

Uncovering a 5,000-Year-Old City in Egypt

These ruins of an Egyptian city believed to be nearly 5,000 years old were discovered near the fourth pyramid about an eighth of a mile from the sphinx. Dr. Selim Hassan of the University of Cairo and his party have brought out hundreds of beautiful pottery vessels, the remains of old grain bins, and fireplaces. It is believed to be the discovery of a residential community of ancient Egypt and it is thought that the city was inhabited by the priests performed the rites at the nearby tombs.

CHEESE COOKERY'S SUMMER DISH

Wholesome Necessary Savor for Meatless Meal.

By EDITH M. BARBER

Summer is the time when we are likely to be looking for a savor which is both refreshing and healthful. For a not dish also cheese is a savor which makes a meatless meal interesting.

For a not dish also cheese is a savor which makes a meatless meal interesting. In making most cheese dishes it is much easier. I have found, to press fresh cheese through a coarse strainer with a wooden spoon rather than to attempt to grate it. Of course, if you have cheese that has dried out you will use the grater.

AMERICAN ANIMALS

BLACK-FOOTED FERRET

Now, prairie dogs detest all weasels! As much as boys dislike the measles! This ferret drives them to distraction, He's weasel-like in looks and action!

And when he comes to "Prairie Town" The prairie dogs will all pop down; But through their holes the ferret follows, And searches out their hidden hollows.

So hunters train him now and then To roust a rabbit from its den. Hence comes the phrase "to ferret out" Which you will often read about.

The ferret's fond of rats and mice, So don't you think it would be nice If you could have a black-foot' ferret To hunt for rats in grandma's garret?

(© by The P. F. Volland Co.—WNU Service)

"Shanghai Lil" Is Heroine of Vienna

The heroine of the movie "Shanghai Lil" is a Viennese replica of the famous "Shanghai Lil." It was she who, during the discovery of the... part of Austria in a state... for almost a week; and it... through this discovery... the Austrian frontier to be... as a political party.

One of several infernal machines...

My Neighbor SAYS:

IT MAY be useful to the cook to know that French cooks add a teaspoonful of sugar to each quart of water in which peas, marrow and other green vegetables are cooked. This brings out the flavor of the vegetable and is very agreeable, especially in very young peas, which the French cook serves, pods and all, with cream.

A small window may be made to look larger by setting the curtain rods beyond the casing on each side and using draperies of a material heavy enough so that casings will not be seen through the material.

Have a small horseshoe magnet in your workbasket fastened to the end of a tape or ribbon of sufficient length so that it may be dropped to the floor to pick up scissors and needles.

Try ironing men's soft collars on a Turkish towel doubled to four thick nesses. The collars will iron much easier. They will be smoother and shine like new when finished.

(© 1933, by the Associated Newspapers) WNU Service

cheese sandwich, open or closed and baked or fried, is delicious. Crackers and cheese to finish a meal makes dessert unnecessary and almost every one likes it. If a jelly is served as well, it makes this service even better. A fruit salad with crackers and cheese makes a combination salad and dessert.

Welsh Rarebit

- 1 tablespoon butter
1 teaspoon cornstarch
1/2 cup milk
1/4 teaspoon salt
1/2 pound soft cheese
1/2 teaspoon mustard
Few grains cayenne
Toast or crackers

Melt the butter, add the cornstarch and stir until well mixed; then add the milk gradually while stirring constantly and cook two minutes. Add the cheese and seasonings and stir until the cheese is melted. Serve at once on slices of hot toast or toasted crackers.

Kidney Beans With Cheese

- 1 pound can kidney beans
1/2 pound cheese, rubbed through strainer
1 onion, chopped fine
1 tablespoon butter
Salt
Pepper
Paprika
1 cup bread crumbs
Tomato sauce

Drain liquid from beans; run beans and cheese through meat chopper. Cook onion in butter and a very small amount of water. Combine ingredients and add seasonings to taste. Mix thoroughly; then mold into a loaf or roll and roll in bread crumbs. Bake in a moderate oven (375 degrees F.) until brown, basting occasionally with melted butter and water. Serve with tomato sauce.

Cheese Pie Crust

- 1/2 cup shortening
1/2 cup cream cheese
1/2 teaspoon salt
2 1/2 cups pastry flour
Ice water

Put shortening, cheese, salt and sifted flour in a chopping bowl. Chop until completely blended. Heat the mixture; make a hole in the center and add sufficient ice water—about two thirds of a cup—to make a firm dough. Dust lightly with flour and roll.

Farm Horse Is Regaining Favor, Survey Reveals

Bozeman, Mont.—The farm horse is coming back on Montana ranches, surveys by the Montana state college extension service indicate. Figures gleaned from 24 of the state's 50 counties recently showed increases in the number of farm horses ranging from 2 to 50 per cent.

which had been placed by vandals was that which exploded in the doorway of a small 5-and-10-cent store.

Soon after this explosion a taxi chauffeur reported to the police that at the point of a revolver two youths had forced him to take them as passengers from the store a few minutes before the explosion took place. Also, he explained in detail how at the risk of his life he had attempted in vain to signal to a policeman that all was not in order.

The chauffeur's story, together with...

The Baileys at the Fair

Lights of New York By L. L. STEVENSON

Curious, the articles guests leave behind them in hotel check rooms in this mad Manhattan. For instance, at the Hotel New Yorker, a champagne bottle has been standing on a shelf for the last two and a half years. Around its neck is a small card which bears a number. That number is the only identification of the owner the hotel has. The other half of the check may have been destroyed or lost but the bottle will be there ten years from now unless claimed.

The check room boy is city-bred. But he is an expert on chickens and knows a lot about ferrets. In both instances, his education was forced on him. A crate of chickens was left in his care for five days. Each day, he fed and watered them and when the holder of the check showed up, all the chickens were alive and well. A pair of ferrets was left for three days. But that was enough. Ferrets do not make the best company.

Last fall, the head of a suburban household brought in a window screen, presumably to match it. But the screen is still there. So are two shot-guns, checked six months ago. Then there's a radio set somewhat out of date now because it was checked

to the absent-mindedness of some young woman. Then there are also an antique chair and a motorcycle windshield.

One hotel patron parks his winter hat in a check room every spring and his straw hat in the fall.

A shoe salesman, who recently lost his job in an expensive shop through an economy move, is about to go into business on his own without expending a cent for stock. It seems that the rule in that particular store, at least, is that when a customer returns a pair of shoes because of an improper fit, the store takes back the pinching pair and gives her a new one. The shoes thus returned must be paid for by the salesman and become his property. So the former salesman intends to dispose of his accumulation at retail, with replacements from stocks acquired by his fellow workers.

Squirrel lovers are writing letters to the Times about dogs. Several who walk through the parks mornings used to feed ten or more of the bushy-tailed animals. Now they find only a few. They are inclined to blame dog owners who, when they take their pets out for a stroll, allow them to run about unmuzzled.

Bus top bit: "She's had three husbands already and is after a fourth."

