NUMBER 27

School Forensic Contests Held

The annual Kewaskum High school forensic contest was held on Monday afternoon at 2:45 and in the evening at 7:30, in the school auditorium. As a special attraction the newly organized high school band made its first real public appearance by providing several selections before and during the contests. The contest was divided into two parts because of the large number of students participating.

In the afternoon the extemporaneous reading and oratorical contests were held. Four girls participated in the reading contest. Violet Eberle was awarded first place and Alice Koepsel second. Only two people took part in the oratorical contest. Ralph Krautkramer was awarded first place and Mona Mertes second.

The evening contest consisted of serious declamations, extemporaneous speaking and humorous declamations. In the serious declamations Annabelle Grotenhuis was first and Ruth Schleit second. Others were Claudia Beisnitzer and Constance Miske. In extemporaneous speaking Margaret Muenk placed first and Curtis Romaine second. Others entered were Rita Felenz and Eva Mae Buss. In humorous declamations Russell Belger was awarded first and Evelyn Krautkramer second. Other pupils speaking were Kathleen Schaefer and Mildred Backhaus.

All those who participated in the forensic contests should be complimented, especially the freshmen. Due to the large turn-out of the freshman class, there should be many winners for Kewaskum High school in the future as those students who take part in forensics when they're freshmen will have a better chance to win by the time they are seniors.

ANNABELLE GROTENHUIS WINS LEAGUE CONTEST AND GOES TO SUB-DISTRICT SATURDAY

The Tri-County Forensic league contest was held at Campbellsport on Wednesday of this week with four schools competing: Lomira, Slinger, Campbellsport and Kewaskum.

The local school was allowed to send two representatives to each contest except to the declamatory contests, to which only one representative could be sent for each of the humorous and dramatic (or serious) divisions. Violet Eberle and Alice Koepsel represented the school as extemporaneous readers; Ralph Krautkramer and Mona Mertes as orators; Margaret Muenk and Curtis Romaine as extemporaneous speakers; Annabelle Grotenhuis as dramatic declaimer, and Russell Belger as humorous declaimer.

Annabelle Grotenhuis was the only first place winner from the local school and as a result will go on to Waupun Saturday of this week to take part in the sub-district tournament. Lomira was the high scorer at Campbellsport this year. It went home with four of the five trophies awarded.

Rev. Ph. J. Vogt Stricken With Illness Tuesday

The Rev. Philip J. Vogt, for many years pastor of Holy Trinity Catholic church in this village, was stricken with a hemorrhage early Tuesday morning of this week. Rev. Vogt was removed to St. Agnes hospital, Fond du Lac, where he has been confined since. Although quite weak, Father Vogt is improving fairly. We sincerely wish for a very rapid recovery and early return of the beloved pastor.

During Father Vogt's absence a Capuchin priest from Mt. Calvary will conduct services in the church. The Capuchin Father will arrive here Saturday to hear confessions scheduled for the afternoon and evening and will read mass Palm Sunday morning at 8:30 a. m. There will be no mass on Monday through Wednesday but the Capuchin will arrive Wednesday to conduct Holy Week services on Maundy Thursday, Good Friday and Holy Saturday, as well as on Easter Sunday and Monday.

JOS. MILLER COMPLETES COURSE IN EMBALMING

Joseph Miller, son of Mr. and Mrs. Edw. F. Miller, last Friday completed a six months' course in embalming and funeral directing at the Wisconsin Institute of Mortuary Science, Milwaukee. After passing a state board test, he will take later this spring. Joseph will become a licensed embalmer and will be in the employ of his brother, Edw. F. Miller, of Miller's funeral home.

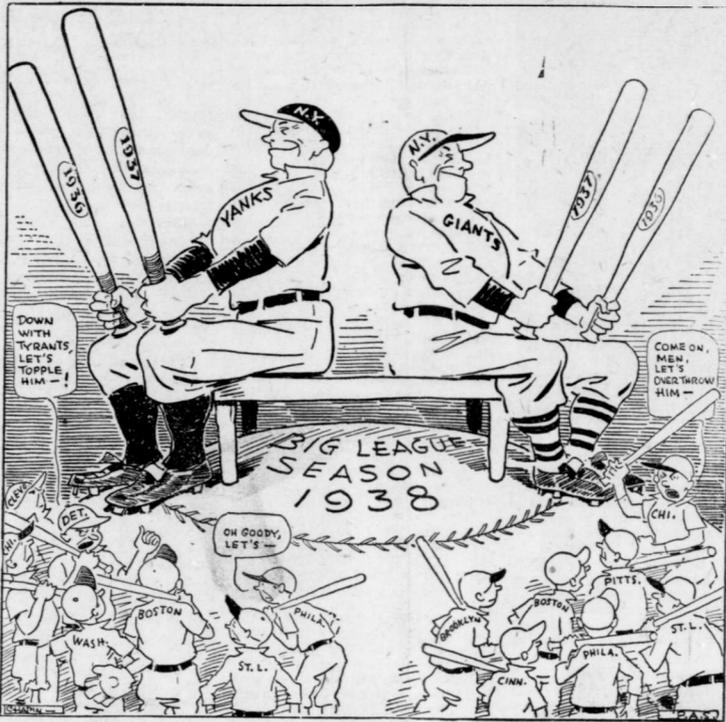

OPERATION

George Herman Jr., 13, of Route 3, Kewaskum, underwent an appendicitis operation at St. Joseph's Community hospital, West Bend, Friday, April 1.

ANNOUNCEMENT

Edw. F. Miller wishes to announce that the building formerly occupied by Miller's Electric Store now will be used as an annex to Miller's Furniture Store. Frank Felix, radio service, will continue to occupy his present quarters in the rear of the building.

Dictators, American Style

Carl F. Schaefer Defeats Alois Wietor In Only Opposition On Village Ballot

TOWNS OF KEWASKUM, AUBURN AND WAYNE PROVIDE MORE OPPOSITION AT ELECTION

Out of a total of four hundred and some possible votes only 207 were cast at the village of Kewaskum election on Tuesday of this week. This vote was larger than expected considering the only opposition was for clerk. All village officers were re-elected. Carl F. Schaefer was re-elected clerk by 121 votes over his opponent, Alois Wietor. The latter's name was not on the ticket but was written in. John Marx, treasurer, received the largest number of votes, 191.

Complete results are as follows:

PRESIDENT—A. L. Rosenheimer, Jr., 170

TRUSTEES (Three)—John Van Blarcom 176; Arnold Martin 175; Bernard Seil 172

CLERK—Carl F. Schaefer 162; Alois Wietor 41

TREASURER—John Marx 191

ASSESSOR—Joseph M. Mayer 185

SUPERVISOR—John F. Schaefer 182

JUSTICE OF THE PEACE (Full term)—Fred Buss 10; Roy Schreiber 6

CONSTABLE—Fred Buss 27

TOWN OF KEWASKUM

One hundred ninety-two votes were cast at the town of Kewaskum polls in the Woodmen hall, village. In the only opposition Henry Muckerheide was re-elected chairman over Louis C. Backhaus, and Aug. Schaefer was defeated in the race for supervisors. It was voted to raise a percentage of three mills for road purposes out of the payable property taxes of 1938. Further voting called for the reconstruction of the Thull and Praber roads located in the southeast corner of the town. These roads will be widened, graded, etc. Officers elected were:

CHAIRMAN
Henry Muckerheide134
Louis C. Backhaus 56

SUPERVISORS (Two)
Wilmer Prost122
Fred Klein, Sr.110
August Schaefer 33

CLERK
Alfred H. Seefeldt167

TREASURER
John Etta165

ASSESSOR
Ed. J. Campbell155

JUSTICE OF THE PEACE (Full term)
Christ Backhaus

JUSTICE OF THE PEACE (One year)
Carl Mellah

CONSTABLES (Two)
John Bremser and Ervin Ramthun

TOWN OF WAYNE

The town of Wayne ballot furnished a great amount of opposition. A large vote of 348 was cast. In a close race Hubert Klein succeeded Fred Pamperin as assessor. Chairman John C. Mayer was re-elected over George Peter by 71 votes. John Spoerl and Herman Keil were elected supervisors over their two opponents. Officers elected are:

CHAIRMAN
John C. Mayer205
George Peter134

SUPERVISORS (Two)
John Spoerl189
Herman Keil156
Mike Darmody134
Oscar A. Faber122

CLERK
Paul C. Moritz284

TREASURER

Oscar Boegel264

ASSESSOR
Hubert Klein173
Fred Pamperin155

JUSTICE OF THE PEACE (Full term)
Philip Volm244

CONSTABLES (Three)
Wilmer Hawig185
Raymond Schultz177
Herb. Schmitt174

TOWN OF AUBURN

Another heavy vote, with much opposition was cast in the town of Auburn. Three hundred ninety ballots were marked. The biggest upset was that of T. A. Dieringer defeating Albert Kreif as assessor by 50 votes. Reuben Backhaus was re-elected clerk over Alvia Krahn by 72 votes and Jac. J. Felenz was re-elected treasurer over Jos. Schiltz by 72 votes. The votes follow:

CHAIRMAN
William Wunder308

SUPERVISORS (Two)
Joe Voltz282
Henry Butzke212

CLERK
Reuben Backhaus226
Alvin Krahn154

TREASURER
Jac. J. Felenz224
Jos. Schiltz152

ASSESSOR
T. A. Dieringer203
Albert Kreif153

CONSTABLE
Art. Petermann

Mrs. Mathilda Backhaus Dead

Mrs. Mathilda Backhaus, 66, well known resident of this village for many years, was found dead at her home on the River road, near the northeast limits of Kewaskum, at 11:30 a. m. yesterday, Thursday, April 7, by her brother, Otto Backhaus. She was born in 1872 and had reached her 66th birthday on March 4.

The body will lay in state at her home until Sunday afternoon, when funeral services will be conducted from the home at 2 p. m. Rev. Gerhard Kanless will officiate and burial will be made in the St. Lucas Evangelical Lutheran cemetery.

A complete obituary will be published next week when further details will be available.

NOTICE

I will collect garbage, tin cans, etc. on Thursday, Apr. 14th, instead of on Friday, Apr. 15, on account of Good Friday. Citizens of Kewaskum should govern themselves accordingly.
Supt. of Public Works

MOVE TO HUSTISFORD

Mrs. Clara Kudek, a resident of the village many years, and daughters, Florence and Evelyn, who have been living in the upper flat of the Reinders building on Main street, last Thursday moved to Hustisford, where they will reside in the future.

Raw cabbage is said to rank with orange and lemon juice as a source of vitamin C.

Bills Are Allowed By Village Board

Kewaskum, Wis., April 4, 1938
The Village Board of the village of Kewaskum, Wis., met in regular monthly session with President Rosenheimer presiding and the following members present: Trustees Mertes, Nolting, Sell, Van Blarcom and Weddig. The minutes of the previous regular and adjourned meetings were read by the clerk and approved as read.

Motion was made by Trustee Mertes, seconded by Trustee Weddig and duly carried, that the following bills be allowed and paid as recommended by the finance committee:

GENERAL FUND	
Wis. Gas & Electric Co., street lighting, vil. hall, sewer pump....	\$124.39
Kewaskum Statesman, publishing proceedings	65.00
Peter Pirsch & Sons Co., new fire truck	3236.50
Val. Peters, material for fire department	2.50
H. J. Lay Lumber Co., material for village	21.77
H. Niedecken Company, supplies for clerk	1.49
Neenah Foundry Co., manholes and catch basins.....	58.80
Turbine Sewer Machine Co., sewer rods	21.66
Northern Gravel Co., sand.....	2.70
Wm. Schaab, superintendent salary and storage.....	78.00
Otto Ramthun, hauling rubbish	4.05
Russell G. Oswald, relief administration	10.30
Mid-West States Telephone Co., telephone	2.20
Louis Bunkelman, labor.....	1.50
Chas. Meisnecke, labor.....	12.30
Ernst Becker, labor.....	31.85
Wm. J. Schultz, labor.....	19.25
Northern Transportation Company, freight50

WATER DEPARTMENT

Wis. Gas & Electric Co., power and light	65.35
Kewaskum Statesman, publishing report	5.70
H. C. Miller Co., ledger sheets	2.77
Aug. E. Koch, express.....	.53

There being no further business, motion was made by Trustee Nolting, seconded by Trustee Van Blarcom and duly carried, that the board adjourn sine die.
Carl F. Schaefer,
Clerk

BIRTHDAY ANNIVERSARIES

—Mr. and Mrs. John Kleineschay were at Sheboygan Friday where they helped celebrate the 55th birthday anniversary of the former's mother, Mrs. Mary Kleineschay, and also visited the former's aunt.

