

Main Interest Here On Referendum Vote in Runoff Election

Bond Referendum for New Municipal Building to Be Voted on Tuesday

In accordance with an act adopted by the 1948 legislature and recently upheld by the state supreme court, a runoff election will be held next Tuesday, May 2, to determine a choice of two candidates each for state supreme court justice and state superintendent of public instruction.

Main interest in the runoff locally lies in the fact that Kewaskum voters will cast a special bond referendum ballot to decide whether the village board should adopt a resolution providing for the issuance of general obligation coupon bonds for the erection of a new village municipal building.

The referendum issue should bring out a fairly heavy vote here. Polls will be open from 9 a. m. to 5:30 p. m.

The official referendum ballot will read as follows:

"Shall Resolution No. 2 of the Village Board, providing for the issuance of general obligation coupon bonds for the erection and construction of a Village Municipal Building be adopted?"

The runoff for the supreme court post will be between Circuit Judge Edward J. Gehl, West Bend, and Municipal Judge Elmer D. Goodland, Racine, who topped the voting in a field of 12 candidates in the Apr. 5 election, with Judge Gehl leading Goodland by a substantial margin.

The runoff for state superintendent of public instruction will be between George E. Watson, Wauwatosa, city superintendent of schools, and Dr. Quincy V. Doudna, director of rural education and dean of administration at Central State Teachers college, Stevens Point. These two led in a field of 10 aspirants to the post in the Apr. 5 election, with Watson beating Doudna in votes.

Kiwanis Has Ladies' Night Party; Dist. Gov. Speaker

An enjoyable Kiwanis ladies' night party was held at the Bar-N Ranch Monday evening. A pre-Mother's day rose pinning performance by the club members and the rendition of several vocal selections by the much-discussed "Kewaskum Kiwanis Quartet" highlighted the events leading to the feature of the evening, the introduction of guest speaker, District Governor John Nickell.

Governor Nickell, chief executive of the Wisconsin-Upper Michigan Kiwanis district, concentrated his efforts on the important and timely subject, "Communism." He lashed out against Communist treachery and gave a history of this form of government in Russia.

Exposing names of organizations and individuals connected to Communism in this country, the governor really surprised the Kiwanians and their guests. His address provided an interesting, educational, and revealing analysis of Communist strategy and infiltration in America.

Baseball Teams Open Season Sunday With Lannon and Slinger

The 1949 baseball season for Kewaskum's teams in the northern division of the Land of Lakes and Rivers leagues will officially open Sunday, May 1. The Lakes team opens away from home at Lannon. This is the Utensils. The Rivers nine, the Homeck Chevrolet, plays at home, entertaining Slinger. Game time is 2:15 p. m.

Kewaskum High school's band will be on hand to furnish music before and during the opening game. Village President Charlie Miller will pitch the first ball.

Other Lakes games will have Mequon playing at Germantown, Menomonee Falls at Granville, and bye at Grafton. In the Rivers other games are Barton at Jackson and Allenton at West Bend.

The local teams have been practicing Sundays and some evenings during past weeks and last Sunday the Lakes and Rivers nines played each other in a practice tilt. The Rivers team pounded out a 12 to 3 victory over the Utensils. "Mix" Marx and Ray Brantzen pitched for the Lakes club with Paul Kral and Clayton Stautz receiving. "Hetty" Backhaus and "Killy" Homeck worked for the Rivers entry with Dick Edwards and the veteran "Fritz" Kral back of the plate.

The official league schedules for the two teams follows. Readers may clip and save the schedules for future reference although there may be one or two changes made due to conflicts.

FLOOR PLAN FOR PROPOSED MUNICIPAL BUILDING SHOWN

The preliminary floor plan of Kewaskum's proposed new municipal building as shown above indicates the entrance to the lobby and public space from First street. Off the lobby is the business office or clerk's facilities of the village. Immediately adjoining and to the back of the fire station is the office and a three-cell jail, readily accessible to the entrance and any attendant in the office.

The apparatus room is spacious and easily accommodates four pieces of fire fighting equipment and ample work and storage space. The walls will be lined to the ceiling, with a glazed ceramic tile, washable with a hose, eliminating maintenance costs.

The council room will be located on the second floor and will be able to view towards the business district. A small conference room will adjoin, to accommodate visiting governmental agencies.

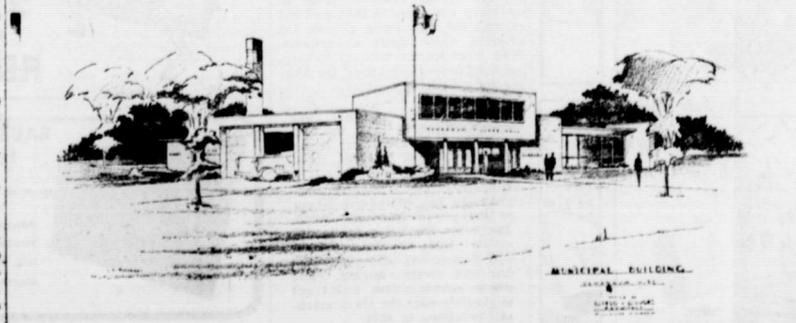

The library, accessible from the main lobby and its individual entrance features a large southern exposure with its solar windows and large overhangs. The bookshelves are placed in an alcove with natural light between stacks. It features radiant heating by means of copper coils in the floor for comfort. A book room provides storage for dead circulation volumes.

Provision is also made for an all-purpose meeting room for public use. This space adjoins the apparatus room and has a direct private entrance from Center street.

FIREMEN TO DONATE \$10,000 TOWARD NEW BUILDING

The Kewaskum fire department has an agreement with the village board whereby they will donate \$10,000 or more in funds toward the erection of Kewaskum's new municipal building when it is constructed. A fire station is to be included in the new building. This information is published for the benefit of those citizens not aware of this agreement.

