the formal conference, Secretary Stimson said.

Ramsay MacDonald.

The 1929 conference is intended to reduce and stabilize the major world navies and achieve a so-called parity between the United States and Great Britain by 1936. If it is successful this government anticipates another conference which will be held in 1936, when greater reductions in armaments will be effected.

The aims of the Hoover-MacDonald program, as outlined, are: 1. To reduce the total naval tonnage now existing throughout the world. 2. To reduce naval expenditures by billions. 3. To eliminate competition in naval armaments, which the Washington conference failed to do. 4. To build stronger foundations for world peace.

It was further disclosed that, if the purpose of the 1929 conference is achieved, part of the American and British battleship replacement programs, scheduled to begin in 1931, will be postponed until 1936.

If final agreement is reached at the formal conference to postpone the battleship replacement program, Great Britain's present superiority in modern battleships as typified in the Rodney and Nelson, the most powerful capital ships in the world, will be continued for at least another six years.

The preliminary naval reduction agreement, which has been completed with the exception of one important angle of the cruiser question, visualizes a reduction of from 250,000 to 300,000 tons from the combined cruiser, destroyer and submarine fleets of Great Britain and the United States. The greatest slash would be in destroyer tonnage, of which the United States would lose around 150,000 tons.

The Stimson disclosure that the United States and Great Britain are now prepared for a formal naval conference climaxed 12 weeks of continuous negotiations between Premier MacDonald and President Hoover, with Ambassador Dawes acting as intermediary. It means that after long effort the two powers have now agreed upon the principles which will be proposed to Japan, France and Italy, as the ones which will govern the treaty negotiations at a later parley.

Geneva.—The members of the League of Nations assembly's committee on disarmament were enlightened in the past week by dispatches from Washington to the effect that a high naval official had declared that France and Italy, though held in ignorance of the exact details of the approaching Anglo-American naval accord, were nevertheless being kept closely cognizant of the progress of the negotiations.

Town Seals Bath Tubs. Aix-La-Chapelle, Prussia.—Every bathtub in Aix-La-Chapelle was sealed officially with lead and made unusable as an emergency water conservation measure.

Murderer Ends Own Life. Springfield, Mo.—Admitting that he deserved to die for the murder of three persons, Newell ("Dobb") Adams, under sentence to be hanged September 27, is dead as the result of swallowing poison.

British to Study Electrification. London.—A committee has been named by the British government to study the project of electrifying all main railroad lines.

Duce Rejects Labor's Plea. Rome.—Italian labor's proposal for permanent grievance committees in factories and other industrial plants to settle disputes has been rejected by the center Inter-syndicalist commission of which Premier Mussolini is the head.

NEW FARM CO-OP TO BE COMPLETED SOON

Gigantic Marketing Program to Be Launched at Once.

Chicago.—Completion of the \$20,000,000 farmers' national grain corporation, through which the co-operative grain marketing associations of the United States expect to gain financial aid from the federal farm board in getting up a single large stabilizing system, is expected at a meeting here within the next few days.

When the committee of 16 grain marketing leaders meets it will be called as a board of directors of the new corporation. It is stated by responsible farm leaders that the headquarters will "in all probability be in Chicago," and that as soon as a general manager is engaged a gigantic marketing program will be launched immediately. Sales agencies will be started in principal grain centers of this and foreign countries, much as has been done by the Canadian wheat farmers' pool.

Articles of incorporation and by-laws of the proposed grain corporation were drawn up by a subcommittee of three in Chicago a week ago. They are yet to be approved by George Farrand, legal counsel for the federal farm board, although members of the board have advised the grain men in planning the type of organization.

"If wheat farmers of the United States had the marketing organization and controlled as much of the country's crop as do Canadian wheat growers in their pool, present prices would be even greater than Canadian prices today," said William H. Settle, Indiana farm bureau leader and chairman of the committee forming the new corporation.

Wool growers throughout the nation are being invited to a meeting called by the federal farm board, to be held in Chicago early in October, to plan a uniform co-operative marketing system for sheep men. L. B. Palmer, Ohio farm bureau president, announced here.

The October meeting will be open to farmers' stock company officers as well as co-operative leaders, Mr. Palmer said. A plan for federating as many farmer-owned wool-growing agencies as possible will be discussed "around the table with Mr. Legge and his farm board."

Farm Bureau Men Urge Change in Tariff Bill

Chicago.—A resolution adopted at the close of the recent two-day session of American Farm Bureau Federation directors in Chicago approved the stand taken by a group of farm organizations in Washington a few days ago that the proposed tariff on farm products does not fulfill party pledges.

Harking back to promises made by President Hoover in calling the special session of congress to adjust tariff rates, farm leaders made it plain that many rates in the present senate bill are inadequate. This they claim is due to large surpluses or to "failure by congress to impose duties on competitive foreign products like Java starch, blackstrap molasses, casein, oils and fats."

The farm bureau directors, consisting of farm leaders from the principal agricultural states, urged the "senate and the congress as a whole" to adjust the tariff rates "in keeping with the purposes for which the extra session was called."

Asserts New Bills Most Dangerous Ever Issued

Washington.—Treasury department officials probably will be called upon by a congressional investigating committee to defend the new national currency which Louis A. Hill, former director of the bureau of engraving and printing, denounced, in a letter made public recently as "the poorest, most dishonest, and, without doubt, the most dangerous issue of United States currency in history."

The letter, addressed to the senate committee on banking and currency, climaxes widespread dissatisfaction with the size, quality and appearance of the small bills which were placed in circulation early in July. Mr. Hill warned the treasury to expect a flood of counterfeiters sufficient to more than absorb savings anticipated as a result of the reduction in size of the bills.

Search Lake Michigan for Drowned Crew of 25

Chicago.—Search of Lake Michigan continues for the remainder of the crew of 25 men of the gravel freighter Andaste, which sank several days ago in a storm off Holland, Mich. The bodies of Ralph Wiley, second engineer, and Charles Brown of Grand Haven are among those thus far recovered. An official investigation of the accident is in progress, conducted by Coroner Gilbert Van der Water of Ottawa county, Michigan.

Plan \$400,000,000 Bank Merger

Detroit.—Negotiations were concluded here paving the way for a merger of the Union Commerce Corporation and the Guardian Detroit Group, Inc., and other financial institutions having resources of more than \$400,000,000.

Ringling Buys Five Circuses

New York.—John Ringling, head of the Ringling Bros.-Barnum & Bailey circus, has purchased the five circuses of the American Circus corporation.

5 Divorces in 20 Minutes at Reno

Reno, Nev.—Five divorce decrees in 20 minutes one day last week was the record made by Mayor E. E. Roberts in his capacity as attorney here.

Havana Behind on Light Bill

Havana, Cuba.—Mayor Miguel Mariano Gomez recently asked the city council to appropriate \$3,440,255.10 with which to pay up the municipal electric light bill. It has been in arrears for years.

Woman, 70, Gets M. A.