—The following helped celebrate the birthday anniversary of Walter Belger on Sunday evening, Apr. 3: Mr. and Mrs. Harvey Mehlos and son of Milwaukee, Mr. and Mrs. Paul Belger of Boltonville, Mr. and Mrs. Louis Kocher, Mr. and Mrs. Herman Belger and son, Mr. and Mrs. Roy Zuehlke and daughter, Mr. and Mrs. Elmer Zuehlke and daughter, Mr. and Mrs. Arno Mathies, Mr. and Mrs. Byron Klein, and Rev. and Mrs. Gerhard Kanless.

Twin Weds Twin In Sunday Ceremony

In an early spring wedding ceremony Miss Edna Gessner, daughter of Mrs. Emilie Gessner of Kewaskum, R. R., became the bride of Ray Reysen, son of Mr. and Mrs. Henry Reysen of route 1, Kewaskum. The nuptials were performed Sunday, April 3, by the Rev. C. J. Gutekunst in the St. John's Evangelical Lutheran church, New Fane.

The bride was attended by her twin sister, Miss Ella Gessner, as maid of honor. Bridesmaids were Miss Edna Reysen, sister-in-law of the bride, Miss Leona Volks, cousin of the bride, and Miss Gertrude Otto, a friend.

The bridegroom was attended by his twin brother, Roy Reysen, as best man. The bride was attired in a beautiful white satin gown with a train. Her long veil had a pearl wreath and orange blossoms. Her bouquet consisted of snapdragons, swansonia and roses. The maid of honor wore a peach net gown with a face veil. She carried snapdragons, daffodils and sweetpeas. Of the bridesmaids Miss Edna Reysen was dressed in an aqua blue georgette gown, Mrs. Edwin Gessner in a light blue georgette gown, Miss Volks in an aqua blue gown with pleated skirt of sheer chiffon, and Miss Otto in a pink gown with pleated skirt of sheer chiffon. All wore face veils with wreaths to match and carried colonial bouquets of mixed flowers.

Following the ceremony social entertainment was held at the home of the bride's mother, which was handsomely decorated with blue, peach and white crepe paper. About 70 guests were present. Mr. and Mrs. Reysen will reside at Beechwood, where the bridegroom is engaged in farming.

LOCAL FIREMEN ANSWER CALL TO ELMORE BLAZE

The Kewaskum fire department was called to the rural village of Elmore at about 5:45 p. m. last Thursday because of a blaze at the Fred Stoll residence, caused by a defective chimney.

The Stoll home was destroyed and for a while the fire threatened the village. While the Campbellsport department was at work on the house, the local firemen protected neighboring homes, who had called them to the scene.

The upper story of the Stoll residence was burned and some of the rooms on the first floor. Furnishings on the first floor were saved but those from the second floor were lost. There was no insurance on the building or contents.

The upper story of the Stoll residence was burned and some of the rooms on the first floor. Furnishings on the first floor were saved but those from the second floor were lost. There was no insurance on the building or contents.

BUSINESS PLACES CLOSED

The business houses in this village will be closed from 12:00 noon to 3:00 p. m. next Friday, April 15th, in observance of Good Friday.

County Motorists To Become Members Of Safety Council

An opportunity will be given 203 Washington county motorists to become members of the Wash. County Safety Council in an honorary and unofficial capacity through the purchase of attractive Washington County Safety Council membership plates to be affixed on or alongside the license plates of automobiles owned by county residents.

These safety council membership plates are now on sale in all communities of Washington county by official members of the council at the low price of 25 cents apiece. Having been previously ordered, the plates were presented for inspection at a meeting of the safety council at Dickel's hotel, Richfield, at 8 p. m. Monday, April 4. The meeting was featured by a fine attendance of members and of the general public.

Numerous plates were sold in Richfield immediately after the meeting. They attractively harmonize with the 1938 automobile license plates and bear the inscription "Washington County Safety Council, 1938, State Highway Commission of Wisconsin." The plates are being sold for the double purpose of creating more interest in safety among the general public and to raise funds in order to allow the safety council to perpetuate the recognized good work it is doing.

That the public is taking an interest in the work of the council was shown when Robert Laubenheimer, a visitor at the meeting, propounded the matter of additional traffic patrol officers for Washington county. He asked what the council could do to obtain more traffic patrol help, giving his opinion that such help is needed as a vital safety factor.

The council replied that it had attempted to secure such help in November, 1936, but that the county board had defeated the proposition of additional county traffic officers. It was decided Monday night that the chairman of the council's five sub-committees and Sheriff Leo Burg should again appear before the county board at its May session to strongly recommend that more traffic patrol officers be authorized for Washington county.

A discussion of driver's license applications for adults brought out the information that these applications can be obtained in this county from Sheriff Leo Burg at West Bend, Arthur Juech, West Bend chief of police, and John Murray, chief of police at Hartford. The state says that applications may be made and tests conducted between the hours of 10 a. m. and 4 p. m. week days, but these officials state that at other arrangements can be made if necessary. Information may also be obtained from these officials concerning the oral examination to be passed by new applicants.

The matter of minors driving automobiles was discussed, and it was shown that between the ages of 14 and 16 minors must have a special permit from the county judge to drive automobiles, these permits being granted for 60-day periods. Drivers above this age limit must have a regulation driver's license, while other minors not in this age classification must be accompanied by an adult licensed motorist seated beside the minor driver in the front seat. No minors are allowed to drive after dark.

M. T. Buckley, county superintendent of schools and a member of the council's education committee, said he would see to it that oral test questionnaires and state traffic regulations are distributed to all pupils in the one and two-room rural schools of the county.

Chairman Harold Riley reported that the state highway commission had been contacted in regard to the installation of bell warning signals at railroad crossings on County Trunks F and P, following failure of two railroads to take action on council requests for warning signals at those crossings. Thus far, the state highway commission has taken no action.

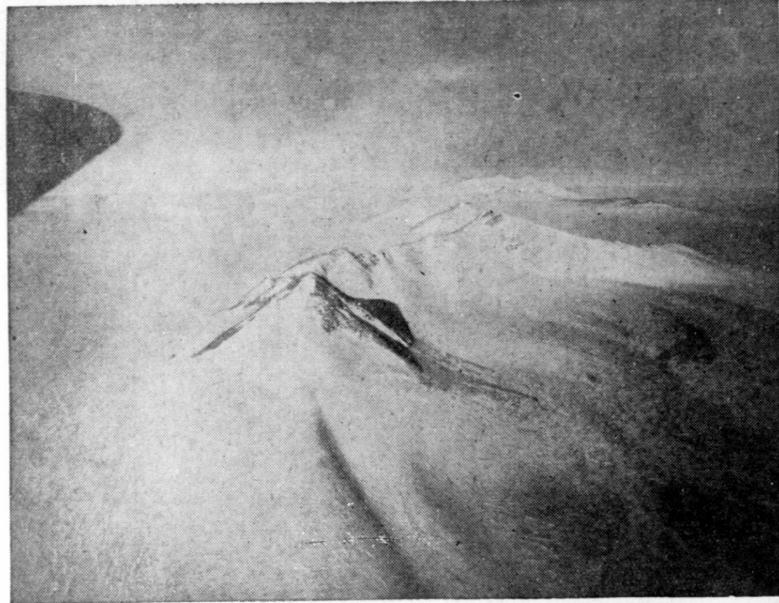

It was voted to hold the next meeting at Slinger at 8 p. m. on Monday, May 2.

BLIND LADY FEATURED AT SALEM CHURCH, WAYNE

On Sunday morning, Apr. 3, the congregation of Salem Reformed church, Wayne, had the privilege of listening to Miss Carol Galareth of the Kansas City School for the Blind. The services were beautified by both the German and English songs she sang. Some of these songs were: "Bless Be Mair," "Beautiful Saviour," and "Take Thou My Hand." She also gave a reading and quoted the twenty-fifth chapter of Matthew. During the services Miss Galareth told about the different schools for the blind and also showed how the blind read by means of the braille system. She also sang a few songs for the children in Sunday school and gave a talk which was very interesting.

Purchasing power of Wisconsin farmers at 85 percent of the pre-war level for February was the lowest recorded in almost three years.

CONQUERING THE POLES

Man Pushes Closer to Heart of 'Weather's Kitchen,' Seeking Short Cut Route Over Top of the World; Russians Pioneer Arctic

By JOSEPH W. LABINE

In 1909 courageous Robert E. Peary trudged to the North Pole. The world praised his conquest of the Arctic but with the same breath questioned: "What good is it?"

That cynical attitude persisted until last May when a group of intrepid Russian scientists and aviators began the most thorough examination of Arctic wastes yet attempted by men, braving untold hardships to gather data about the weather's "kitchen."

Suddenly the whole world has become aware of the potential value that lies within the Arctic and Antarctic circles. As Russia goes to work, the United States looks with renewed interest to Alaska, her own far north province. In Canada, British Columbia seeks to extend her domain to the North Pole. In Great Britain, scientists are mulling over data gathered by the British Graham land expedition to the Antarctic.

Many reasons justify this sudden interest. The fabled northwest passage which Henry Hudson sought may yet be found in the Arctic sea. Aviation progress has made practical such long sustained flights as the two Moscow-California hops last summer. Moreover, who knows what valuable mineral deposits lie beneath the crust of ice and snow that covers Arctic lands?

Antarctic Land Discovered.

In the Antarctic, the recent British expedition discovered that Graham land is not an archipelago of islands as previously reported by Sir Hubert Wilkins, but one great tract of land—a peninsula of the Antarctic continent. Thus an immense tract has been added to the earth's known surface.

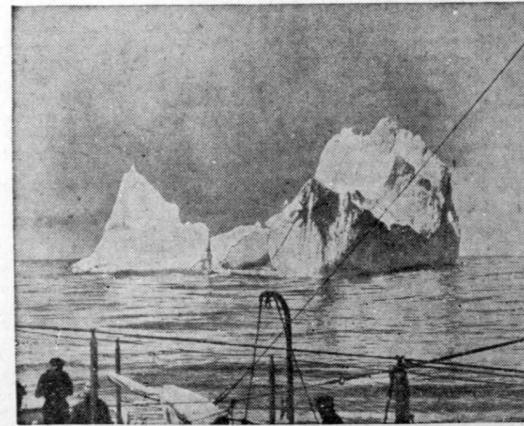

But it is the North pole which commands most interest because of its proximity to North America, Europe and Asia—a potential short-cut across the top of the world.

The Soviet's best scientists are now living in some 60 weather stations along the Arctic coast, helping push back the frontier and open the sea to ships—at least in summer.

Their observations are now supplemented by those of the ice-floe expedition, four scientists who landed near the pole last May and have since drifted slowly southward, to be picked up recently off the coast of Greenland.

Submarines Enter Picture.

Moscow has announced that eventually it will establish a series of weather observatories and landing fields along the proposed polar airway between Russia and the United States. From these vantage points the Soviet will study geography of the Arctic with airplanes, while submarines dive under the ice crust to

Submarines Enter Picture. Alaskan soil several years ago. But she has done little more.

Today, when airways span every continent, there is still no regularly scheduled line between the United States and Alaska, although the Alaskans themselves are more air-minded than their brothers in the states. Last year more than 20,000 residents of the territory made trips by air—almost one-fourth of the entire population! Alaskans realize their territory can be conquered for year-around exploitation only by air.

Private Radio Stations.

In the entire territory there are 21 private radio stations, of which Pacific Alaska Airways (a Pan-American subsidiary) maintains 13, used solely for weather reporting to supplement the present totally insufficient federal service. The United States bureau of air commerce will soon establish modern radio stations at Juneau and Fairbanks, which is the first step in helping conquer America's portion of the frozen north.

Meanwhile, to the immediate east, British Columbia is suffering from growing pains and Premier T. D. Pattullo wants to push its borders to the North pole. Contingent upon agreement with the dominion government, the annexation would include all of Yukon territory and part of Mackenzie, including half the radium-producing Great Bear lake.