Spring Meal Salads Should Be Kept Crisp, Always Look Delectable

HAVE YOU ever eaten salads that looked as though they had been pawed over too thoroughly in the making? Or, have they warmed and wilted before reaching the table?

No matter how good the salad originally may have been, if it suffers from either of these faults, no one is going to enjoy it.

The salad should be crisp and neat. Garnish it, yes, but don't over-do it or the salad will lose its much desired freshness.

The ingredients for a salad as well as the plate, bowl or platter on which it's served should be given a thorough chilling in the refrigerator. Save the salad's finishing touches for the very last preparation before serving the meal.

For the heavy meals, your best choice is a cold, crisp tossed salad. This may be made entirely of greens. You may add any of the following ingredients to a simple green salad: sliced or quartered tomatoes; cucumbers, sliced very thin; radishes; green onions; or grapefruit or orange sections.

GREENS WHICH ARE often used in a salad may consist of tender hearts of lettuce, endive, chicory, romaine, celery and watercress. Toss these together with a well-seasoned French dressing made as follows:

French Dressing (Makes 1 quart)

- 5 tablespoons honey
- 2 teaspoons salt
- 1 tablespoon dry mustard
- 1 tablespoon Worcestershire sauce
- Dash of tobacco sauce
- 1 tablespoon paprika
- 2 tablespoons tarragon vinegar
- 1/2 cup distilled vinegar
- 1 can condensed tomato soup
- 1 1/2 cups salad oil
- 1 clove garlic

Mix all ingredients together. Place in a quart jar, store in refrigerator and use as needed. Shake well before using.

Here's a beautiful salad bowl around which you'll enjoy building the whole meal:

A VEGETABLE MEDLEY as pretty as the season itself goes into this next salad arrangement.

"Spring Salad Bowl" (Serves 6)

- 2 cups cooked peas
- 6 cooked cauliflowerets
- 2 cups cooked green beans
- 2 tomatoes, peeled and sliced
- French or Roquefort dressing
- 1 head lettuce
- Watercress
- Radish roses

Marinate vegetables, each one separately in French dressing for one hour in a cold place. Line

Dramatize your salad greens by tossing them in a bowl and giving them a few dashes of well-seasoned French dressing. Color may be added to the different shades of a green salad with tomato wedges, carrot strips or grated hard-cooked eggs.

salad bowl with the outside leaves of lettuce, and place four lettuce cups around the center of the bowl. Fill each one with one of the vegetables and garnish the center

LYNN SAYS: Use these Combinations For Delicious Salads

Garnishes for a salad add nourishment as well as beauty. Try some of these: asparagus spears marinated in French dressing, paper thin slices of onion, dipped in paprika, stalks of endive stuffed with Roquefort cheese paste, and grated carrots.

Cream or cottage cheese add protein to a meat-why meal when mixed with chopped chives and sour cream. Serve in a lettuce cup.

LYNN SAYS: Meat Pointers Help You Save Money

If it's stew you are having, extend those precious bits of meat with gravy as well as dumplings, noodles, macaroni, spaghetti or biscuits. Add nourishing vegetables for color and flavor interest.

Vegetables should be as uniform in size as possible. If one vegetable takes a little longer to cook than another in the combination, add it sooner.

A chilly entree using left-over ham and other salad ingredients is a welcome platter on a warm humid day. It provides vitamins and minerals for pep and zip, and makes delightful eating.

of the bowl with watercress and radish roses.

Fresh Fruit Salad Bowl (Serves 4)

- 2 bananas, cut lengthwise
- 4 slices avocado
- Lemon juice
- 1 head celery, shredded
- 4 long strips cantaloupe
- 4 slices pineapple
- 8 orange segments
- 12 black cherries
- 12 honeydew melon balls

French dressing

Dip banana and avocado in lemon juice. Line a salad bowl with chicory and on this arrange the

banana and cantaloupe. Alternate pineapple, avocado and oranges in the bowl. Make a nest of the cherries and garnish with the melon balls. Serve with dressing. Cottage cheese is the base of this next salad, accompanied by greens and fruits. It's nice to serve Sunday evening for supper or for luncheon on a warm day.

Cottage Cheese-Fruit Salad (Serves 6)

- 1 grapefruit, segmented
- 2 oranges, segmented
- 1 avocado, pared and sliced
- 1/2 head lettuce
- 1/2 head French endive
- 1/2 bunch watercress
- 1 1/2 cups cottage cheese

Sour cream

French dressing
Marinate fruits in French dressing and chill. Toss together all salad greens in salad bowl and pile cottage cheese which has been mixed with sour cream, in center of greens.

VARIATIONS:

Use tomato wedges in place of orange segments. Use pineapple spears and strawberries instead of grapefruit and avocado. Use fresh figs and ripe cherries instead of avocado.

Ham or chicken may be combined with other salad essentials to give you delightful main dish salads for warm days. They're a wonderful idea for using leftovers.

Ham Mousse (Serves 6)

- 2 tablespoons gelatin
- 2 1/4 cups bouillon
- 2 teaspoons grated onion
- 2 1/2 cups cooked ham, ground
- 1/2 cup celery, chopped
- 1/2 cup radishes, sliced
- 1/2 cup green pepper, chopped
- 1/2 cup real mayonnaise

Soften gelatin in one-fourth cup cold bouillon. Heat to boiling the remainder of the bouillon and add to gelatin mixture. Chill. When beginning to jell, add onion, ham, celery, radishes and green pepper. Fold in real mayonnaise and pour into a mold. Chill until set. Unmold on platter, garnish with watercress and radish roses. Serve with mustard mayonnaise, made by mixing three-fourths cup of real mayonnaise with one-fourth cup mustard-with-horseradish.