Birmingham, Ala.—Mrs. Mary J. Cain, age seventy, has received her master of arts degree from Howard college here and is working for the degree of doctor of philosophy.

ARMS CUT BLOCK IS NOW BEING "SIFTED"

Special Senate Committee Conducting Hearing.

Washington.—The senate naval affairs committee has voted to probe and now is proceeding to "sift to the very bottom" charges of interference by large American shipbuilding corporations at the unsuccessful Geneva disarmament conference held in 1927. The senate committee's action was at the instigation of President Hoover.

The investigation was placed in the hands of Senator Shortridge, California, chairman; Senator Allen, Kansas, and Senator Robinson, Arkansas. They immediately began a study of the case, preliminary to hearing testimony.

It was expected that the first witness to be called by the senate committee would be William B. Shearer, self-styled naval expert, who attended the Geneva conference as the agent of the Bethlehem Shipbuilding corporation, the New York Shipbuilding company (a subsidiary of the American Brown Boveri Electric corporation) and the Newport News Shipbuilding and Dry Dock company.

Claiming unpaid compensation of more than \$250,000 for his services at Geneva and in opposing disarmament elsewhere, both before and after that conference, Shearer recently filed suit against the three corporations in the New York Supreme court. He asserted that the concerns had already paid him more than \$50,000.

These disclosures led Chairman Borah of the senate foreign relations committee to demand an investigation and two days later President Hoover revealed that he had ordered the Justice department inquiry and at the same time called upon the shipbuilding companies for an explanation of their positions with respect to the Shearer allegations.

In public statements, the corporations, all three of which are executing naval construction contracts, substantially denied Shearer's charges, but said that he had been in their employ and had acted as an "observer" at Geneva.

Senator Borah wants the directors of the three concerns called for questioning by the committee and it was indicated that the members were in agreement as to the advisability of such a course.

The investigation received the unanimous authorization of the senate when it adopted without a roll call a resolution by Senator Borah empowering the committee to proceed with its inquiry. Senator Blaine (Rep., Wis.) asked if the resolution would permit the summoning of naval officers, and Borah replied that it was broad enough in its scope to admit the testimony of such witnesses.

Shearer insists that naval information sent to him anonymously before the Geneva conference was embodied in an important volume from the confidential files of the Navy department. It had to do, he says, with all the naval fleets of the world and served as the source of much information that he disseminated to the press while at Geneva. A belief expressed here that the volume was one that was sold to the public for 20 cents, he characterizes as "silly." He plans to bring the book to Washington with him for the committee hearings.

An investigation of the source of this volume may lead to the summoning of the naval officers. Shearer has said that the book came to him in an unstamped "official business" envelope of the Navy department.

WASHINGTON BRIEFS

August air mail set a new record of 698,062 pounds over the July total, Postmaster General Brown announced.

William E. Brock, of Chattanooga, has been sworn in as successor to the late Senator Lawrence D. Tyson, of Tennessee.

Senator Heflin, Alabama, has sent a letter to Henry Ford requesting him to make another bid for the Muscle Shoals properties.

Claudius H. Huston, of Tennessee, was elected chairman of the Republican national committee, succeeding Dr. Hubert Work, of Colorado, who voluntarily resigned.

When President Hoover goes to Cincinnati in October to attend the celebration of the completion of canalization of the Ohio river, he will add Michigan to his itinerary to attend the dedication of the Edison laboratory.

President Hoover is willing to postpone flood control work on the southern Mississippi pending further investigation, provided representatives of the Mississippi Valley states will assume responsibility for requesting such delay.

500 Acres for Seaplane Plant

Baltimore.—Purchase of a 500-acre Baltimore site for a new seaplane manufacturing plant by the Aviation Corporation of America, was announced.

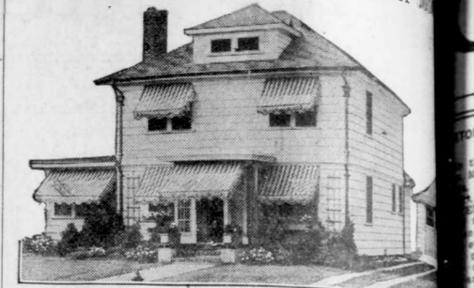

150 Hospital Patients Quarantined

Chicago.—One hundred and fifty patients at Ravenswood hospital were placed in quarantine following the discovery that a young woman patient admitted as an emergency case was suffering from smallpox.

Porto Rican Independence Urged

San Juan, Porto Rico.—Both the Unionist and Allianza parties have been asked by the national committee of the Independence party to demand independence for Porto Rico from the United States congress.

Square Type Six-Room House Gives Owner Most for Money

With shrubbery and flowers set at its base this square home is 24 feet wide and 24 feet deep and has a living room extending the width of the house. The house contains six rooms but all of them are comfortable.

By W. A. RADFORD
Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to practical home building for the readers of this paper. On account of his wide experience as editor, author and manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 407 South Dearborn Street, Chicago, Ill., and only include two-cent stamp for reply.

Prospective home builders who are seeking to get the most for their money are wise if they select a square or rectangular building design because "corners cost," as some one has aptly expressed it. When a design is used which has staid foundation walls, there is a minimum of materials and labor.

Reproduced here is a design for a very attractive square, hip-roof house.

This home is 24 feet square, exclusive of the porch and sun room. It is of frame construction with clapboard siding and its plainness is taken away by the porch and the in the hip roof.

The house contains six rooms besides the living room. Downstairs are the living room, dining room, kitchen and upstairs are two bedrooms and a bathroom. In addition there is a bathroom on the second floor. The entry leads into the living room, which is 24 feet wide and 11 feet 6 inches deep. The room is connected with the kitchen by french doors. The sun room is 6 feet 6 inches by 12 feet. A landing between the living room and the sun room provides a good place to set the fireplace. In one way runs out of the opening of the living room to a central hall on the second floor. The three bedrooms and the bathroom are corner rooms and give plenty of light and ventilation. Equipped with window shades to the exterior view of the house with plantings about, this is the most attractive home for town or country. It is economical to build and provides the average family with comfortable home.

Ancient Formula Used by Our Modern Painter

We moderns often find ourselves feeling a bit superior towards the poor mortals who eked out an existence back in the Middle or Dark Ages, but occasionally we find that some things have not changed so much after all. In ancient times it was the practice of artists to paint their pictures on panels of wood instead of canvas. This necessitated careful preparation of the surface to secure perfect smoothness and protection from atmospheric conditions. It is interesting to note that the following procedure recommended by Erucius in his "First Metrical Book" believed to have been written in the Tenth century, does not differ greatly from the modern method of preparing wood panels for decoration.

