

It's the Talk of the Quilting Bee

It's most certainly the talk of the quilting bee—this quaint Pine-apple pattern! And why wouldn't it be? With nearly all the patch pieces the same width, you can cut your fabric into strips and

Pattern 5591

snip off pieces as needed. Easily made, you start from the center and sew round and round till the block is done.

In pattern 5591 you will find the Block Chart, an illustration for cutting, sewing and finishing, together with yardage chart, diagram of quilt to help arrange the blocks for single and double bed size, and a diagram of block which serves as a guide for placing the patches and suggests contrasting materials.

To obtain this pattern, send 15 cents in stamps or coins (coins preferred) to The Sewing Circle Household Arts Dept., 259 W. Fourteenth St., New York, N. Y.

Write plainly pattern number, your name and address.

Inspiring Good Will

Those who aspire to leadership today must realize that conciliation often is wiser than coercion; that it is more important to inspire good will than instill fear, that workers are not cogs in the machinery, but human beings of like flesh and blood and aspirations as themselves. — B. C. Forbes.

To Alkalize Acid Indigestion Away Fast

People Everywhere Are Adopting This Remarkable "Phillips" Way

The way to gain almost incredibly quick relief, from stomach conditions arising from overeating, is to alkalinize the stomach quickly with Phillips' Milk of Magnesia.

You take either two teaspoons of the liquid Phillips' after meals; or two Phillips' Milk of Magnesia Tablets. Almost instantly "acid indigestion" goes, gas from hyperacidity, "acid-headaches"—from over-indulgence in food or smoking—and nausea are relieved. You feel made over; forget you have a stomach.

Try this Phillips' way if you have any acid stomach upsets. Get either the liquid "Phillips" or the remarkable, new Phillips' Milk of Magnesia Tablets. Only 25¢ for a big box of tablets at drug stores.

ALSO IN TABLET FORM: Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.

By ELMO SCOTT WATSON

DO YOU recall it now—that poem called "The Presidents in Rhyme" which schoolboys and schoolgirls who were "good at memorizing" used to rattle off so glibly in history class or on those Friday afternoons when "speaking pieces" was the order of the day? It was a long string of couplets, you remember, which listed the Presidents in order and started off with "First stands the lofty Wash-

ington. That noble, great, immortal one."

Each time a new President was elected some self-appointed "poet laureate" added an appropriate couplet for each one. To date 31 Presidents have thus been listed in order, ending with:

"And now a Roosevelt we see Not Theodore but Franklin D."

Will the poem stop at that point for the next four years or will there be another name to be celebrated in rhyme after November 3—the name of Alfred M. Landon? It won't be long now until we know the answer to that question. But whichever way the election results, the collectors of "Interesting Facts About Our Presidents" will have some new items to add to their lists.

If Landon Wins. If Alfred M. Landon is elected this year, he will be:

The first President bearing the name of Alfred.

The first governor of a trans-Mississippi state.

The first elected from the state of Kansas.

The first engaged in the oil industry.

(The first was James Buchanan).

The second born in Pennsylvania.

The second elected from the trans-Mississippi West (The first was Herbert Hoover).

Although Landon will be the first governor from a Western state to go to the White House, he will be the 15th state executive to be promoted to executive of the nation. The others were Mon-

roe, Jackson, Van Buren, William Henry Harrison, Tyler, Polk, Johnson, Hayes, Cleveland, McKinley, Theodore Roosevelt, Wilson, Coolidge and Franklin D. Roosevelt.

Landon was born in Pennsylvania, but Ohio has some claim to him as one of her "native sons" who became President. For the Landon family were living in Ohio at the time and only the fact that his mother returned to her parental home in Pennsylvania a short time before his birth prevented his being "born a Buckeye." If, in the event of his election, Ohio decided to make good her claim to him she would then have eight Presidents—Grant, Hayes, Garfield, Benjamin Harrison, McKinley, Taft, Harding and Landon. This would put her ahead of Virginia, "the Mother of Presidents" with her seven: Washington, Jefferson, Madison, Monroe, William Henry Harrison, Tyler and Wilson.

Landon's election also would add to our list of soldier Presidents. His service as a lieutenant in the chemical warfare service during the World war would place his name in the list along with these men who served their country in the army during a war: Washington, Monroe, Jackson, William Henry Harrison, Taylor, Pierce, Lincoln, Grant, Hayes, Garfield, Benjamin Harrison, McKinley, and Theodore Roosevelt.

Young Presidents.