Scoop out cucumbers and fill with tuna fish salad. Serve with potato chips, sliced, hard-cooked eggs and tomato slices.

Fruit salad dessert idea: melon balls, white grapes, strawberries, pineapple spears, peach halves and scoops of sherbet.

Cold meat platters may form the base of a salad. Use summer sausage, liver sausage, baked ham, and sliced tongue for one platter.

Stretch chicken salad and add interesting flavor to it by using with half as many cooked sweetbreads

When vegetables are added to meat dishes, they should be added just long enough before the meat is done to cook them.

Good combinations of vegetables for meat dishes are as follows: Carrots, onions, potatoes and peas; turnips or parsnips with celery, and green peppers; lima beans with green beans and corn.

Large cuts of meats are nice served the second or third day, sliced and swimming in barbecue sauce.

'Decisiveness' May Mask Fear

By Lawrence Gould

Can "decisiveness" mask secret fear?

Answer: Yes—the fear of being or appearing "indecisive," says Melitta Schimberg in the Psychoanalytic Review. It is not "weak-minded" to hear both sides of a question and take time to weigh them before coming to a conclusion, but some people who are basically sufferers from ambivalence and do not want to admit it will compel themselves to make "snap judgments" and will stick to these through thick and thin rather than face the painful truth that at heart they're uncertain about everything and everybody.

Is there any harmless drug for alcoholics?

Answer: Not yet, anyhow, warns Dr. Edwin G. Zabriske, eminent neurologist and chairman of a newly organized committee for the study of medical treatment of the "problem drinker." The committee is seeking funds to investigate a drug known commercially as "antabus" on which favorable reports have been received from Denmark, but does not yet feel sure enough of its effects or its possible toxicity to advise releasing it for general use. In any case, "medical treatment must be followed by psychotherapy aimed at the social rebuilding of the patient."

Can you tell if you have a "mother complex"?

Answer: You have a mass of "associations" with your mother (which is all a "complex" is) if she brought you up, and if not, with anyone who took her place. And only the nature of these associations decides whether or how far this "complex" has kept you from growing up emotionally. If you still depend upon your mother

LOOKING AT RELIGION

By DON MOORE

SUNDAY IS OBSERVED IN THE UNITED STATES AS A STRICTLY RELIGIOUS DAY MORE THAN IN ANY OTHER COUNTRY IN THE WORLD.

IN SOME COUNTRIES POLITICAL ELECTIONS ARE HELD ON THIS DAY.

THE CARDINAL WAS SO NAMED BECAUSE HIS BIRTHDAY (1911) FELL ON THE COLOR OF THE "RED HAT."

DOMINICA (DOMINICAN REPUBLIC) WAS NAMED BY COLUMBUS BECAUSE HE FOUND IT ON THE "DAYS OF THE WEEK."

KEEPING HEALTHY

Emotions Will Affect Circulation

By Dr. James W. Barton

When I wake in the morning, I find my heart rate usually about 48, sometimes 54. After lying awake and thinking over the plans for the day, I find my heart rate to be 68, sometimes 72.

When I return home from boxing bouts, notwithstanding the fact that I did some boxing when young and have examined every heavyweight boxer except Gene Tunney, I find my heart rate up to 80.

Apparently, although I remain calm, my thoughts are on every blow of the boxers and unconsciously I am delivering blows or warding them off. In other words our hearts beat faster and stronger and we pump extra blood when we are excited or upset in mind.

We have our heart or blood pressure tested or undergo a metabolism test to find whether our thy-

roid gland is pouring a normal amount of juice into the blood (or less or more than normal), we are supposed to be in a complete resting state. Unfortunately for the test, if we have something on our mind, are worried about the outcome of the test, the heart will be beating faster and harder and the blood pressure will be increased.

In the Journal of Clinical Investigation, Drs. J. B. Hickman, W. H. Cargill and A. Golden point out that because physical rest does not mean emotional rest or relaxation, widely-different values are obtained.

A study of the effect of emotional disturbance (anxiety) in 23 unselected medical students showed that the average output of blood from the heart was raised from 4.2 in the control period (that is, both mind and body were at rest) to 6.2 in the anxious period.

HEALTH NOTES

Any illness involves a certain amount of nervousness or mental disturbance. The patient wonders what is wrong, what the outcome may be. About one-half of all patients who consult their physicians have no real physical or organic disease, but have symptoms which are the same or very similar to those present in organic disease.

Streptomycin is proving effective in killing the organisms causing various diseases. The effective dose for infantile diarrhoea is 5 grams injected into the muscles and 5 grams by mouth per day, for seven to 10 days.

The conenses of researchers is that glutamic acid is "some" help in aiding the intelligence of mentally-deficient children. A quart of milk contains enough glutamic acid for the day's needs.

After an operation for low back pain caused by a protruding disk exercises should be taken to straighten the muscles in the back that hold the spine erect. One simple exercise is lying on the abdomen and trying to bring the head and heels together, the knees kept straight. This should be done several times night and morning.

Some chronic cases of eczema are due to slowness or sluggishness of the action of the liver. Bending exercises, keeping the knees straight, help stir up liver action and stimulate the flow of bile.

While a lobotomy or leukotomy operation relieves grief and depression in most cases, restoring the mind and emotions to normal or nearly to normal depends to a great extent upon the personality of the individual and upon his family and surroundings.

A New Way to Make Better Bread - Quicker, Easier!