Wins Crown and Meal Ticket for Life

A nine II of Prospect was crowned "dairy queen" at the meeting of the Wisconsin Dairymen's association. She won the life time meal ticket and the wreath of alfalfa because she is the famed mother of a famous line of cows, and for 13 years she has averaged 387 pounds of butterfat, which, whether or not you know your butterfat, is some record.

three years ago. A straw helmet, worn by some explorer in South American jungles, has been lying on a shelf a year and a half, while a basket of china from the Orient has been there two and a half years.

Included in the inventory of course are all kinds and sizes of grips and suitcases, some of which have been there three years. In addition is a tent, which has been on hand a year. A pair of riding boots was checked three years ago. A golfer left his clubs behind some time ago and a pair of faded satin slippers testified

HOW IT STARTED

By JEAN NEWTON

"Solon"

IT IS not given to many people to perpetuate themselves through language. When we come to think of the millions upon millions of people who have been born, who have lived and died upon this earth, that man must be great indeed to have made even the slightest impression upon humanity's memory. What then shall we say of the attainments of those who will go on forever because they are a part of our every day, living vocabulary.

The word itself we have after the Athenian law-giver of identical name, known as one of the Seven Wise Men and one of the greatest sages of all time.

(© 1933, Bell Syndicate.—WNU Service)

adding a few details to his story. He was confronted with "Lil," saw that his zeal to establish an alibi had proved his undoing, confessed and named the actual bombers.

After that the police had easy sailing. Enough confessions were obtained from these three to justify the arrest of some dozen other terrorists. This they reported to Minister of Public Security Maj. Emil Fey, and Fey in turn reported to a cabinet meeting, with the result that the whole Nazi movement in Austria was outlawed.

Rights in Home Must Be Taught

Very Definite Distinction Between Common and Personal Property.

Mother and daughter alike feel a certain pride when daughter gets so "grownup" that she can wear mother's shoes, mother's gloves, hats, etc. It is the same way with boys and their fathers, when it comes to size and height. The paternal pride is apparent and the boy is often touched with a bit of boastfulness, which is not unwarranted when father is his ideal of manhood. To be like father in any way is something in which to glory. In the face of all this mutual admiration there are certain annoyances sometimes, which may be very trivial, but none the less actual. These should be guarded against so that they do not mar the laudable pleasure.

It is the parents who have the power to restrict. They can instill the idea of rights and privileges in the youthful minds, for it is concerning personal belongings that the friction arises. More often it is between mothers and daughters than fathers and sons, although, to some extent it applies to them also, and it may widen its circle to include all members of the family. To each person's belongings become common property, for there is no respect for individual property.

Since mother is almost the first to note the invasion, let us see what it may mean to her. A case in point comes to mind in which several members of the family were involved, the mother and her daughters, who were big enough to wear her clothes, or at least, accessories. The mother was invited out to a luncheon which was arranged on the spur of the moment because a guest whose visit was very short had arrived unexpectedly, and the hostess wished her to have the opportunity to meet several mutual friends.

When she went to dress, her best pair of shoes was no where to be found. Sally must have taken them, they would fit her. Grace must have worn the frock she wanted, since she went to town for some sort of good time, and this gown would be well suited to the occasion. Her best gloves were gone, and as a final annoyance her most becoming hat. In each instance mother had to be content with second choices for herself.

This is no merely fictitious instance. It occurred in a neighbor's family. The tale was told without any rancor, but the fact that the mother had to appear not to best advantage in her costuming in the eyes of a distinguished person whom she had not seen for a long time, was a real disappointment.

While one could not fail to be sorry for the woman, one could also not be oblivious to the evidence that the children had not been taught the distinction between common property and personal property. The children felt at perfect liberty to use mother's individual wardrobe without consulting her, and as freely as if it were their own.

Had they been reprimanded for the first occurrences, and whenever there was a repetition, they would have had proper respect for the belongings of others. There is a distinction which should be drawn between common property, that is, those things which are for the use of all in a home, and personal property, which should be granted the right to use by the owner.

Present New Ideas on

Mysterries of Nature

Few would believe that a snake which had been killed, skinned, stuffed, and mounted could continue to show signs of life, says London Answers. But the naturalist, the late W. H. Hudson, pointed out that if the skin is watched, something will happen which may give us a new idea of life and death. Every spring it will shed a layer of scales.

It is as if the skin knew instinctively that moulting time has come! Snakes shed their skins on waking from winter sleep.

Biologists have now proved that tissues can be separated from an animal's body and kept alive indefinitely. In one laboratory microscopic living cells, taken from a chicken, have continued to grow and divide for thirteen successive years with no loss of vigor. The cells have outlived the normal life of a fowl.

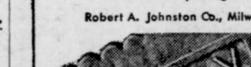

Mourning Time SAVED

Mourning ceremonies shall now last three days instead of forty in Abyssinia, according to a proclamation of Haile Selassie I, "Anointed of God, Lion of Judah," and Emperor of Ethiopia. A favorite daughter of his died recently. Furthermore, good Ethiopians may weep, silently or loudly and may put a black band on their clothes, but they shall not scratch their faces, leap, take off their clothes or dye their costumes either black or yellow.

Man's Job "Snap"—Turns Off Lights

Oklahoma City, Okla.—Clarence P. Craig, fifty-four, turner-off of lights in downtown store show windows, has a job that is almost a perpetual "snap." For 16 years he has made nightly rounds to an average of 300 stores, accumulating a total of approximately 1,700,000 twists of light switches to the "off" position. During Craig's long years on the job he has walked an estimated 350,400 miles around town, wearing the soles of a pair of shoes each two months.

OUCH!

He—Darling, I would be so happy if you would but smile on my suit. She—I feel more like laughing.

Close to Nature in Sunny France

Where Modern "Hustle" Is a Thing Unknown.

In the Paris Herald of July 7 we find the following, descriptive of French peasant life, with, to Americans especially, interesting comments by the writer:

"During the coming week, in a corner of southwestern France, 380 elderly couples are to be the heroes and heroines of a collective marriage anniversary. Each of these old couples has been united in wedlock for fifty years or longer. It will be France's nearest approach to an old-home week. It serves as confirmation of the not unfamiliar dictum that America is a great country for the young, but France is a land where the aged find especial sympathy and comprehension.

"The 380 old couples live in the Medoc, the sandy peninsula lying beyond Bordeaux, which protrudes westward between the Bay of Biscay and the River Gironde. The soil is too thin for grain. It is characterized by the maritime pine and the scrub oak. In fortunate years potatoes and oats prosper moderately. Gravel is everywhere near the surface. But, with its torrid days and nights, its acidity and stony slopes, it is ideal country for the vine. It lives by its grapes and its wine. Amongst this sparse and poor population, however, gathered in tiny villages among the unending pine forests and vineyards, there are no fewer than 380 pairs of old partners, who have summed and wintered no less than fifty years in one another's company. Can any like surface of the globe equal this record of longevity and conjugal fidelity? While it would be unscientific to deduce hard-and-fast conclusions from it, several facts must prick the imagination.