The success of the Kansas governor on November 3 would also add to the list of our "young Presidents," that is, under fifty years of age. Landon is forty-nine, the same age as James K. Polk and James A. Garfield when they were elected. Franklin Pierce was forty-eight, Grover Cleveland was forty-seven, U. S. Grant was forty-six and Theodore Roosevelt was the youngest of all—forty-two. Both nominees this year, Landon at forty-nine and Roosevelt at fifty (when he was elected) are under the average age of their predecessors on inauguration—fifty-four. Henry Harrison was the oldest—sixty-eight—and four others were over

sixty. They were John Adams, Jackson, Taylor and Buchanan. If Landon wins it will mean a Methodist in the White House instead of an Episcopalian and bring the score of that sect up to five as compared to the Episcopalian's nine and the Presbyterians' seven. Three Presidents have been Unitarians, two of the Dutch Reformed faith, one Baptist, one Disciple, one Congregationalist and one Quaker.

Thomas Jefferson was classed as a Liberal and a noted biographer declares that he was a believer in Christianity, although not a sectarian. While President Johnson was not a church member he was a Christian believer and his wife was a Methodist, resulting in him being accredited to that faith.

The Presidents who were Episcopalian were Washington, Madison, Monroe, Harrison, Tyler, Taylor, Pierce, Arthur and Franklin D. Roosevelt. Those claimed as Presbyterians were Jackson, Polk, Buchanan, Lincoln, Cleveland, Harrison and Wilson. The Methodists were Johnson, Grant, Hayes and McKinley. John Quincy Adams, Fillmore and Taft were Unitarians. Van Buren and Roosevelt were of the Reformed Dutch faith. Harding was a Baptist, Garfield a Disciple, Coolidge a Congregationalist and Hoover a Quaker.

Seventeen of the Presidents were of English ancestry, six of Scotch-Irish, two were mostly Scotch and four Dutch descent, one chiefly Welsh and another Scotch and Dutch.

If Landon wins, he will be the sixth President who has married twice. The others were Tyler, Fillmore, Benjamin Harrison, Theodore Roosevelt and Woodrow Wilson. Roosevelt's second marriage took place before he was President. Tyler's and Wilson's while they were President and Fillmore's and Harrison's after they had left office.

If Roosevelt Wins.

If Roosevelt wins, he will be the eleventh president who was successful in seeking re-election. The others were Washington, Jefferson, Madison, Monroe, Jackson, Lincoln, Grant, Cleveland, and Wilson. Theodore Roosevelt

and Coolidge are not included in that list because, although "re-elected" while serving as President both attained that office the first time through the death of their predecessors. Of the ten Presidents who were re-elected, eight served two complete terms. The second terms of Lincoln and McKinley were cut short by the bullets of assassins and William Henry Harrison died after a month of his second term.

Six Who Failed.

If Roosevelt is defeated he will be the seventh President who has sought re-election and failed to win it. The others were John Quincy Adams, who was defeated for a second term by Andrew Jackson, whom he had defeated when he won his first election; Martin Van Buren, who was defeated by William Henry Harrison, whom he had previously beaten; Grover Cleveland who lost to Benjamin Harrison in 1893; Benjamin Harrison, who was defeated by Cleveland; Theodore Roosevelt, who after serving out McKinley's term, won in his own right in 1904 but was defeated by Wilson when he tried it again in 1912; and Herbert Hoover who lost to Franklin D. Roosevelt in 1932.

When Roosevelt was elected in the year he became the fourth President born in New York and elected from that state, Martin Van Buren, Millard Fillmore and Theodore Roosevelt being the other three. However, he was the sixth President elected from the Empire state, since Chester A. Arthur, who was born in Vermont, and Grover Cleveland, a native of New Jersey, were residents of New York when they went to the White House. Roosevelt is also the third New York governor to go from the executive mansion in Albany to the White House. The other two were Van Buren and Theodore Roosevelt. Roosevelt's election added one more to the "family names" in the Presidency—John Adams and John Quincy Adams, William Henry Harrison and Benjamin Harrison, and Theodore Roosevelt and Franklin D. Roosevelt.

Puttering Around the House—Time-Wasting Work of Putting Away Things Others Have Used

WHEN a family is orderly, no one has to do much puttering about. When the members are not particular where they put their things, it becomes the undesirable duty of some person to spend much time in just this very thing, puttering. Hours are wasted daily in such trivialities as gathering up newspapers spread about, picking up and putting away gloves, hats, scissors, thimbles, pencils, etc. Whatever it may be that has been in use, and not put away by the user, or has been put in the wrong place, must be placed where it belongs or the house would reflect poor housekeeping.