Perfected for Use With Robin Hood Flour

Recipe by Rita Martin

ROBIN HOOD White Bread

- 1/2 cup sugar
- 4 cups lukewarm liquid (if milk is used, scald and cool to lukewarm)
- 12-12 1/2 cups sifted ROBIN HOOD ENRICHED FLOUR
- 2 cakes comp. yeast or 2 packages dry granular yeast
- 3 tbs. lukewarm water
- 3/4 cup shortening, melted, cooled

ADD—sugar and salt to liquid; let yeast stand 5 min. in lukewarm water.

BEAT—2 cups flour into liquid mixture using rotary beater; add yeast mixture and beat again.

ADD—4 cups flour, beat until smooth; then mix in shortening. Stir in remaining flour, mix thoroughly; turn onto lightly floured board, cover and let rest about 10 min.

KNEAD—until smooth and satiny (about 5 minutes).

ROUND UP—dough, place in a large greased bowl. Cover with damp cloth, set in warm place (85° F.) and let rise until double (about 1 1/2 hrs.)

PUNCH DOWN—and let rise again until nearly double. (May omit this 2nd rising to save time).

CUT—dough in 4 equal parts, round up, cover and let rest about 10 min. on lightly floured board.

SHAPE—into loaves and place in well greased bread pans. (See easy illustrated method below).

COVER—lightly and set in a warm place, allowing dough to rise until sides reach top of pan and corners are filled (about 1 1/2 hours). Dough should feel light to the touch.

BAKE—in moderately hot oven, 375° F., about 60 minutes.

YIELD—4 Loaves.

*Use new Robin Hood "Rolled Dough" Method for shaping perfect loaves of better bread.

Step 1. With rolling pin, roll dough out to uniform thickness, stretching by hand to form rectangle approximately 9" x 12". Make certain to break down all gas bubbles in the outer edge of the dough.

Step 2. From upper edge, roll dough toward you, jelly roll fashion, sealing dough with heel of hand after each roll of dough. (About four turns will bring you to last seal.) Be sure to seal final seam on bottom of loaf.

Step 3. Seal ends of the loaf by using the side of the hand to get this sealed strip.

Step 4. Fold sealed ends of loaf under, using fingers, as above. Avoid tearing dough.

Step 5. Place shaped loaf, with seam side down, in well greased bread pan.

Step 6. Proceed in usual way for raising and baking... For a perfect loaf every time!

9 Out of 10 Women Say New Robin Hood "Rolled Dough" Method Gives Them The Finest Bread They Ever Baked

Now! Home bread baking easier than ever before—with never-fail results! Women who bake bread several times a week—women who had never baked bread before—all agree that this new Robin Hood "Rolled Dough" Method is easy, gives a perfect loaf every time.

With this new method you get a loaf of bread that's bigger—looks better—tastes better than any other home-baked bread.

It was originated, developed and perfected by Rita Martin, famous home economist, for use

with Robin Hood Flour. You cannot get the same perfect results with any other flour. Only Robin Hood Flour and the Robin Hood "Rolled Dough" Method together can produce such large, uniform loaves.

Use the recipe for Robin Hood White Bread on this page—follow the easy step-by-step Robin Hood "Rolled Dough" Method—and we guarantee you will make the finest loaf of bread ever.

Get Robin Hood Flour from your grocer right away and try this new way to make better bread.

**NOTICE OF REFERENDUM
RESOLUTION NO. 2**

Resolution No. 2 for Village of Kewaskum Board of Trustees.
Whereas the Village Board of the Village of Kewaskum, Washington

County, Wisconsin, is of the opinion that the Village is in dire need of a new Village Hall, and that sufficient money is not available in the village treasurer's office with which to pay for the erection and construction of a new Village Hall without the execu-

tion and sale of a general liability municipal bond issue.

NOW THEREFORE BE IT RESOLVED by the Village Board of the Village of Kewaskum, Washington County, Wisconsin, that said Village of Kewaskum construct and erect a new Village Hall and that said Village shall be authorized to issue negotiable general obligation coupon bonds, in a sum not exceeding \$60,000, pursuant to Section 67.05 of the Wisconsin Statutes, and that the principal and interest on said bonds be paid for over a period of time not exceeding twenty (20) years by the said Village of Kewaskum, and that the said Village be empowered to levy taxes for the payment of said interest and principal on said bonds.

And that a special election be held on May 3, 1949, for the purpose of submitting this resolution to a referendum to the voters of the Village of Kewaskum.

Adopted April 29th, 1949.

WEEKLY NEWS ANALYSIS

Critics Attack New Farm Program As Urging Unprecedented Controls; Extension Seen for Marshall Plan

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

FARM PROGRAM:

Pros & Cons

President Truman's sweeping new farm program met with mixed response on Capitol Hill. Critics claimed it would carry the nation closer to socialism and would empower the government with unprecedented farm controls and powers.

PROponents of the measure contended that consumers would be benefited because retail food prices would be allowed to seek their own level.

No matter which school of thought was correct, it was inescapable that the program would use taxpayers' dollars to guarantee farmers an income equal to that of a recent 10-year period.

Some opposition to the plan termed it as one that might be so expensive that it would push the U. S. treasury toward bankruptcy and would thoroughly regiment the farmer.

CHARLES F. BRANNAN, secretary of agriculture, conceded that "imponderables" such as weather and improved farm techniques made it impossible now to estimate the cost of the program.

He said of the program that it probably would mean a heavy drain on consumers' dollars.

He added that the government plans soon to undertake a costly new program to keep up the price of pork. If this program is approved, Brannan said, farmers would sell their pork for whatever it would bring the government—meaning the public—then would pay the farmer the difference between the support price and the price the farmer actually received.

REPRESENTATIVE Anderson (R., Minn.) was not impressed. He estimated the total government outlay under the program might run as high as 10 billion dollars a year.