"First make the wood very smooth, by scraping and rubbing it down with shave grass. If you cannot shave down the inequalities in this way, and do not wish to cover it with leather or with cloth, grind dry white-lead upon a stone, but not so finely as if you were going to paint with it; then melt wax over the fire in a vase, add the finely ground, then mix it with the white-lead you have ground, stirring it frequently with a stick, and so let it cool; then heat an iron, and with it melt the wax into the little fissures until they are level, and then scrape the rough parts with a knife. When you have made it smooth mix plenty of white-lead, very finely ground, with linseed oil, and lay on an excessively thin coat of it wherever you intend to paint with a brush, made of assai, adapted for that purpose. When his is done lay on, as you did before, another and thicker coat of it—not thicker by having a greater quantity of color but by having less oil in it; for you must take care never to lay on too much too fat, for if you do this, and lay on a great deal of it, when it begins to dry wrinkles will form on the surface of it."

The modern painter, while he uses sandpaper instead of having shave grass and also white-lead putty instead of the mixture recommended by Erucius, still mixes his paint with "white-lead very finely ground

with linseed oil." However, the modern painter has found that sandpapering has been done a long time and should be applied before the paint is applied. This has been found to be the best method of preparing the surface.

Automobile Influences Modern Home Design

Discussing the present day of homes, Joseph Hollman, the builder, commented that he had been influenced, as regard their design, by the automobile, just as "in olden times when the 'coach and six' were the transportation means our forefathers designed the designs of the house."

"Our architecture today is the product of our age and day, but it is the product of an era defined by the coming of the automobile and the next step in transportation is materially changing the design of the house. The coming of aviation will also influence our architecture, except if it anything."

Wire Porch for Lamps

A screened suit porch with a home owner about 20 years old, who has a wire porch for lamps. Several convenient outside lamps with attachment of trailing lamps with this division of the house. The five spot for the end of the porch. The warm evenings of winter fall. The screening is a protection from the sun's rays, and only a small amount of light.

Plate Glass Available for New Results

Plate glass is now being used in almost every branch of the thick. It has the advantage of ordinary type of window glass, there is no absorption of light or imperfections or variations in the price of the new plate glass. It compares favorably with the old type.

Kitchen Planning Saves Many Needless Steps

Some kitchens are so large there is space for everything, but one has to travel a long distance to bring together desired working utensils. Other kitchens are so small and one piece has to fit so skillfully into another that it is always unpling to get the utensil needed.

Small Roof Leak Often Is Baffling to Experts

A leak, once started, will often baffle the best of repair men. It keeps getting worse. By and by a large area

mean dress suit. I'll put on Helen's Alice-blue organdie, it just fits me." Marjory considered. The mere joy of dressing was a point in favor.

"Well, I don't know. Lots of folks do it would be all right. Lots of folks do it dress for dinner."

"Oh, darling, how good of you. I'll do all the work. We'll be having after-dinner coffee by the floor lamp."

"But we haven't the right cups."

"We're going to borrow the gold set out of Helen's hope chest. The set the Cleaners gave her for Christmas."

"If we break one of those gold cups—"

"We won't. And if that dumb-bell of an Eddy Jackson gives us away—I'll— Hurry, darling, and put on the dress. I'll fix things downstairs."

Ginger sped away to do her sister's organdie before she carefully removed the frail golden dishes from among the wedding treasures in her sister's chest, and carried them gingerly down the stairs.

When, some sixty minutes later, Eddy Jackson appeared in the open doorway with his customary blithe, "Hello, everybody," a ravishing vision presented itself. Marjory lovely, laughing, sat among the cushions in the wide couch between her white wings. At her side, with the shining array of the golden coffee set on a small table close at her hand, was Ginger in blue organdie.

"Come in," she called brightly. "We are having our coffee slowly, so you can join us."

"Coffee? Oh, indeed, I see." Eddy's voice was enigmatical, but, rallying with a visible effort, he proceeded to introduce his friend, Alexander Murdoch, a genuinely romantic figure, although neither garbed in conventional dress suit nor shining coat of mail. He was very tall, with a great ease of manner and complete self-possession, with sleek dark hair, and dark bright eyes, and a thin brown face. Ginger could have danced with joy.

She poured the coffee with fingers that trembled just a little, casting discreet proprietary glances at Marjory to make sure that she remained vividly alert and interested, and frowning terribly at Eddy Jackson on the side. Eddy studied the delicate lines of his small cup with a significant fascination, balanced the small saucer precariously on his large hand, and emptied the cup in two large draughts, requesting more, and again more.

Alexander Murdoch, on the other hand, as became a genuinely romantic figure, handled his with an ease, a finish, bo- u- of long and steady custom. Ginger flashed triumph at her sister. "You see," her expression proclaimed, "just as I told you! Am I so dumb?"

"Marjory and I have not been abroad—yet, Mr. Murdoch," she said, in a tone which implied that their departure was a mere matter of days. "It must be very fascinating."

"Father went on a tour of the Holy land," volunteered Marjory, "before we were born."

"For myself," continued Ginger, pausing for a light touch of her lips to the rim of the golden cup, for she abhorred black coffee, "I should not care so much to do the Holy land. I want to go to Paris and see Montmartre, and the boulevards, and the Folies, they don't have things like that in the Holy land. How long are you to be in Red Thrush, Mr. Murdoch?"

"Oh, some weeks, I fancy," he said "fancy." In the Middle West, "I think" and "I dare say" are quite common, while "I guess" and "I reckon" are not altogether unknown. "I fancy" is an affectation in any but a romantic figure.

"Do let me fill your cup," she cooed.

"You see," continued the low, slow voice, "I took on a job today, and shall go to work tomorrow."

Ginger leaned forward. She did not breathe. Oh, if he could but be president of the bank where the Tubby Individual aspired to licking stamps.

"What—what profession?"

"The D and R. You know, the little Orange and Black chain grocery store on the corner of Main and Broadway."

(TO BE CONTINUED)

Ginger Wrote, Corrected, and Copied. Then She Read It, Distastefully. "It's a Dumb Thing."

and hurried down the flagstone path toward her own home.

Ginger's eyes were stormily reflective.

"H'm," she muttered. "H'm!—Man-ner. The darn thing's catching."

Later that afternoon, Eddy Jackson, calling by telephone, got Ginger on the wire.

"Have you anyone there who would like a little beaung?" he inquired teasingly.

"Marjory would like it, I suppose. But I'm here to see that she doesn't get it."

"Miriam there?"

"No, she has gone to Chicago with father. Helen has gone driving, and for dinner, with the mathematical square, and won't be home until late. Margie's here, I'm here, and if you want to hold hands we can get Miss Jenkins."

"I don't. But I have a chap here—"

"—a very nice fellow—lives in New York—just back from a two years' tour of the world and all points east. I thought perhaps Marjory might take him on for the evening, but since Miriam is away, you would have to get it."

Even over the telephone Eddy could feel the sudden aversion in Ginger's voice, the covetous glitter of her bright eyes, the gulf in her flying thoughts. New York—Chicago—around the world—

"Why, Eddy—of course! I'd love to. Marjory will adore it—me, too. You know I always enjoy you, Eddy, you've got so much sense."

"We'll breeze in about eight, then," Ginger flew up the stairs. "Margie, Margie," she called. "Quick—put on the dress."

Marjory's calm was maddening. She was manicuring her pink nails. She looked up evenly, looked down, continued to polish.