"The beverage of these peasant families is the red wine which they produce. On high days they treat themselves to coffee, with sugar. When unwell, they procure and drink milk, upon the doctor's prescription. Water is considered inimical to health as too chilling for the stomach. Probably none of these golden-wedding folk has consumed a gallon of pure water during the last decade. In the Medoc there are no cinemas, theaters or amusement parks. Cooking is done over a wood-fire in a chimney. Steaming bowls of vegetable soup are the foundation of every repast. Tobacco is the luxury of the men, conversation the solace of the women. Sleep is gauged by the setting and the rising of the sun. Husbands, wives, grandparents and babies labor together in the hay field, the potato patch, and the vineyard. Their routine, timed by the clock in the village square, is almost as regular as a process of nature.

In this tranquil and robust orbit of existence romance is neither shaken nor shocked to extinction. Nerves and arteries sustain the passage of pacific seasons. In our metropolitan communities there are many who disclaim a desire to live long. They wilfully curtail life by indulgence. But to those who care to prolong life the ingredients are available. They are hand-labor, conjugal forbearance, the open sky, plain nourishment and red wine, regularity, physical fatigue and adequate repose.

"To the gentle old people who will be feted next week we extend our hands in undisguised felicitations. Perhaps without realizing it they have discovered the philosopher's stone. They revive the era of our pioneer American grandparents. In the confusion and chaos that seems to grip our world they recall us to sanity and wholesomeness. They typify the soil and those who live close upon it. With all our paraphernalia of modernity they may yet be our superiors both in wisdom and in happiness."

Mourning Time SAVED

Mourning ceremonies shall now last three days instead of forty in Abyssinia, according to a proclamation of Haile Selassie I, "Anointed of God, Lion of Judah," and Emperor of Ethiopia. A favorite daughter of his died recently. Furthermore, good Ethiopians may weep, silently or loudly and may put a black band on their clothes, but they shall not scratch their faces, leap, take off their clothes or dye their costumes either black or yellow.

CRISP! and filled with almonds. You'll like the crisp freshness and real home-made flavor of Johnston Dandy Cookies. They're Dutch style, almond filled, a little spice and everything nice! Order from your grocer. Robert A. Johnston Co., Milwaukee. "Taste the Difference" Johnston DANDY COOKIES

THE MASTERPIECE OF TIRE CONSTRUCTION

THE New Firestone SEALTYE Leakproof TUBE

Regular tubes are porous and gradually lose air. Firestone Sealtye Tubes are manufactured by a process which makes them "Leak-proof". There is no "leak" against air loss—the rubber valve stem is vulcanized into the tube.

58¢ Firestone SPARK PLUGS

Old worn Spark Plugs waste gasoline and cause power loss—Firestone engineers have developed new processes of manufacture and construction advantages that assure greater power. Free Spark Plug Test.

Firestone BRAKE LINING

Firestone engineers have developed in the Firestone Brake Lining Factory a new brake lining that is moisture-proof—gives smoother braking action. Free Brake Test.

Firestone Batteries

"Half-dead" batteries are troublesome. Batteries built in Firestone Battery Factories have EXTRA POWER—are more dependable—last longer—Free Battery Test.

The Thrifty Code for Tire Buyers

I hereby promise to trade in my thin, worn, dangerous tires today and equip my car, before prices advance again, with the Safest and Most Dependable Tires I can find.

They must have:

Every fiber in every High Stretch cord in every ply saturated and coated with pure liquid rubber, to give me Extra Blowout Protection.

They must have:

Two Extra Gum-Dipped Cord Plies Under the Tread for Greater Strength and Blowout Protection.

They must have:

Scientifically designed non-skid tread to give me EXTRA SAFETY.

Mr. Car Owner

MAKE the Thrifty Code—your Code. Raw materials, commodities and wages are up—and going higher. When you know tire prices are going higher—it's smart to Buy Now and Save.

REMEMBER—Firestone Gum-Dipped Tires hold all world records on road and track for Safety, Speed, Mileage and Endurance.

Drive in today—we'll save you money and serve you better.

THE NEW Firestone SUPER OLDFIELD TYPE

Built to equal all first line standard brand tires in quality, construction and appearance, but lower in price—another Firestone achievement in saving money for car owners.

Perennial grasses in general should be allowed from three to five inch growth before grazing is started. In the case of limited numbers of livestock, and where there are large acreages of pasture carrying much of the old growth from the previous season, premature grazing would be far less disastrous, agronomists state.

Subscribe for the Kewaskum Statesman and get all of the news of your community.

The pasture season should be made as long as possible in Wisconsin. Crops should be of such quality that the highest yields of milk and increase in growth and weight will be made on this feed. It is the pasture feed practically throughout the year that enables New Zealand to produce butter so cheaply.

Subscribe for the Statesman and get all of the news of your community.

Nobody Loves a Policeman!

That's an old saying but it isn't true any more. At least, it hasn't been true since F. O. Alexander added "Finney of the Force" to the list of famous comic strip characters. For "Finney," with his twinkling humor and his shrewd comment on people and the common everyday events of life, is a lovable character, as thousands of newspaper readers who have followed him through his various adventures will testify. "Finney of the Force" is a regular feature in this newspaper with whom our subscribers are acquainted, and all enjoy him. Then tell your friends about him, for they will enjoy him as much as you do.

COUNTY LINE

Miss Margaret Gutekunst visited with Miss Amanda Stange Tuesday afternoon.

Mr. and Mrs. Otto Lohse and family of Manitowish visited Sunday with Mr. and Mrs. Otto Hinn and sons.

Charles Harper and wife of Milwaukee, and Andrew and George Vorpahl visited with the Wm. Vorpahl family Sunday.

Quite a number from here attended the Silver Wedding anniversary of Mr. and Mrs. Herman Wilke at New Fane last Saturday evening.

Mr. and Mrs. Henry Leininger and family returned to their home at Milwaukee last Friday. They were accompanied by Mr. and Mrs. Otto Hinn and son.

NEW PROSPECT

Rev. C. J. Gutekunst of New Fane called on friends here Wednesday.

Kathleen Bowers of Sheboygan Falls spent the past week with the Geo. H. Meyer family.

Mrs. Edgar Sook and son, Ellis, of Waukegan, spent Sunday with Mr. and Mrs. Wm. Bartelt.

Mr. and Mrs. O. M. Johnson were Sunday evening visitors at the home of Mr. and Mrs. Geo. H. Meyer.

August Sturmer and son, John, of Waukegan, spent Wednesday evening with Mr. and Mrs. John Tunn.

Henry E. Uelmen, daughter Elair, and Joe Bowers of Mitchell called on relatives here Saturday afternoon.

Mr. and Mrs. W. A. Krueger of Cascade spent Tuesday with their mother, Mrs. A. Krueger, and other relatives here.

Joe Parrett and Chas. Burnett of Campbellsport spent Tuesday afternoon with Mr. and Mrs. W. J. Romaine.

Miss Betty Tunn spent over the week-end with her cousins, the Misses Martha and Loretta Kaehne, near Campbellsport.

Mr. and Mrs. Phil Koch, daughters Muriel and Shirley, of West Bend visited Monday evening with Mr. and Mrs. W. J. Romaine.