Such a territory would give British

explore the frigid seas below.

Dr. Ruth Gruber, an American newspaper correspondent, recently visited the Siberian north which formerly existed only as a home of living death for Czarist political prisoners. Even today the Stalinist government is probably using part of Siberia as a prison for victims of its atrocious purges, but Dr. Gruber found other portions of this vast expanse buzzing with industry.

America has been slow to appreciate the possibilities of Alaska. Her first concrete step was the removal of farmers from sub-marine American lands to more fertile

ABOVE—Captain Amundsen taking observations with a sextant as his Norwegian flag flies at the point determined upon as the exact South Pole. This remarkable photo was taken December 14, 1911, the date Amundsen reached the pole.

BELOW—Every iceberg that menaces shipping in the northern seas was once part of the mighty Polar ice cap, which has drifted southward with so many exploration parties, including the recent Russian expedition under Commander Panapin.

Columbia rich potential mineral sources, plus wealth in water power, fishing, agriculture, fur farming and lumbering.

In a few months the entire world may know what Commander Panapin and his companions discovered on their recent expedition, although the Soviet may elect to keep its information secret.

Gulf Stream at Work.

It is already known that they found a layer of warm water near the North pole, caused by meanderings of the tepid Gulf stream. And, despite the general belief that the Arctic is devoid of life, they had frequent animal visitors.

Many obstacles must be overcome before commercial air routes can be mapped over the Arctic, although aviators used to northern flights claim the atmosphere is much clearer and more favorable for flying than in temperate zones. The biggest aviation obstacle is impracticability of compass devices based on the sun, since the Arctic has no sun part of the year.

But the day may come when Londoners bound for San Francisco or the Orient can fly with perfect safety and comfort via the short-cut route, over the top of the world.

TODAY'S BOOK

Beauty Finds Rest in Death After 'Crisis'

By ELIZABETH C. JAMES

THE role of Hedda Gabler, from Henrik Ibsen's book by the same name, is the glittering star at which many artists of the theater aim their talents. The tragic play unfolds the Nemesis of a cultured group.

The scene is laid in Christiania in the villa of Dr. George Tesman. He has just returned from a six months' wedding tour of the continent. As the play opens, his lovely old aunt is there to welcome him and to see that everything is comfortable for his wife. All the city has talked of his marriage to the beauty, the famous Hedda Gabler.

With an air Hedda enters the stage and meets the aunt. She takes no notice of the attentions shown her or the arrangements made for her happiness. Looking around wearily, she picks up the new, special occasion hat of the aunt, and remarks that she must speak to the maid about being careless with her things. The aunt goes away hurt. Hedda confirms what her husband has suspected, that she is utterly bored.

Lovberg's Story. A friend, Mrs. Elvsted, is announced. With agitation she relates the story of the famous Eilert Lovberg, once a friend of Dr. Tesman, and a genius lately dragged back from the brink of destruction. He has returned to old friends in the city and Mrs. Elvsted fears it may mean old habits. She pleads with Dr. Tesman to help him.

Judge Brack, attorney of her husband, calls on Hedda. Their conversation takes a personal turn, and the judge states that he does not see why Hedda married George. She admits that she does not love him,

IBSEN WAS CENSURED When Henrik Ibsen was eight years old, his father failed in business. The ensuing poverty later appeared in his play, "Peer Gynt."

Ibsen's plays during his lifetime caused a stream of protest. He was so far ahead of his generation that most people could not understand him, so they expressed their opinion in severe censure. Especially was this true of "Ghosts," the play based on inherited social diseases.

The playwright was born in 1828 and died in 1906. He is recognized as one of the giants of the world's literature.

and did not marry him for love, but from weariness with life. The judge states that he has made up his mind to have her himself.

Then Lovberg comes. Alone with her, he takes Hedda's hands in his and murmurs repeatedly, "Hedda Gabler!" He muses on, wondering if she ever loved him, really. She tries to stop his passionate talk, for her husband is in the next room.

Off to the Party. The gentlemen of the story plan to attend a dinner at the home of Judge Brack. Lovberg fears to test his self control on a party, so he decides to stay with the ladies. Mrs. Elvsted is relieved. A sadistic expression comes to Hedda, and she goads him until Lovberg says that he will go to the party. He takes his manuscript with him to read to Dr. Tesman.

Dawn finds Hedda and Mrs. Elvsted still waiting for the men to return. About seven o'clock Dr. Tesman appears, and he talks of Lovberg's book as being the work of genius. He tells of Lovberg's drunkenness at the party and of how he lost his manuscript. Tesman had found the script, which he hands to Hedda. She puts it in her desk.

Later in the day Lovberg comes to see her and tells her that he has lost his book. He mentions Mrs. Elvsted's aid, and speaks of his book as a picture of her pure, white soul. Hedda listens and does not tell him that she now has his work. He calls himself a failure. Feeling her power over him, she hands him a pistol, and suggests that he die beautifully. He leaves.

His words rankle in her mind. The other woman has the real power over him, not she.

Crisis and Death.

The judge calls by his own hands. Hedda shows no reaction. After the first grief, Dr. Tesman and Mrs. Elvsted swear that they will put his notes together and make the book again. They work for hours in concentrated fervor. Finally Dr. Tesman says, "We can work faster in my office, until we finish this we will work there every evening."

Along with Hedda, Judge Brack tells her that he knows more about the death of Lovberg than he has told. He tells her of the lost manuscript, of the gun, and of her relationship with Lovberg.

Going to her piano, Hedda begins to play. With one hand she reaches into her desk and picks up her pistol. A single shot is fired and Hedda slips to the floor.

Sea Gulls "Adopt" Ships Sea gulls sometimes "adopt" a ship and follow it from port to port, even on trips across the Atlantic ocean. At dusk they settle down on the waves and sleep. At daybreak, says a writer in Collier's Weekly, they resume their journey, catching up with the vessel in time for breakfast.

Other Names for Chewing Gum Chewing gum has other names in England—"chewing wax" and "chewing sweet."

WHAT to EAT and WHY

C. Houston Goudiss Noted Food Authority

Relates the Miracle of VITAMINS and Explains Why YOU MUST EAT THEM or DIE

By C. HOUSTON GOUDISS
6 East 39th St., New York.

WE LIVE in the most inspiring age the world has ever known. Chemists grow plants without soil. Doctors snatch men from death with insulin. Surgeons perform incredibly delicate brain operations. And thanks to the amazing discoveries of nutritional scientists, children enter the world with far better chances for long and happy lives, while men and women of seventy are more active and useful than their grandparents were at fifty.

Much of the hard-won knowledge of how to eat so as to increase efficiency, curb disease, and improve the chances for longevity is due to the discovery of vitamins.

VITAMINS DISCOVERED

Twenty-six years ago, a now-famous scientist walked nervously around his laboratory, back and forth—back and forth. He was conducting a nutrition experiment of vast importance. He didn't quite know what he was going to find, but he believed that he was on the verge of a revolutionary food discovery.

The scientist was my friend, Casimir Funk, a brilliant Polish bio-chemist. He had been working on the problem for many years. At last, in the year 1912, his experiments were positive and conclusive. Then he announced to the scientific world that he had discovered a vital force. "This force," said Funk, "I have called vitamine, because it is necessary to life."

Thus, the word "vitamin" came into being, along with the first knowledge of these minute but powerful factors which exert such a tremendous influence on human health and happiness.

SPARK PLUGS OF NUTRITION

Other bio-chemists throughout the world—including Sir Frederick Gowland Hopkins in England, and Hart, Humphrey, Babcock, Steenbock and McCollum in the United States—had been working on the same problem that Funk had partially solved. They knew that the first step was to find out how vitamins affected the human body, and that the second step was to discover what foods contained these vital substances.

And so there began a long series of experiments in the laboratories of great universities all over the world, which demonstrated what happens when a diet is deficient in any of the vitamins, and proved that if laboratory animals are wholly deprived of vitamins for a short time they will die.

These experiments are of the utmost significance to every homemaker, because the same thing happens to human beings as to experimental animals. Today our knowledge of vitamins has progressed to such a degree that it is possible to state the exact requirement for most of the vitamins and to designate the foods from which adequate quantities can be obtained.

RESISTANCE AND VITAMIN A

To date, six vitamins have been identified. Vitamin A promotes growth and builds resistance to disease. It is necessary for the health of the mucous membranes of the body and helps to guard against infections of the respiratory and alimentary tracts. It influences the health of the hair and skin, is necessary to prevent a serious eye disorder known as night blindness, and is essential for the formation of healthy teeth.

Vitamin A is found in milk, butter, margarine that has been reinforced with vitamin A concentrate, egg yolk, cod-liver oil, thin green leaves and yellow fruits and vegetables such as carrots, sweet potatoes, apricots and bananas.

APPETITE AND VITAMIN B

Vitamin B promotes appetite, aids digestion, prevents a serious nerve disorder. It is essential to the maintenance of a good digestion, which is vitally important if the body is to obtain full benefit from the food consumed. This vitamin is closely related to the energy metabolism, and the requirement increases with the rate of growth and with increased energy expenditure, so that growing

Have You a Question? Ask C. Houston Goudiss. C. HOUSTON GOUDISS has placed at the disposal of readers of this newspaper all the facilities of his famous Experimental Kitchen Laboratory in New York City. He will gladly answer questions concerning foods, diet, nutrition, and their relation to health. You are also invited to consult him in matters of personal hygiene. It's not necessary to write a letter unless you desire, for postcard inquiries will receive the same careful attention. Address C. Houston Goudiss, 6 East 39th Street, New York City.

Building, Maintaining Family Health

IN THE C. Houston Goudiss articles that have appeared weekly in this newspaper previous to this one, the nationally known food authority has described FOOD, as it provides the key to mental and physical power; PROTEINS, the foods you cannot live without; CARBOHYDRATES and FATS, foods that provide motive power for the body machinery; and MINERAL SALTS, that must have in order to build strong bones, healthy nerves and rich, red blood.

These subjects have been treated in an interesting and understandable manner, free of scientific terms, principally referring advice to the housewife that will aid her in the problem of feeding the members of her family such foods as will build and maintain their health.

Every one of these articles has a definite place in your scrapbook for future reference. If you have missed any of these discussions, the publisher of this newspaper will supply them upon your request. If you have not already done so, state a department of these informative articles in your scrapbook at once!

been fully determined. It does, however, appear to be necessary for successful reproduction and found especially in wheat germ and lettuce.

VITAMIN G PROLONGS YOUTH

Vitamin G is necessary for growth and for the maintenance of health and vigor at all ages. It helps to ward off old age, prolonging the vigorous middle years. It is essential to the health of the skin, and recent experiments demonstrate that cataracts in the eyes may be due to a deficiency of this vitamin, which is found in yeast, and in liver, kidneys, egg yolk, milk, cheese and green leafy vegetables.

One authority claims that chronic disorders of the stomach, lungs, colon, heart and kidneys may be traced to vitamin and mineral deficiencies.

Certainly enough has been learned of vitamin chemistry to make clear that the homemaker fails in her duty who does not provide vitamins in abundance to every member of her family, for children and adults depend upon you for their food supply. It is within your power to help them to health and happiness or condemn them to weakness, illness and sorrow. Do not fail them. See to it that every member of your household—your children, the wage earners, the middle aged and the elderly—get enough vitamins to afford them the health that science has placed within their grasp.

© WNU.—C. Houston Goudiss—1938.

AROUND the HOUSE

Variety in Sauces.—Don't get into the habit of using too many cream sauces. They are apt to make vegetables taste more or less alike and thus price monotonous.

When Using Bluing.—A half cup of sweet milk added to the bluing water will prevent clothes from becoming streaked during the bluing process.

Freshening Raisins.—Raisins used in cakes, cookies and puddings should first be placed in hot water and simmered for five minutes to enlarge and soften them.

Check Electrical Equipment.—As a safety measure in the use of electrical equipment, frequently look for breaks on all cords attached to appliances.

Remove Whitewash.—Do not paint over whitewash. Wash off the whitewash with clear water and allow the walls to dry thoroughly before painting.

Flavoring Cocoa.—A pinch of salt, a few drops of vanilla, or a dash of cinnamon or nutmeg add flavor to cocoa.