"The dress—the dress! He is from New York, and Eddy Jackson is bringing him to—to look at you. Around the world, my dear, two years of it—and that takes money! He's used to people dressing up for dinner every single night, I dare say he'll wear an evening gown himself—I

mean dress suit. I'll put on Helen's Alice-blue organdie, it just fits me." Marjory considered. The mere joy of dressing was a point in favor.

"Well, I don't know. Lots of folks do it would be all right. Lots of folks do it dress for dinner."

"What—what profession?"

"The D and R. You know, the little Orange and Black chain grocery store on the corner of Main and Broadway."

COATS FURRED AND FLARED; HAT COLOR-COMBINATIONS

AUTUMN'S smartest cloth coats are both furred and flared. That there are ways and ways of flaring, as well as ways and ways of furring, the new modes all attest. Which varied treatments brings the sum total of novelty and diversity up to a point such as coats have not expressed for many a season.

Many coats follow the princess silhouette developing a flare at the hemline. By the way, not only the new coats, but frocks as well, reflect

To be modishly and becomingly batted is an ambition which makes all the feminine world akin. The outlook for "dreams to come true" in regard to chic and flattering millinery was never more promising than at the dawn of this 1929-30 autumn and winter season.

That both fashionist and fashionable are developing a superior hat-consciousness there is no doubt—which augurs well for the future of an increasingly elaborate, a more

Broadcloth Coat in Height of Fashion.

the princess-form-fitting influence to a large extent. Even the all-fur coat is inclined to adopt princess lines.

However, not all flares are developed in a princess. Some achieve hemline-fullness through the circular-cuff blouse as pictured. Others, yes, many others, adopt godets, these wedge-shaped insets being stitched in all about the hemline.

But enough of flares for the moment, for the flattering fur trimming which distinguishes this model is as much a theme of vital interest as is its modish flare. The caracul which so handsomely collars and cuffs this chic mode is the same brown tone as the broadcloth of which the coat is made, thus emphasizing the vogue for dyes dyed to match or to blend in with the cloths they trim.

Another strikingly new feature in connection with fur trims is the use of two or more types of furs together. For example, note the bands of pale beige ermine which accent the flare of the cuffs. This vogue for combining furs is expressed in divers ways, such as, for instance, very thin fabric-like furs which are bordered with showy long-haired pelts. Then, too, flat furs are worked together, ermine being

feminine, a more intricately detailed, a more individualized type of millinery than it has been the privilege of women to enjoy for some time past.

Just now there is a hue and cry for the velvet hat, not, however, to the exclusion of the ever-beloved felt. Just friendly rivals, that's all! Strictly speaking, velvets function for dressy occasions, and felts and soleils for sports or in tailored ways.

One method of emphasizing color this season is to use two or more strikingly contrasted shades together, brown with orange, for example, or navy with the new pea-soup green, or red, yellow and black in a Spanish way, or black with white. Some hats are worked half-in-half, a black, navy, dark green or wine color, perhaps, with a contrasting light facing or the entire brim of a different color, or possibly two or more shades seamed together. The idea is to tune the color of the hat to the color of the costume. In most cases the hat duplicates the color of the dress or coat.

The first hat in the picture combines brown velvet with tangerine. This model would effectively top a

Latest Models in Hats

seamed with broadtail, in a designful way, or perhaps two shades of caracul are joined.

The width and flare of the cuffs on this coat in the upper picture also call for comment, for stunning conspicuous cuffs are much in evidence. In fact, novel sleeve treatments are especially claiming the attention of designer. Just now. Not infrequently the sleeve is almost half of fur. That is, the fur extends quite to the elbow, applied in curious design which calls forth admiration because of the sheer novelty of the thing.

An absence of the front brims is a characteristic of many models, especially felts. In the instance of the soiled felt-shape to the right in the picture, the cutaway portion is utilized to achieve a widened side-to-side effect, while at the same time the new brow-revealing vogue is exploited.

JULIA BOTTOMLEY. (©, 1929, Western Newspaper Union.)

Jeweled Tassels Popular
Tassels play an important part in jewelry designs and brooches, shoulder, hip ornaments, and even bracelets, have a fringe of small gems strung on platinum chain, hanging from a central motif.

Lace Coat
For evening wear a charming egg-shell Alencon jacket is made over pink chiffon and has pink flowers outlined on its own lace pattern. The flaring sleeves and lower edge are scalloped.

Evening Turbans
A clever woman conceived the idea of taking three medium-size chiffon handkerchiefs and twisting them about her head to hold her hair in place when motoring in the evening. Thus a new fashion was launched.

Black Velvet
Fall costumes emphasize the appeal of black panne velvet. A princess frock of it has a deep vee of flesh-colored lace and puff cuffs, coming out from under long, narrow black sleeves.

The KITCHEN CABINET

(©, 1929, Western Newspaper Union.)

The moving finger writes, and having writ moves on, Not all your piety nor wit, can lure it back to cancel half a line; Nor all your tears wash out one word of it.

—Omar Khayyam.

SEASONABLE DISHES

Now that the fresh carrots are so plentiful, try cooking them in different ways. Cut them up into finger-sized pieces after they are scraped and washed and put on to cook with only the water which clings to them from the washing. Add a tablespoonful of butter to a pint of carrots and put on the back of the range in a heavy aluminum dish tightly covered to cook until tender. Add salt, a bit of cayenne and a half teaspoonful of sugar when they are put on to cook.

Candied Carrots.—Cook carrots until partly tender in a tight dish with only enough moisture to steam. When nearly tender, remove to a baking dish and sprinkle with salt, pepper and plenty of sugar. Dot with bits of butter and brown in the oven.

Ice cream is such a wholesome dessert and so well liked that the expense only keeps the housewife from having it often. When prepared at home the expense is much lighter. The following is a recipe that anyone may feel is economical:

Junket Ice Cream.—Take one quart of milk, warm to lukewarm and mix well with two junket tablets dissolved in a tablespoonful of cold water, add one cupful of sugar, one-half tablespoonful of vanilla and a cupful of cream. Let stand in a warm room until firm in the freezer can. Then place the can in the ice and freeze slowly to a thick mush, then turn rapidly until hard. This kind of ice cream is easy to make, easy to digest and is healthful and nourishing.

Paprika Beets.—Cook small beets until tender. Drop into cold water and remove the skins. Slice or quarter. Arrange in a serving dish and pour over the following sauce: Melt two tablespoonfuls of butter, one-half tablespoonful of sugar, one-half teaspoonful of salt and paprika. This amount of sauce will season one pint of beets.

Date Ice Cream.—Caramelize one cupful of sugar, add to one pint of scalded milk, stir until dissolved. Mix one tablespoonful of flour, one-eighth teaspoonful of salt and one-half cupful of sugar; stir until a smooth paste is formed with the scalded milk. Cook over hot water until the mixture thickens, stirring constantly. Pour the mixture over two slightly beaten eggs, one-half cupful of grape-nuts, one teaspoonful of vanilla, a quart of thin cream and a pound of sliced dates. Cool and freeze. This will serve about a dozen large dishes.