Jeanette Meyer returned home last Wednesday evening after spending the forepart of the week with the Henry E. Uelmen family in Mitchell.

Mr. and Mrs. Richard Trapp and daughters, Virginia and Marilyn, visited Tuesday with Mrs. Chas. Trapp and son, William, at Beechwood.

Mrs. John Tunn, daughter Betty, of here, Gust and Emil Flitter of Waukegan and Mr. and Mrs. Edwin Flitter and son of West Bend attended a picnic at Hales Corners Sunday.

Mr. and Mrs. C. J. Rauch, daughters Jean and Bonnie Ann, of Oshkosh and Mrs. Bertha Rauch of Campbellsport were Sunday guests of the latter's sister, Mrs. A. Krueger, and Mr. and Mrs. J. P. Uelmen.

GRONNENBURG

Mr. and Mrs. Anton Schladweiler returned to Chicago Monday.

Jac Schladweiler and wife visited with Math. Schladweiler at the St. Agnes hospital, Fond du Lac on Tuesday.

Anton Schladweiler of Chicago, Joe Schladweiler of West Bend, Edward Schladweiler and son, Michael, visited Math. Schladweiler at the St. Agnes hospital at Fond du Lac on Monday.

The following visited with the John Lehner family Thursday evening, Aug. 17, in honor of Mrs. Lehner's birthday anniversary, namely: Mr. and Mrs. Joe Arendt of Barton, Mrs. A. Schladweiler and sons of Chicago, Ill., Jacob Schladweiler and family, Ed. Schladweiler and family and John Schladweiler and family.

The following visited at the Edward Schladweiler home last Sunday: John Lehner and wife, Jac Schladweiler and family, Mrs. Mary Schladweiler and children, and John Schladweiler, and family, Anton Schladweiler and family of Chicago, Ill., Syl. Fellenz and wife and Joe Schladweiler of West Bend and Ted Schneider and Miss Marie Thull.

BEECHWOOD

The funeral of the late August Helse held last Sunday afternoon was largely attended.

Mr. and Mrs. Chas. McElroy and daughter, Delores, of Adell visited with Mrs. John Hintz on Sunday.

Mr. and Mrs. Wilmer Wendell of Boltoville visited with Mr. and Mrs. Edgar Sauter Saturday evening.

Mr. and Mrs. Peter Fellenz and son, and Mrs. Wm. Stegried motored to Kewaskum Tuesday on business.

Herman Krahn returned home Sunday evening after spending the past week with his children at Cascade.

Mr. and Mrs. Raymond Krahn and son, Robert, attended the Firemen's picnic at Cascade Sunday afternoon.

Mr. and Mrs. Ernest Payne and son, David, of Oakfield visited Thursday evening with Mr. and Mrs. Edgar Sauter and daughter.

Mrs. Wm. Siegfried and Mrs. Edgar Sauter and daughter, Yvonne, visited Tuesday afternoon with Mrs. Louis Kaiser and son, Norton.

Mr. and Mrs. Frank Schroeder, Mrs. Raymond Krahn and son, Robert, visited Monday afternoon with Mr. and Mrs. Winford Walvoord at Kewaskum.

ST. KILIAN

Rev. Peter Flasch of Milwaukee called on Rev. John B. Reichl this week.

Mr. and Mrs. Edward McCann of Evanston, Ill., visited with Mr. and Mrs. Leonard Flasch.

Lloyd Ogenorth of West Bend returned home after visiting Orville Strachota, who accompanied him back.

Misses Alice and Catherine Strobel of Hartford are spending an indefinite time with Mrs. Tillie Strobel.

Lightning struck the Jos Bonlander residence Monday. With the exception of the burning out of all switches and the electric meter the damage done was slight.

Mr. and Mrs. Chas. Howell of Milwaukee, Mr. and Mrs. John Armand and son, Mrs. Daniels of Woodland, Mr. and Mrs. Roman Geller and son, Thomas, of Hartford were Sunday visitors with Mrs. Caroline Strobel.

Mr. and Mrs. Frank Simon, daughters, Cyrilla and Thecla, son Bernard, Mr. and Mrs. Herman Simon, son Benno, daughter Hedwig, and Mr. and Mrs. Andrew Flasch and son, Paul, attended the funeral of Felix Wagner at West Bend Sunday.

The following visited at the Simon Strachota home Sunday: Misses Irene and Agnes Nett of Peebles, Miss Marian Soike of Fond du Lac, Miss Genevieve Greenway of Green Lake, Misses Patricia and Elizabeth Benson of Oshkosh, Mr. and Mrs. T. Parker and son, Teddy, of Beaver Dam.

CEDAR LAWN AT ELMORE

Oscar Backhaus and son, Roy, called on friends at Wayne Saturday.

Miss Verna Gantenbein spent Sunday with Miss Mary Guggisberg.

Mr. and Mrs. Herbert Brinkman visited at the county seat Saturday.

Miss Hazel Backhaus visited with the Schuerman family on Tuesday.

Henry Guggisberg suffered a fractured bone in his right arm a few days ago.

The public school at Elmore was given a new coat of paint during the past few days.

Jake Mayer, rural carrier of Campbellsport was a village visitor Tuesday afternoon.

The heavy rain of last Monday forenoon caused some delay to grain threshing.

Mr. and Mrs. Ernst Rathman of Milwaukee spent over Sunday at the Fred Stoll home.

John Michels of Sheboygan and his mother spent Tuesday with the Wm. Michels family.

Conrad Mack of Campbellsport made a pleasant call at the Herbert Sabish home on Sunday.

M. J. Weis, who is being treated by Dr. Leo Hoffman of Campbellsport, is favorably recovering.

Misses Inez Kleinhaus, Loretta Midel and Lorena Rauch spent Sunday at the Oscar Geidel home.

B. Pitt, son William, and daughter Lorena, of Waldo visited with the Oscar Backhaus family Friday.

Mr. and Mrs. Oscar Backhaus and children motored to Fond du Lac last Thursday on important business.

Mr. and Mrs. Herman Schrauth and children of Silver Creek visited with the Ed. Rauch family last Sunday.

Mr. and Mrs. Charles Bartelt and Mr. and Mrs. C. Thill were entertained at the Dellert home Monday evening.

Mr. and Mrs. Justin DeVoy and sons, Billy and Charles, of South Byron visited Sunday at the William Mathieu home.

Mr. and Mrs. Paul Kleinhaus and Mr. and Mrs. Albert Struebing spent Sunday afternoon fishing at Lake Ashippun.

Mr. and Mrs. William Geidel, Mr. and Mrs. Franklin Geidel and daughter, May, spent Sunday with friends at Sheboygan.

John Frey, who took treatments at the St. Joseph's hospital in Milwaukee during the past two weeks, is expected home this week.

Mrs. Christian Schmalz and children of Theresa and Mr. and Mrs. Fred Rueh of Campbellsport visited with Mrs. John Frey on Tuesday.

Mrs. Theresa Schaub and daughter, Mary, of Campbellsport moved their household goods to Elmore on Tuesday, where they will make their future home, residing in the Minnie Guggisberg residence.