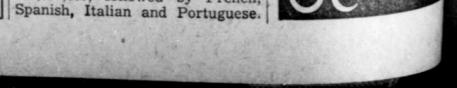

Cleaning Flower Vases.—A flower vase should be washed clean with hot water and soap, lest bacteria that decay the stems of flowers should survive in the vase.

Another Use for Vinegar.—Vinegar added to washing-up water removes grease, brightens china, and acts as a disinfectant.

Window Solves Problem.—If a room is dark and dreary, a new window will often do wonders for it. A room that looks out on a covered porch frequently needs additional lighting. This may be accomplished by cutting a window in the side wall which is not sur-

MORE WOMEN USE O-CEDAR POLISH

...because O-Cedar not only cleans as it polishes, but preserves the furniture—feeds the finish, prevents drying-out, cracking, fading, and discoloration. It is the only furniture polish that makes a spot grow as small as it is when you clean it.

Frank Merriwell at Fardale

CHAPTER VII—Continued

By GILBERT PATTEN
The Original
BURT L. STANDISH
© Gilbert Patten
WNU Service

Dick Springall, captain of the team, was talking to the coach when Frank entered the little office. Kane introduced them. Springall shook hands and looked the freshman over.

Kane didn't beat about the bush. "You've played football, haven't you, Merriwell?" he asked.

"Yes, sir, some."

"Where?"

"With Bloomfield high."

"What position?"

"Backfield."

"Why haven't you come out for Fardale?"

"There's a reason why I can't, Mr. Kane."

"What reason?"

Frank could feel the heat getting into his cheeks. "I can't answer that question, sir."

The coach's heavy eyebrows rose slightly. "That's odd. You must know how it sounds, Merriwell."

"I do," Merry's embarrassment was growing. "But I can't help it, sir."

"Huh! Were you any good?"

"Well, now, Mr. Kane, you wouldn't expect me to brag about myself, would you?"

"I've seen you running in the gym and I've been told you can drop-kick a football pretty neatly. You're built tight. You keep yourself in shape. We lost half our best men last year. We've got a big squad now, but it isn't so hot. You don't look like a slacker."

"I hope I'm not, sir."

"Well, whatever your reasons are for not joining the squad, there must be some way to get around them. I'd like to see you out on the field tomorrow afternoon."

Now Frank looked positively ill. "But I can't come," he replied as if denying himself something he would like to do more than anything else in the world. "If I could, I would. I hope you believe me, sir."

Kane was silent a few moments, gazing searchingly at the freshman, who appeared uneasy and distressed. "All right," he said presently. "We'll drop it for the time being, but I'm not at all satisfied."

Merrivell went away from there feeling low. Something in Springall's face had cut him deeper than the doubt and puzzlement of the coach. The captain of the team had classed him, and it wasn't anything to advertise in the newspapers.

Frank didn't want to talk to anybody about it. Not even Barney. It was a sore spot that he wanted to hide. But hidden sore spots have a way of becoming infernally uncomfortable. Somebody always gets prodding around them.

He tried to put the whole thing out of his mind, but it simply wouldn't let him. He had been able to shake thoughts of Inza Burrage much more easily, for he was convinced that she just didn't stack up. Her brother was all right, all right, but plenty of first-string brothers had sisters who paid no dividends. They were not in the preferred class.

Frank continued to avoid the football field. Whatever Coach Kane or Dick Springall thought of him, he couldn't help it.

Two days later, Mulloy came galloping into their room and found Frank there, alone, and up to his ears in a math problem. The Irish boy was as calm as the Atlantic ocean in a howling gale.

"Do you see me fist?" he cried, snaking it in the air. "Do you see it, lad?"

"I don't need a microscope for that," said Merry.

"Well, I'm looking for handcuffs to hold it. Already it's taken the power of my mighty will. Right in the middle of the campus, too."

"Now who was the careless offender who escaped death by the breadth of a hair, Barney?"

There were six of them and they were talking about you, Frankie. They put a question to me that touched me off. They wanted to know if it's true you're carrying ice cream feet in your shoes since you got a little bit hurt in a game of high school football last season. That, they said, is the low-down some goofy guy has dug up about ye, me lad."

Frank's face had gone white. The sore spot had been uncovered. Somebody had done it and then had made haste to dish the dirt.

Barney Mulloy couldn't get it. Every time he went into a huddle with himself and tried to find the answer the thing just wouldn't boil down. Still he was ready to bet his life that Merrivell was no quitter. He had seen plenty to make him dead sure of that.

About most matters Frank was as frank as his name, but when it came to telling why he couldn't play football he was as stung as a slot machine. He simply wouldn't give down.

"Nosey people are annoying, Barney," he had said, "but every time you let them put you on the defensive you've slipped. I've found out that a good reason can sound like a poor excuse when you're forced to give it."

And that had left the Irish boy fog-bound.

Hodge had fumbled badly in thinking Merry couldn't fight just because he wasn't the scrappy kind with a swollen sense of his own importance and great eagerness to make others concede it. When the time came to do so Frank had shown his speed, and the shock to his ego had been greater because of the delay. Good military tactics for a long campaign.

Another thing he had shown by quickly stepping in between Barney and Bascomb when the latter had turned pugnaously to pick up the Irish boy's slam about thimblebringers. He had shown that he would fight for a friend quicker than for himself. Even Bascomb had caught a glimmer of that truth.

Now, only for one thing, Mulloy would have been sure of Merrivell's

disappointed enemies were out to smirch him with a lie forged by malice from nothing at all. But Barney had seen Frank lose color over the campus gossip which he had brought to his ears, and that wasn't his way of reacting to pure bunk. He would have laughed at it.

Still the faith of the Irish boy wouldn't shaken. He told himself it wasn't all come out in the wash, but he wondered when washday would come round.

Football talk was in the air at Fardale, for the date of the first game lay close in the offing.

Coach Kane was said to be in a low state of mind about the team, but then "Old Kaney" had a habit of being pessimistic before he got the machine oiled up and running well. And, of course, the opening clash with Mayfield wasn't anything to lose sleep over, anyhow. That was in the bag, they said. It would be just good warming-up practice for State Second the following Saturday. That was when the home "Musketees" would have to step into it to keep from being snowed under.

Frank didn't talk football, even with his classmates, and he avoided listening to it when he could. He appeared to have his mind fixed on other things, but Barney had a hunch that that was mere outward seeming. He certainly wasn't up to scratch as his own cheerful self. There were moments, in fact, when he seemed like an unhappy shadow haunted his face.

He wasn't in the great crowd of cheering fellows that gave the team a send-off Saturday, when it left for Mayfield in the big school truck and

never since the dark ages before Fardale had employed a professional coach had little Mayfield High been able to get within shooting distance of the Musketees in a football game. Never until this black Saturday, on the morning of which the odds that Fardale would win again had been the sky against what have you.

The first telephoned reports of the disaster had sounded like a hoax. Unbelievers—and they were twenty to one in the mass—had called it baloney. Who had said so, they wanted to know. And when told that Pete Smith, Fardale's own reporter for a city newspaper, was the author they had heaved sighs of relief. That fellow just couldn't help trying to be a funny guy.

But when somebody called Dick Springall, the Fardale captain, and he confirmed the bad news the heavens came crashing down.

Merrivell heard it from Bob Gagg. Gagg's almost missing chin, the bulging eyes behind his spectacles, and the husky croaking of his agitated voice made him look and sound like a frog raising a lament from the depths of a dismal swamp.

"And you better keep away from that gang on the campus, Danny Deever," he said. "They're talking about hanging slackers in the morning."

"Slacker! That was how they rated him. Of course it had come from the coach or from Springall, who had been present when Kane had talked with him."

In his room, Frank stripped off his clothes. Then, wearing his bathrobe, he made for the nearest shower to wash off dust and perspiration. He didn't whistle as the cold water splashed over him. This wasn't his day for whistling.

Mulloy was waiting for him when he returned. "Have you heard the shocking tidings, Frank?" he asked.

"I've heard Fardale was beaten. That's all," Merry replied.

"Well, more details have come in. The Grand Canyon was full of empty tomato cans. He kicked like a sick inchworm. Missed the bar twice, and those two points would have given us a draw, which would have been sad enough."

"It has been a gummy day."

"I think that big shot is just another false alarm," growled Barney. "If—and when—he makes another pass at me he'll get the works."

There was a knock on the door. "Merrivell wanted on the phone," called a voice.

"Ask 'em to hold it one minute, please," requested Frank, speeding his dressing.

"Now," said Mulloy, "who would be after calling you, Frankie?"

"Your guess is as good as mine. If they'd said long distance was calling I'd have been worried. I told you that my uncle's illness was what made me late about getting here."

"Maybe it's something about—about football."

"Don't be silly, Barney. Nobody would call me about that."

"Well, it's time ye were called," barked the Irish lad, "and told to stop your ducking."

Merrivell was surprised, when he got into the phone booth, to hear the voice of Tad Jones over the wire. The boy seemed to be all choked up with excitement and alarm.

"That you, Frank—that you?" he spluttered. "I been tryin' to get Miss Inza but she's gone out again. Can't you come? You just gotta come, Frank!"

"Now take it easy, Tad, and tell me what's the matter."

"Oh, they've grabbed my dog! They've took him away from me! They've got him 'nd they'll kill him!"

"Who's got him?"

"Mike Dugan. He's the dog catcher. I ain't got no license for S'prise 'nd they took him. They been killin' dogs 'thout no licenses, 'nd now they'll—"

"Where are you now, Tad?"

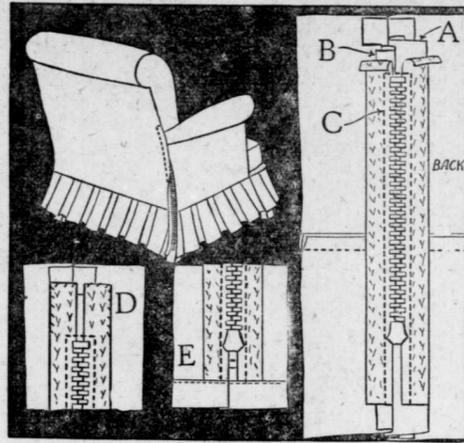

"Fletcher's drug store."

"Stay right there and wait for me. I'm coming."

HOW TO SEW

by Ruth Wyeth Spears

Slide Fasteners for Slip Covers

IF YOU have slip covers made by an interior decorator and you go in for such niceties as slide fasteners or welded or piped seams the bill goes up and up. If you make the covers yourself all these "extras" amount to very little either in time or money. In fact slide fasteners require less time than a closing with snaps.

Plan the closings for a slip cover during the final fitting when the seams have been basted but not stitched. Sometimes one short placket is all that is needed. Again openings must be left at several points so that the cover will slip on easily.

To apply a slide fastener to a seam placket, turn the slip cover inside out and crease the seam open. Cut a facing strip 1 1/4 inches wide and 1 inch longer than the opening. Join the facing strip to the back edge of the opening as shown at A. Slash the front of the seam edge 3/4 inch above the top of the opening and crease it over the back facing as shown at B. When the edges of the opening have been prepared in this way, press the edge creases with a hot iron. Next, baste and stitch the fastener in place as at C sewing close to the metal. The machine cording foot is useful for this purpose. Do not trim away the tape at the ends of the fastener. Whip the upper ends down as at D, and cover the lower ones with the hem as at E.

NOTE: If you are making new slip covers or curtains or doing other Spring sewing you will want a copy of Mrs. Spears' book SEWING for the Home Decorator. Forty-eight pages of illustrated directions for making curtains for every type of room; dressing tables; lampshades, and numerous other articles used daily in the home. Send name and address, enclosing 25 cents (coin preferred) to Mrs. Spears, 210 So. Desplaines St., Chicago, Ill.

Strange Facts

Cat-Tails Served as Asparagus

YOU can eat the fuzzy cat-tail you have seen so often in marshy places. The Iroquois Indians used the root of the cat-tail plant to make flour. The root is starchy and the Indians dried it and made a flour that is similar to flour made from corn or rice. Cat-tail flour was one of the substitutes the Germans learned to use during the World War. The American Indians also used the root to make syrup. It is the tender shoots of the plant that the Cossacks enjoy and it is this part of the plant that is sometimes served in England under the name Cossack asparagus.