When it is remembered the government has no money except that which it gets from the people in taxes, objective observers were wondering who, if anyone, could benefit by the program, since farmer and consumer alike would be paying out added funds to finance it.

LATEST to ponder the problem of how one should approach old age and what may be expected in this period of life was a conference of 800 physicians from all over the nation.

These physicians were all agreed that one of the biggest problems facing the medical profession in the problems of old age is making those added years healthy, happy and useful.

Through the conference the warning was sounded again and again that something must be done to give men and women not only long life, but a healthy, happy and useful old age.

THE SIMPLE and sad fact is that man's life has been extended beyond his present capacity to enjoy it as a useful citizen, the medical authorities agreed. For in prolonging life, science also prolonged suffering and misery—all the chronic illnesses and disabilities which plague mankind in the declining years.

Dr. Chauncey Leake, of the University of Texas, said that young people as early as in high school should be taught how to grow old—that is, how to cultivate hobbies and intellectual curiosity and how to develop a systematic regimen for physical and mental hygiene.

HE ALSO URGED increased research on drugs which may help the aged by preventing the disorders to which old people are subject.

But, coming out by the same door wherein he went, he warned that all hope for an "elixir of life" must be dismissed—that there is no "miracle drug" to restore youth to the aged.

Wherein he delivered himself of a truism well known even as Ponce de Leon was searching for the fountain of eternal youth.

"CORN" PROPOSAL

It was doubtful if the majority of Americans would work up any vast regret at the plight of Englishmen who facing the horrible possibility of having to eat American-provided hominy grits.

For, most Americans would realize that there are thousands of needy poor right here in the South in our own United States to whom hominy grits is a staple item of diet, and who would face actual want without them.

Happy Birthday!

In the spring when care and strife are most easily forgotten and put aside, the expression here of Pandora, Philadelphia zoo's precocious chimpanzee seems to epitomize the carefree abandon of spring. But Pandora is happy for another reason—she's celebrating her second birthday on her gift bicycle, and is she having fun!

MARSHALL PLAN:

To Be Continued

Europe appeared certain of continued receipt of Marshall plan aid for another 15 months.

An enthusiastic house of representatives, shouting down or beating off every attempt to reduce the proposed appropriation figure, approved the gift bill by a vote of 354 to 18.

EVERY AMENDMENT which would have reduced the fund, or delayed action in order to study Europe's real needs, was brushed off by the majority.

The bill, as approved by the house, was for 200 million dollars less than the bill which was voted by the senate. The upper chamber passed a measure appropriating 5.58 billion dollars. The house bill called for 5.38 billion.

The house measure would authorize continued U. S. aid until July 1, 1950, subject to possible later cuts by the senate and house appropriations committees. It provided 272 million dollars to encourage American private business to invest in recovery projects abroad.

Such investments would be guaranteed against loss by confiscation of property overseas.

FINAL VOTE on the house bill came after Majority Leader John W. McCormack (D., Mass.) pleaded against a GOP-led economy drive with a warning that the "world is looking either to Washington or the Kremlin."

On the passage vote, 125 Republicans joined 229 Democrats in favor of the bill.

Rep. John M. Vorys (R., Ohio) backed an amendment to cut off 380 million dollars from the appropriations, which was defeated. Vorys, saying he favored the Marshall plan and the North Atlantic pact, nevertheless warned that "we have to keep strong here at home if we are to help out abroad."

Vorys offered an amendment of his own to term what he called the "give-away" of American billions. It, too, was defeated.

SACRIFICE: Love of Mate

If the name of vanity truly is "woman" then the sacrifice made by a Chicago woman for her husband must rank among the "no greater love" examples which are contained in the record.

MRS. JOAN BIERDZ, 20, had a husband who was stricken with cancer. This disease had ravaged his face to a point where an adult told him that he "looked like the villain of Frankenstein." Mr. Bierdz was a patient in the Bronx, N.Y., veterans' hospital. He had written his wife that his face "caused comment" when he attended a movie, and that he would never go out again.

After receiving the letter from her 26-year-old husband, Mrs. Bierdz slashed both her arms. She was arraigned in a Chicago court on a charge of disorderly conduct.

SHE TOLD the judge: "I did it because I wanted people to look at me, instead of him. . . my husband has been told by VA doctors he can live only a year at most."

DEFENSE:

Excesses Seen

What could the people believe about America's defense needs? Were the taxpayers being taken for a "ride" by a cynical, contemptuous coterie of military brass hats who were using world tension to set up an artificial basis for huge grabs from appropriation funds?

THOSE APPEARED to be fair questions—and here's why: Robert Patterson, former secretary of war said: "It is no exaggeration to say that the cost in duplication, competition and disjointed effort directly traceable to the two-headed (army-navy) system ran into billions and billions. Much of the public debt is due to that division of authority and responsibility between the war department and the navy department."

But what has that to do with defense appropriations? Herbert Hoover—appointed to head up a survey committee to streamline government and cut costs—said that the army, navy and air force are padding their money requests to congress by millions of dollars.

He also accused them of "startling" waste and extravagance.

THE FORMER PRESIDENT, appearing before the senate armed forces committee, declared: "Applications in the military budget for hundreds of millions of dollars to retool industry should be examined with the greatest skepticism."

Hoover told the committee that what the department of national defense needs is a good bookkeeping system. "At the present time," he said, "nobody can tell the cost of any particular function in the armed services."

In submitting a report, Hoover observed that the federal government now has about 27 billion dollars worth of personal property, and said:

"We might be able to live on our fat for awhile if we had it catalogued and knew where it was."

ALLIANCE: Things Humming

The administration was really moving on the north atlantic defense alliance.

President Truman had urged the senate to take early action on the treaty in order to help western Europe ward off "brutality and aggression" by pledging U. S. participation in the pact.