DUNDEE

Roy Steigenberger was a Fond du Lac visitor Thursday.

Mrs. Anna Radtke of Cascade spent Tuesday afternoon with Mrs. C. W. Bartz.

Bruce Habeck of Fond du Lac spent the past week with his grandmother, Mrs. Lydia Hennings.

Miss Janet Hughes of Campbellsport is spending this week with her uncle and aunt, Mr. and Mrs. Norman Seifert.

Mrs. Edwin Roehm of Milwaukee is spending a two week's vacation with her parents, Mr. and Mrs. Anton Seifert.

Miss Sylvia Haegler is spending a two weeks' visit with her grandmother, Mrs. E. Haegler, and other relatives in Milwaukee.

Rev. Walter Strohschein spent the week-end at Milwaukee where he attended a conference. Wm. Albers was a delegate.

Mr. and Mrs. Franklin Wald and daughter, Jeanette, visited Sunday and Monday with the former's mother, Mrs. Anna Wald, in Burlington.

Mr. and Mrs. Emil Ramel of Kewaskum visited with Mr. and Mrs. Joe Moldenhauer and Mrs. Bertha Habeck Sunday evening.

Mr. and Mrs. Paul Moldenhauer of New Fane visited with Mr. and Mrs. Joe Moldenhauer and Mrs. Bertha Habeck Tuesday evening.

Mr. and Mrs. Hubert Fellenz and son of St. Michaels, Mrs. Nic. Uelmen of Cecil and Vincent Fellenz spent Monday evening at the John Pesch home.

Quite a number of friends and relatives helped Mr. and Mrs. Herman Wilke celebrate their 25th wedding anniversary in Kolafa's hall, New Fane, Saturday evening.

Dependable and Reasonable

We can give you any burial vault you want. But We Recommend the Enders Asphalted Steel Vault

Because after building a strong steel vault, asphalt is applied to the Enders Vault. Asphalt will absolutely protect the steel, then the asphalt self-sealing seal is another great feature. Steel for strength asphalt for protection.

We Serve to Satisfy the Bereaved Family

Up-to-the-Minute and Practical

Every woman wishes to be as well-dressed as possible without spending too much time or money on her clothes. That is why so many women in this community turn first to this page in this newspaper which contains the illustrated fashion articles by Miss Cherie Nicholas. For Miss Nicholas is an authority on fashions—not the freak models and the extreme styles, but the fashions in dress which the modern woman demands, those which are up-to-the-minute and at the same time economical and practical.

Be sure to look for these articles in each issue of this newspaper and then tell your women friends about them. They will be glad to know how they, too, can wear clothes which carry the message of the well-dressed woman.

The following were on Sunday entertained at the home of Mr. and Mrs. Louis Bath, namely: Miss Dorothy Bath and John Bath of Minneapolis, Minn., Jake Bath, Mrs. Aloysius Bath and Mrs. John Gregg of Wabeno, Mr. and Mrs. Math. Bath, daughter Florence, and sons, Clarence and Harold, and Mike Bath.

Mrs. J. C. Frohne of Rockfield was a village visitor last week Friday. She will leave shortly for a visit with her son, Rev. Paul Frohne, and family in Buffalo, N. Y., after which she will make her home with her daughters in Detroit, Mich., who are engaged in radio work.

JOHN MARX

THE STUDENT FRATERNITY MURDER

By Milton Propper

It is startling, mysterious, baffling. That describes the new story we are to print serially. A story with a fascination for every class of reader. A story, every installment of which you will enjoy. Do not miss the opening chapter when it appears in these columns.

FARM AND HOME LINES

Organic matter not only increases the water holding capacity and improves the soil, but also absorbs plant food which would be lost by leaching.

Pasture should be considered the same as any other crop grown in the rotation. Many pastures have been used for from ten to fifty years without receiving manure or other fertilizers.

Reed Canary grass has continued to give favorable results in tests conducted by the University of Wisconsin. This perennial native grass appeals to many farmers because it thrives and furnishes hay and pasture on low or overflow land. The feeding value is reported superior to most other tame grasses, excepting legumes.

Choice To Rule Oil

Resigning as Vice-President of the Standard Oil Co., of N. J. because he was told by President Walter C. Teagle that he should not accept appointment to Recovery Administrator, Hugh S. Johnson's Advisory Board, James A. Moffett, (above) is now said to be President Roosevelt's choice as controller of oil production.

THE INEVITABLE CONSEQUENCE

By Cosmo Hamilton

COME into a nice apartment in a house on Every street. It is lunch time, but breakfast is on the table. These two have been married a little less than a month.

Darling—and she is a darling—is sitting at the table, alone. You can hear his grampus-like splashing in the bathroom near at hand. Everything on the table is as cold as ice. When the door is flung open she holds out her arms to the husband by whom she has been deserted for a very long time. Ten minutes at least, that is.

"Darling!" Her golden head goes awfully well with his blue and white dressing gown.

"What an age I've been away." He is tall and square and young and simple, with a kink in his hair. "And now for breakfast. You must be starving. It's a rotten trick to have made you wait."

"I was so frightfully lonely I've had mine," she says. "I'll heat another for you."

"Oh, no, that's all right." "But the coffee's gone sulky," she says.

"Yes, but I love it that way." "And the toast is like yesterday's paper."

"That's all the same to me." "But let me cook just one hot thing."

"Why should I care about hot things when I've got you?" he sits at that chilly table with genuine cheerfulness into her warm heart at this there steaks a new sense of gravity and a certain touch of fright.

"Next year and always, until the crack of doom. Have you forgotten what today is? It's the first of May."

"Oh, darling, it's your birthday!" "No it isn't. It's yours."

"How perfectly wonderful of you to know so much about me." She gives a little cry. "You've bought me a present! Can I believe my eyes?"

"You don't think, do you, that I shall ever let today go without some little thing?" It's a string of amber beads.

"But this lovely thing must have cost a frightful sum."

He squares his shoulders. "It did. Let me put it on."

And when it is round her little white neck she rushes to a mirror to see how it looks. "I should have been equally happy if you had just remembered," she says.

more like old scrap iron than it's ever been before?"

"Then you're taking me to the theater where we shall get up an excellent appetite for supper at the Savoy."

"You can't be feeling well," says he after the usual dramatic pause.

"I was feeling fine," but her little laugh was hyphenated to a tear. "Have you noticed today's paper by any chance?"

"Yes, of course. Why? Money, golf, murders?"

"Then you know the date?" "Yes, the first of May."

"That's why you're taking me to the Plaza and the theater and then to the Savoy—even in these hard times."

"What is the matter with you? I shall call up the doctor."

"Like a little girl who's been badly hurt she bursts into tears. "Darling, what is it? What are you crying about?"

"You've forgotten—you've forgotten, and only a year ago you said you'd never forget."

"Oh, what a brute I am! I'm so sorry. I'll never forget again."

Come with me once more. There are many drastic changes in that pretty little room. There's a rattle on the floor, a woolen baby's stocking over the back of a chair, and, in an attitude of assurance, bang in the middle of the sofa, a large brown teddy bear.