Nondescript Tasks. The time given to these nondescript jobs should be given by those who leave the work to others. Putting things away is part of the job connected with using the things, just as much as getting the things out, is part of it. The work is regular and legitimate and only becomes an annoyance when left for the wrong person to do.

Left-Over Jobs. No person wants her time frittered away doing the left-over jobs of others. Nobody enjoys having a person puttering around, either. It is distracting to attention, and disturbing to the nerves. From both the angle of the person who putters about and those who have to endure the annoyance of such activity, there should be some remedy found.

Remedies Suggested. Mothers can teach their children to put their playthings away when through with them. This

Household Questions

It is better to water evergreens and shrubs well a few days before transplanting. They will be transplanted more successfully if full of moisture.

Cover small delphinium plants with excelsior or pine boughs before putting on dried leaves. They do not pack or stay damp as leaves do.

In washing painted woodwork use a pail of lukewarm water to which has been added about five tablespoons of kerosene oil. Wipe with a dry, clean cloth.

For Russian dressing, mix two tablespoons of chopped dill pickles, two tablespoons chopped ripe olives, two tablespoons chili sauce and one tablespoon of catchup to one-half cup of mayonnaise. Serve on lettuce or vegetable salads.

To polish a table that has become spoiled by hot dishes, apply a few drops of essence of peppermint with a clean cloth and rub briskly.

Never allow cold water to run into an aluminum pan while it is hot. If done repeatedly the rapid contraction of metal will cause pan to warp.

Salad dressings made from fruit juices and mixed with chopped dried or preserved fruits make delicious fillings for sweet sandwiches.

When ironing ecru linens always iron on the wrong side. Ironing them on the right side makes them look faded.

When whisk brooms have become worn, cut them down for sink brushes.

A teaspoonful vinegar beaten into boiled frosting when flavoring is added will keep it from being brittle or breaking when cut.

GRADE SCHOOL NOTES

Ray Keller from Batavia has just
entered the second grade.

The primary children took a field
trip to study the science of fall and
the way seeds travel.

The fourth grade has completed the
unit in Geography on Belgian Congo.

The fifth grade completed the Geo-
graphy unit of the New England States.

The pupils in the intermediate room
are starting a Health Project on clean-
ing teeth, using a clean handkerchief,
and having clean fingernails.

The grammar room enjoyed a field
trip on Friday afternoon. They identi-
fied autumn flowers, weeds, and trees
found in the Otto Backus woods.

The sixth grade has completed the
study of the Greeks and has begun the
study of Ancient Rome.

The seventh grade has started the
unit on area and volume in arithmetic.

The eighth grade is studying the
"Vision of Sir Launfal."

SCHOLASTIC HONOR ROLL

The high school students, who have
made grades of A or B in all of their
subjects during the past six weeks are
placed on the scholastic honor roll. B
is assigned to numerical grades of 87-
93 and A from 94-100.

By classes the honor students fol-
low:

FRESHMEN—Alice Koepsel, Curtis
Romaine.

SOPHOMORES—Annette Belke,
Beulah Westerman.

JUNIORS—Pearl Hon, Audrey
Koepeke, Anita Mertz, Margaret Muenk,
Charlotte Romaine, Ruth Schief.

SENIORS—Dorothy Becker, Ruth
Mary Fleischmann, Viola Hawig, Jean-

ette Krautkramer, Jeannette Werner.
Ruth Mary Fleischmann and Anita
Mertz were the only pupils in the
high school to receive straight A's for
their work.

IN THE CLASS ROOMS

The Social Problems class is study-
ing Scientific Thinking, which includes
the method and growth of science.

Members of all the history classes
are subscribing to the "Scholastic,"
which is a weekly, social studies mag-
azine for high schools. Through our
study of this magazine, we expect to
study the events of the world as well
as the course of national affairs. An-
other interesting section of each addi-
tion is the "Who's Who."

The Bookkeeping class is studying
the work sheet which is used as a ba-
sis for preparing the adjusting and
closing entries at the close of each
business period.

The Senior Shorthand class is hav-
ing a complete review of the Gregg
Manual before taking up advanced
work.

The beginning of the second six-
weeks period introduces new topics of
study in the English classes.

The freshmen class has begun the
study of the use of the library. This
will help them to get better acquaint-
ed with the various reference books,
and the use of other books in the li-
brary.