Tasty Foods.
As salads are always a part of every day's menu, variety is always something to be looked for. Here are some suggestions worth using:

Brown-Eyed Susan Salad.—Cut up two-thirds of a cupful of dates into small pieces and marinate with french dressing. Peel four seedless oranges, remove the pulp, leaving it in sections and the membrane in the center in one piece. Place a mound of dates in the center of a lettuce leaf, surround with sections of orange, radiating from the dates, adding more dressing if needed.

Date and Cheese Salad.—Stuff dates with cream cheese which has been moistened to mix with fruit juice or french dressing. Press a pecan meat into each date. Arrange the dates in the form of a star, using five. In the center place a ball of cheese.

Date, Cabbage and Pineapple Salad.—Soak three cupfuls of shredded cabbage in cold water until crisp. Drain thoroughly, add one cupful of diced pineapple, twelve sliced dates, and lettuce to line each plate. Serve with french dressing.

Tropical Snowballs.—Scoop out of firm ice cream two balls of ice cream, roll in coconut and place on chilled plates for each serving. Add any desired sauce and serve at once. Any leftover fruit sirups may be used for this sauce, or caramel, maple or chocolate sauce may be made.

Angels.—Take one-third of a cupful of flour, one teaspoonful of baking powder, one-fourth teaspoonful of salt; sift well. Mix one-half of a package of dates, one cupful of chopped nuts; add to the flour, mixing and stirring until well mixed. Beat two egg yolks, add three-fourths of a cupful of sugar, one teaspoonful of vanilla and the dry ingredients. When well blended add the stiffly-beaten whites of the eggs. Drop by rounded teaspoonfuls two inches apart on well-oiled baking sheets. Bake 25 to 30 minutes. Remove from the pan with a spatula, cool, and place in tightly-covered tin box. This recipe makes 40 cookies, which keep well.

Iced coffee is the only excuse for using cold coffee, and that should be poured off from the grounds and carefully strained while hot, then allowed to cool.

Outspoken Monarch
The saying "an unlettered king is only a crowned ass" is attributed to Henry I, who was king of the English from 1100 to 1125. In those days it was not uncommon for a king to be unable to read or write.—Pathfinder Magazine.

Teeth of First Importance
The possession of a perfect set of teeth is considered by the Chinese to be absolutely necessary to any man or woman claiming to be either good-looking or beautiful.

A DOZEN different things may cause a headache, but there's just one thing you need ever do to get relief. Bayer Aspirin is an absolute antidote for such pain. Keep it at the office. Have it handy in the home. Those subject to frequent or sudden headaches should carry Bayer Aspirin in the pocket-tin. Until you have used it for headaches, colds, neuralgia, etc., you've no idea how Bayer Aspirin can help. It means quick, complete relief to millions of men and women who use it every year. And it does not depress the heart.

Why Lawyers Suddenly Lost Interest in Case

Peter Guthrie Jones, the Baltimore historian, was talking about the scandal over American divorces that has broken out in Paris.

"It seems," he said, "that French lawyers and court officials were taking bribes to push these divorces through. Who laid bare the scandals? American lawyers. Because they were horrified at the sinfulness of this bribe-taking? No. It was because these cheap Paris divorces save divorcing Americans a lot of money at our American lawyers' expense."

"For American lawyers are expensive. That is their main characteristic. A chap stood up in an American court one day to answer a very serious embezzlement charge.

"How is it," the judge said to him, "that you have no lawyer to defend you?"

"The chap answered: 'Your honor, as soon as they found out I hadn't stolen the money none of them would touch the case.'"

Children Cry for Fletcher's CASTORIA

A BABY REMEDY APPROVED BY DOCTORS FOR COLIC, CONSTIPATION, DIARRHEA

Philosophy

The story is going the rounds of the meeting of John D. and a road hog. It was a narrow back road and for a vexing while the world's richest man ate dust from the slow poke ahead, who wouldn't allow room to pass. When it last a broad cross road let them by, Mr. Rockefeller said:

"There was a time when I'd have been quite angry at a man who acted as mean as that, but I learned a long time ago that resentment is bad for a man. When we lose our tempers we are only poisoning ourselves."

Steam Stored in Off Hours

Germany is storing the steam power generated during leisure hours at the stage electrical works at Charlottenburg, and using it as needed. Sixteen huge steel condensers have been constructed for storing the steam, which is available under high pressure at any time desired.

Three Generations Endorse It

"When I was a young single girl I took Lydia E. Pinkham's Vegetable Compound because my mother did and she gave it to me. After I married I took it before my children were born and afterwards, and I have eight living children. I am now a grandmother and still take it when any one is tired and run-down."—Mrs. Alfred Iverson, St. Edwards, Nebraska.

Lydia E. Pinkham's Vegetable Compound

Ancient Property Laws Protected the Weaker

The oldest Greek statute now extant, governing the disposition of "real" property, comes from the island of Crete. This is the law of the city of Gortyna, dating from perhaps B. C. 400. This inscription, the largest existing fragment of any Greek law, came to light less than fifty years ago; for the stones on which it was chiseled had been buried for 2,000 years or more and its discovery made a sensation in the learned world. It was about thirty feet long in its original form; the broken pieces are now scattered in several museums.

These laws show that more than 2,000 years ago women in this Cretean city could own property. Moreover, the law provided that a husband could not sell or mortgage his wife's property, nor could a son dispose of his mother's property. If a mother dies, says this ancient statute on property, and leaves children, the father has

power over her property, but he cannot sell it or mortgage it unless the children consent, when they come of age. Moreover, if the father marries another woman after the first wife's death, the children of the first wife shall have power over their mother's property. Penalties are provided for the violation of any of these provisions.

Virtue and Vice

Dr. Will Durant says, "Every vice was once a virtue and may become respectable again, just as hatred becomes respectable in wartime." How true is that? A mental search for examples should give you an interesting half hour. And if you examine your own "virtues" and "vices" in this light, as closely as you can, you may find it profitable. The border cases, those habits which seem to be neither vices nor virtues, or to be both, are especially interesting.—New Orleans Item-Tribune.

One Thing Man Can't Make

Doctors in a Nova Scotia city removed the heart from a cat. It is placed they put a rubber heart, electrically operated. The artificial heart kept up the blood circulation for several hours, during which time the cat remained alive. Of course, the doctor could make a rubber heart work for a time. But a natural heart, cat or man, is an engine that human genius can never duplicate or approximate.—Capper's Weekly.

National Forests Popular

Several million every year take advantage of the recreational facilities offered by the national forests. This phase of the administration of the forests is being developed by the forest service in accord with the policy of making these properties of the people serve them to the best advantage. Through trails and roads the forests are made accessible, says the Forestry Almanac. Within them there are many lakes and brooks, admirable for fishing and camping. Game is found in comparative abundance and streams are stocked with fish.