Husband and father comes in. His step is very brisk. He's deeply disappointed when he finds an empty room and he throws a look of resentment at the one from which his son and heir now dominates the place. He tries to drink the coffee but it is much too hot. He goes sharply to the door but he doesn't knock. He taps. He taps again and still there is no response. Then his patience goes. "Darling, for Lord's sake, come and have breakfast. I loathe having it alone every blessed day. Everything's so beastly hot, too."

The door opens softly and there is wife and mother, her finger held up. "See, darling, see!"

He catches hold of her. "I shall make all the noise I like. Is he paying for this house or am I. I should like to know?"

"Oh, please, you'll wake him up." "Why not? He ought to be awake. You'll start him off with bad habits—sleeping as late as this."

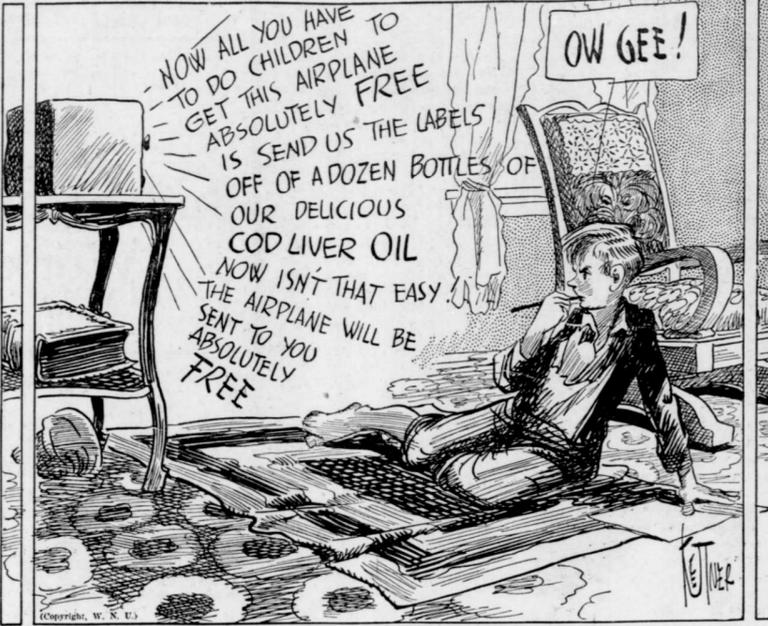

"If you must shout—whisper, if you love me, do."

He continues his angry outburst, but very much under his breath. "I won't be deserted. I came first. Be fair. Am I never to see you alone? Come and have breakfast with me."

She submits to being pulled. "Oh, be careful about the door." At the breakfast table, she smiles. Even in his present state he is bound to own to himself that her smile would light up the darkest tunnel.

OUR COMIC SECTION

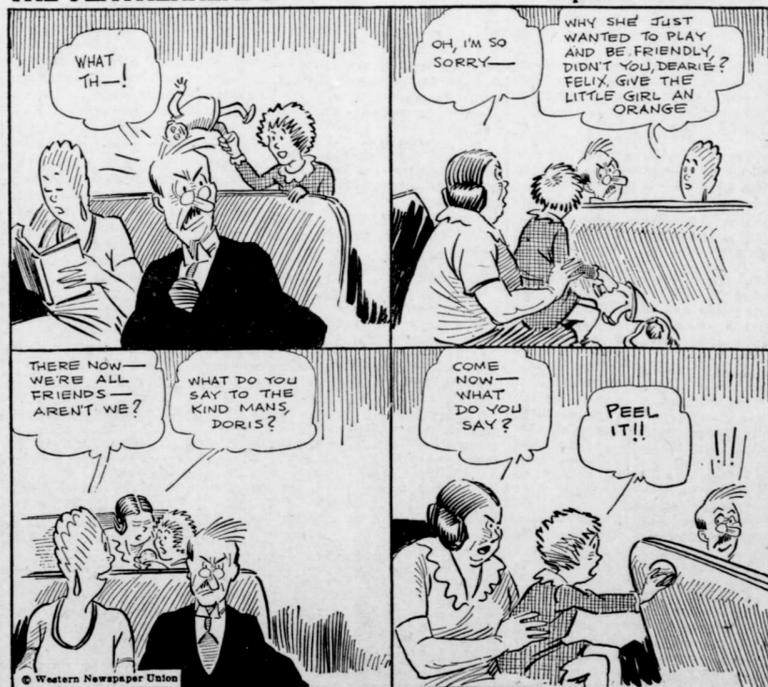

Events in the Lives of Little Men

FINNEY OF THE FORCE

THE FEATHERHEADS

Exchanging Compliments Mr. Eatabout—I like to see one eat appropriate food. May I offer you some of this delicious angel food? Mrs. Donotdeath—I quite agree with you. Suppose you try some of the sponge cake.

Prized One "Don't worry any more about him, dear. There are plenty more fish in the sea." "I know," said the fifted one, "but he was a goldfish."

BANG! BANG! "Jones is a dead game sport." "Yes; I noticed the last time he went hunting he bought the birds at the delicatessen."

When Virtue Triumphed Judge (during an inquiry into a case of alleged bribery)—You say you received \$25 to vote Conservative and also received the same amount to vote Liberal? Witness—Yes, my lord. Judge—And for whom did you vote at the finish. Witness (Indignantly)—I voted, my lord, according to my conscience.

LIFE'S LITTLE JESTS

ALL FOR NOTHING She watched the door of her new establishment open to admit her first client. Business had started! A good impression must be created upon him! Hurriedly she grasped the telephone receiver and became engaged in an animated conversation. Then, an appointment having been arranged, she replaced the receiver, and, beaming on her customer asked: "What can I do for you, sir?" A moment's pause, and then: "If you please, ma'am, I've come to connect the telephone!"—London Tit-Bits.

Adaptation New Resident—I stopped over in San Juan and— Old Resident—Pardon me, but you should say San Juan. In California we pronounce our J's like H's.

Old Story "You were crazy to get married, and now that you are, you don't seem a bit happy," said her dearest friend. "No," she sighed. "I'm a good deal like the baby that couldn't be happy until it got the bumble bee."—Cincinnati Enquirer.

Lucky Man "Biggs always has an air of industry about him." "Yes, he's one of those people who can get credit for making a garden when he's only digging fishing worms."

Sizing Them Up The Coach—Yes, sir, our track team is the bone and sinew of the college. The Professor—Not so very sinewy, but there's enough bone in their heads to make the classification appropriate.—Brooklyn Eagle.

Unlucky Man Mrs. Jones—Oh, the Dodgers are sure to lose today. Mrs. Brown—Why do you think Mrs. Jones—Why, my husband has two cigars bet on their winning.—Brooklyn Eagle.

Pass the Ear-Muffs Headline: "Husband Leaves a Midge of Wife's Bridge Party," appears."

Tinting the Bald Spot "My dear, why has your husband been sitting on the bench in the big sun bareheaded?" "I've just bought a new comb and John's bald spot clashes dreadfully."

Record Time Saving Hank—Bill's powerful lamp! Silas—Awful! Had a dentist put a good front tooth, so he couldn't get without movin' his jaws!