SUCH ACTION, he said, "would be a long step on the road to peace."

Thus, as he began his fifth year as President of the United States, Harry Truman pointed up anew his conviction that a lasting world peace is an obtainable goal.

"This treaty," he said, "makes clear the determination of the people of the United States and of our neighbors in the North Atlantic community to do their utmost to maintain peace with justice and to take such action as they may deem necessary if the peace is broken."

WALLGREN: He's Willing

Like the weak, but insistent jangling of a run-down alarm on a bedside clock, Mon C. Wallgren was still talking about what might have been.

A VISITOR to the White House—where he did not talk with Mr. Truman, the former Washington governor and close friend of the President, said he is "still available" for the chairmanship of the National Securities Resources Board.

Wallgren's nomination to that post by President Truman was tabled by a senate committee.

Bing at Bat

Bing Crosby, whose varied activities include the vice-presidency of the Pittsburgh Pirates, looks like anything but a crooner as he takes a turn at bat. Bing headed up a coast-to-coast radio program "welcome back, baseball."

A dog's life? For Butch, a cocker spaniel owned by artist Albert Staehle, that's good enough. He works twice a week posing as a model, gets paid off in filet mignon, hob nobs with glamorous creatures and gets fan mail from around the globe. A dog's life, in fact.

Butch will pose plain or fancy, sitting in a bathtub, running hither and yon after a ball and will assume any other fantastic attitude required of him as a career dog. He invariably gives the artist his whole-hearted cooperation, a singular virtue among models of any species.

Like a trained and veteran burlesque man, Butch has a flair for the spotlight. He is hard put to steal the scene, however, when he poses with such a picture-quely adorned beauty as cover-girl Barbara Nichols (below). The dog's master, Albert Staehle, is seated at the drawing board, bemused by the whole thing.

Chemists Surpass Natural 'Scents'

Until recently it took almost 25 tons of violets to produce a single ounce of essence, or natural oil—and a ton of roses produced only 10 ounces of rose oil. Moreover, to date no one has been successful in extracting lily-of-the-valley or lilac fragrances from the blossoms because the natural oils of these flowers are too delicate to survive the process.

However, modern chemists can synthesize these—and many other scents known and unknown in nature—by means of coal tar compounds.

A BUTTON MAY MAKE GROMYKO A YES MAN... What if Science Could Control Man's Thoughts? ...OR A RAY MIGHT MAKE HARRY CHEER KREMLIN

By H. I. PHILLIPS

SCIENCE AND THOUGHT CONTROL

WITHOUT assuming any mantle of prophecy, it is fair to suggest that ability to control man's thoughts with precision through science is by no means out of the question. This is more awesome in its interpretations than was the mushroom cloud in 1945.—Dr.

John Ely Burchard, Dean of Humanities at Massachusetts Tech. There goes that gooseflesh creeping up our spine again!

Say it ain't so, doctor! Tell us you don't really mean that the laboratory will find a way to throw a switch and make a man's thoughts come out the designated slot! Admit you are not serious in con-

templating a day when a button may turn a yes man into a no man, nice as it might be to see in converting Gromyko—presto!—from a no man into a yes man!

Or is it to be done by rays? Turned by Joe Stalin onto President Truman, might they halt Harry in the middle of a stern "We intend to stand by to the bitter end" and bring forth an abrupt cry, "Hooray for the Kremlin!"

Do you see a time when the Thirteen Men of Moscow, giving uproarious approval to a Pravda editorial denouncing America, may, under a magic ray in the hands of Uncle Sam, suddenly glow with anger and order the Pravda editorial writer shot at once?

Is the time near when Vishinsky, loaded with expletives and rising to exhortate the democracies, will, due to a current, a ray or an isotope, break into a broad smile and say, "Ladies and gentlemen, I am just a Happiness Boy. There is nothing in this world like friendship. See what the boys in the backroom will have!"

Can Henry Wallace, mounting the platform, be reached by a mystery beam and his address denouncing ERP, the Truman administration and the Atlantic pact converted into a talk on how to produce better laying hens?

We see the following possibilities: 1.—Moscow issues orders for the complete seizure of China. The Chinese communist general gets it, but Washington calls on its Thought Control tower, centers the beam on him and renders the general incapable of saying anything but "Nuts!" 2.—The politburo prepares to issue a blast at America. Under the Thought Blitzer the boys cannot think of the words "Wall Street," "Money Bund" or "Exploiters." This leaves them completely help-

less. 3.—A new play opens on Broadway. It is lousy. But the producer has scientific connections. He controls the thoughts of the critics to such an extent they can't even dismiss it as "adequate."

4.—We go to the races with the right combination in the Daily Double. It is 2 and 6. The guy at the window who has a thought control apparatus fills our skull with the numbers 4 and 7. (P. S.—Nothing keeps us sane except the fact that the winning combination turns out to be 5 and 8.)

Jesus Is King

Lesson for May 1, 1949

IT IS A SIN to tell the truth out of season. So declares a famous Protestant creed. It is not always good nor wise to tell everybody everything you know. Keeping your mouth shut may be one of the best things you ever do. Jesus himself knew how to keep a secret till time to tell it. He never uttered an untruth about himself, but for a long time he did not openly declare his conviction, in spite of being pestered to say Yes or No about it.

The question was: Are you the Messiah? This was the same as asking, Are you the King? Jesus would not say Yes, because the mere word would be taken to mean "revolutionist" or "traitor." But he would not say No, because he was a king; indeed of all men he had the best right to the title.

ROYAL ENTRANCE BUT WHEN the time came, Jesus did declare himself king in a spectacular way. We know the story as the "Triumphal Entry into Jerusalem," the story of Palm Sunday, now so fresh in our minds. Jesus lived in a nation of people who were familiar with the meaning of symbols, both in word and action.