The sophomore and senior classes
have begun the study of the mechan-
ics of grammar.

"How the trend of biographies has

changed with the progress of the var-
ious periods in history and literature,
is being studied by the junior class.

In Manual Training class, which is
conducted by Mr. Furlong, the boys
are still making candlestick holders,
end tables and other articles.

AROUND SCHOOL

Leroy Krahn, son of Mr. and Mrs.
Herbert Krahn, and a sophomore in
our school, withdrew last Friday so
that he might move with his parents
to Milwaukee. We are glad that Leroy
will continue his schooling in Custer,
Milwaukee's north side high school.

The first six-weeks period closed
last Friday, October 16th. Report cards
were issued on Wednesday of this
week. Parents are requested to care-
fully consider the report of their child
or children.

The broadest smiles Monday were
worn by the N. Y. A. girls and boys
who received their first checks on that
day.

SPORTS

Basketball practice started and twen-
ty boys responded to Coach Gibson's
first call. The coach is having exer-
cises to get the boys in shape.

SOCIALS AND DRAMATICS

The annual return party given by
the Freshmen in honor of the Sopho-
mores, will be held in the high school
gymnasium on Friday, October 23. The
student body and alumni are most cor-
dially invited. Admission will be 15
cents for both students and alumni.
The party will begin at 8 o'clock. Light
refreshments will be served.

To Amend Federal Warehouse Act

"As part of the plan for removing
the depressing effect of surpluses, I
shall propose an amendment to the
federal warehousing act so that re-
serves of feed, such as corn, can be
carried on the farm. . . . Under this
amendment the farmer who
stores his grain on the farm in such
a way as to make it insurable will
be entitled to a federal warehouse
receipt. He then will be eligible to
borrow from any banking agency.
He will enjoy the same credit facili-
ties as are available to owners of
grain stored in terminal markets."

A Mortgage

The individual family share of the

Labor Unanimous Behind Roosevelt on Fine Record

BY DANIEL J. TOBIN
Labor Division, Democratic National Committee

I have been asked why laboring men and women in this country, both organized and unorganized, are practically unanimous in their support of President Roosevelt and definitely against the election of Gov. Landon.

The answer is that labor has no choice—the issue is too clear cut. In one of the great crises in history, President Roosevelt took the courageous course of fighting the depression by providing food for the hungry, clothes and shelter for the needy, and work for the unemployed. In other words, he expanded instead of contracting those social services for the underprivileged which are the highest boast of civilized men and women.

And throughout it all, the chief executive found time to wage a long and determined battle for the workers and toilers—to protect their interests, to bring them shorter hours, better working conditions and higher pay. The record speaks for itself.

The policy pursued by Gov. Landon was the reverse. He slashed salaries far below those prevailing in other states, he cut down on schools and hospitals, he failed to have legislation enacted to improve the condition of working men and women and he did practically nothing to aid the unemployed and the distressed until the federal government came in and took over the burden.

Gov. Landon has failed to bring about the establishment of a minimum wage law for women and children in Kansas. He has failed to sponsor a program establishing decent, modern labor standards in his own state. A man is best known by the people of his own community and it is a striking fact that labor organizations in Kansas are overwhelmingly against Gov. Landon's election.

Conditions Bad

Living conditions in the lead and zinc mining areas of Kansas are notoriously bad. The workers suffer from silicosis, a form of lead dust poisoning, and as a result the average working span of the individual is only 10 years. Living conditions are extremely bad and pay scales are low. Yet Gov. Landon has never sponsored legislation to correct those conditions.

The working men and women of America are not selfish. They want decent standards of health and living conditions for themselves and for their people as well. The workingmen want the farmers to be prosperous. They want the school teachers, the doctors and dentists, the business men, and all other classes to enjoy those standards of living which should prevail in a country as wealthy as our own.

But the experience of the past several years has shown that if one class of our citizens is allowed to lag behind, the whole community still suffers.

Roosevelt Only Choice

The reports of Kansas school authorities show that almost 7,000 school teachers are paid an annual salary of less than \$9 a week. The wage scales of workers employed at state institutions in Kansas are likewise very low.

Labor is well aware that every sweatshop employer in the United States and every sworn enemy of labor in the ranks of employers is lined up behind Gov. Landon's candidacy. Working people are not going to be foolish enough to join the ranks of their sworn enemies in this campaign.

As I said at the beginning, the issue is clear cut. For the good of their country, working men and women are supporting President Roosevelt for re-election.