Eyes of Halibut Peculiar, in That They Are Both Located on Head's Right Side

The halibut, an important food fish, which is common throughout the North Atlantic and also the North Pacific and Bering sea, and ranges in weight from 40 to 700 pounds or more, can lay claim to a curious characteristic which it shares with other members of the flatfish family with which it is identified that in earlier days might easily have given rise to some strange superstitions, and this concerns the migration of its eyes.

The eyes of an adult halibut are both located on the right side of its head, the left side being entirely blind, and the fish swim in a horizontal position, usually with the blind side downward, says a writer in the Detroit News. But this was not always true. When the halibut first hatched its eyes were placed like those of most fishes, one on either side of its head and it swam in a vertical position. The change took place during the earlier stages of its development when the eye on the left side of

the fish's head traveled to the right side, assisted by a peculiar twisting of the fish's cranium in that direction. Early investigators added to the incongruity of this discovery by declaring that the fish's eye traveled through its head to the new position, the fact that in some flatfish species the eye has to pass under the dorsal fin in order to make the trip from one side of the head to the other having given rise to this theory.

In this case, however, the eye merely passes between the fin and the cranium, and not actually through the head.

Habits of the "Hoot Owl" Usually called the "hoot owl," the barred owl also may be seen in open spaces, or in groves of timber bordering streams and lakes. Much maligned for its food habits, it does occasionally take toll of poultry or game birds, but these are transgressions of individuals and not of the species.

FRANKLY SPEAKING

The shop assistant wrapped up the customer's parcel and dexterously hid it to him. "There you are, sir," he said, "if the goods are not just to your cash."

Farmer Giles snuffed. "Don't tell me such a paragon, man," he replied. "Eh? What?" exclaimed the assistant, momentarily taken off his guard.

"Ye might gie me my money," said the farmer, "but 'tain't that nature to be cheerful about it—no answers."

Of Course, Its Dead She—The hair dresses sure there is no life in my hair. He—That's not strange considering how often it's dyed.—Cincinnati Enquirer.

MAKING IT ALL RIGHT "I am returning the dress suit I loaned me, old man, and thanking didn't fit well, so I had the tailor make a few alterations."

"The deuce you did, well of the—"

"Oh, it's all right. I told him to send the bill to me."

He Couldn't "Pewit—I got a \$4 bill this morning. Nitwit—Get out! There's no such bill. Pewit—I wish your mother's tailor believe that.—Pathfinder Magazine.

Unlucky Man Mrs. Jones—Oh, the Dodgers are sure to lose today. Mrs. Brown—Why do you think Mrs. Jones—Why, my husband has two cigars bet on their winning.—Brooklyn Eagle.

Pass the Ear-Muffs Headline: "Husband Leaves a Midge of Wife's Bridge Party," appears."

Tinting the Bald Spot "My dear, why has your husband been sitting on the bench in the big sun bareheaded?" "I've just bought a new comb and John's bald spot clashes dreadfully."

Record Time Saving Hank—Bill's powerful lamp! Silas—Awful! Had a dentist put a good front tooth, so he couldn't get without movin' his jaws!

UNTIL WE LEARNED BETTER

Until we learned better, we used to mix wood and steel in our car bodies and wheels.

It was the best way to make bodies—then. But the state of the art has advanced.

Of course, it is more expensive to make an all-steel body than to make a wooden frame and nail steel panels on to it. The better way involves an initial expenditure of several millions of dollars for new dies, which renders a change very costly. Cars, especially large expensive cars which are produced in small volume, cannot afford this, because the dies cost as much for one car as for a million. That alone explains why all-steel bodies are not used in all cars.

But our basic policy from the beginning is to make a good car better, regardless of cost.

For example, when we discarded wood-steel body construction, it was not because we lacked wood. We still have some thousands of acres of the best hard wood in America. Economy would urge us to use up the wood first, and then adopt the better all-steel body. But we decided that quality was more important than expense.

We weighed the reasons, for and against, before we made the change. We could see only one reason for retaining a mixed wood-and-steel body—nailing the metal on, instead of welding an all-steel body into a strong one-piece whole. That reason was, it would be cheaper—for us.

Our reasons for adopting an all-steel body were these: A wood-steel body is not much stronger structurally than its wooden frame. In all American climates, wood construction weakens with age. Every used car lot gives evidence of this. Rain seeps in between joints and the wood decays. A car may have a metal surface, and yet not be of steel construction. Under extreme shock or stress the steel body remains intact—dented perhaps, but not crushed.

Steel does not need wood for strength or protection. Wood is fine for furniture, but not for the high speed vehicles of 1933.

In the Ford body there are no joints to squeak, no seams to crack or leak.

The all-steel body is more expensive—to us, but not to you.

By all odds, then, steel bodies seem preferable.

Wheels also have become all-steel. No one argues that an electrically welded one-piece steel wheel, such as the Ford wheel, needs to be "strengthened" by adding wood to it.

The one-piece all-steel body is the strongest, safest, quietest, most durable body made. That is our only reason for making them.

FOND DU LEAGUE

The race in the Fond Du league continues at a merry pace with Campbellsport and Brownsville tied for first place. Next Sunday might bring about a change in the percentages, as Brownsville meets Mayville at the latter place. Mayville, although they are late comers in the league, are rated as having about the best ball club in the Fond Du circuit. Campbellsport will cross bats with Johnsonburg. The latter club needs only one more win to cinch third place. There are only four more games left to be played this season.

FOND DU LEAGUE STANDINGS

TEAM	W	L	PCT
Campbellsport	14	2	.875
Brownsville	14	2	.875
Johnsonburg	9	7	.563
Oakfield	5	11	.313
Mayville	5	11	.313
Lomira	3	13	.188

SUNDAY'S RESULTS

Johnsonburg 13, Oakfield 4.
Brownsville 6, Lomira 2.

GAMES NEXT SUNDAY

Johnsonburg at Campbellsport.
Brownsville at Mayville.
Oakfield at Lomira.

ELMORE

Clarence Schrauth is employed at West Bend.
Henry Guggisberg fractured a bone in his arm while cranking a car.
Clarence Senn injured his hand while doing some repair work on his car.

4-H EXHIBITS

The 600 young people enrolled in the 4-H Club work will have the largest and best exhibit on the grounds that they have had since the 4-H club work was started in the county.

GRAND STAND SHOW

There will be a fine program of entertainment on Tuesday, August 22, and Wednesday, August 23. Talks by Governor Schmedeman, Drum Corps, bands, riding races, historical pageant, entertainment by KFIZ radio stars, dance revues, horse races, horse show of fancy riding and high jumping, and Grand Parade, are some of the features scheduled for the grand stand show.

FREE FAIR

In order that the people of Fond du Lac County may see the wonderful display of every kind, the Fair Association has decided to make the Fair a Free Fair this year. Plenty of space for free parking and free admission to the grounds, so everyone may see the wonderful exhibits without any cost. A record breaking crowd is expected at the Fair.