The fibrous leaves of the cat-tail plant have often been used to make mats and chair seats. The flower is converted into a substitute for cotton or silk and is made into a filling for upholstery. In this form the flower was used as a dressing for wounds in the World War. The ancient people of India dried the cat-tails and used them as torches. In some places where palm leaves are not easily obtained the cat-tail leaves are used on Palm Sunday instead of palms.

The leaves of the cat-tail are grasslike, growing in double rows on the reed stalk and the flower of the plant is the tail which grows at the top of the stalk. The tail is not a single flower but is made up of thousands of little flowers. The familiar fuzzy surface is due to fine down which grows on each flower.

The cat-tail is one of the most familiar sights in all places where there is marshy ground. In England the plant is called reed mace. © Britannica Junior.

A Quiz With Answers Offering Information on Various Subjects

1. How many watts in the bulb on top of the Edison Memorial tower?
2. Do animals grow during hibernation?
3. What is the average per capita savings of inhabitants in the United States?
4. Does all ice float?
5. What per cent of persons enrolled in schools attend public institutions?
6. What is the difference between green and black tea?
7. Can X-rays be used on fruits and vegetables to determine their soundness?
8. How many of the elements of the universe are unknown?

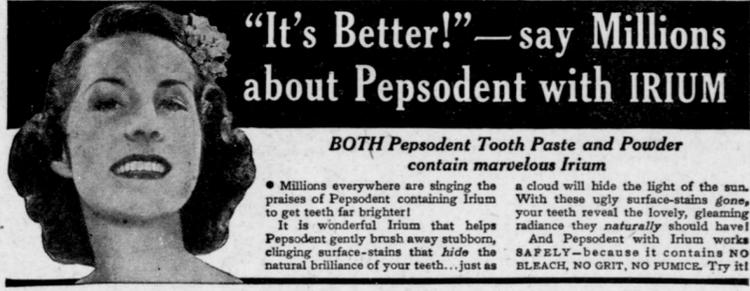

1. The friendship of the world ought to be a "pearl of great price," for its cost is very serious.—John Foster.
2. Crime has its heroes, error has its martyrs; of the true zeal and the false what vain judges we are.—Voltaire.
3. It is more difficult, and calls for higher energies of soul, to live a martyr than to die one.—Horace Mann.
4. In every country there is a general soundness and the people, when you know and understand them, are admirable.—John Erskine.
5. The thing that murders our happiness more than anything else is worry.—John Couper Powys.

"Quotations"

The friendship of the world ought to be a "pearl of great price," for its cost is very serious.—John Foster. Crime has its heroes, error has its martyrs; of the true zeal and the false what vain judges we are.—Voltaire. It is more difficult, and calls for higher energies of soul, to live a martyr than to die one.—Horace Mann. In every country there is a general soundness and the people, when you know and understand them, are admirable.—John Erskine. The thing that murders our happiness more than anything else is worry.—John Couper Powys.

Mistake-O-Graph Answers

1. Question mark on banner.
2. Telephone has no receiver.
3. Lower section of bay window is night, upper is daylight.
4. Flower appears in golf bag.
5. Picture of Rover just shows legs and tail.
6. Nail in wall does not support picture.
7. Singer's head appears from speaker of radio.
8. Chair is floating in the air.
9. Mirror on bureau is not attached to supports.
10. Lamp plug is not connected, yet lamp is lit.
11. Game in bouquet of flowers.
12. Bear rug is growing.
13. Gentleman has evidently forgotten to shave.
14. Bear skin is spotted.
15. Gentleman is wearing odd socks.

"It's Better!"—say Millions about Pepsodent with IRIUM

BOTH Pepsodent Tooth Paste and Powder contain marvelous Irium. Millions everywhere are singing the praises of Pepsodent containing Irium to get teeth far brighter! It is wonderful Irium that helps Pepsodent gently brush away stubborn, clinging surface-stains that hide the natural brilliance of your teeth...just as a cloud will hide the light of the sun. With these ugly surface-stains gone, your teeth reveal the lovely, gleaming radiance they naturally should have! And Pepsodent with Irium works SAFELY—because it contains NO BLEACH, NO GRIT, NO FUMICE. Try it!

Mistake-O-Graph

All dressed up and no place to go might well be the title of this inspiring scene. The importance of the occasion, we fear, must have warped our artist's mind, for the drawing is full of mistakes. Can you find fifteen? The answers will be found above.

NEW PROSPECT

Bob Twohig of Armstrong was a caller in the village Saturday.
 Mrs. Wm. Bartelt spent Tuesday with Mrs. E. L. Moegenstath at Kewaskum.
 Wm. F. Schulz spent Tuesday with Mr. and Mrs. Henry Bekker at Kewaskum.
 Monroe Stahl of Beechwood visited Monday with Mr. and Mrs. J. P. Uelmen.
 Mr. and Mrs. Wm. Bartelt spent Saturday evening with friends at Kewaskum.
 Oscar Ogenorth of Silver Lake spent Tuesday with friends in the village.
 Elton Schultz spent Friday with his mother, Mrs. Mary Schultz, at Beechwood.
 Alex. Kucouskas and Miss Betty Tunn spent Friday evening at Fond du Lac.
 Mrs. Wm. F. Schulz called on Mr. and Mrs. Erna Becker at Kewaskum Sunday afternoon.
 Mr. and Mrs. Chas. Trapp spent several days with his brother, Richard Trapp and family.
 Mr. and Mrs. Frank Bowen visited Thursday with Dr. and Mrs. Alex. Uelmen and family at Plymouth.
 Mrs. Leo J. Uelmen and children of Campbellsport called on the Geo. H. Meyer family Sunday afternoon.
 Miss Virginia Trapp of Fond du Lac spent over the week end with her parents, Mr. and Mrs. Richard Trapp.
 Mr. and Mrs. A. E. Nehring and son Edward and Carl Carlson of Chicago called on Mr. and Mrs. J. P. Uelmen Wednesday.
 John P. Meyer of West Bend and Donald Uelmen of Campbellsport spent Saturday and Sunday with the Geo. H. Meyer family.
 Mr. and Mrs. Walter Schulz, Mr. and Mrs. Harry Bruskwitz, Mrs. Olga Behling and Mr. Bruskwitz and sister of Milwaukee called on Mr. and Mrs. Wm. F. Schulz Sunday afternoon.

WAYNE

Gregor Wettstein was a Fond du Lac caller Saturday.
 Mrs. Ralph Petri and family were Milwaukee callers on Saturday.
 Mrs. Frank Wietor and son Leo spent Saturday at Fond du Lac.
 Jeanette Werner of Milwaukee visited Sunday with her folks, Mr. and Mrs. John Werner.
 Mr. and Mrs. Rudolph Hoepner spent Sunday at the Mrs. Henry Hoepner home at Theresa.
 Mr. and Mrs. John Volm and family, Mr. and Mrs. Math. Volm and family spent Sunday at the Frank Wietor home.

When cabbage is cooked or made into sauerkraut, it loses some of its vitamin C potency. Nevertheless, sauerkraut, along with tomato juice, is one of our best "home made" sources of this factor in the wintertime.

SOUTH ELMORE

Mrs. Minnie Fleischman and son Frank visited relatives at Grafton on Wednesday.
 Miss Ardell Greifen of Grafton visited with Mrs. Minnie Fleischman and family Sunday.
 Mr. and Mrs. Anton Wiesner moved to Milwaukee where they will make their future home.
 Mr. and Mrs. Elmer Struebing spent Sunday evening with Mr. and Mrs. Otto Backhaus at Elmore.
 Mr. and Mrs. Aug. Hilbert and family of Fond du Lac visited with the Will Rauch family Sunday.
 Mrs. Emma Carter of Cartersville, Montana, Joe Sausan and Elizabeth Pellenz of Wauwatosa visited with the Peter Thill family Sunday.
 Mrs. Chris. Mathieu and son Francis, accompanied by Mrs. Ottilia Strobel and Mrs. Jos. Schmitt and son James, visited with Mrs. Theresa Schlaefer at the hospital at Beaver Dam Sunday.
71st BIRTHDAY ANNIVERSARY
 The following spent Sunday evening with Gust Rauch in honor of his 71st birthday anniversary: Phil. Jung, Mr. and Mrs. Melvin Schaub, Jr. and Will Schaub, Sr., Mr. and Mrs. Ed. Doeppke, Mr. and Mrs. Clarence Thill and Mr. and Mrs. Al. Hoepner. Everybody present had a most enjoyable time and wished Gust. many more happy birthdays.

EAST VALLEY

Lawrence Uelmen is employed by Mike Schladweiler.
 Mr. and Mrs. Julius Reysen and daughter Ruth were West Bend callers Wednesday.
 Mrs. Cyrilla Klug and family of West Bend spent the week end with Mr. and Mrs. Joe Schiltz.
 Mr. and Mrs. John Thoenes of Milwaukee spent the week end with Mr. and Mrs. Nic. Hammes and family.
 Mr. and Mrs. Julius Reysen and daughter Ruth and Walter Reysen attended the wedding of Edna Gessner and Ray Reysen Sunday.
 Mr. and Mrs. Mike Schladweiler, Mr. and Mrs. Joe Schiltz and Walter Reysen spent Thursday evening with Mr. and Mrs. Nic. Hammes and family.
 Mr. and Mrs. John Roden and family, Mrs. A. Roden and Victor Brodzeller of St. Michaels, Mr. and Mrs. Alfred Klug, Mrs. John Klug, Mr. and Mrs. Wm. Kozloski of New Fane, Mrs. Cyrilla Klug and family of West Bend, Mr. and Mrs. Elroy Pesch and family, Mrs. Catherine Simon, John Hammes and Mr. and Mrs. Mike Schladweiler spent Sunday evening with Mr. and Mrs. Joe Schiltz in honor of Mrs. Schiltz's birthday. At midnight a lunch was served, after which the guests departed wishing Mrs. Schiltz many more happy returns.
 Sweet clover varieties differ in their ability to fix atmospheric nitrogen in cooperation with root-nodule bacteria.

DUNDEE

Henry Dins was a Milwaukee visitor Tuesday.
 Mrs. Wm. Baumann is quite sick at her home near Round Lake.
 Rev. and Mrs. Walter Stroehlein spent Tuesday in Milwaukee.
 H. W. Krueger of Plymouth was a business visitor here Monday.
 Born, a son, David Edward, to Mr. and Mrs. Clem. Brown, Tuesday.
 Mrs. Addie Bowen of Kewaskum called on old friends here Sunday.
 Mrs. August Krueger of Casco visited Saturday with Mr. and Mrs. Henry Kelling.
 Mr. and Mrs. John Grandic of Sheboygan visited Sunday with Mr. and Mrs. Rudolph Grandic.
 The Dundee Trinity Lutheran congregation held their quarterly business meeting Friday evening.
 Mrs. Emma Helder spent the past week with her daughter, Mrs. Lorena Kutz, and family in Campbellsport.
 Herbert Helder and Otto Wachs visited Saturday and Sunday with Mr. and Mrs. Walter Daliege at Spencer, Wis.
 Mr. and Mrs. Leo Kaas and Mr. and Mrs. Andrew Strobel of New Fane visited Sunday with Mr. and Mrs. John Krueger.
 Mr. and Mrs. Arno Bechler and family visited Sunday with Mr. and Mrs. Leon Bechler and other relatives in Dotyville.
 Mr. and Mrs. Paul Hoffman of near New Prospect moved into the house here which was recently vacated by Mr. and Mrs. John Hupk.

DUNDEE SCHOOL NOTES

Fourteen pupils participated in the District Spelling and Achievement contests conducted Friday afternoon at the Dundee school, Osceola Dist. No. 5.
 Esther Baumann won first place both in spelling and achievement, while Raymond Schuh ranked second in both contests. As a contestant can take part in only one event at the township meet, Esther Baumann represented the school in spelling and Raymond Schuh in achievement at the Osceola township contest which was held at the Armstrong school April 1.
 Tuesday afternoon, thirty-eight of the pupils were taken to Campbellsport to practice for chorus which is to be presented at the Music Festival next month.