Four new car will be worth more a year from now if it's an **EIGHT**

Every month it becomes more obvious—the superior power, the smoothness, the thrilling acceleration—and the distinction of the Eight.

In eight key states new car registrations for the six months of this year showed a 90 per cent increase. Eights above \$1000—while Sixes above \$1000 decreased 10 per cent.

Studebaker offers three great lines of Eights—the more American stock car records for speed and safety than all other makes combined. Eights of brilliant performance—economical as the thrifty States. Sixes, presently ahead of the time that public responsibility made Studebaker the largest maker of Eights in the world.

Why not get an Eight—a smart new Studebaker Eight? Enjoy it today and have a car that will be worth more a year from now—because Eights will bring the premium in a used car market gladdened with Sixes.

Ribbon for Typewriter

Typewriter ribbons are usually made of good quality muslin closely woven of fine even thread spun from the best long-fiber Sea Island cotton. They are inked by means of special machinery so that each fiber becomes thoroughly soaked.

Introduced Pineapples

The earliest recorded successful planting of pineapples in Florida was made in 1880, when Benjamin Baker of Key West obtained a number of slips from Havana and started a small experimental patch on Plantation key.

—Henry Ramthun and sons Eldon and Harvey, spent Sunday with Mrs. Ramthun at the Milwaukee Hospital, where she underwent an operation for the removal of her appendix. Mrs. Ramthun is getting well on the road to recovery and expects to return home soon.

CREDIT

The world is operated on credit, and credit, of course, is faith.

What a sour old world this would be if no one trusted anyone else—if no man's word was his bond.

Credit is faith—yes. But faith is inspired by accomplishment and your credit will grow in proportion to the size of your saving. We'd like your account.

"Our Prices Will Satisfy"

MRS. K. ENDLICH KEWASKUM

Jeweler and Optometrist

Established 1906

—Mr. and Mrs. J. M. Miller of Milwaukee, Mrs. Nick Weber and Mr. and Mrs. Nick Groh and family of Nabob Mr. and Mrs. Elva Witzig of Chicago, spent Sunday with the S. E. Witzig and Mrs. Tillie Zeimet families. Mr. and Mrs. Miller were accompanied here by Mrs. Witzig, who visited relatives in the Cream City for a week.

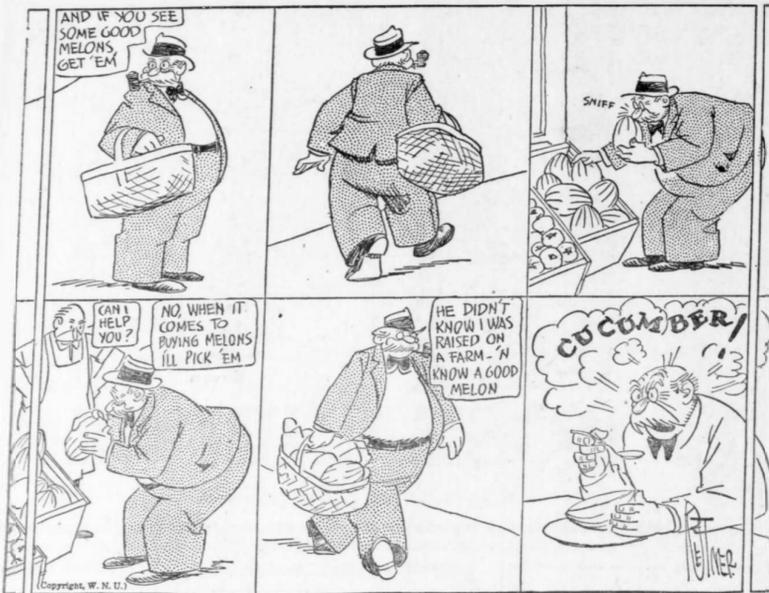

—The following spent last Sunday with Mr. and Mrs. John Kral and family: Mr. and Mrs. Peter Fox, Mr. and Mrs. Math Fox, Mrs. Elizabeth Kasten and Arnold Kral of Milwaukee; Ulrich Kunz of Kingfisher, Okla., and Mr. and Mrs. Al. Beisler, Mr. and Mrs. Tony Weisner and Grandma Kral of St. Bridget's.

—C. W. Raasch, who for the past several years made his home on a farm in the town of Scott, has gone back into his former occupation, the real estate and painting contracting business in Fond du Lac. Though he will from now on spend most of his time in Fond du Lac, he will, however make his home on the farm in the town of Scott.

—Mrs. Henry Werner, Mrs. John Werner and son Harry of Bloomer, spent last Thursday and Friday with Mr. and Mrs. John H. Martin and family and with Mrs. Kate Endlich and sister Elizabeth. On Friday Mr. and Mrs. Martin accompanied by their guests motored to Milwaukee, where the Werners remained for a several days' visit with relatives before returning to their home in Bloomer.

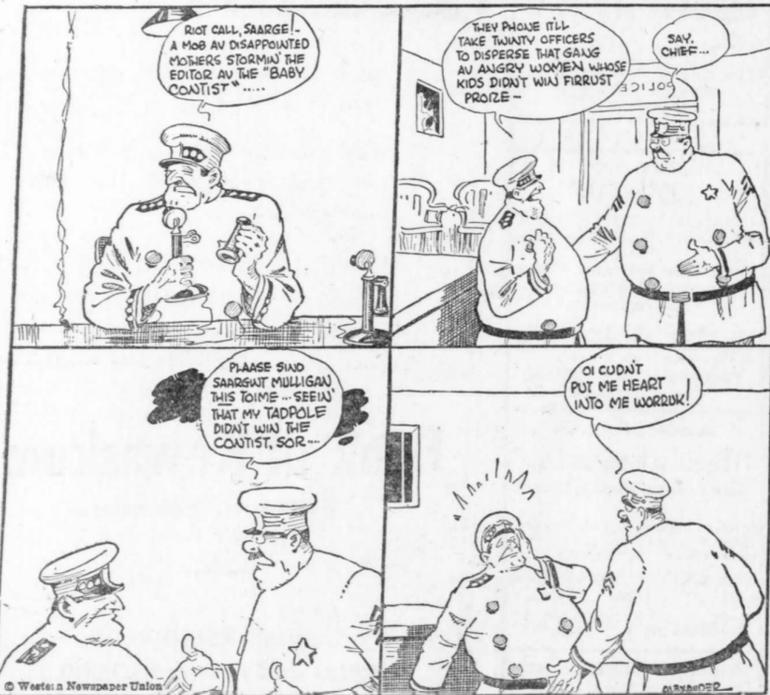

OUR COMIC SECTION

Our Pet Peeve

FINNEY OF THE FORCE

Finney Is Biased in the Matter

THE FEATHERHEADS

Flies, Cats and Fish

FORCED OUT

Jilson—"Since I own an automobile"

and a dog I've got to leave town." Jilson—"Why so?" Jilson—"No parking place for the one nor barking place for the other."

Sic Transit

An engineer in charge of a surveying party found one of his young assistants sound asleep on the job one day.