FOUR CORNERS

Mr. M. Weasler was a Fond du Lac caller one day last week.
Mr. and Mrs. Louis Butzke spent Sunday at the Henry Butzke home.
Mr. and Mrs. Frank Bowen and family were Fond du Lac callers Friday.
Mr. and Mrs. Peter Ketter spent last Sunday afternoon at the Henry Ketter home.
Mr. and Mrs. Henry Butzke and family were callers at the Louis Butzke home Thursday.
Mr. and Mrs. Wm. Klubuhn were the guests of Mr. and Mrs. Herman Bartelt Monday evening.
Mr. and Mrs. John Dickliver of Beechwood were callers at the Henry Butzke home Sunday evening.
Mr. and Mrs. Robert Buettner, Mr. and Mrs. Walter Lueke, Mr. Brandenburg, Mr. and Mrs. M. Weasler, Mrs. Alvin Seefeld and Miss Branke spent Friday evening at the Wm. Klubuhn home, it being Mr. Klubuhn's birthday anniversary. At 11 o'clock supper was served by Mrs. Klubuhn and daughter.

Phosphates in acid soils are locked up in unavailable forms, experiments conducted at the University of Wisconsin Show. Such soils should be lined before phosphates are applied.

EDITORIAL

Economic Highlights

Happenings That Affect the Dinner Pails, Dividend Checks and Tax Bills of Every Individual. National and International Problems Inseparable from Local Welfare.

The month of March isn't the only thing that comes in like a lion and goes out like a lamb. The World Economic Conference bested it—welcomed with the glare of ten thousand brass bands, it adjourned to the wheeze of a mouth organ.

The subjects of principal international interest at this time are currency, war debts, tariffs and armaments. The delegates met the situation by eliminating armaments, tariffs, war debts and currency from the discussion calendar! Toward the end it began to look as if the only thing left to talk about was the English weather.

Sole achievement must be chalked to the record of Senator Pittman of Nevada, member of the American delegation. Silver stabilization has long been his principal mission in life. After weeks of effort, Mr. Pittman got a pact signed by the producing nations—Canada, Peru, Australia and U. S.—by which they agree to annually withdraw 35,000,000 ounces from the market. The chief silver holding countries—India, China and Spain—agreed to restrict sales. If the agreements are kept, there will obviously be price strengthening.

The diemal failure of the Conference as a whole, can be said, of course, to the vast disagreement in policy most of the nations present these days, but there is another less apparent factor. Before his election, Mr. Roosevelt displayed a somewhat sentimental notion of foreign relations—European chancelleries rubbed their hands and looked forward to the American government playing Santa Claus much in the same fashion as it did after the World War. Premier McDonald called the Conference as soon as possible after Mr. Roosevelt's victory. But the American delegation, even counting all its mistakes and occasional unconscious humor, was much more hard-headed than was expected. Gold standard nations found President Roosevelt an unrelenting foe of currency stabilization, principal goal of France.

Results of the Conference takes no seer to forecast—the wave of nationalism that has swept the world the past few years will be a breeze compared to a typhoon, when related to the wave of nationalism that is coming.

The Liberty Loan posters of recent memory, have their successor now. It is a blue eagle against a white background, with the letters NRA at top and the motto "We Do Our Part" below. One of the eagle's claws clutches a cog-wheel—the other holds to what might be a modernist's idea of a hand, full of wheat, or bolts of lightning. It is the emblem of the National Recovery Administration, and represents one of the cleverest attempts yet made to produce an end through force of public opinion.

Contrary to many persons' belief, the President has no legal means of forcing wage and work agreements on business. He and his advisors became impatient at the way the codes were going—it took several weeks to produce one, that of the textile industry. In effect, the Government is saying: "Of course, you don't have to do this, but —" And that is a very important "but" indeed. Recalcitrant businesses are apt to find themselves faced with a boycott.

Agreements are being signed by the thousands, and the idea is genuinely popular. Every business is made to feel that it has the president, personally, as a director and advisor. The press irrespective of party, is behind the move, as are chambers of commerce and other organizations. If the plan doesn't work as expected, it won't be.

WAUCOUSA

Mr. and Mrs. Charles Nelson of Fond du Lac called Friday.
Mrs. "Al" Jewson of Campbellsport called on friends here Tuesday.
Miss Esther Baskie of Fond du Lac called on friends here Tuesday.
Mr. and Mrs. George Nelson of Waukegan were village visitors Sunday.
Mr. and Mrs. R. J. Riland, of Fond du Lac, were callers at the Henry Butzke home Sunday with relatives in the city.

Miss Loraine Engle, who has been spending the past week with her family here, returned to her home in Fond du Lac Sunday.

Asked For Teamwork and Cooperation

President Roosevelt, and Recovery Administrator Hugh S. Johnson, demonstrated exactly what they meant about teamwork in their handling of the National Recovery Administration program and are now working much satisfaction as one after another industrial division adopt start operation. Photo shows the President receiving congratulations from Mr. and Mrs. Hugh S. Johnson on his recovery address.

Save Money with an ELECTRIC FENCE

That extra fall pasture is easily fenced off in a few hours with the "GENGLER" ELECTRICAL FENCING UNIT. You save money on wire, on posts, on your time; on wasted oil along the fence lines, and have a safe sure boundary for cattle, hogs and horses. Just use stakes instead of posts and a single strand of wire. The complete new improved model ready to plug in, sells for \$19.50. Write for circular.

(Reg. U. S. Pat. Off. Serial No. 644125 and approved by the Wisconsin Industrial Commission)

KETTNER

WHEN you see that signature on a cartoon in these columns look carefully at the cartoon. It will have been drawn by M. G. Kettner, one of the leading cartoonists of America. We are proud of the fact that he is numbered among the contributors to our columns, and know that his work appeals to all of our readers. In a kindly way he pictures our kind of "folk" and his cartoons are never of the offensive type. Call them to the attention of your friends.

The Motorist, Who Takes Chances

You see them on streets and highways every day—motorists who take chances.

You see them turning corners at high speeds. Or stealing another car's right of way. Or passing on hills and curves. Or driving on the wrong side of the road. Or cutting in and out of thick traffic. Or coming roaring into intersections and road junctions without either side. Or operating at speeds which are obviously higher than are safe under driving conditions of the moment. And, every once in a while, you see such a motorist cause an accident. Perhaps there is little damage done. Or perhaps a life is lost and valuable property is needlessly destroyed.

The reckless motorist comprises ten per cent or less of the driving population. But he causes ninety per cent of the accidents. If the reckless drivers simply injure each other it wouldn't be particularly important to the rest of us. But they seldom do that—they maim and kill the careful, the competent, the prudent. And you never know who's going to be next.

This year about thirty thousand people are going to be killed because someone was careless, reckless, discourteous. Not one of a thousand of those deaths is really due to an unavoidable accident—an occurrence which is almost as rare as the dodo. They can all be prevented. And they will when there is a concerted public drive against those who make places of carnage out of public highways.

The proportion of Wisconsin's cheese manufactured into the larger styles such as bats, twins, and cheddars, appeared to be decreasing up to 1922, at which time the trend was reversed and these large styles increased sharply from 15 per cent of the total output in that year to 38 per cent in 1928, market studies show.