ROUND LAKE

Albert Tripp was a caller in this vicinity recently.
 The Ladies' Aid will hold their annual meeting Friday afternoon, in the church parlors.
 Mr. and Mrs. George Baehner and son Kenneth spent Wednesday evening at their home here.
 Rex Franzway and family of Milwaukee spent Sunday at their summer home at Round Lake.
 Mr. and Mrs. George Wilson of Milwaukee spent the week end at the Johnnie Wilson home.
 Clarence Daliege, Joe Neissel, Harold Schenk and Roy Henning spent Tuesday of last week in Green Bay.
 Mr. and Mrs. W. L. Calvey and Mrs. Annie Calvey of Fond du Lac called at the Mary Brown and M. Calvey homes Sunday.
 The following were entertained Sunday at the M. Calvey home: Mr. and Mrs. Wm. Ellison and Viola Mietzfeld of Fond du Lac, Beulah Calvey and Jimmie Thleken of Milwaukee.
 Mr. and Mrs. John Heberer and sons, Roger and Jackie, and Miss Betty Krueger of New Fane spent several days in the northern part of the state calling on friends and relatives.

County Agent Notes

EVERGREEN SEEDLINGS

Those who placed orders for evergreen seedlings or transplants may expect them during the week of April 11. You will be notified when and where to call for them. The forestry club members will receive their transplants at a later date.

HOLSTEIN BREEDERS' MEETING

A meeting of the officers of the Washington County Holstein Breeders' association will be held in the court house, West Bend, on Thursday evening, April 7th. Mr. A. O. Collettine will be present.

PREMIUMS AT JUNIOR STATE FAIR WILL TOTAL \$17,365

Premiums offered at the junior Wisconsin state fair which will be held as a part of the state fair, August 20-28, will total \$17,365, according to Ralph E. Ammon, acting director of the department of agriculture and markets and state fair manager.

Of this amount, \$3,500 has been set aside for premiums and transportation expenses in connection with the exhibiting of 100 booths by various Wisconsin youth organizations, \$5,500 for livestock exhibits, \$3,000 for judging contests and demonstrations, and \$1,500 for a boy scout encampment and program.

The 4-H club groups will save 43 cents. Future Farmers of America 20, high school economics girls 10, Farmers Union juniors 10, boy scouts 10, and girl scouts 5.

BOVINE TUBERCULOSIS IN STATE GREATLY REDUCED

Bovine tuberculosis in Wisconsin has been reduced to a point where approximately only 15 of one percent of all the cattle in this state are afflicted with the disease, the state department of agriculture and markets reported this week in announcing the schedule of cattle tuberculin re-tests for 1938.

The schedule shows that this year more than a million Wisconsin cattle will be re-tested. Washington county is not included in the area to be re-tested.

SOIL-BUILDING GOALS TO BE SET FOR FARMS

Soil-building goals will be established this year for every Wisconsin farm that takes part in the 1938 agricultural conservation program.

These goals, Washington county committeemen are being advised, will take the place of the soil-building allowances of 1937 and will indicate the maximum amount that will be allowed on each farm to cover the cost of following approved soil-building practices.

Four measures, it is said, will be used in building up the total soil-building goal for each farm. One is based on the acreage of cropland in excess of the total soil-depleting acreage allotment, the allowance being 50 cents for each such acre.

Another measure is the average acreage of commercial vegetables grown on the farm in 1936 and 1937. That allowance is \$1.50 an acre.

The third measure, is the acreage of commercial orchards on the farm on

January 1, 1938. The allowance for this purpose is \$2 an acre.

The fourth measure deals with non-crop open pasture land. Two cents is allowed for each such acre, according to the committee. In addition, the grazing capacity of this pasture land is determined and is rated according to the number of animal units that it will graze for 12 months. For each such animal unit of grazing capacity, an extra \$1 allowance is added toward the soil-building goal.

Once the total soil-building goal has been determined, committeemen say that two-thirds of that number of dollars will be the number of units of soil-building practices which should be followed in order to earn the maximum soil-building benefit payments.

Before farmers can receive these benefit payments they must be earned by carrying out the required number of approved soil-building practices which are as follows:

(a) seeding one acre of alfalfa, red clover, sweet clover, perennial grasses or a mixture of any of these.

(b) seeding two acres of timothy or red top or a mixture of these two.

(c) application of 200 pounds of 18% super phosphate or 200 pounds of muriate of potash or 500 pounds of rock phosphate in connection with any legume or grass seeding when no soil-depleting crop is harvested.

(d) reseeded depleted pastures with approved seed mixtures at a rate of ten pounds per acre.

(e) application of 2000 pounds of lime or its equivalent.

(f) cultivating, protecting, and maintaining a full stand of 500 trees per acre of forest planting, or by improving a stand of forest trees according to approved practices shall count as two soil-building units.

AAA FERTILIZER CLAIMS LIMITED TO "SOD" CROPS

Benefit payments for the use of fertilizers may be earned under the new farm program, according to provisions of the 1938 farm program.

If these payments are to be received, potash and phosphate fertilizers may be used only on soil-conserving crops. Lime may be used on either soil-conserving or soil-depleting crops.

No credits may be earned for spreading potash or phosphate fertilizers on soil-depleting crops, but they can be applied after the soil-depleting nurse crop has been removed.

Among the soil-conserving crops listed by officials are: alfalfa, sweet clover, red clover, mammoth clover, alsike clover, perennial grasses, and permanent pasture.

The maximum amount that may be earned is determined by the number of soil-building units that are required to meet the soil-building goal on each farm. In terms of money, each credit unit that is earned amounts to \$1.50.

One phosphate credit unit is counted for each 300 pounds of 16 percent or each 240 pounds of 20 percent superphosphate, or its equivalent, that is spread according to these requirements.

One credit unit is allowed for each 200 pounds of 50 percent muriate of potash or its equivalent.

CHURCH NOTICE

St. John's Ev. Luth. church, New Fane

A class of five children will be examined and confirmed Palm Sunday, service beginning at 10:00 a. m. They are Delores Pick, Arleigh Ehnert, Marie Schultz, Raymond Butzke and Marvin Wiesner. They extend a hearty invitation to all friends.

Good Friday the service will be in German at 10 a. m.

Easter service will also be in German, including celebration of the Lord's Supper. Preparatory address at 9:30 and Easter sermon at 10:00 a. m.

Easter Monday service in English at 8:00 p. m.

C. J. Gutekunst, Pastor

THE WOMAN'S CLUB

The regular meeting of the Kewaskum Woman's club will be held Saturday, April 9th. Mrs. A. M. Clark is the hostess.
 Miss Agnes Busch will present a paper on "The Development of Drama as a Means of Entertainment and the Formation of Little Theatre Guilds."—G. F. W. C.

TO THE VOTERS OF THE VILLAGE OF KEWASKUM:

I wish to express my most sincere thanks for your wonderful support given me at the polls last Tuesday. I will endeavor to repay your confidence by serving the village to the best of my ability.

CARL F. SCHAEFER

TO THE VOTERS OF THE TOWN OF KEWASKUM:

I wish to express my most sincere thanks to the voters of the town of Kewaskum, for the confidence expressed in me by electing me chairman. I shall do my best to discharge the duties of the office honorably and to your entire satisfaction.

HENRY C. MUCKERHEIDE

Members of cooperatives are usually aware of their common rights but they too often overlook the fact that there is a corresponding duty for every right.

ST. KILIAN

John Ruplinger spent several days with relatives at St. Kilian.

Miss Beatrice Flasch is spending the week with Mr. and Mrs. Jos. Ogenorth at West Bend.

George Herman, Jr. underwent an appendicitis operation at St. Joseph's hospital Friday.

Mrs. Lena Zals of Boyd is spending the week with the Peter Hurth family and relatives here.

Mr. and Mrs. John Hansen and Miss Thille Weber of Milwaukee were visitors at the Peter Hurth home on Sunday.

Mr. and Mrs. Jos. Ogenorth, Mr. and Mrs. Cyril Ogenorth and son Tommy of West Bend visited Sunday with relatives here.

Mr. and Mrs. Jos. Ruplinger, Mr. and Mrs. Kilian Ruplinger, Mrs. Rose Flasch and Mrs. Jos. Flasch attended the funeral of Mrs. Peter Smassel at St. Nazarians Tuesday.

The infant daughter of Mr. and Mrs. Art. Ruplinger was baptized last Sunday, receiving the name Grace Marie. Miss Marie Feucht and brother, Andrew, were the sponsors.

Mrs. Christ. Mathieu and son Francis, Mrs. Jos. J. Schmitt and son Jimmy, and Mrs. Ottilia Strobel visited Sunday with Mrs. Schlaefer, who is confined to the hospital at Beaver Dam.

FOUR CORNERS

Mrs. W. Weasler was a Lomira caller Thursday.

Peter Berres left for St. Agnes hospital for treatment.

Alvin Berres was a caller at the M. Weasler home Friday.

Louis and Albert Butzke were callers at the Henry Butzke home Saturday. Mrs. Elton Schultz and Mrs. Henry Ketter were Campbellsport callers on Thursday.

Mr. and Mrs. Wm. Klabuhn, Jr. entertained company from New Fane on Thursday.

Mr. and Mrs. Herman Bartelt of Waucaucosa spent Friday evening at the Henry Ketter home.

Mr. and Mrs. Elton Schultz, Mr. and Mrs. Henry Ketter, Mr. and Mrs. Wm. Weasler, Mr. and Mrs. Wm. Klabuhn, Jr., Mr. and Mrs. George Buettner and Mr. Robert Buettner called on Mrs. Wm. Klabuhn, Sr. Friday evening, it being her 67th birthday. Playing cards was the pastime of the evening. At 11 o'clock lunch was served.

EDITORIAL

WISCONSIN'S HEALTH

A glance at last year's death statistics for Wisconsin, now available in provisional form, brings to light a typical picture of a commonwealth's struggle against adverse physical forces, successful in some instances and thrown for a loss in others.

The year 1937 will probably mark one state health record worthy of note, when the official figures supplant the provisional ones. This will be in infant deaths, of which only 2,292 have been reported to date, reduction of more than 200 from the 1936 toll.

This saving of infant lives, coupled with an increase in deaths at ages past 65 years, will undoubtedly spell a new high average age at death for Wisconsin when the computations are completed.

Health setbacks encountered last year include 25 diphtheria deaths, almost as many as occurred in the preceding biennium; and a sharp rise in auto accident fatalities, drownings, homicides and suicides.

When we note last year's tentative state totals of 518 suicides, 50 homicides, 867 auto accident deaths, and 181 drownings, we are inclined to rechristen this column Wisconsin's Health—If Any.

These deceased unfortunates, however, were exceptions. Surviving them are three million people the great majority of whom are keen to live successfully, and to pay due attention to their health in order to achieve that success.

AROUND THE TOWN

—Next Friday, April 15, is Good Friday.

—Next Sunday is Palm Sunday, the last Sunday in Lent.

—Miss Marcella Schleif visited at Milwaukee Saturday.

—Miss Edna Schmidt spent Saturday afternoon at Milwaukee.

—Mrs. August Bilgo was a Milwaukee visitor last Wednesday.

—George Schaefer of Chicago spent the week end with relatives here.

—Joseph and Tony Uelmen of Milwaukee spent the week end with home folks.

—Herbert Brandt of New Fane visited Sunday with his brother, Chas. and wife here.

—Mr. and Mrs. Leo Vyvan and son Ray spent Sunday in West Allis visiting relatives.

—Miss Janice Clark of Milwaukee visited the Paul Landmann family over the week end.

—Rich. Goldberg and "Tink" Rilling of Grafton were village callers last Friday evening.

—Rev. Jos. F. Beyer of Johnsburg paid a pleasant call on the Rev. Phillip J. Vogt Monday.

—Eyes examined and glasses fitted at Endlich's.—adv.

—Aug. Ebenreiter called on the Gardner Lumber Co. at Oconto Tuesday.

—A. C. Schoder and friend of Milwaukee visited in the village Monday.

—Mr. and Mrs. Hubert Wittman and son spent Sunday visiting at Theresa.

—John Klessig attended the funeral of Walter Scott Jr. at Oshkosh on Saturday.

—Mrs. Frank Kohn visited with her daughter, Mrs. Esch, at Green Bay on Tuesday.

—Miss Thille Mayer and Mrs. Oscar Koerbie were Milwaukee visitors on Monday.

—Julius Wagner of St. Nazianz called on John and Clara Simon Thursday afternoon.