"Say, you, what's the idea? What are you doing loafing out here?" "You told me to," said the youngster

in a hurt voice. "You said take the tools and lay off one mile west."

Questions and Answers

"You have shown a remarkable familiarity with public questions." "I have heard every question that can be asked," said Senator Sorghum. "What worries me is that I don't know any answers."

Errors of pilots are believed to be responsible for 50 per cent of airplane accidents.

Current Wit and Humor

WISE WOMAN

"We can't afford a trip this year, so John is going to spend his vacation at home," sighed Mrs. Black. "We can't afford one either," snapped Mrs. White, "but you can bet your sweet life we are going to take one anyway. You don't catch me spending two weeks getting up three meals a day and having my husband hanging around the house messing it up faster than I can pick up after him."

Greater Wealth

Two small boys were boasting about the wealth of their respective fathers. "My father," said one, "has so much money that he doesn't know how to spend it." "That's nothing," retorted the other, "my father has got so much that my mother doesn't know how to spend it."

FINE IDEA

First Suburbanite—I think I have solved the problem in regard to chickens and gardens.

Second Suburbanite—Let me in on it, will you?

First Suburbanite—I planted imitation seeds in my yard and fooled the chickens.

One Born Every Minute

No more the craft is tossing; But the whole year 'round we have the boob Who races a train to the crossing.

Such Nerve

Taylor—Sir Twombly, for two years I have waited patiently for the money you owe me on the coat I made. I cannot wait any longer.

Sir Twombly—The very idea. You have the impudence to present a bill for \$20 on a coat which has long since gone out of style?

HELP!

"Does your bride know anything about cooking?" asked the old friend, meeting a recent groom.

"Well," he grinned, "I heard her calling up her mother the other day to ask if she had to use soft water for soft-boiled eggs and hard water for the hard-boiled ones."

Hot Weather Thought

Full many a man, both young and old Has gone to his sarcophagus From pouring water, icy cold, Down his hot oesophagus.

How Is He at Charades?

"How does that new member play?" "Well, he's singularly bad in doubles and doubly bad in singles."

Many Kinds

"Do you keep powder here?" asked the city young lady at the village store. "Yes, madam," said the shopkeeper. "Washing, baking, custard, plate, face, tooth, insect, and gun!"—Pearson's.

Just Her Luck

Hortense—She says she has dozens and dozens of very close friends. Marjorie—O, she has—not one of them will spend a cent on her, my dear.

Fifty-Fifty

Mrs. Spendt—I saw the sweetest little Pekingese at the dog show. I wish you'd buy him for me. Only \$100 and thoroughly house-broke. Her Husband—House-broke is he? He's got nothing on me. I'm flat-broke!

A Defiant Husband

First Wife—How are you and your husband getting along? Second Wife—Oh, I can't do a thing with him this week. He knows I've got a blister on my trigger finger.

About Time

Taylor's Wife (phoning doctor)—Come quick, Dr. Hardt; my husband is having a fit! Dr. Hardt—I'll be there at once. This is the first time I have ever known of his coming anywhere near a fit.—The Pathfinder.

Never Uses It

"How do you hide the letters that girl sends you so that your wife does not see them?" "I put them in her darling basket."—Madrid Gutierrez.

Plant Lice Have Odd Life Cycle

Little Insects Often Do Serious Injury to Different Crops.

(Prepared by the United States Department of Agriculture.) Aphids, or plant lice, which often do serious injury to the plants they infest, have a curious life history, which Dr. P. W. Mason of the bureau of entomology describes in the 1928 Yearbook of the United States Department of Agriculture, issued recently.

"If we examine a branch of a tree or other plant which is infested," says Doctor Mason, "we will see the aphids, in most species grouped together in colonies, usually either on the under side of a leaf or along a twig. They may be greenish, brownish, black, or of other color, depending on the species, or even covered with a mealy powder or long waxlike filaments.

Unusual Life History.

"These insects have a very unusual life history; one differing from those of almost all other insects. The egg is laid in the fall of the year, usually on the bark of the twig. With the coming of warm weather in the spring this egg hatches into what is known as the stem mother. There are no males until the next fall. The stem mother gives birth to living young, without the necessity of fertilization. These young are all females, and, when mature, give birth to other living young. This continues throughout the summer, there being numerous generations. In each generation there are usually some which are wingless, each form being fully mature. As the spring advances the number of winged forms increases, until, in the case of many species, they fly away to an entirely different kind of plant. Plants so chosen are known as summer hosts; on them new colonies are started, and there may be several generations on them before the return migration to the winter host. On the latter the true sexes which have been produced mate and the eggs are laid.

Forms of Aphids.

"Thus we see that there are several forms of aphids, such as the stem mother, the wingless viviparous female, the winged viviparous female, the male, and the egg-laying female. These may vary considerably from each other in appearance and have often been described as distinct species."

Conservation of Labor in Filling Silo Profitable

As silo-filling time draws near, many farmers in all parts of the country are preparing to follow a plan which differs greatly from silo filling in the days of the steam-powered rig and the large crew. It is the small crew plan now growing in popularity.

The small crew plan is essentially labor saving. Only two men are necessary to fill. When the binder is equipped with a bundle elevator, two loads may be cut and put on the racks without the hard labor of pitching the bundles by hand. The loads are then drawn to the silo and run through the cutter as it takes only a minute to start the tractor which furnishes the belt power, or to turn the switch which starts an electric motor.

Experiments at some of our state colleges and practical experience have proved that tramping is not necessary for keeping the silage and in many cases this job has been eliminated. Neither is it necessary to have a man at the feed table of the modern ensilage cutter.

Agricultural Notes

Alfalfa is profitable!

Limestone is worth as high as \$10 per ton when applied to soils in many sections.

Pasturing sweet clover in the fall cuts down the storage of the plant food in the roots.

Wool should never be tied with binder or sisal twine or wire. Use four-ply paper twine.

Not only is the hay crop one of the most valuable from the money standpoint but present day feeding methods have also made it one of the most necessary to the live stock producer.

The Hessian fly is widespread over the wheat belt this summer. Every farmer should know that the pest may come back in sufficient numbers to do great damage to the fall sown wheat. Plow under all infested stubble, being sure all tops are covered.

Store credit is usually the most expensive type of credit that can be used. Operating funds secured in this way usually cost about twice as much in interest as funds borrowed from banks.

Destroy grasshoppers by poison baits. To make the so-called Kansas bait, use 20 pounds of bran, one pound of paris green, three oranges or lemons, two quarts of molasses, and about three and a half gallons of water.

An apple orchard which is merely being left in sod and not mulched will, as a rule, suffer greatly in drouthy times, the apples will be small and the crops sparse and irregular.

A fine, white crystalline chemical, resembling coarse sugar, paradichlorobenzene, when put around the base of a tree slowly gives off a gas heavier than air. This gas is fatal to peach tree borers.

ATWATER KENT RADIO

HERE IT IS... from the LEADER OF RADIO

New Screen-Grid, Electro-Dynamic BATTERY SET of course it's an Atwater Kent!