When Jesus rode into the ancient capital where his forefathers reigned, astride a mule, he knew they would know, that this was not just somebody riding a mule on a Sunday morning. In the history of the Hebrews, mules were the steeds of kings.

King Solomon was crowned riding on a mule. There was a famous prophecy (Zech. 9:9) that when Jerusalem's great king should come, he would be riding on just such a royal steed. So when Jesus rode into Jerusalem, the people threw their palm branches and shouted their welcome, not to the teacher and prophet, but to the King.

TEARS IN TRIUMPH IT WAS NOT altogether a victorious occasion. Jesus knew too well how cheap and easy "demonstrations" can be. In his mind's eye he could see a cross standing outside Jerusalem, and in his inner ear he could hear this same dusty-throated mob, now shouting "Hosanna!", yelling instead "Crucify him!" Tears stood in Jesus' eyes. But they were not tears for himself; he never wasted energy in self-pity. They were tears for that blind city, tears for its coming destruction — the city that did not know the way to peace.

MASTER OF THE TEMPLE BOLDER THAN JESUS' triumphal entry was what he did inside the city. It was one thing to claim royal rights over the nation; but at the temple Jesus' claims reached far higher. It should be remembered that in the eyes of all Jews at that time the Temple was absolutely sacred. It represented the dwelling-place of the invisible God. Now the priests at the temple were more profane and politicians than priests. They carried on what today we call a "racket" in the sale of animals for sacrifice and in changing the ordinary money of all countries into the local Jewish shekel (in which coin alone could temple offerings be paid).

The racket was notorious; every decent Jew hated the priestly profiteers. But no one had ever done anything about it, for that would mean assuming an authority over the temple that no man dared to assume.

But Jesus took it on himself. His direct and even violent action in smashing the racketeering ring was a mark of something more than ordinary self-confidence. He laid claim to being no less than the Master of God's Temple. He was acting in the name of God and with the authority of God.

MASTER OF MAN WHEN THE CHRISTIAN church calls Jesus "Lord" and "King" today, we are making no claim for him which he did not make for himself. What we mean by these titles is that Jesus Christ, for us and for all men, is the authority above all others.

MEDITATIONS I thoroughly believe in a university education for both men and women, but I believe a knowledge of the Bible without a college course is more valuable than a college course without a Bible.—William Lyon Phelps.

Ideals are like the stars. We never reach them but we always chart our courses by them.—Quoted by Dean Donald David.

TRIBUTE

Once Sold Counsel

AND DATED, AFTER HE HAD SERVED HIS OWN GENERATION... FELL ON SLEEP, AGE 13, 36.

NO finer tribute ever could be given Than that brief simple utterance of praise. God asks no greater service than this: To raise the standard of men's earthly days. David, the king, "had served his generation"— Straightforward words that shine in his behalf. More challenging in their adulation Than any chiseled-marble epiphany.

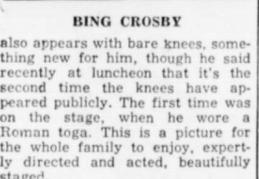

To serve one's generation, to be giving New strength and courage to one's fellow-man, To tread life's highroad bravely, ever living With one clear purpose, one exalted plan, Will rear for any man a shaft so high Its climbing peak will reach and pierce the sky.

Star Dust

STAGE-SCREEN-RADIO

By INEZ GERHARD

"A YANKEE at King Arthur's Court" has been screened three times; Paramount's new version is the best of the three. Done in Technicolor, with delightful new songs, it stars Bing Crosby, Sir Cecil Hardwick, Rhonda Fleming and William Bendix. Sir Cecil, superb in his comedy role as the king, raises his voice in song and

also appears with bare knees, something new for him, though he said recently at luncheon that it's the second time the knees have appeared publicly. The first time was on the stage, when he wore a Roman toga. This is a picture for the whole family to enjoy, expertly directed and acted, beautifully staged.

Paramount will tell movie audiences about 11 of its new pictures in a nine-minute short, "Eyes on Hollywood," starring Alan Ladd and Mary Jane Saunders. It depicts the thrills of a child seeing the inside workings of a studio the first time. Stars, directors, everybody will be seen in special scenes. The film will be available to theaters without charge.

King, dog veteran of numerous landings in the Pacific during the war, makes his screen debut in "After Midnight." In his first scene he leaped at Alan Ladd, tore his leather jacket to shreds, and hung on in a struggle on the ground—then, when Director Mitchell Leisen called "Cut," King immediately relaxed his grip and tried to lick Ladd's face!

Another animal actor celebrated his 13th birthday the other day, on the set of Monogram's "The Kid Came West." He was Rebel, the black horse used by Johnny Mack Brown and his birthday cake was made of straw, with carrots for candles.

Gertrude Berg may regret that "The Goldbergs" are now on television instead of radio. Mrs. Berg, the show's author and star, is so determined that it will run smoothly that they rehearse 30 hours a week.

Eraa Stone, director of Broadway's "At War with the Army" and star of "The Aldrich Family," has begun a new career as a lecturer. Made his first appearance last month in Buffalo, and has been booked in various other cities.

ARTISTIC ANCESTORS

By Richard H. Wilkinson

"I WISH," said Aime Butterworth wistfully, "I only wish there had been some one in our family who really did something, something worth while, something—" she smiled as she said it—"I could brag about."

Fred Butterworth laid aside the morning paper, gulped down the last of his coffee, shoved back his chair and said: "What?"

Aime overlooked his rudeness. "The bridge club meets here this afternoon," she said, "and I dread it because Aggie and Gertrude Wilcox will monopolize the conversation with stories of their ancestors."