—Mr. and Mrs. Harvey Ramthun spent Sunday with the L. C. Kraft family at Fond du Lac.

—Miss Elva Schaefer of Berlin spent the week end with her parents, Mr. and Mrs. Louis Schaefer.

—Mrs. Roman Smith, daughter Dorothy and sons, Armond and Lloyd were Milwaukee callers Saturday.

—Mr. and Mrs. Robert Schultz and daughter of Fillmore spent Sunday at the William Windorf home.

—Mrs. William Prost, Mrs. Wilmer Prost and daughter Burnette spent Saturday at Fond du Lac.

—Mr. and Mrs. Harvey Ramthun and Mrs. Myron Porschbacher were business callers at Milwaukee Thursday.

—Miss Marie Lambert of Milwaukee was a visitor with Mr. and Mrs. William Windorf and family Sunday.

—Mr. and Mrs. Chas. Groeschel called at the home of Mr. and Mrs. Herman Groeschel at Fillmore Sun. afternoon.

—Mr. and Mrs. Robert Schultz and daughter of Farmington called on Mr. and Mrs. John Klessig Sunday evening.

—Mrs. E. L. Morgenroth attended the 90th birthday celebration of Miss Sophia Kretsch at Boltonville last Wednesday.

—Dr. and Mrs. E. L. Morgenroth called on Elmer Schnurr at West Bend Sunday, who is recuperating from a recent illness.

—Mr. and Mrs. Jos. Schwind of the village and Mrs. Frank Keller Jr. of St. Michaels were Milwaukee visitors on Sunday.

—Mr. and Mrs. John Feiten of the town of Kewaskum spent Sunday evening with the Ben Schmidt and Martin Bassil families.

—Mr. and Mrs. Leo Sennott of Milwaukee visited with Mrs. C. Brandstetter and family and the William Brandstetter family Sunday.

—Mrs. Christ Klumb and son Herbert of the town of Barton visited Sunday with Mr. and Mrs. William Bunkelmann Jr. and family.

—Mrs. E. L. Morgenroth and Mrs. M. W. Rosenhelmer attended a Woman's Club Institute of the sixth district at Fond du Lac last Monday.

—The Holy Name society of Holy Trinity church will receive Holy Communion in a body next Sunday morning at the 8:30 o'clock mass.

—Mr. and Mrs. Peter Siegel and son Fred of the town of Kewaskum visited Saturday night with the Martin Bassil and Ben Schmidt families.

—Mrs. Elizabeth Schaefer spent the week end with her son-in-law and daughter, Mr. and Mrs. Martin Knickel and family at Campbellsport.

—Mr. and Mrs. Otto Stenschke of West Bend spent Saturday evening with Mr. and Mrs. T. Stenschke, Mr. and Mrs. Leroy Keller and family.

—Mr. and Mrs. Gustave Degenitz and grandson, Arthur Degenitz of Fillmore visited at the home of Mr. and Mrs. Chas. Groeschel Thursday afternoon.

—Gilbert Harbeck of Richmond, Virginia, and Mr. and Mrs. Harley Harbeck of Milwaukee called on their uncle, Don Harbeck, and family on Wednesday.

—Mr. and Mrs. William Bunkelmann Jr. and family and Mr. and Mrs. William J. Schultz were Sunday evening guests of Mr. and Mrs. Fred Belger at Boltonville.

—Mike Bath visited with Father Herriges and Miss Mary Bath at Fond du Lac Wednesday. He also visited Father Vogt and Sr. Charitas at the St. Agnes hospital.

—Mr. and Mrs. Reuben Dreier and family of Fond du Lac and Mr. and Mrs. Paul Belger of Boltonville were Sunday visitors with Mr. and Mrs. Aug. Bilgo and sons.

—Mr. and Mrs. Henry Claus of Milwaukee, Mrs. William Stacy, Mrs. Carl Spradow and Mrs. Winford Walvoord visited Sunday afternoon at the home of Mrs. Henry Becker.

—Miss Frances Bunkelmann of this village, student at the Dodge County Normal school, Mayville, is practicing teaching in the Schoofs school in the town of Kewaskum this week.

—Mrs. Emil Werner, daughter Lilian and son Clarence, Mrs. Trauott Stenschke, Mrs. Leroy Keller, Esther Zacho and Mrs. Albert Wesenberg were Fond du Lac visitors Saturday.

—Immediate relatives and a few friends gathered at the home of Mr. and Mrs. Walter Nigh, town of Auburn, on Saturday evening to help celebrate the 80th birthday anniversary of the latter's father, Mr. Joseph Harter.

—Miss Burnette Prost entertained the following in honor of her fifteenth birthday anniversary last week: Annette Belke, Willard Klein, Arthur Roeker, Earla Prost, Helen Mellus, Fred Baumgartner, Helen Schuppel, Ed. Roeker, John Schuppel, Alice Koepsel, Violet Eberle, Willard Prost, Dolores Backhaus, Ellsworth Prost and Ed. Heinicke. Bingo was played and after the games a delicious lunch was served. Prizes were awarded. All enjoyed themselves and wished Burnette many more happy birthdays.

—Young evergreens are most valuable for game cover when they are from 5 to 15 years old.

Keeping Up With Science

Art Work Helps in the Building Up of Mental Health

By MARJORIE VAN DE WATER
New York.—Paintings of modern schools of art and those by the mentally deranged are likely to be repulsive to many judging their aesthetic merit.

But such artistic presentations have their value nevertheless. To the psychiatrist, for example, the aesthetic qualities of a painting may be of least importance.

The physician of sick minds has come to realize that through the medium of brush and canvas, a tortured soul can find release for his emotions, a lessening of tensions and anxieties and a bridge for the unreal realm of his imaginings to reality.

And a naughty boy who draws in the back of his geography a caricature of his stern teacher lets off steam which otherwise might result in an emotional explosion.

Children treated by psychiatrists for emotional disorders are encouraged to make such drawings of teacher and parent, because they not only relieve their minds but also reveal to the psychiatrist the youngsters' individual worries and suppressed troubles.

Size, Design and Color. Dr. Edward Liss, New York physician, tells in the American Journal of Orthopsychiatry what the psychiatrist looks for as significant in the paintings of children and adults.

In the first place, size is significant as revealing inner attitudes. It is related to the individual's evaluation of his own ego.

Next the design or pattern is important. Good technique in all kinds of art is the result of a certain balance between natural impulses and certain censoring agents which tend to bring them within approved limits or patterns.

Color choice is important. Brown and black, for example, are associated particularly with deep unconscious components of a depressive nature, Dr. Liss has found.

Finally the finished work is interpreted in much the same way that dreams are analyzed. Preference for some subjects and evasion of others indicates to the trained student the emotional impasses and fixation points of the artist.

Supercharging Diesels Brings Gains in Power

Washington.—Supercharging of giant Diesel engines on motorships at sea offers two benefits for marine commerce and naval vessels, said E. D. Newell of the bureau of engineering, Navy department, in an address here at a joint meeting of the American Society of Mechanical Engineers and the Society of Automotive Engineers.

In naval ships, Mr. Newell indicated, supercharging enables the same engines to turn out valuable extra power for special short time operation in emergencies. In commercial marine installation, supercharging permits a motorship to use smaller engines, thus saving more cargo space but obtaining the same speed. Or the cargo space can be kept the same and the speed increased.

By supercharging Diesel engines on the new streamlined railroad trains, additional power gains have been achieved which, in one case have amounted to 50 per cent power increase for continuous operation.

Mr. Newell reviewed the use of supercharging in Diesel engines for aircraft and pointed out that such supercharging not only permits greater power for the size and weight of engine but makes possible engine performance at higher altitudes where the air is rarefied.

Fire Ants Destroy Quail in Southeastern States

Baltimore.—Enemies of quail are usually thought of in terms of foxes, raptorial hawks and owls. But in the quail territory of the Southeast a species of ant, the fire ant, has to be taken into the reckoning as an important cause of quail life destruction, reported Bernard V. Travis of the bureau of entomology and plant quarantine, United States Department of Agriculture, speaking here before the annual North American Wildlife conference.

These ferocious swarming insects attack the eggs as soon as they have been piped, or the newly hatched quail chicks while they are still helpless. The voracious insects kill from 4 to 16 per cent of the quail hatch each year. They are also serious enemies of citrus fruit trees.

It is very difficult to combat these ants. They detect even small concentrations of poison in baits, and fumigants are costly. Dry sodium cyanide seems to be the most promising means of control.

Meteorites Wanted

Washington.—Have you a little meteorite (or a big one) in your back yard? The Smithsonian institution would like very much to have it. These stones from the sky may be found as soon as they fall, but usually are picked up long afterwards. A considerable proportion of them are made of solid iron, so that a chance lump that seems to be stone but is much heavier than common stones is always subject to suspicion of being a meteorite.

Six Pairs of Twins in One Family Are Puzzle for Scientists

Chicago.—The six pairs of fraternal twins that have been born to a Connecticut husband and wife are somewhat disturbing to scientists.

Prof. William Walter Greulich, of the department of anatomy and the adolescent study unit at Yale university, presents a study of the six pairs of twins in the Connecticut family in the Journal of the American Medical Association.

He has also looked into the family history of the twins' parents. Only on the father's side can a record of previous multiple births be found. The father's father, it turns out, had triplets by his second wife.

The widespread belief that twinning tends to run in families is supported by evidence here and abroad, and twin births everywhere seem to appear just as frequently on the father's side as on the mother's. Now this disturbing fact cannot be reconciled with the accepted theory of the genesis of fraternal twins.

Fraternal twins, as distinguished from monozygotic twins (those of the same sex and physical characteristics), are produced, it is usually assumed, by the fertilization of two ova derived from separate follicles either from the same or from different ovaries.

Calls for Observations. Such double ovulations are exceptional and are generally regarded as the result of some upset in function of the ovulatory mechanism. The control of this would naturally be with the mother and could not possibly be influenced by the father.

Professor Greulich appeals to surgeons and pathologists to make observations during operations and postmortems on pregnant women that will help find a satisfactory explanation of this phenomenon.

The most reasonable explanation, in his opinion, was advanced 20 years ago by Dr. C. H. Danforth and recently by Dr. F. Curtius of Germany.

According to this hypothesis, the sperm of some men causes the tubal ovum to form two cells, both of which are susceptible of being fertilized, each, of course, by a different sperm. Such fertilization would result in the production of twins who had the same heredity from the mother's side but different paternal heredity.

Such twins might be of like or of unlike sex and would presumably be intermediate between identical and ordinary double-egg twins in the degree of resemblance that they would bear to each other.

The Connecticut family, which has renewed the faith of physicians that phenomenal fecundity has not become a lost art, had its sixth pair of twins last June 12. The mother was thirty-five and the father fifty-seven when they were born.

Of the first pair of twins the boy died, but all others are living. Two pairs are of the same sex but do not resemble each other closely.

California Diamonds Do Not Justify a "Rush"

Washington.—"Recent diamond finds at Cherokee Flats, near Camino, Calif., do not justify any rush to the area in search of easily-gotten glittering stones," says Dr. R. A. Foshag, curator of minerals at the National museum here. "We receive at the museum one diamond from the Cherokee Flats region every three or four years. Perhaps two hundred diamonds have been found in California since the gold rush days, the largest reported being about seven carats."

The Cherokee Flats diamonds, explains Dr. Foshag, are perfectly good stones, their rarity, rather than any defect in them, making the placer gold deposits unprofitable as diamond mines. Near the creeks is a dike of serpentine rock from which the diamonds are believed to have been freed by weathering during many thousands of years. Working this dike for diamonds would cost much more in labor than it could ever produce in diamonds, he believes.

Larger Army Airplanes Have Many New Devices

Washington.—Four hundred and ten airplanes delivered by manufacturers to the United States army during the calendar year 1937 were twice as large as their immediate predecessors, Brig. Gen. A. W. Robins, chief of the materials division, declared here.

Scores of new devices, tested and found satisfactory, have been made standard equipment on new planes, while a systematic testing program is leading to important improvements in military craft.

The materials division is sponsoring tests of a novel set of propellers, one mounted immediately in front of the other on concentric propeller shafts. General Robins revealed. The propellers rotate in opposite directions. Controllable pitch concentric propellers are now being designed, he added.