YOU families who haven't electricity—who use batteries to run your radio—how you will relish the news that Atwater Kent has ready for you a completely new battery set with all the very latest proved improvements.

It, too, is Screen-Grid. It, too, is Electro-Dynamic. It, too, has the power to leap across the map and bring in those far-off stations. It, too, has the depth and richness of tone, heretofore thought possible only in house-current sets.

It comes from the same 32-acre factory built by the good-will of 2,550,000 owners of Atwater Kent Radio. It's made with the same painstaking care that keeps an

Atwater Kent working without out for trouble. For more tests—again, on farm after farm, after state.

It's the modern battery set you have been asking Atwater to make. You can have it in a compact table model or your choice of fine cabinets designed and built by the leading furniture manufacturers of the country. And, best of all, you pay only a moderate price.

ON THE AIR—Atwater Kent Radio Hour, Sunday Evenings, 9:15 (Eastern Daylight Time). WEAF network of N. E. C. Atwater Kent Mid-Week Program, Thursday Evenings, 10:00 (Eastern Daylight Time). WJZ network of N. E. C.

ATWATER KENT MANUFACTURING Co., Atwater Kent, Pa. 4764 Wilmablick Ave., Philadelphia, Pa.

IN CABINETS

The best American cabinet makers—famous for sound design and sincere workmanship—are cooperating to meet the demand for Atwater Kent Screen-Grid Radio in fine cabinets like these.

Now We Ask You!

The American Motorist says: "Whenever a man drives up in a cloud of dust and tells you that the modern fashions in women's clothes are nonsensical, ask him what would happen if a hoopskirt tried to get into a rumble seat."

Remember, "mony a mickle mak's a muckle"; and further, beware of little expenses; a small leak will sink a ship.—Franklin.

Novel Penal Suggestion

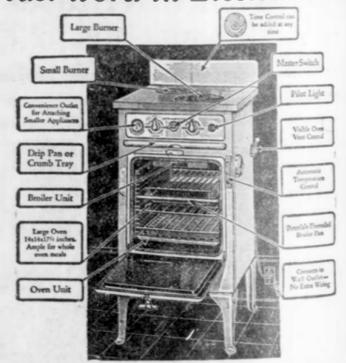

To save the public from having support jail inmates and their families, a New York sociologist suggests that individuals convicted of offenses might spend only their time in jail and might work at their during the day, turning their time in to the proper authorities.

The goodness of our law never excuses the tedious of tons.

"If it's electric, it's modern"

L & H ELECTRICS RANGETTE

The last word in Electric Cookery

Simply plug it in—Connects to any wall or baseboard outlet. No special wiring required.

Now you can enjoy electric range service—with the compact L & H Electric Rangette designed for small space. No installation expense. There's a roomy oven, porcelain enameled with both oven and broiler unit—equipped with Automatic Temperature Control. Handy convenience outlet for plugging in toaster, iron or other appliances.

Manufactured by A. J. LINDEMANN & HOVERSON CO., 423 Cleveland Ave., Milwaukee, Wis.

Sold by The Electric Light Co. and the better dealers everywhere

Protect your hands with Cuticura Soap

Always in view, your hands should be as attractive as possible. To prevent roughness and dryness, wash with Cuticura Soap every time you wash your hands; always dry thoroughly.

Cuticura for PURITY

"I just knew someone would make a beautiful washer"

Have you, too, been wondering why washers need to be ugly—been waiting for a washer of which you can be proud, as well as grateful for the work it saves?

The New Barton is finished in beautiful colors and tasteful nickel. Gracefully designed, too, and all ugly working parts are hidden.

Low priced. A comparison of the Barton with washers priced much higher, proves its rare value. Come in and see it yourself.

The simplest, strongest transmission made. No belt gears or worm drives. Agitator has 4 wide wings for more thorough agitation. Extra thick center post prevents clothes from gathering in center of tub. Every detail designed to save work.

IMPORTANT CHANGES MADE IN FUR LAWS

Several changes of importance were made by the recent legislature in laws relating to the trapping of fur bearing animals. The much discussed question of an open season on beaver was not altered much. Beaver may now be trapped only by employees of the conservation commission upon written order from the commission of five, after the commission has investigated written complaints of beaver doing damage to certain territories. Then, and then only, may the beaver be trapped and removed, and they may be so captured and removed only by conservation wardens or other employees of the commission.

The new season on otter throughout the state is from November 15 to March 1. Last year in only nine counties was the trapping of otter permitted at all, and then only from March 1 to March 31.

The new season on mink is from November 15 to March 1 all over the state, except that in Horicon marsh in Dodge county there will be no open season, at least until January 1, 1933. This new season has the same opening and closing dates all over the state, and will remove much misunderstanding.

The new season on muskrats in Calumet, Fond du Lac, Outagamie, Waushara and Winnebago counties, and in the townships of Royalton, Mukwa, Weyauwega, Caledonia, and Fremont in Waupaca county is open from October 25 to April 1. In all other counties south of the north line of Buffalo, Trempealeau, Jackson, Wood, Portage, Waupaca, Outagamie, Brown and Kewaunee counties, the season shall be from March 1 to April 10 in even numbered years.

On Horicon marsh in Dodge county there will be no open season for muskrats, including muskrats on so-called muskrat farms established after July 1, 1927, until January 1, 1933.

There will be no open season on marten or fisher. On muskrat, in all counties south of the north line of Buffalo, Trempealeau, Jackson, Wood, Portage, Waupaca, Outagamie, Brown and Kewaunee counties, the season will be from November 1 to January 31. In all other counties, the season will be from October 15 to January 15. On raccoon, the new season for all parts of the state is from November 1 to December 31.

There is no bag limit on any of the above mentioned fur-bearing animals during the open season.

EAST VALLEY

QUALITY THE BIG PROBLEM

Without a doubt the quality question is the outstanding problem of the dairy industry. None of the other problems are in any way of the same importance. The very life of the dairy industry depends on quality. Dairymen will prosper to the same degree that the quality of milk and dairy products is improved. If constant improvement in quality is not made as the years go past, the dairy industry will offer but very little encouragement to the man who has money to invest. Quality milk will place the industry on a solid and lasting foundation. Men who ignore this quality question looking only for the profits possible at present. They are not good friends of the dairy industry.

THE KEWASKUM CREAMER

Wm. B. Wells, Proprietor

OFFERS FOR SALE

Twenty choice high grade milch cows. They are red Durham crossed with Guernsey, one registered Durham bull, one bull about eight months old, to be sold collectively at private sale before September 30th, 1929. Anyone interested must file bids previous to date given herein.

John L. Gudex,
9 14 2w. R. 2, Campbellsport, Wis.

Age Does Not Give Value

The fact that a violin is old does not necessarily mean that from an intrinsic standpoint, it is more valuable than a newer one. Some of the recently made violins have such exquisite tone that they can scarcely be identified when compared with the work of the old violin makers.