Fred scratched his chin and contemplated the wistful look in his wife's eyes. Suddenly he banged the table. "By George, I'd almost forgotten it! Darned if I hadn't. You sit here a minute, sweet, till I rummage around in the attic. I'll give you something to brag about!"

Later he returned with a book. "But what is it?" asked Aime. "It's a book of poetry, that's what it is! Written by my mother and published 20 years ago. There's talent in my family, I'll have you know."

Aime's eyes lighted, then glowed with sudden joy. "Fred! You dear! Is it really? Was your mother really a poet? Oh, why didn't you tell me before! It's just too exciting!"

Fred grinned delightedly. Enroute to the station he began to smile. And by the time he had boarded the 8:15 the smile had developed into an occasional chuckle. Tom Cooke, who usually sat with Fred during the short run to the city, became curious.

"But here's the rub," Fred grinned. "That book of poems is an old manuscript that belonged to my grandmother. After grand mother died, mother found the script, thought the poems were worthy of publication, added a few of her own choice verses, and submitted the retyped copy to a publisher. Mr. Publisher ate the stuff up."

"Mother was thrilled. She thought she must have real talent, and went down to the library to study up and read the masters. While perusing a volume of Walt

Whitman she discovered some of the very poems that her mother had supposedly written.

"Of course, mother immediately wired the publisher, advising him to cease manufacturing the book, and explaining that her mother must have copied some of her favorite Whitman poems, in order to save them. But Mr. Publisher had already printed about 2000 copies, which were ready for distribution. Mother bought up the edition and destroyed all but one, which she kept for sentimental reasons. That one is the book I gave Aime this morning."

Helicopter Saves Boys Found Aground on Bar

NEW YORK—Two boys who had been missing almost 48 hours in a rowboat were rescued by a coast guard helicopter from a sand bar in Jamaica bay.

The helicopter feat was the second successful mission by this type of aircraft in two days. The day before the second rescue a police helicopter pulled to safety a Brooklyn man who was almost sucked under by mud in the bay.

Dress Up Windows With Valance

Decorating problems can be solved quickly and economically, if you start with the windows. For that large window we suggest the valance and side shelf arrangement illustrated. Colorful potted plants seem to do exceptionally well when placed on these light, airy shelves. Regardless of the width of your window, you will have no difficulty building and fitting the valance. The full size pattern now available takes all the mystery out of making this attractive valance.

All materials needed can be purchased at your local lumber yard at small cost. The pattern is then traced on the board. Repeat tracing the pattern to obtain length of valance needed. Saw it out along the traced outlines and assemble each piece in exact position indicated on pattern. It's as easy as that and fun too! You'll be agreeably surprised to see in what a quick, economical way this pattern can solve your valance board problem.

Jesus Is King

Lesson for May 1, 1949

IT IS A SIN to tell the truth out of season. So declares a famous Protestant creed. It is not always good nor wise to tell everybody everything you know. Keeping your mouth shut may be one of the best things you ever do. Jesus himself knew how to keep a secret till time to tell it. He never uttered an untruth about himself, but for a long time he did not openly declare his conviction, in spite of being pestered to say Yes or No about it.

The question was: Are you the Messiah? This was the same as asking, Are you the King? Jesus would not say Yes, because the mere word would be taken to mean "revolutionist" or "traitor." But he would not say No, because he was a king; indeed of all men he had the best right to the title.

Should a Man Over 40 Stop Smoking?

Change to SANO—the Safer Cigarette with 51.6% LESS NICOTINE

Not a Substitute—Not Medicated

Sano's scientific process cuts nicotine content to half that of ordinary cigarettes. Yet skillful blending makes every puff a pleasure.

Either Way

THERE'S MORE SMOKING PLEASURE WITH P.A.

Pipe smokers and roll-overs agree, "There's no other tobacco like Prince Albert for rich-tasting smoking joy."

PA'S CRIMP CUT TOBACCO IS GREAT FOR ROLLING. PRINCE ALBERT'S 'MAKIN'S' SMOKES ARE COOL AND MILD—HAVE AN EXTRA RICH TASTE

"It's a cinch to roll a firm, trim cigarette with crimp cut Prince Albert," says Bill Peters. "P.A. holds in the paper for easy shaping of mild, tasty 'makin's' smokes. It's no wonder P.A. is called the National Joy Smoke."

WHAT'S ALL THIS FUSS ABOUT
ADEQUATE WIRING?

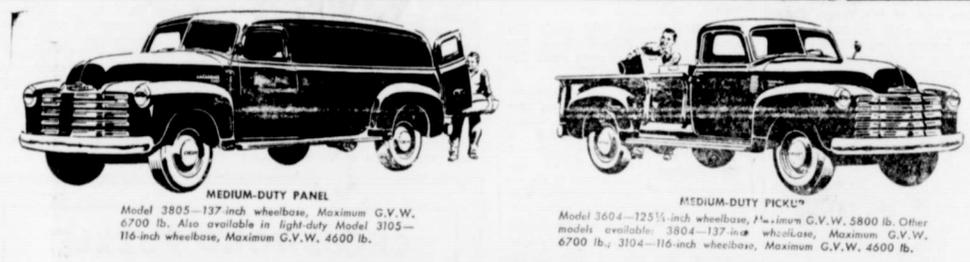

IT PAYS TO MODERNIZE YOUR WIRING SYSTEM

Yes — maybe it does seem like we're making a lot of fuss about nothing when we continually cry warnings about the dangers and inadequacies of the electrical wiring in most homes. But then we can see trouble ahead for the average home which has more than doubled its use of electricity in the past 10 years. Old fashioned wiring cannot carry TODAY'S electrical loads economically or safely. We suggest that you consider RE-WIRING and that if you're remodeling or building you insist on TODAY'S wiring!