Tires and tubes which will seal themselves after being punctured by bullets are under development. Army engineers are studying a device which automatically brings back a badly operating machine gun into full operation.

Safe to Buy Emeralds

Washington.—Buyers of emeralds need have no fear of getting synthetic stones instead of natural gems, says Dr. W. F. Foshag, mineralogist at the National museum here, for it costs much more to make emeralds in the laboratory than it does to dig them from the mine. Synthetic emeralds also differ from natural stones in so many ways that any competent jeweler can easily tell the natural from the manufactured gem.

Smart Daytime Fashions

A CHARMING basque frock for growing girls, and a house-dress for large figures, both smart and becoming, both easy to make. Even if you've done very little sewing, these patterns are easy to follow. Each one is accompanied by a complete and detailed sew chart. And a tour

quires 2 1/2 yards of 39-inch material, plus 1 1/4 yards of bias fold to finish the neckline and sleeves.

1395 is designed for sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 38 requires 3 3/4 yards of 39-inch material. For contrasting collar, 1/2 yard, cut bias.

Spring-Summer Pattern Book. Send 15 cents for the Barbara Bell Spring and Summer Pattern Book which is now ready. It contains 109 attractive, practical and becoming designs. The Barbara Bell patterns are well planned, accurately cut and easy to follow. Each pattern includes a sew-chart which enables even a beginner to cut and make her own clothes.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

TIPS to Gardeners

TO INCREASE yield from the vegetable plot, the home gardener should grow "combined cultures."

The theory is to plant in closely spaced adjacent rows vegetables harvested at widely different times, using one before the other begins to mature.

Combine cauliflower, lettuce and radish, for instance. Plant cauliflower early in rows three feet apart. Between the rows plant lettuce, and between lettuce and cauliflower rows plant radish. Radishes are harvested early, then the lettuce, and later the cauliflower.

Following are several other combinations recommended by Harold Coulter, Ferry Seed Institute vegetable expert:

Carrots and parsnips in alternate rows two feet apart; radishes between first two rows; lettuce between second and third rows, and spinach between third and fourth rows.

Spinach rows two and one-half feet apart; radishes between spinach; pepper plants set between spinach when radishes are pulled.

ARE YOU ONLY A 3/4 WIFE? Men can never understand a three-quarter wife—a wife who is lovable for three weeks of the month—but a hell-cat the fourth.

No matter how your back aches—no matter how loudly your nerves scream—don't take it out on your husband.

For those generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound, it helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure. Make a note NOW to get a bottle of Pinkham's today WITHOUT FAIL from your druggist—more than a million women have written in letters reporting benefit.

Why not try LYDIA E. PINKHAM'S VEGETABLE COMPOUND?

Early Robot In 1738 Vaucanson made an artificial duck which could imitate many of the functions such as eating, drinking and quacking.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nationwide reputation. Are recommended by grateful people the country over. Ask your neighbor!

RAMBLER

The local forensic contest is over and those of you who attended it know that the winners will make us proud of them in the contests in which they have yet to speak. What do you think of our band? It certainly is an "up and coming" organization, isn't it? We thought it was very good at first but now we are sure of it. The sophomore tea last Thursday was a great success. We should compliment the sophomores for being so concerned about the development of their social graces. The seniors are busy making plans for graduation. They have chosen their invitations and calling cards and are planning the commencement program. It's very exciting to think about that now but as the time draws nearer there'll be many a brave appearing senior having trouble with a "lump in his throat." Do you know that the "chieftain" this year will be bigger and better than ever before? We are inaugurating a new plan of pasting in the book snapshots of the various classes and organizations of our school.

SCHOOL NEWS

In England, many years ago, it was the custom to carve epitaphs on the tombstones of the dead. These verses usually served as biographies of the person and were usually written by the person himself several years before he died. Some of these verses were serious and others humorous. As an English assignment, the senior class wrote epitaphs which might be used on their own tombstones. Some of them are printed here:

I've never been dated,
I've never been kissed,
They said if I'd waited
No man could resist
The lure of a pure and innocent miss.
The trouble is this—
I'm dead!

Good-bye sweet world, for I must go
Into my grave so deep below.
My hopes are that my soul will go
Above to God and not below.

Here lies a red-headed spit-fire
Who never sang in the church choir,
She always sat on sunny slopes,
Like all the little country dopes.

Here lies the body of Florence McKee
Who died obtaining her right of way.
She was skidded right
As she skidded along,
But she's just as dead
As if she'd been wrong.

EX-CONVICT GIVES TALK

"Razor" Penton, a former pickpocket and ex-convict, from Chicago, gave a very interesting and beneficial talk to the student body on Tuesday afternoon. He stressed the fact that crime does not pay no matter how large a score it is carried on. He proved with innumerable illustrations that ALL criminals die without a dollar. He also stressed that crime was a disease of the heart and not of the mind. Mr. Penton is giving these interesting talks to students and other organizations to discourage any opinion that crime is profitable and an easy way to make a living.

SENIORS GO TO PLYMOUTH

On Wednesday afternoon, seventeen members of the senior class went to Plymouth where they attended a meeting of college representatives and men and women engaged in various vocations and professions.

SPORT NEWS

On Thursday evening of this week the high school basketball team held its annual banquet at the Republican hotel with about 45 basketball boys and athletic-minded citizens attending. The speaker for the evening was the head basketball coach of Marquette University, Mr. William Chandler. With the money donated by the business men of Kewaskum, 21 of them who attended the banquet, the baseball team has ordered nine new suits which will be used in the first game with Waldo on April 14.

GRAMMAR ROOM—

The fourth grade social study class is beginning the study of Russia.

INTERMEDIATE ROOM—

The third graders are studying about the people of the grass lands of Asia.

PRIMARY GRADE—

Evelyn Kedeck has withdrawn from second grade. She has moved to another district.

SOCIAL NEWS

SOPHOMORES SERVE TEA

On Thursday, March 31, the freshmen, juniors and seniors were entertained by the sophomores at an afternoon tea. The purpose of the tea was to teach etiquette, which the sophomores are now studying in English class.

LAKE FIFTEEN

Mrs. John Gatzke spent Tuesday afternoon with Mrs. Albert Rameal at New Fane.

WRESTLING

Mr. and Mrs. John Gatzke and daughter Gretchen visited Monday with Mr. and Mrs. Henry Haferman and family at Duney.

WRESTLING

Mrs. Albert Butzke and son Lester and Miss Gladys Bartel of New Prospect and Mr. and Mrs. Reuben Schwertfeger of Oakfield spent Sunday with Mr. and Mrs. Wm. Wunder.

STENOTYPE DEMONSTRATION

On Tuesday afternoon, a representative of the Fond du Lac Commercial college and a student stenotypist gave a demonstration of the steno type to the seniors. The steno type is a machine upon which shorthand can be typed. Words and phrases are typed at one time and a greater speed can be obtained than by pencil shorthand. It was suggested that the students consider stenotypy as a possible vocation.

ARMSTRONG

John W. Shea left this week for Milwaukee where he will attend school.

Miss Rose Twobig of Milwaukee visited at the home of her uncle, George Twobig, Saturday.

Miss Nora Twobig of Brandon spent the week end with her parents, Mr. and Mrs. George Twobig.

Mr. and Mrs. Leo Flaherty and children of Brandon visited at the William O'Brien home Sunday.

Miss Kathryn Havey, teacher at Springvale, spent the week end with her mother, Mrs. Jenny Havey.

James Anderson has resumed his studies in Milwaukee after spending the spring vacation at his home.

George Stacker and son John, Mrs. Miles Shea and son Leo, and Mrs. Thomas Fuller visited in Milwaukee.

Neil and Jimmie King of Eden spent the week end with their grandparents, Mr. and Mrs. Charles J. Twobig.

Mr. and Mrs. Norman Anhalt and daughter of Plymouth visited Mrs. Anna Roftgen and family over the week end.

Francis Baker, student at the Plymouth High school, spent the week end with his parents, Mr. and Mrs. Frank Baker.

Mr. and Mrs. Claude Kohlman have announced the approaching marriage of their daughter, Miss Dorothy, to Louis Lohse of St. Cloud.

The Holy Name society of Our Lady of Angels church will receive Holy Communion in a body next Sunday morning at the 8 o'clock mass.

TOWNSHIP CONTESTS HELD

The Osceola Township and Achievement contests were held Friday afternoon at the Armstrong school under the direction of David Twobig.

In achievement Genevieve Hornburg of Edgewood school won first and Raymond Schuh of Dundee school second. In spelling Vivian Bohlman was first with a score of 98, out of a possible 100, and Esther Baumann of Dundee school was second with 94. The first place winner will compete in the county contests in Fond du Lac April 9.

Contestants in the township meet were: Ronald Dims and Patricia Twobig of the Armstrong school, Leo Shea and Vivian Bohlman of the Mitchell school, Raymond Schuh and Esther Baumann of the Dundee school, and Genevieve Hornburg and Harold Hodorf of the Edgewood school.

On Tuesday afternoon the pupils of the Armstrong school, accompanied by Mr. Twobig enjoyed a theatre party. They attended a presentation of "Snow White and the Seven Dwarfs" at a Fond du Lac theatre and visited other places of interest in the city.

Twenty-five Years Ago

April 5, 1913

At the spring election held here last Tuesday, the following village officers were elected: President, John P. Klarsen; trustees for two years, F. J. Herzig, John Marx, Carl Meinecke; clerk, Edw. C. Miller; treasurer, Joseph Eberle; assessor, Albert Oppenorth; supervisor, Joseph Schmidt; justice of the peace, L. D. Guth; constable, John Weddig.

Ludwig Bunkelmann, aged 81 years, passed away at his home in this village on Monday, March 31, 1913, after a few days' illness, death being due to old age and dropsy.

Walter Schneider is now employed as clerk in the L. Rosenheimer store.

Wm. Eberle and Carl Brandt, and two lady friends were Fond du Lac visitors on Sunday evening.

John Weddig moved his household goods into the former Fred Krahn residence on West Water street, which he recently purchased.

Last Monday night, when in his way home, our "uncle" was held up and relieved of a \$5.00 bill, by two robbers. His cries for help were heard by two of his best friends who immediately rushed to his assistance. After a short battle, these noble men succeeded in overpowering the robbers. After taking the money and the weapons away from the robbers, the latter consisting of a long sword and two revolvers, "uncle" and his rescuers had a good "drink" on their lucky capture.

LAKE FIFTEEN

Mrs. John Gatzke spent Tuesday afternoon with Mrs. Albert Rameal at New Fane.

Mr. and Mrs. Elmer Soak and son Melvin spent Tuesday afternoon with Mr. and Mrs. Wm. Wunder.

Mr. and Mrs. Wm. Hintz and family visited Sunday with Mr. and Mrs. John Gatzke and daughter Gretchen.

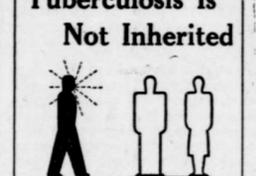

Rev. and Mrs. C. J. Gutekunst and Mr. and Mrs. Aug. Heber called on Mr. and Mrs. William Wunder Thursday.

Mr. and Mrs. John Gatzke and daughter Gretchen visited Monday with Mr. and Mrs. Henry Haferman and family at Duney.

Mrs. Albert Butzke and son Lester and Miss Gladys Bartel of New Prospect and Mr. and Mrs. Reuben Schwertfeger of Oakfield spent Sunday with Mr. and Mrs. Wm. Wunder.

Tuberculosis Is Not Inherited

It is carried into a healthy family by someone who spreads it.

Once tuberculosis gains a foothold in a household it may spread within the family. The father is sick and spreading disease. The mother has become infected. One child is sick. The second child is in good health and the third child shows evidence of a healed infection.

WAUCOUSTA

C. F. Norges was a business caller at Waukesha Monday.

Frank A. Steinberg of Poff du Lac was a business caller here Wednesday.

Mrs. M. F. Flanagan of Campbellsport spent Tuesday with relatives here.

Mrs. L. Rosenbaum and daughters visited relatives at Kewaskum Sunday.

Mr. and Mrs. H. F. Bartel spent the week end with relatives at Hustedford.

Mr. and Mrs. Frank Norges and Mrs.

The House of Hazards
